Caelan Capital Inc. (formerly Alba Minerals Ltd.) (the "Company" or "Caelan") was incorporated in British Columbia under the *Business Corporations Act* (British Columbia) and is engaged in the acquisition, exploration and development of resource properties. At market open on April 13, 2020, the Company completed a ten old for one new share consolidation and changed its name to Caelan Capital Inc., and its symbol to CDN. All share amounts in this management's discussion and analysis ("MD&A") are reflected on a post-consolidated basis. At market open on November 4, 2019, the Company listed on the Canadian Securities Exchange ("CSE"). As a market close on November 4, 2019, the Company voluntarily delisted on the TSX Venture Exchange.

This MD&A include the accounts of the Company and its 100% wholly owned subsidiary, Acrex Minerals (U.S.) Inc. ("Acrex US"). Acrex US was incorporated in the State of Nevada. Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation.

This MD&A include the accounts of the Company and its 100% wholly owned subsidiary, Alba Minerals Ltd. ("Alba Argentina"). Alba Argentina was incorporated in Salta, Argentina. Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation.

This MD&A reports on the operating results and financial condition of the Company for the three months ended March 31, 2020 and is prepared as of June 1, 2020. The MD&A should be read in conjunction with the Company's unaudited interim consolidated financial statements for the three months ended March 31, 2020, and the audited annual consolidated financial statements for the years ended December 31, 2019 and December 31, 2018 and the notes thereto which were prepared in accordance with International Financial Reporting Standards ("IFRS").

All dollar amounts referred to in this MD&A are expressed in Canadian dollars except where indicated otherwise.

Cautionary Note Regarding Forward-Looking Information

This document may contain "forward-looking information" within the meaning of Canadian securities legislation ("forward-looking statements"). These forward-looking statements are made as of the date of this document and the Company does not intend, and does not assume any obligation, to update these forward-looking statements, except as required under applicable securities legislation.

Forward-looking statements relate to future events or future performance and reflect management's expectations or beliefs regarding future events and include, but are not limited to, the Company and its operations, its planned exploration activities, the adequacy of its financial resources and statements with respect to the estimation of mineral reserves and mineral resources, the realization of mineral reserve estimates, the timing and amount of estimated future production, costs of production, capital expenditures, success of mining operations, environmental risks, unanticipated reclamation expenses, title disputes or claims and limitations on insurance coverage. In certain cases, forward-looking statements can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative of these terms or comparable terminology. In this document, certain forward-looking statements are identified by words including "may", "future", "expected", "intends" and "estimates". By their very nature forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, risks related to actual results of current exploration activities; changes in project parameters as plans continue to be refined; future prices of resources; possible variations in ore reserves, grade or recovery rates; accidents, labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing or in the completion of development or construction activities; as well as those factors detailed from time to time in the Company's interim and annual consolidated financial statements and management's discussion and analysis of those statements, all of which are filed and available for review under the Company's profile on SEDAR at www.sedar.com. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. The Company provides no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should

not place undue reliance on forward-looking statements.

Description of Business

Caelan Capital Inc. is an exploration stage company engaged in the acquisition, exploration and development of resource properties. As at March 31, 2020, the Company has interests in the following resource properties:

- 1. Rainbow Canyon, Nevada** – By an agreement dated March 25, 2011, the Company purchased non-patented mineral claims and staked additional claims during the same year, in Washoe County, Nevada, USA. The purchase price for the claims was US\$125,000 (CAN\$123,719). A 3% Net Smelter Return (“NSR”) is reserved to the vendor subject to the Company’s right to purchase back up to a 2% NSR by the payment of \$500,000 for each 1% NSR interest purchased.

On February 8, 2017, the Company entered into an option agreement with Astorius Resources Ltd. (“Astorius”) to sell 100% interest in the Rainbow Canyon gold property. To complete the exercise of the option, Astorius must pay an aggregate of \$80,000 cash by March 1, 2018. \$60,000 was received from Astorius during the year ended December 31, 2017 and an impairment of \$106,573 was recognized.

During the year ended December 31, 2018 this option agreement became in default as Astorius was unable to fulfil its commitment. The agreement was mutually terminated.

During the year ended December 31, 2019, Caelan filed a Notice of Intent with the BLM for its Rainbow Canyon Property to include additional drilling, which would follow up on the RCR-03 gold intercept with 3-5 RC drill holes.

