NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

As at and for the periods ended September 30, 2023 and 2022
(Unaudited - Expressed in Canadian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

CDN Maverick Capital Corp (the "Company"), incorporated in British Columbia, is a public company listed on the Canadian Securities Exchange ("CSE" or the "Exchange") under the symbol CDN. The Company is also listed on the OTCQB under the symbol "AXVEF", and on the Frankfurt Exchange under the symbol "338B". On November 4, 2020, the Company completed a share consolidation at a ratio of one new, post-consolidated share for every two old, pre-consolidated shares and concurrently changed its name to CDN Maverick Capital Corp. from Caelan Capital Inc. All share amounts in these financial statements are reflected on a post-consolidated basis. The address of the Company's corporate office and its principal place of business is #2150 - 555 West Hastings Street, Vancouver, British Columbia, Canada, V6B 4N6.

The Company is in the exploration stage and its principal business activity is the sourcing and exploration of mineral properties in North and South America. The Company is in the process of exploring and evaluating its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and related capitalized exploration expenditures is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

These consolidated interim financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The Company has incurred losses since its inception and has an accumulated deficit of \$16,356,399 at September 30, 2023 which has been funded primarily by issuance of shares. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors and generating profitable operations in the future. The Company has been successful in the past in raising funds for operations by issuing shares but there is a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. If the Company is unable to raise the necessary capital and generate sufficient cash flows to meet obligations as they come due, the Company may have to reduce or curtail its activities or obtain financing at unfavorable terms. Furthermore, failure to continue as a going concern would require the Company's assets and liabilities to be restated on a liquidation basis which would differ significantly from the going concern basis. These consolidated interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

These consolidated interim financial statements were authorized for issue on November 27, 2023 by the directors of the Company.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

2. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE

These consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Accounting Standards (“IAS”) 34, Interim Financial Reporting. These consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company’s audited annual financial statements for the year ended December 31, 2022, which have been prepared in accordance with IFRS.

These consolidated interim financial statements include the accounts of the Company and its 100% wholly owned subsidiaries Midas Capital Inc. (“Midas”) and Acrex Minerals (U.S.) Inc. (“Acrex US”). Midas was incorporated in the Province of British Columbia and Acrex US was incorporated in the State of Nevada. Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation.

These consolidated interim financial statements have been prepared on the historical cost basis. The presentation and functional currency of the Company is the Canadian dollar.

3. SIGNIFICANT ACCOUNTING POLICIES

a) Significant accounting judgments, estimates and assumptions

The preparation of the Company’s consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated interim financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical judgments in applying accounting policies:

The following are critical judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the consolidated interim financial statements:

- the determination that the Company will continue as a going concern for the next year; and
- the assessment of indications of impairment of each mineral property and related determinations of the net realizable value and write-down of those properties where applicable.

b) New accounting standards and amendments

The Company has performed an assessment of new standards issued by the IASB and IFRIC that are not yet effective and has determined that any new standards that have been issued would have no or very minimal impact on the Company’s consolidated financial statements.

7. MINERAL PROPERTIES, *continued*

Rainbow Canyon, Nevada, USA – By an Agreement dated March 25, 2011, the Company purchased non-patented mineral claims and staked additional claims during the same year, in Washoe County, Nevada, USA. The purchase price for the claims was US\$125,000 (CAN\$123,719). A 3% Net Smelter Return (“NSR”) is reserved to the vendor subject to the Company’s right to purchase back up to a 2% NSR by the payment of \$500,000 for each 1% NSR interest purchased.

On February 8, 2017, the Company entered into an option agreement with Kingman Minerals Ltd. (“Kingman”) to sell 100% interest in the Rainbow Canyon gold property. To complete the exercise of the option, Kingman must pay an aggregate of \$80,000 cash by March 1, 2018. \$60,000 was received from Kingman during the year ended December 31, 2017 and an impairment of \$106,573 was recognized.

As a result of this transaction, the Company holds a 100% interest in 25 mineral claims known as the Olinghouse Property, which is adjacent to the Company’s previous claims and is considered part of the Rainbow Canyon property.

Total consideration	\$ 174,523

14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

As at September 30, 2023, the Company's financial instruments consist of cash, marketable securities, and accounts payable.

In management's opinion, the Company's carrying values of cash, marketable securities, and accounts payable approximate their fair values due to the immediate or short-term maturity of these instruments.

The Company classifies the fair value of these financial instruments according to the following hierarchy based on the amount of observable inputs used to value the instrument:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Cash and marketable securities are classified under Level 1.

Level 2 – Fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (derived from prices). The Company does not have any financial instruments classified under Level 2.

Level 3 – Valuations in the level are those with inputs for the asset or liability that are not based on observable market data.

The Company's financial instruments are exposed to the following risks:

Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's cash is held at a large Canadian financial institution in interest bearing accounts, and therefore the Company is subject to low credit risk.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The ability to do this relies on the Company maintaining sufficient cash on hand through debt or equity financing.
