

**Management's Discussion and Analysis
For the Three and Six Months Ended
February 28, 2014**

OVERVIEW

Eagleford Energy Inc. ("Eagleford" or the "Company") is amalgamated under the laws of the Province of Ontario. The Company's business focus consists of acquiring, exploring and developing oil and gas interests. The recoverability of the amount shown for these properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete exploration and development, and future profitable production or proceeds from disposition of such property. The Company's oil and gas interests are located in Alberta, Canada and Zavala County, Texas. In addition the Company holds a 0.3% net smelter return royalty on 8 mining claim blocks located in Red Lake, Ontario which is carried on the consolidated balance sheets at nil. The Company completed a two-for-one stock split, pursuant to which one (1) newly-issued share of the Company's common stock was issued to each holder of a share of common stock as of the close of business on March 16, 2012. The address of the registered office is 1 King Street West, Suite 1505, Toronto, Ontario, M5H 1A1. Eagleford's common shares trade on the Over-the-Counter Bulletin Board (OTCBB) under the symbol EFRDF.

The Company's Unaudited Interim Condensed Consolidated Financial Statements for the period ended February 28, 2014 and 2013 include the accounts of the Company, its wholly owned subsidiaries 1354166 Alberta Ltd. ("1354166 Alberta"), Dyami Energy LLC ("Dyami Energy") and Eagleford Energy, Zavala Inc. ("Zavala Inc.").

This Management's Discussion and Analysis is dated April 8, 2014 and has been approved by the Board of Directors of the Company.

FORWARD LOOKING STATEMENTS

This Management's Discussion and Analysis contains certain forward-looking statements, including management's assessment of future plans and operations, and capital expenditures and the timing thereof, that involve substantial known and unknown risks and uncertainties, certain of which are beyond the Company's control. Such risks and uncertainties include, without limitation, risks associated with oil and gas exploration, development, exploitation, production, marketing and transportation, loss of markets, volatility of commodity prices, currency fluctuations, imprecision of reserve estimates, environmental risks, competition from other producers, inability to retain drilling rigs and other services, delays resulting from or inability to obtain required regulatory approvals and ability to access sufficient capital from internal and external sources, the impact of general economic conditions in Canada, the United States and overseas, industry conditions, changes in laws and regulations (including the adoption of new environmental laws and regulations) and changes in how they are interpreted and enforced, increased competition, the lack of availability of qualified personnel or management, fluctuations in foreign exchange or interest rates, stock market volatility and market valuations of companies with respect to announced transactions and the final valuations thereof, and obtaining required approvals of regulatory authorities. The Company's actual results, performance or achievements could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurances can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what benefits, including the amount of proceeds, that the Company will derive there from. Readers are cautioned that the foregoing list of factors is not exhaustive. All subsequent forward-looking statements, whether written or oral, attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by these cautionary statements. Furthermore, the forward-looking statements contained in this Management Discussion and Analysis are made as at the date of this Management Discussion and Analysis and the

Company does not undertake any obligation to update publicly or to revise any of the included forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by applicable securities laws.

Non-IFRS Measurements – Certain measures in this Management’s Discussion and Analysis do not have any standardized meaning as prescribed by IFRS including “Operating net back” are considered Non-IFRS measures. Therefore, these measures may not be comparable to similar measures presented by other issuers. These measures are common with the oil and gas industry and have been described and presented in this Management’s Discussion and Analysis in order to provide shareholders and potential investors with additional information regarding the company’s liquidity and its ability to generate funds to finance its operations. These terms are commonly used in the oil and gas industry and are therefore presented here to provide balances comparable to other oil and gas production companies.