During the three months ended March 31, 2020, the Company incurred \$Nil (2019 - \$31,164) in exploration expenditures on the Rainbow Canyon Property.

- 2. Clayton Valley, Nevada, USA**

On December 5, 2016, the Company entered into an interim agreement to acquire up to a 50% interest in 888 mineral claims comprising approximately 17,000 acres in Clayton Valley, Esmeralda County, Nevada. The Agreement also includes claims in San Bernardino County, California. A final option agreement (the “Agreement”) was signed on February 8, 2017 with Noram Ventures Inc. and Green Energy Inc. (a wholly owned subsidiary of Noram Ventures Inc.).

The first part of the Agreement was an option to purchase a 25% interest in the property for \$255,000 paid to Green Energy Inc. as follows:

Requirement deadline	Cash
(i) Upon signing the letter of intent	\$127,500 (paid)
(ii) Completion of a drilling program by Green Energy Inc.	\$127,500 (paid)
	<u>\$255,000</u>

The second part of the Agreement granted to the Company an option to acquire a further 25% interest in the property by making a series of payments totaling \$845,000 to Green Energy in 2017.

On January 8, 2018, the parties amended the second part of the agreement due to delays and granted the Company an option to acquire a further 25% interest in the property by making a cash payment of \$350,000 prior to March 1, 2018 in lieu of \$845,000.

On May 28, 2018, the Company signed an agreement with Noram to sell its 25% interest in the Clayton Valley project. The transaction received final approval from the TSX Venture Exchange on November 19, 2018. In consideration for its interest, the Company received 3,800,000 common shares of Noram with an initial fair value of \$1,140,000 and cash of \$400,000. The Company recorded a gain on sale of \$1,254,217.

CAELAN CAPITAL INC. (FORMERLY ALBA MINERALS LTD.)

Management's Discussion and Analysis

Three Months Ended March 31, 2020

June 1, 2020

3. **Quiron II, Argentina** - On August 2, 2017, the Company signed an option agreement to acquire 100% interest in the Quiron II lithium project, a prospective exploration property in the Pocitos Salar, Province of Salta, Argentina. On August 3, 2017, the Company received TSX Venture Exchange ("Exchange") Approval.

The final terms of the definitive agreement for the Company to acquire 100% interest in the Quiron II property are as follows:

Date	Cash	Shares Issued	Work Obligations
On signing the Definitive Agreement	US\$50,000 (paid)	240,000 (issued)	Nil
Upon Exchange approval	US\$50,000 (paid)	Nil	Nil
On in-depth exploration EIA approval (18 months after Exchange approval)	Nil	Nil	US\$400,000
Upon Acceptance of an NI 43-101 Report by the Exchange	US\$400,000	Nil	Nil
TOTAL	US\$500,000	240,000	US\$400,000

As at December 31, 2019, The Company was in default of the agreement and recognized impairment of \$405,416.

During the quarter ended March 31, 2020, the Company terminated the agreement for Quiron II lithium project.

4. **Chascha Norte** – On January 18, 2018, the Company entered into a property option agreement to acquire 100% interest in the Chascha Norte Property, located in Salar de Arizaro, Argentina for the following consideration:
- Cash payment of US\$250,000 (\$50,000 upon signing and \$200,00 within 30 days of Exchange approval); and
 - Issuance of 450,000 common shares (issued).

On October 11, 2018, the Company received TSX Venture Exchange approval for this transaction.

In February 2019 the Company made additional expenditures of \$18,701 on this property.

As at December 31, 2019, the Company does not intend to pursue further exploration due to the political climate and various challenges associated with working on this property. The Company recognized an impairment of \$664,076.

5. **Muddy Mountain, Nevada** – On June 25, 2018, the Company entered into a property option agreement with a non-arm's length party to acquire a 100% interest in the Muddy Mountain Project, located in Clark County, Nevada for the following consideration:
- Cash payment of US\$5,000 upon execution of the Agreement (paid);
 - Total cash payments of US\$235,000 at various periods before three years from TSX Venture Exchange Approval;
 - Issuance of a total of 140,000 common shares at various period before three years from TSX Venture Exchange Approval;
 - Completion of an aggregate of US\$120,000 in exploration expenditures before three years from TSX Venture Exchange Agreement.

The agreement is subject to a 2% NSR which can be repurchased by the Company for \$3,000,000.

CAELAN CAPITAL INC. (FORMERLY ALBA MINERALS LTD.)

