ALBA MINERALS LTD.
NOTES TO THE FINANCIAL STATEMENTS

As at and for the periods ended March 31, 2019 and 2018
(Unaudited - Expressed in Canadian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Alba Minerals Ltd. (the "Company"), incorporated in British Columbia, is a public company listed on the TSX Venture Exchange (the "Exchange") under the symbol AA. The address of the Company's corporate office and its principal place of business is #2150 - 555 West Hastings Street, Vancouver, British Columbia, Canada, V6B 4N6.

The Company is in the exploration stage and its principal business activity is the sourcing and exploration of mineral properties in North and South America. The Company is in the process of exploring and evaluating its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and related capitalized exploration expenditures is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

These consolidated financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The Company has incurred losses since its inception and has an accumulated deficit of \$11,395,767 at March 31, 2019 which has been funded primarily by issuance of shares. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, and generating profitable operations in the future. The Company has been successful in the past in raising funds for operations by issuing shares but there is a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. If the Company is unable to raise the necessary capital and generate sufficient cash flows to meet obligations as they come due, the Company may have to reduce or curtail its activities or obtain financing at unfavorable terms. Furthermore, failure to continue as a going concern would require the Company's assets and liabilities be restated on a liquidation basis which would differ significantly from the going concern basis. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern.

These consolidated interim financial statements were authorized for issue on May 27, 2019 by the directors of the Company.

(Unaudited - Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE

These consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Accounting Standards (“IAS”) 34, Interim Financial Reporting. These consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company’s audited annual financial statements for the year ended December 31, 2018, which have been prepared in accordance with IFRS.

These consolidated financial statements include the accounts of the Company and its 100% wholly owned subsidiary, Acrex Minerals (U.S.) Inc. (“Acrex US”). Acrex US was incorporated in the State of Nevada. Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation.

These consolidated interim financial statements have been prepared on the historical cost basis. The presentation and functional currency of the Company is the Canadian dollar.

3. SIGNIFICANT ACCOUNTING POLICIES

a) Significant accounting judgments, estimates and assumptions

The preparation of the Company’s consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated interim financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical judgments in applying accounting policies:

The following are critical judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the consolidated interim financial statements:

- the determination that the Company will continue as a going concern for the next year.

b) Recent accounting pronouncements

Accounting standards and amendments issued but not yet effective

IRFS 16 Leases will be effective for accounting periods beginning on or after January 1, 2019. Early adoption will be permitted, provided the Company has adopted IFRS 15. This standard sets out a new model for lease accounting. The Company does not expect the adoption of this standard will have significant impact on its financial statements.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

As at March 31, 2019 and December 31, 2018, the Company's financial instruments consist of cash, subscriptions receivable, marketable securities and accounts payable.

In management's opinion, the Company's carrying values of cash, subscriptions receivable, marketable securities and accounts payable approximate their fair values due to the immediate or short term maturity of these instruments.

The Company classifies the fair value of these financial instruments according to the following hierarchy based on the amount of observable inputs used to value the instrument:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Cash and marketable securities are classified under Level 1.

Level 2 – Fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (derived from prices). The Company does not have any financial instruments classified under Level 2.

Level 3 – Valuations in the level are those with inputs for the asset or liability that are not based on observable market data. Accounts payable and subscriptions receivable are classified under Level 3.

The Company's financial instruments are exposed to the following risks:

Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's cash is held at a large Canadian financial institution in interest bearing accounts, and therefore the Company is subject to low credit risk.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company manages liquidity risk through its capital management as outlined in Note 11 to the financial statements.

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, commodity and equity prices and foreign exchange rates.

The Company does not believe it is exposed to significant market risk.