OVERALL PERFORMANCE

Revenue, net of royalties for the six months ended February 28, 2014 was up by \$3,672 to \$23,357 compared to \$19,685 for the same six month period in 2013. The increase in net revenue for the six month period ended February 28, 2014 was attributed to higher commodity prices received for natural gas from the Company’s Botha, Alberta property. Net loss for the six months ended February 28, 2014 decreased by \$77,843 to \$513,761 compared to a net loss of \$591,604 for the six months ended February 28, 2013. The decrease in net loss during 2014 was primarily related to a decrease in general and administrative costs of \$165,114 to \$179,652 compared to general and administrative costs of \$344,766 for the same six month period in 2013. The decrease in general and administrative costs were partially offset by an increase of \$47,913 to \$88,729 in interest expense compared to \$40,816 in 2013, an increase in loss on foreign exchange of \$37,702 to \$163,424 compared to a loss on foreign exchange of \$125,722 in 2013 and an increase of \$18,408 in unrealized loss on derivative warrant liabilities to \$97,786 compared to an unrealized loss of \$79,378 for the six months ended February 28, 2013.

For the six months ended February 28, 2014, the Company recorded additions of \$124,989 in exploration and evaluation assets.

On December 3, 2013, (as amended January 14, 2014) the Company entered into an agreement with Stratex Oil and Gas Holdings, Inc. (“Stratex”) to develop the Matthews Lease in Zavala County, Texas (the “Joint Development Agreement”). Under the terms of the Joint Development Agreement (“JDA”), upon the payment of the consideration described in 1, 2 and 3 below Stratex will earn and the Company will assign a 50% working interest in the 2,629 acre

Matthews Lease and upon commencing number 4 below Stratex will earn and the Company will convey a 66.67% working interest before payout (50% working interest after payout) in the Matthews #1 well.

- 1) delivering US\$150,000 to the lessors of the Matthews (paid);
- 2) delivering US\$50,000 to the Company upon execution of the JDA (paid);
- 3) delivering US\$100,000 to the Company on or before December 31, 2013 (paid); and
- 4) commencing a hydraulic fracture or the spudding of a new well no later than March 31, 2014.

Following completion of the above, Stratex will have a 66.67% working interest before payout (50% working interest after payout) in the Matthews #1H well and a 50% working interest in the 2,629 acre Matthews Lease. In February 2014, Stratex commenced a 15 stage hydraulic fracture on the Matthews #1H well.

As part of the Company's oil and gas development program, management of the Company anticipates further expenditures to expand its existing portfolio of proved reserves. Amounts expended on future exploration and development is dependent on the nature of future opportunities evaluated by the Company. Any expenditure which exceeds available cash will be required to be funded by additional share capital or debt issued by the Company, or by other means. The Company's long-term profitability will depend upon its ability to successfully implement its business plan.

The Company's past primary source of liquidity and capital resources has been proceeds from the issuance of share capital, shareholders' loans and cash flow from oil and gas operations.

RISK AND UNCERTAINTIES

There have been no material changes during the three months ended February 28, 2014 to the risks and uncertainties as identified in the Management Discussion and Analysis for the year ended August 31, 2013.

Capital Management

The Company's objectives when managing capital are to ensure the Company will have sufficient financial capacity, liquidity and flexibility to fund its operations, growth and ongoing exploration and development commitments on its oil and gas interests. The Company is dependent on funding these activities through debt and equity financings. Due to long lead cycles of the Company's exploration activities, the Company's capital requirements currently exceed its operational cash flow generated. As such the Company is dependent upon future financings in order to maintain its flexibility and liquidity and may from time to time be required to issue equity, issue debt, adjust capital spending or seek joint venture partners.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of any underlying assets in order to meet current and upcoming obligations. Current plans for the development commitments of the Company's Texas leases include debt or equity financing or seeking and obtaining a joint venture partner.

The board of directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management and favourable market conditions to sustain future development of the business.

As at February 28, 2014 and August 31, 2013 and the Company considered its capital structure to comprise of shareholders equity and long-term debt.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's capital management during the period ended February 28, 2014.

The Company is not subject to any externally imposed restrictions on its capital requirements.

RESULTS OF OPERATIONS

Production Volume

For the three months ended February 28, 2014 average natural gas sales volumes were down slightly to 41 mcf/d compared to 51 mcf/d for the same period in 2013. Total production volume for the three months ended February 28, 2013 was 3,645 mcf compared to 4,582 mcf for the same three month period in 2013.