Management's Discussion and Analysis

Three Months Ended March 31, 2020

June 1, 2020

The vendor and Company were not able to successfully get permitting approval from the BLM and as a result, did not proceed with the option beyond the due diligence period. As at December 31, 2019, the Company no longer holds this option. An impairment of \$13,182 was recorded during 2019.

- Torado Project, Utah/Colorado** – In November 2019, the Company incurred costs of \$27,020 related to property investigation costs on the Torado, Vanadium and Uranium Project. As at December 31, 2019, the Company recognized impairment of \$27,020.

Risk Factors

The Company is in the business of acquiring, exploring and, if warranted, developing and exploiting natural resource properties. Mineral property exploration is a speculative business and involves a high degree of risk. There is a probability that the expenditures made by the Company in exploring its properties will not result in discoveries of commercial quantities of minerals. A high level of ongoing expenditures is required to locate and estimate ore reserves, which are the basis to further the development of a property. Capital expenditures to support the commercial production state are also very substantial.

Matters related to the principal risks faced by the Company have been disclosed in previous MD&A's filed on SEDAR and continue to apply to the activity and business of the Company.

Selected Annual Information

The following selected financial data with respect to the Company's financial condition and results of operations has been derived from the audited financial statements of the Company for the years ended December 31, 2019, 2018 and 2017 prepared in accordance with IFRS. The selected financial data should be read in conjunction with those financial statements and the notes thereto.

The following selected financial information is extracted from the audited annual consolidated financial statements of the Company prepared in accordance with IFRS.

	31Dec19	31Dec18	31Dec17
Interest Income	\$Nil	\$Nil	\$(522)
Net Income (Loss) for the year	\$(2,049,525)	\$36,359	\$(1,126,895)
Income (Loss) per Share	\$(0.03)	\$0.01	\$(0.04)
Total Assets	\$577,654	\$2,676,096	\$1,548,597
Total Liabilities	\$100,331	\$103,993	\$111,962
Working Capital	\$432,968	\$1,496,571	\$801,149

The referenced audited annual financial statements of the Company above have been prepared in accordance with IFRS. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of consolidated financial statements for a period necessarily involves the use of estimates, which have been made using careful judgment. Actual results may differ from these estimates.

Results of Operations

At March 31, 2020, total assets were \$659,729 compared to \$577,654 as at December 31, 2019. This slight increase in assets is due to a decrease in cash offset by an increase in loan receivables.

The Company has no operating revenues.

Three Months Ended March 31, 2020

During the three months ended March 31, 2020, the Company reported a net loss of \$24,536 compared to \$233,763 for the same quarter in the prior year, representing a decrease in loss of \$209,227.

The decrease in loss is primarily attributed to the following:

CAELAN CAPITAL INC. (FORMERLY ALBA MINERALS LTD.)

Management's Discussion and Analysis

Three Months Ended March 31, 2020

June 1, 2020

- An decrease of \$102,986 in promotion and travel. Promotion and travel expenses were \$3,535 for the three months ended March 31, 2020, compared to \$106,521 for the same quarter in the prior year due to active property acquisition investigation and due diligence.
- A decrease of \$12,000 in corporate communications. Corporate communications were \$Nil in three months ended March 31, 2020, compared to \$12,000 for the same quarter in the prior year.
- An increase in gain on sale of marketable securities of \$96,995. Gain on sale of marketable securities were \$96,995 in the three months ended March 31, 2020, compared to \$Nil for the same quarter in the prior year due to the sale of Noram Ventures Inc. shares.

These decreases were partially offset by the following expense increases:

- An increase of \$18,399 in consulting fees. Consulting fees were \$22,750 for the three months ended March 31, 2020, compared to \$4,351 for the same quarter in the prior year.
- An increase of \$15,000 in management fees. Management fees were \$79,500 for the three months ended March 31, 2020, compared to \$64,500 for the same quarter in the prior year.

