1. CORPORATE INFORMATION AND NATURE OF OPERATIONS

Alba Minerals Ltd. (formerly Acrex Ventures Ltd.) (the "Company"), incorporated in British Columbia, is a public company listed on the TSX Venture Exchange and trades under the symbol AKV. The Company changed its name effective July 9, 2014. The address of the Company's corporate office and its principal place of business is 1066 West Hastings Street, Suite 2300, Vancouver British Columbia, Canada.

The Company is in the exploration stage and its principal business activity is the sourcing and exploration of mineral properties in North America. The Company is in the process of exploring and evaluating its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and related capitalized exploration expenditures is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

On June 20, 2014 the Company consolidated its issued and outstanding shares on the basis of one new share for every five outstanding shares. The share consolidation has been retroactively applied to all common share, weighted average common share, stock option and loss per common share disclosures.

2. BASIS OF PREPARATION

These condensed interim consolidated financial statements are prepared in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting* under International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB"). These condensed interim consolidated financial statements follow the same accounting policies and methods of application as the Company's most recent annual financial statements but do not contain all of the information required for full annual financial statements. Accordingly, these condensed interim consolidated financial statements should be read in conjunction with the Company's most recent annual financial statements, which were prepared in accordance with IFRS as issued by the IASB.

Going Concern

These condensed interim consolidated financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for a reasonable period of time. The Company has incurred losses since its inception and had an accumulated deficit of \$9,343,679 at June 30, 2014 which has been funded primarily by issuance of shares. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, and generating profitable operations in the future. The Company has been successful in the past in raising funds for operations by issuing shares but there is no assurance that it will be able to continue to do so in the future.

Consolidation

The condensed interim consolidated financial statements include the accounts of the Company and its 100% wholly owned subsidiary, Acrex Minerals (U.S.) Inc. ("Acrex US"). Acrex US was incorporated in the State of Nevada. Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation.

Adoption of New and Revised Accounting Standards and Interpretations

The mandatory adoption of the following new and revised accounting standards and interpretations on January 1, 2014 had no significant impact on the Company's consolidated financial statements for the current or prior periods presented.

2. BASIS OF PREPARATION (continued)

Adoption of New and Revised Accounting Standards and Interpretations (continued)

IAS 36 – Impairment of Assets - In May 2013, the IASB issued an amendment to address the disclosure of information about the recoverable amount of impaired assets or a CGU for periods in which an impairment loss has been recognized or reversed. The amendments also address disclosure requirements applicable when an asset's or a CGU's recoverable amount is based on fair value less costs of disposal. Management is currently evaluating the impact the final interpretation is expected to have on the Company's consolidated financial statements.

IFRIC 21 – Levies - In May 2013, the IASB issued IFRIC 21, Levies ("IFRIC 21"), an interpretation of IAS 37, Provisions, Contingent Liabilities and Contingent Assets ("IAS 37"), on the accounting for levies imposed by governments. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event ("obligating event"). IFRIC 21 clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. Management is currently evaluating the impact the final interpretation is expected to have on the Company's consolidated financial statements.

3. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include redeemable guaranteed investment certificates ("GICs") with interest rates of 1.05% to 1.20% (December 31, 2013 – 1.05% to 1.20%) per annum.

	June 30, 2014		December 31, 2013

GICs		103,500		275,000
	\$	104,702	\$	317,200

4. MARKETABLE SECURITIES

At June 30, 2014, marketable securities are measured at fair market values and consist of gold bullion, and 1,734,000 (December 31, 2013 - 1,734,000) common shares of Spanish Mountain Gold Ltd.

	June 30, 2014		December 31, 2013	
Spanish Mountain Gold Ltd.	\$	104,040	\$	95,370
Gold bullion		9,916		8,975
	\$	113,956	\$	104,345

As a result of changes in the fair values, the Company recorded an unrealized gain on marketable securities of \$9,611 for the six month period ended June 30, 2014.