For the six months ended February 28, 2014 average natural gas sales volumes were down slightly to 47 mcf/d compared to 50 mcf/d for the same period in 2013. Total production volume for the six months ended February 28, 2014 was 8,549 mcf compared to 9,132 mcf for the same three month period in 2013.

The decrease in production volume for the three and six months periods in 2014 compared to 2013 was attributed to natural production declines.

Commodity Prices

For the three months ended February 28, 2014 average natural gas prices received per mcf increased to \$3.94 compared to \$2.72 for the three months ended February 28, 2013.

For the six months ended February 28, 2014 average natural gas prices received per mcf increased to \$3.42 compared to \$2.66 for the six months ended February 28, 2013.

The increase in average natural gas prices received for the three and six month period in 2014 was attributed to higher commodity prices for natural gas.

Natural Gas Sales, Net of Royalties	For the Three Months Ended February 28,		For the Six Months Ended February 28,	
	2014	2013	2014	2013
Natural gas sales	\$14,352	\$12,476	\$29,259	\$24,412
Royalties	(4,598)	(2,689)	(5,902)	(4,727)
Natural gas sales, net of royalties	\$9,754	\$9,787	\$23,357	\$19,685

Natural gas sales for the three months ended February 28, 2014 increased by \$1,876 to \$14,352 compared to \$12,476 for the three months ended February 28, 2013 as a result of higher commodity prices.

Natural gas sales for the six months ended February 28, 2014 was also up by \$4,847 to \$29,259 compared to \$24,412 for the six months ended February 28, 2013. The increase in sales during 2014 was primarily attributed to higher commodity prices partially offset by lower production volume.

Royalties for the three months ended February 28, 2014 were \$4,598 versus \$2,689 for the comparable three month period in 2013.

Royalties for the six months ended February 28, 2014 were \$5,902 versus \$4,727 for the comparable six month period in 2013. The increase in royalties for the three and six months ended February 28, 2014 was primarily attributed to higher commodity prices.

Natural gas sales, net of royalties for the three months ended February 28, 2014 decreased slightly to \$9,754 compared to \$9,787 for the same three month period in 2013.

Natural gas sales, net of royalties for the six months ended February 28, 2014 increased by \$3,672 to \$23,357 compared to \$19,685 for the six month period ended February 28, 2013.

Operating Costs

For three months ended February 28, 2014 operating costs were \$3,911 up \$1,345 compared to operating costs of \$2,566 for the three months ended February 28, 2013.

For six months ended February 28, 2014 operating costs were up by \$88 to \$5,888 compared to operating costs of \$5,800 for the six months ended February 28, 2013.

The increase in operating costs for the three and six months ended February 28, 2014 was attributed to increases in gas processing charges and higher maintenance costs.

Depletion and Accretion

Depletion and accretion for the three months ended February 28, 2014 decreased by \$3,438 to \$788 compared to \$4,226 for the three months ended February 28, 2013.

Depletion and accretion for the six months ended February 28, 2014 decreased by \$6,740 to \$1,639 compared to \$8,379 for the six months ended February 28, 2013.

The decrease in depletion and accretion for the three and six months ended February 28, 2014 was primarily attributed to lower carrying costs of the Company's Botha, Alberta property at Nil compared to \$167,780 at February 29 2013.

General and Administrative	For the Three Months Ended February 28,		For the Six Months Ended February 28,	
	2014	2013	2014	2013
Professional fees	\$27,197	\$74,969	\$55,654	\$130,264
Head office costs	26,925	15,850	52,425	56,350
Management fees	18,750	18,750	37,500	37,500

Office and general costs	1,808	21	2,740	979
Advisory fees	-	29,774	-	63,307
Directors fees	1,900	1,800	1,900	1,800
Reserve report fees	-	500	-	4,560
Consulting fees and expenses	-	-	-	15,826
Total	\$101,646	\$172,606	\$179,652	\$344,766

General and administrative expenses for the three months ended February 28, 2014 were \$70,960 lower to \$101,646 compared to \$172,606 for the three months ended February 28, 2013. The decrease in expenses during 2014 was primarily attributed to a decrease in professional fees of \$47,772 to \$27,197 compared to \$74,969 in 2013, a decrease in advisory fees of \$29,774 to Nil compared to \$27,774 in 2013 and a decrease in shareholders information of \$5,860 to \$23,307 compared to \$29,167 for the same three month period in 2013. These decreases were partially offset by an increase of \$11,075 in head office costs.