Summary of Quarterly Results

	31Mar20	31Dec19	30Sept19	30Jun19	31Mar19	31Dec18	30Sept18	30Jun18
Interest Income	\$1,167	Nil	Nil	Nil	Nil	Nil	Nil	Nil
Operating Costs	(\$122,698)	(\$197,572)	(\$121,878)	(\$386,618)	\$(233,763)	\$(297,962)	\$(362,620)	\$(160,298)
Net Income (Loss)	(\$24,536)	\$(1,294,084)	\$(135,060)	(\$386,618)	\$(233,763)	\$957,937	\$(362,620)	\$(160,298)
Total Assets	\$659,729	\$577,654	\$1,759,181	\$2,013,701	\$2,495,900	\$2,676,096	\$1,468,233	\$1,646,191
Total Liabilities	\$124,035	\$100,331	\$63,781	\$107,234	\$109,940	\$103,993	\$147,246	\$142,349
Working Capital	\$491,999	\$432,968	\$580,760	\$806,330	\$1,285,030	\$1,496,571	\$544,151	\$721,893

The following discussion outlines the reasons for some of the variations in the quarterly numbers but, as with most junior mineral exploration companies, the results of operations (including interest income and net losses) are not the main factors in establishing the financial health of the Company. Of far greater significance are the resource properties in which the Company has, or may earn an interest, its working capital and how many shares it has outstanding. The variation seen over such quarters is primarily dependent upon the success of the Company's ongoing property evaluation program and the timing and results of the Company's exploration activities on its then current properties, none of which are possible to predict with any accuracy.

There are no general trends regarding the Company's quarterly results and the Company's business of resource exploration is not seasonal, as it can work on its property on a year-round basis (funding permitting). Quarterly results may vary significantly depending mainly on whether the Company has acquired (investigation and due diligence costs) or abandoned any properties, disposed of shares, completed financings or granted any stock options and these factors which may account for material variations in the Company's quarterly net income (losses) are not predictable.

The major factors which may cause material variations in net loss on a quarterly basis are the following:

- Private placements, which occurred in the quarters ending March 31, 2019.
- Completion of annual audits, which occurred in the quarters ending March 31, 2020, and March 31, 2019.
- Fluctuations in shareholder communications activity due to increased Company activity, which occurred in the quarters ended June 30, 2019 and September 30, 2018.
- Issuance of stock options, which occurred in the quarter ended September 30, 2018.

The major factors which may cause material variations in assets on a quarterly basis are the following:

CAELAN CAPITAL INC. (FORMERLY ALBA MINERALS LTD.)

Management's Discussion and Analysis

Three Months Ended March 31, 2020

June 1, 2020

- Increases in cash due to the exercise of warrants and options, which occurred during in the quarter ended June 30, 2019 and December 31, 2018.
- Increases in cash due to the sale of 1,030,225 Noram Ventures Inc. shares.
- Increases in cash due to the receipt of subscription receivables, which occurred in the quarter ended December 31, 2018.
- Increases in exploration expenditures due to property investigation costs related to the Torado Project, which occurred in the quarter ended March 31, 2020.
- Acquisition of the Muddy Mountain, Chascha Norte and Quiron II properties, which occurred in the quarters ended December 30, 2019 and June 30, 2018.
- Increases in exploration expenditures and the receipt of 3,800,000 common shares from the sale of the Clayton Valley project, which occurred in the quarter ended December 31, 2018.
- Termination of the Company's Muddy Mountain property, which occurred in the quarter September 30, 2019.
- Write-down of the Company's Torado Project, Chascha Norte, Quiron II, and Muddy Mountain properties, which occurred in the quarter ended March 31, 2020 and December 31, 2019.
- Increases in loan receivables due a loan provided to Noram Ventures Inc., which occurred in the quarter ended March 31, 2020.

Liquidity and Capital Resources

The Company has no revenue generating operations from which it can internally generate funds and therefore has been incurring losses since inception. The Company has financed its operations and met its capital requirements primarily through the sale of capital stock by way of private placements and the subsequent exercise of share purchase warrants issued in connection with such private placements and the exercise of stock options. The Company also has raised funds through the sale of interests in its mineral properties. When acquiring interests in resource properties through purchase or option, the Company issues common shares or a combination of cash and shares to the vendors of the property as consideration for the property in order to conserve its cash. The Company expects that it will continue to operate at a loss for the foreseeable future and will require additional financing to fund the exploration of its existing properties and the acquisition of potential resource properties. The Company recognizes that it is operating during the COVID-19 pandemic, which may result in the halting or delay of exploration programs and shortages of exploration services providers and may encounter limitations on raising capital through equity financings.

