Liquidity and Capital Resources

At June 30, 2011 there was cash of $728,674 compared to cash of $782,776 as at December 31, 2010. The Company's June 30, 2011 short-term obligations consist of accounts payable of $862,502 (December 31, 2010 - $912,666) and notes payable of $188,597 (December 31, 2010 - $188,597). The Company had no long-term obligations at June 30, 2011.

The Company's working capital at June 30, 2011 was a deficiency of $287,987 compared to a smaller deficiency of $167,009 at December 31, 2010. It is clearly not sufficient for the general operations of the Company. The Company has been successful in accessing the equity market in the past and while there is no guarantee that this will be continue to be available, management has no reason to expect that this capability will diminish in the near term. During the previous year the Company shareholders approved a proposal to settle a total of up to $1.1 million of debt through the issuance of up to 22 million common shares of the Company. The Company is waiting TSX Venture approval for the transaction.

Due to the fairly inactive status of the Company, directors and companies controlled by shareholders and directors of the Company were the only participants willing to finance the Company and the resulting, relatively high related party transactions.

Future accounting pronouncements

IFRS 9, Financial Instruments ("IFRS 9") was issued by the International Accounting Standards Board ("IASB") on November 12, 2009 and will replace IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple classification options in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial impairment methods in IAS 39. IFRS 9 is effective for annual periods beginning on or after January 1, 2013. The Company is currently evaluating the impact of IFRS 9 on its financial statements.

Management's evaluation of disclosure controls

Management is responsible for the design and effectiveness of disclosure controls and procedures to provide reasonable assurance that material information related to the Company, including its consolidated subsidiaries, is made known to the Company's certifying officers. The Company's Chief Executive Officer and Chief Financial Officer have each evaluated the effectiveness of the Company's disclosure controls and procedures as at June 30, 2011 and have concluded that these controls and procedures are effective.

Internal Control over Financial Reporting:

Management is responsible for the design of internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements in accordance with accounting principles generally accepted in Canada. Based on a review of its internal control procedures at the end of the period covered by this MD&A, management believes its internal controls and procedures are appropriately designed as at June 30, 2011.

Risks and Uncertainties

The Company's business of exploring and developing mineral properties is highly uncertain and risky by its very nature. In addition, the ability to raise funding in the future to maintain the

Company's exploration and development activities is dependant on financial markets, which often fail to provide necessary capital.

Regulatory standards continue to change making the review process longer, more complex and more costly. Even if an apparently mineable deposit is developed, there is no assurance that it will ever reach production or be profitable, as its potential economics are influenced by many key factors such as commodity prices, foreign exchange rates, equity markets and political interference, which can not be controlled by management. As a result, the Company's future business, operations, and financial condition could differ materially from the forward-looking information contained in this MD&A's and described in the Forward-Looking Statements section below. For more comprehensive discussion of the risks faced by the Company, please refer to Mustang's MD&A as at December 31, 2010 filed on www.sedar.com.

Forward Looking Statements

This report may contain forward-looking statements that involve a number of risks and uncertainties, including statements regarding the outlook for the Company's business and operational results. By nature, these risks and uncertainties could cause actual results to differ materially from what has been indicated. Factors that could cause actual results to differ materially from any forward-looking statement include, but are not limited to failure to establish estimated resources and reserves, the grade and recovery of ore which is mined from estimates, capital and operating costs varying significantly from estimates, delays or failure in obtaining governmental, environmental or other project approvals and other factors including those risks and uncertainties identified above. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking information as a result of new information, future results or other such factors which affect this information, except as required by law.