General and administrative expenses for the six months ended February 28, 2014 were \$165,114 lower to \$179,652 compared to \$344,766 for the six months ended February 28, 2013. The decrease in expenses during the six month period in 2014 was primarily attributed to a decrease in professional fees of \$74,610 to \$55,654 compared to \$130,264 in 2013. These professional fee decreases were primarily related to a reduction in litigation costs for the Matthews Lease, Texas as a result of the settlement of claims. In addition, during 2014 the Company recorded a decrease in advisory fees of \$63,307 to Nil compared to \$63,307 in 2013 as a result of the expiry of an investment banking

agreement. Also during 2014 consulting fees were Nil compared to \$15,826 for the six month period ended February 28, 2013 as a result of lower land man costs during the current period.

Interest Expense

For the three months ended February 28, 2014 the Company incurred interest costs of \$69,197 versus interest costs of \$20,014 for the three months ended February 28, 2013.

For six months ended February 28, 2014 the Company incurred interest costs of \$88,729 versus interest costs of \$40,816 for the six months ended February 28, 2013.

The increase in interest for the three and six months ended February 28, 2014 was primarily attributed increases in foreign rates on US dollar note interest recorded and interest of \$45,150 recorded on a summary judgment of Dyami Energy (see Provisions).

Loss on Derivative Warrant Liabilities

For the three months ended February 28, 2014, the Company recorded an unrealized loss on derivative warrant liabilities of \$89,169 compared to an unrealized loss of \$67,251 for the three months ended February 28, 2013.

For six months ended February 28, 2014 the Company recorded an unrealized loss on derivative warrant liabilities of \$97,786 compared to an unrealized loss of \$79,378 for the six months ended February 28, 2013.

The Company has warrants issued with an exercise price in US dollars which is different from the functional currency of the Company (Canadian Dollars) and accordingly the warrants are treated as a derivative financial liability and the fair value movement during the period is recognized in the statement of operations.

Loss on Foreign Exchange

For the three months ended February 28, 2014 the Company recorded a loss on foreign exchange of \$146,645 compared to a loss of \$111,369 for the same three month period in 2013.

For six months ended February 28, 2014 the Company recorded a loss on foreign exchange of \$163,424 compared to a loss of \$125,722 for the comparable six month period in 2013.

These foreign exchange gains and losses are attributed to the translation of monetary assets and liabilities not denominated in the functional currency of the Company.

Marketing and Public Relations

For the three months ended February 28, 2014 the Company recorded marketing and public relations expenses of Nil compared to marketing and public relations costs of \$6,428 for the same three month period in 2013.

For six months ended February 28, 2014 the Company recorded marketing and public relations expenses of Nil compared to marketing and public relations costs of \$6,428 for the six months ended February 28, 2013.

Net Loss

Net loss for the three months ended February 28, 2014 was \$401,602 compared to a net loss of \$374,673 for the three months ended February 28, 2013. The increase in net loss during 2014 was primarily related to an increase in interest expense of \$49,183 to \$69,197 compared to \$20,014 in 2013, an increase in loss on foreign exchange of \$35,276 to \$146,645 compared to a loss on foreign exchange of \$111,369 in 2013 and an increase of \$21,918 in unrealized loss on derivative warrant liabilities to \$89,169 compared to an unrealized loss of \$67,251 for the three months ended February 28, 2013. The increases during 2014 were partially offset by a decrease of \$70,960 to \$101,646 in general and administrative costs compared to general and administrative costs of \$172,606 during the same period in 2013.