At March 31, 2020, the Company had cash of \$206,725 compared to cash of \$839,615 for the same quarter in the previous year. The Company has no off-balance sheet financing. The Company has no long-term debt, however had a loan receivable from Noram Ventures Inc. a company with a common director, this loan was unsecured, and bore interest at 10% per annum with a bonus of \$12,500 payable to the Company at each anniversary date, until such time as the loan is fully paid off. The loan is to be repaid upon the completion of Noram's next financing and having sufficient resources to repay. For the three months ended March 31, 2020, \$1,167 in interest income has been accrued on this loan.

At this time, the Company has no operating revenues, and does not anticipate any operating revenues until the Company is able to find, acquire, place in production, and operate a resource property. Historically, the Company has raised funds through equity financing to fund its operations.

The Company will need to raise additional cash for working capital or other expenses. In addition, as a result of the Company's activities, unanticipated problems or expenses could result and require additional capital requirements, subject to CSE policies and approvals.

The Company has no assets other than cash deposits and has not pledged any of its assets as security for loans, or otherwise and is not subject to any debt covenants. Management believes the Company does have sufficient working capital at this time to meet its current financial obligations.

Related Party Transactions

During the three months ended March 31, 2020, the Company entered into the following transactions with related parties:

CAELAN CAPITAL INC. (FORMERLY ALBA MINERALS LTD.)

Management's Discussion and Analysis

Three Months Ended March 31, 2020

June 1, 2020

The Company incurred management fees totaling \$79,500 (2018: \$64,500) from companies controlled by officers and common directors.

At March 31, 2020, accounts payable and accrued liabilities included \$77,785 (December 31, 2019 – \$86,950 for amounts due to companies controlled by officers and directors in respect of the fees indicated above.

Key management personnel comprise the Company's Board of Directors and executive officers. No remuneration was paid to key management personnel during the periods ended March 31, 2020 and 2019 other than as indicated above.

Critical Accounting Estimates

In the application of the Company's accounting policies, which are described in note 3 to the audited financial statements for the three months ended March 31, 2020, management is required to make judgments, apart from those requiring estimates, in applying accounting policies. The most significant judgments applying to the Company's financial statements include:

- the determination of the Company's ability to continue its operations as a going concern;
- the determination of any impairment on the Company's assets.

The preparation of financial statements in accordance with IFRS requires the Company to make estimates and assumptions concerning the future. The Company's management reviews these estimates and underlying assumptions on an ongoing basis, based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are adjusted for prospectively in the period in which the estimates are revised.

Estimates and assumptions where there is significant risk of material adjustments to assets and liabilities in future accounting periods include the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments, the recoverability and measurement of deferred tax assets, provisions for restoration and environmental obligations and contingent liabilities.

Recently adopted accounting standards and accounting standards issued but not yet effective:

IFRS 16 Leases became effective for accounting periods beginning on or after January 1, 2019. This standard sets out a new model for lease accounting. This new standard does not have any impact on the Company's financial statements because the Company does not have any leases.

Fair Value of Financial Instruments

1. Fair value of financial instruments

The carrying values of cash, marketable securities and accounts payable approximate their fair values because of their short-term nature. The fair values of marketable securities are based on current bid prices at March 31, 2020.

In evaluating fair value information, considerable judgment is required to interpret the market data used to develop the estimates. The use of different market assumptions and valuation techniques may have a material effect on the estimated fair value amounts. Accordingly, the estimates of fair value presented herein may not be indicative of the amounts that could be realized in a current market exchange.

IFRS requires disclosures about the inputs to fair value measurements for financial assets and liabilities recorded at fair value, including their classification within a hierarchy that prioritizes the inputs to fair value measurement. The three levels of hierarchy are:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and

CAELAN CAPITAL INC. (FORMERLY ALBA MINERALS LTD.)

Management's Discussion and Analysis

Three Months Ended March 31, 2020

June 1, 2020

Level 3 - Inputs for the asset or liability that are not based on observable market data.

As at March 31, 2020, there are \$334,233 in financial assets at fair value.

During the three months ended March 31, 2020, a market-to-market gain of \$82,907 (December 31, 2019 – Loss of \$684,000) for marketable securities designated as available-for-sale has been recognized in other comprehensive income.

There were no financial liabilities at fair value as at March 31, 2020, and June 1, 2020.

