**CANADA HOUSE WELLNESS GROUP ANNOUNCES AGREEMENT WITH THE SOCIÉTÉ
QUÉBÉCOISE DU CANNABIS AND RECEIVES FOLLOW ON PURCHASE ORDER FROM
WESTERN PROVINCE**

Toronto – June 11, 2020 (CNW) - Canada House Wellness Group Inc. (CSE: CHV) (“**Canada House**” or the “**Company**”), a fully integrated medical cannabis company, is pleased to announce that it has signed an agreement with Société québécoise du cannabis (“**SQDC**”) and IsoCanMed Inc. (“**ICM**”) to distribute ICM’s cannabis products in Quebec under the terms of ICM’s existing Letter of Intent with the SQDC for potential supply of 3,000 kg of cannabis product. Please refer to the Company’s press release of May 29, 2020 for details of the Company’s acquisition of ICM which is expected to close on June 12, 2020.

The Company also announced that it has received a follow-on purchase order from an existing recreational supply channel valued at \$270,000. Product is expected to be delivered in the first half of July 2020.

“One of the strategic reasons for the ICM transaction was to leverage Abba’s existing sales license with ICM’s Quebec grown production to accelerate distribution to the SQDC. Abba has now formally engaged with the province of Quebec to allow this to happen and we are ardently working on the operational execution to have Quebec grown product on the shelves of the SQDC in the 3rd quarter of this calendar year,” said Chris Churchill-Smith, CEO, Canada House. “In addition to this wonderful news, Abba has also received another purchase order from an existing provincial relationship which we are actively fulfilling. We have validated our recreational sales and packaging processes and are pleased to have deepened our relationship with existing recreational partners while we prepare to take on the large SQDC distribution channel, a foundational element of our company which now includes Quebec based ICM.”

About Canada House Wellness Group Inc.

Canada House Wellness Group Inc. is the parent company of Abba Medix Corp., a Licensed Producer in Pickering, Ontario that produces high quality medical grade cannabis; Canada House Clinics Inc., with clinics across the country that work directly with primary care teams to provide specialized cannabinoid therapy services to patients suffering from simple and complex medical conditions; and Knalysis Technologies, a provider of fully customizable, cloud-based software that links physician, provider, and patient to data that supports treatment with medical cannabis.

Canada House Wellness Group's goal is to become the leading cultivator of premium craft cannabis and provider of cannabinoid therapy, targeting the medical cannabis markets globally. Please visit www.canadahouse.ca or the Company's public filings at www.sedar.com.

About IsoCanMed Inc.

IsoCanMed Inc. is a Canadian Licensed producer of cannabis located in Louiseville Quebec. The company focuses on growing best-in-class indoor cannabis, in a safe and controlled environment in its 64,000 sq.ft. production facility employing state-of-the-art vertical, aeroponic production methodologies. IsoCanMed also plans to release its own brand portfolio by launching a series of recreational cannabis products and formats destined for distribution to the SQDC.

Cautionary Statement Regarding Forward-Looking Information. This press release contains forward-looking statements, including statements that relate to, among other things, the Company's clinic, production and technology businesses, its future plans, the Company's markets, objectives, goals, strategies, intentions, beliefs, expectations and estimates, and can generally be identified by the use of words such as "may", "will", "could", "should", "would", "likely", "possible", "expect", "intend", "estimate", "anticipate", "believe", "plan", "objective" and "continue" (or the negative thereof) and words and expressions of similar import. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements. Certain material factors or assumptions are applied in making forward-looking statements, and actual results may differ materially from those expressed or implied in such statements. Material assumptions used to develop forward-looking information in this news release include, among other things, the regulations related to cannabis use under the Access to Cannabis for Medical Purposes Regulations and the act respecting cannabis and to amend the Controlled Drugs and Substances Act, the Criminal Code and other Acts, passed by the Canadian Federal government, making cannabis and cannabis based edibles, vapes and oils legal for recreational use on October 17, 2018 and October 17, 2019; Company liquidity and capital resources, including the availability of additional capital resources to fund its activities; level of competition; the ability to adapt products and services to the changing market; the ability to attract and retain key executives; and the ability to execute strategic plans. Additional information about material factors that could cause actual results to differ materially from expectations and about material factors or assumptions applied in making forward-looking statements may be found in the Company's most recent annual and interim Management's Discussion and Analysis under

“Risk and Uncertainties” as well as in other public disclosure documents filed with Canadian securities regulatory authorities. The Company does not undertake any obligation to update publicly or to revise any of the forward-looking statements contained in this document, whether as a result of new information, future events or otherwise, except as required by law.

Neither the CSE nor its Regulation Services Provider (as that term is defined in the policies of the CSE) accepts responsibility for the adequacy or accuracy of this release.