Net loss for the six months ended February 28, 2014 was \$513,761 compared to a net loss of \$591,604 for the six months ended February 28, 2013. The decrease in net loss during 2014 was primarily related to a decrease in general and administrative costs of \$165,114 to \$179,652 compared to general and administrative costs of \$344,766 for the same six month period in 2013. The decreases in general and administrative costs were partially offset by an increase of \$47,913 to \$88,729 in interest expense compared to \$40,816 in 2013, an increase in loss on foreign exchange of \$37,702 to \$163,424 compared to a loss on foreign exchange of \$125,722 in 2013 and an increase of \$18,408 in unrealized loss on derivative warrant liabilities to \$97,786 compared to an unrealized loss of \$79,378 for the six months ended February 28, 2013.

Foreign Currency Translation

For the three months ended February 28, 2014 the Company incurred a loss on foreign currency translation of \$101,504 versus a gain of \$159,531 for the same three month period in 2013.

For six months ended February 28, 2014 the Company the Company incurred a gain on foreign currency translation of \$111,623 versus a gain of \$190,120 for the six months ended February 28, 2013.

These gains and losses are related to translation differences between Dyami Energy's US dollar functional currency converted into Canadian dollars at the period end exchange rates, and the results operations converted at average rates of exchange for the period.

Comprehensive Loss

Comprehensive loss for the three months ended February 28, 2014 was \$503,106 compared to a comprehensive loss of \$215,142 for the three months ended February 28, 2013.

Comprehensive loss for the six months ended February 28, 2014 was \$402,138 compared to a comprehensive loss of \$401,484 for the six months ended February 28, 2013.

Loss per Share, Basic and Diluted

Basic and diluted loss per share for the three months ended February 28, 2014 was \$0.003 compared to basic and diluted loss per share of \$0.004 for the same three month period in 2013.

Basic and diluted loss per share for the six months ended February 28, 2014 was \$0.004 compared to basic and diluted loss per share of \$0.006 for the six months ended February 28, 2013.

Revenue, net of royalties for the four quarters fluctuated as a result of changes in production volume and commodity prices. The material change in net loss during the quarters was primarily related to increases in general and administrative costs, gain or loss on foreign exchange and the fair value movement of derivative warrant liabilities during the respective periods. During the three months ended February 28, 2013 the Company recorded a loss on foreign exchange of \$111,369. During the three months ended August 31, 2012 the Company recorded compensation expense on re-pricing units of \$188,625 and an impairment of property and equipment in the amount of \$50,744. During the quarter ended May 31, 2012 the Company recorded \$159,850 in stock based compensation expense.

CAPITAL EXPENDITURES

For the six months ended February 28, 2014, the Company recorded additions to exploration and evaluation assets of \$124,989 on its Leases located in Zavala County, Texas (year ended August 31, 2013: \$404,818).

The Company expects that its capital expenditures will increase in future reporting periods as the Company incurs costs to explore and develop its oil and gas properties.

FINANCING ACTIVITIES

During the six months ended February 28, 2014, 6,519,043 common share purchase warrants were exercised at \$0.04 expiring February 27, 2014 for settlement of cash advances of \$228,167.

During the six months ended February 28, 2014 the Company entered into a Joint Development Agreement on the Matthews Lease and received cash of \$162,530, and the payment of certain obligations under the Lease.

LIQUIDITY AND CAPITAL RESOURCES

Cash as of February 28, 2014 was \$154,112 compared to cash of \$196,837 at August 31, 2013.

For the six months ended February 28, 2014 the primary use of funds was related to administrative expenses. The Company's working capital deficiency at February 28, 2014 was \$5,025,370 compared to a working capital deficiency of \$4,985,312 at August 31, 2013.

Our current assets of \$528,846 as at February 28, 2014, (\$382,918 as of August 31, 2013) include the following items: cash \$154,112 (\$196,837 as of August 31, 2013); trade and other receivables \$42,484 (\$27,786 as of August 31, 2013); and prepaid expenses and deposits of \$332,250 (\$158,295 as of August 31, 2013).

Our current liabilities of \$5,554,216 as of February 28, 2014 (\$5,368,230 as of August 31, 2013) include the following items: trade and other payables \$1,792,103 (\$1,379,581 as of August 31, 2013); shareholders' loans \$1,976,038 (\$2,108,205 as of August 31, 2013); secured note payable of \$1,063,200 (\$1,013,088 as of August 31, 2013); and derivative warrant liabilities of \$722,875 (\$688,803 as of August 31, 2013); and provisions Nil (\$178,553 as of August 31, 2013).