2. Financial instrument risk

The Company is exposed in varying degrees to a variety of financial instrument related to risks. The Board approves and monitors the risk management processes:

(i) Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist of advances made to related parties. The Company manages liquidity risk through the management of its capital structure and financial leverage. Management does not believe that there is significant credit risk arising from these advances. The maximum exposure to loss arising from these advances is equal to their total carrying amounts.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company monitors its ability to meet its short-term exploration and administrative expenditures by raising additional funds through share issuance when required. All of the Company's financial liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms. The Company does not have investments in any asset-backed commercial papers. Foreign exchange risk The Company's functional currency is the Canadian dollar. Therefore, the Company is not exposed to foreign exchange risk.

(iii) Market risk

(a) Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. Financial assets and financial liabilities are not exposed to interest rate risk because they are non-interest bearing.

(c) Commodity price risk

The Company's ability to raise capital to fund exploration or development activities is subject to risks associated with fluctuations in the market price of palladium, nickel, and gold. The Company closely monitors commodity prices to determine the appropriate course of actions to be taken.

During the three months ended March 31, 2020, there were no changes to the Company's risk exposure or to the Company's policies for risk management.

Capital Management

The Company's objectives when managing capital are to ensure that there are adequate capital resources to safeguard the Company's ability to continue as a going concern and maintain adequate levels of funds to support the acquisition, exploration and development of exploration and evaluation assets such that it can continue to provide returns to shareholders and benefits for other stakeholders.

The Company considers the items included in shareholders' equity as capital. The Company manages its capital

CAELAN CAPITAL INC. (FORMERLY ALBA MINERALS LTD.)

Management's Discussion and Analysis

Three Months Ended March 31, 2020

June 1, 2020

structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the Company's underlying assets. In order to maintain or adjust its capital structure, the Company may issue new shares or sell assets to settle liabilities. The Company has no long-term debt and is not subject to externally imposed capital requirements.

The properties in which the Company currently has an interest in are in the exploration stage, as such, the Company does not recognize revenue from its exploration properties. The Company's historical sources of capital have consisted of the sale of equity securities, loans, advances from related parties and interest income. In order for the Company to carry out planned exploration and development and pay for administrative costs, the Company will spend its working capital and expects to raise additional amounts externally as needed.

The Company is not subject to any externally imposed capital requirements.

Consolidation, Name Change, and Symbol Change

At market close on April 13, 2020, the Company commenced trading on the CSE on the basis of one new post-consolidated share for every ten old pre-consolidated shares. The Company also changed its name to Caelan Capital Corp. and traded under the new stock symbol of "CDN".

CSE Listing

At market close on November 4, 2019, the Company voluntarily delisted its common shares from the TSX Venture Exchange. The Company's 6,742,450 common shares commenced trading on the CSE effective at market open on November 4, 2019.

Financings

On March 20, 2019, the Company completed a private placement of 753,125 units at a price of \$0.80 per unit for gross proceeds of \$602,500. Each unit consists of one common share of the Company and one transferrable share purchase warrant. Each warrant is exercisable to acquire one additional common share of the Company at a price of \$1.00 per share for a period of 24 months. The Company paid \$41,880 cash and issued 52,350 warrants to finders. The finder's warrants are exercisable into one common share of the Company at a price of \$1.00 per share for a period of 24 months.

Loans

On January 20, 2020, the Company entered into an agreement to loan an aggregate of \$60,000 to Noram Ventures Inc., the owner and operator of the Zeus Property in Clayton Valley, Nevada. The amount is loaned at a rate of 10% per annum, with a bonus of \$12,500 payable to the Company at each anniversary date, until such time as the loan is fully paid off. The loan is to be repaid upon the completion of Noram's next financing and having sufficient resources to repay.

Property Acquisitions and Dispositions

On May 9, 2019, the Company entered into an agreement with Journey Exploration Inc. ("Journey"), a private arms' length company, to acquire all of the issued and outstanding share capital of Journey. Journey holds a 100% interest in 5 prospective vanadium and uranium properties, and an option to acquire a 100% interest of a sixth property in Colorado and Utah known as the Torado Vanadium and Uranium Project. This agreement was terminated as at August 31, 2019.

On May 28, 2018, the Company signed an agreement with Noram to sell its 25% interest in the Clayton Valley project. The transaction received final approval from the Exchange on November 19, 2018. In consideration for its interest, the Company received 3,800,000 common shares of Noram with a fair value of \$1,140,000 and cash of \$400,000.

On November 10, 2018, the Company issued 450,000 common shares with a fair value of \$315,000 for an option payment on the Chascha Norte property.