At February 28, 2014 the Company had outstanding the following common share purchase warrants: 19,150,000 warrants exercisable at \$0.05 per share; 8,121,627 warrants exercisable at US\$0.50 per share; and 1,025,983 warrants exercisable at US\$0.25. If any of these common share purchase warrants are exercised it would generate additional capital for us.

Management of the Company recognizes that cash flow from operations is not sufficient to expand its oil and gas operations and reserves or meet its working capital requirements. The Company has liquidity risk which necessitates the Company to obtain debt financing, enter into joint venture arrangements, or raise equity. There is no assurance the Company will be able to obtain the necessary financing in a timely manner.

The Company's past primary source of liquidity and capital resources has been proceeds from the issuance of share capital, shareholders' loans and cash flow from oil and gas operations. If the Company issued additional common shares from treasury it would cause the current shareholders of the Company dilution.

Outlook and Capital Requirements

A part of our oil and gas development program, we anticipate further expenditures to expand our existing portfolio of proved reserves. Amounts expended on future exploration and development is dependent on the nature of future opportunities evaluated by us. Any expenditure which exceeds available cash will be required to be funded by additional share capital or debt issued by us, or by other means. Our long-term profitability will depend upon our ability to successfully implement our business plan.

a) Decommissioning Obligations

The Company's decommissioning obligations result from its ownership interests in petroleum and natural gas assets including well sites, gathering systems and processing facilities. The total decommissioning obligation is estimated based on the Company's net ownership interest in all wells and facilities, estimated costs to reclaim and abandon these wells and facilities, and the estimated timing of the costs to be incurred in future years. The Company has estimated the net present value of decommissioning obligations to be \$104,467 at February 28, 2014 (August 31, 2013 \$119,742) based on an undiscounted total future liability of \$142,052 (August 31, 2013 \$166,578). These payments are expected to be incurred between 2015 and 2031. The discount factor, being the risk free rate related to the liability is 2.96% (August 31, 2013: 3.09%). The above amount has been classified as long term.

b) Other Provisions

In February 2013, a vendor of Dyami Energy applied a lien on the Murphy #4 well and filed a claim in the District Court of Zavala County, Texas (Case No. 13-02-12941-ZCV) seeking payment of US\$169,196 for services. Dyami Energy was disputing the amount on the basis of negligence by the vendor. On January 28, 2014 the vendor received a summary judgment against Dyami Energy in the amount of \$169,196 plus interest at a rate of 18% per annum from September 17, 2012 until paid and legal fees of \$21,178 plus interest at a rate of 5% per annum from the date of judgment until paid. The full amount of the provision has been recorded and the legal fees together with interest of \$45,150 at February 28, 2014 were expensed as incurred. The provision, legal fees and interest have been transferred to trade and other payables.

In May 2012 a vendor of Dyami Energy filed a claim in the District Court of Harris County, Texas seeking payment of US\$64,866. Dyami Energy was disputing the amount charged due to faulty equipment. The full amount of the provision which was accrued in the prior year 2012 was reversed in 2013 as the vendor is no longer in good standing as a Texas corporation and the vendor's attorney filed in the District Court of Harris County, Texas a motion to withdraw as counsel.

In December 2011, a vendor of Dyami Energy filed a claim in the District Court of Harris County, Texas (Case No. 2011-74035/Court: 113) seeking payment of US\$62,800. Dyami Energy disputed the claim on the basis of excessive charges. In December 2013 an agreed final judgment in favour of the vendor was entered into court in the amount of \$42,803 and post judgment interest at 5% per annum until paid in full. The provision has been transferred to trade and other payables and interest of US \$1,054 at February 28, 2014 was expensed as incurred.

SECURED NOTE PAYABLE

At February 28, 2014 and August 31, 2013 the Company had a US\$960,000, 10% per annum secured promissory note payable to Benchmark Enterprises LLC. The note and all unpaid and accrued interest was due on or before August 31, 2013, or within 15 days of written demand to the Company, or upon the Company closing a cash financing or series of cash financings in excess of US\$2,500,000 in which case fifty cents of every one dollar exceeding US\$2,500,000 will be allocated to the secured note until paid in full. A lien has been placed on the Murphy #4 well by a judgment debtor of Dyami Energy. The Murphy #4 well which is located on the Murphy Lease is included as part of the security for the note. Under the terms of the note the Company shall not permit to exist any liens on the assets comprising the underlying security for the note. As of the date of the unaudited interim condensed consolidated financial statements, the Company has not paid any principle of the note and has not received written demand for payment. For the six months ended February 28, 2014 the Company recorded interest of \$51,584 (February 28, 2013: \$48,288). At February 28, 2014 included in trade and other payables is interest of \$230,117 (August 31, 2013: \$169,033). The note is secured by the interests held by any of the Company's subsidiaries in the Matthews Lease and Murphy Lease in Zavala County, Texas (the "Leases"). The carrying value of their interests in the Leases at February 28, 2014 was \$2,794,135 (August 31, 2013: \$2,829,830). The Company may, in its sole discretion, prepay any portion of the principal amount.

DERIVATIVE WARRANT LIABILITIES

The Company has warrants issued with an exercise price in US dollars which are different from the functional currency of the Company (Canadian Dollars) and accordingly the warrants are treated as a financial liability and the fair value movement during the period is recognized in profit or loss. The Company recorded loss on derivative warrant liabilities of \$97,786 during the six months ended February 28, 2014 (February 28, 2013: \$79,378). For the three months ended February 28, 2014 the Company recorded a loss of \$89,169 (February 28, 2013: \$67,251).

The following tables set out the number of derivative warrant liabilities outstanding at February 28, 2014:

SEASONALITY AND TREND INFORMATION

The Company's oil and gas operations is not a seasonal business, but increased consumer demand or changes in supply in certain months of the year can influence the price of produced hydrocarbons, depending on the circumstances. Production from the Company's oil and gas properties is the primary determinant for the volume of sales during the year.

The level of activity in the oil and gas industry is influenced by seasonal weather patterns. Wet weather and spring thaw may make the ground unstable. Consequently, municipalities and provincial transportation departments enforce road bans that restrict the movement of rigs and other heavy equipment, thereby reducing activity levels. Also, certain oil and gas properties are located in areas that are inaccessible except during the winter months because of swampy terrain and other areas are inaccessible during certain months of year due to deer hunting season. Seasonal factors and unexpected weather patterns may lead to declines in exploration and production activity and corresponding declines in the demand for the goods and services of the Company.

The impact on the oil and gas industry from commodity price volatility is significant. During periods of high prices, producers conduct active exploration programs. Increased commodity prices frequently translate into very busy periods for service suppliers triggering premium costs for their services. Purchasing land and properties similarly increase in price during these periods. During low commodity price periods, acquisition costs drop, as do internally generated funds to spend on exploration and development activities. With decreased demand, the prices charged by the various service suppliers also decline.

World oil and gas prices are quoted in United States dollars and the price received by Canadian producers is therefore effected by the Canadian/U.S. dollar exchange rate, which will fluctuate over time. Material increases in the value of the Canadian dollar may negatively impact production revenues from Canadian producers. Such increases may also negatively impact the future value of such entities' reserves as determined by independent evaluators. In recent years, the Canadian dollar has increased materially in value against the United States dollar.

Recent Adopted Accounting Standards

IFRS 10, "Consolidated Financial Statements" replaces the consolidation requirements of SIC-12 Consolidation Special Purpose Entities and IAS 27 "Consolidated Separate Financial Statements". It introduces a new principle-based definition of control, applicable to all investees to determine the scope of consolidation. The standard provides the framework for consolidated financial statements and their preparation based on the principle of control. This new standard is effective for the Company's Interim and Consolidated financial statements commencing September 1, 2013. Adoption of this standard did not have a significant impact on its consolidated financial statements.

IFRS 11 "Joint Arrangements" which replaces IAS 31, "Interests in Joint Ventures". IFRS 11 divides joint arrangements into two types, each having its own accounting model. A "joint operation" continues to be accounted for using proportionate consolidation, whereas a "joint venture" must be accounted for using equity accounting. This differs from IAS 31, where there was the choice to use proportionate consolidation or equity accounting for joint ventures. A "joint operation" is defined as the joint operators having rights to the assets, and obligations for the liabilities, relating to the arrangement. In a "joint venture", the joint ventures partners have rights to the net assets of the arrangement, typically through their investment in a separate joint venture entity. This new standard is effective for the Company's Interim and Consolidated financial statements commencing September 1, 2013. Adoption of this standard did not have a significant impact on its consolidated financial statements.

IFRS 12 "Disclosure of Interests in Other Entities" is a new standard, which combines all of the disclosure requirements for subsidiaries, associates and joint arrangements, as well as unconsolidated structured entities. This new standard is effective for the Company's Interim and Consolidated financial statements commencing September 1, 2013. Adoption of this standard did not have a significant impact on its consolidated financial statements.

IFRS 13 "Fair Value Measurement" replaces the fair value guidance contained in individual IFRS with a single source of fair value measurement guidance. The standard also requires disclosures which enable users to assess the methods and inputs used to develop fair value measurements. This new standard is effective for the Company's Interim and Consolidated financial statements commencing September 1, 2013. Adoption of this standard did not have a significant impact on its consolidated financial statements.

IAS 1 "Presentation of Financial Statements" was amended by the IASB in order to align the presentation of items in comprehensive income with US GAAP. Items in other comprehensive income will be required to be presented in two categories: items that will be reclassified into profit or loss and those that will not be reclassified. The flexibility to present a statement of comprehensive income remains unchanged. The amendments to IAS 1 are effective for annual periods beginning on or after July 1, 2012. This new standard is effective for the Company's Interim and Consolidated financial statements commencing September 1, 2013. Adoption of this standard did not have a significant impact on its consolidated financial statements.

IAS 27 "Separate Financial Statements". In May 2011, the IASB amended IAS 27, Separate Financial Statements ("IAS 27"). This amendment removes the requirements for consolidated statements from IAS 27, and moves it over to IFRS 10 "Consolidated Financial Statements". The amendment mandates that when a company prepares separate financial statements, investment in subsidiaries, associates, and jointly controlled entities are to be accounted for using either the cost method or in accordance with IFRS 9 "Financial Instruments". In addition, this amendment determines the treatment for recognizing dividends, the treatment of certain group reorganizations, and some disclosure requirements. This amendment is effective for the Company's interim and annual consolidated financial statements commencing September 1, 2013. Adoption of this standard did not have a significant impact on its consolidated financial statements.

IAS 28 "Investments in Associates and Joint Ventures". In May 2011, the IASB amended IAS 28, investments in Associates and Joint Ventures ("IAS 28"). This amendment requires any retained portion of an investment in an associate or joint venture that has not been classified as held for sale to be measured using the equity method until disposal. After disposal, if the retained interest continues to be an associate or joint venture, the amendment requires for it to be continued to be accounted for under the equity method. The amendment also disallows the re measurement of any retained interest in an investment upon the cessation of significant influence or joint control. This amended standard is effective for the Company's interim and annual consolidated financial statements commencing September 1, 2013. Adoption of this standard did not have a significant impact on its consolidated financial statements.

IFRS 7, "Financial Instruments": Disclosures", which requires disclosure of both gross and net information about financial instruments eligible for offset in the statement of financial position and financial instruments subject to master netting agreements. Concurrent with the amendments to IFRS 7, the IASB also amended IAS 32, "Financial Instruments: Presentation" to clarify the exiting requirements for offsetting financial instruments in the statement of financial position. The amendments to IAS 32 are effective as of January 1, 2014. Adoption of this standard did not have a significant impact on its consolidated financial statements.

Recent Issued Accounting Pronouncements

The following are new IFRS pronouncements that have been issued, although not yet effective and have not been early adopted, and may have an impact on the Company in the future as discussed below.

IAS 32 "Financial Instruments: Presentation". In December 2011, the IASB issued an amendment to clarify the meaning of the offsetting criterion and the principle behind net settlement, including identifying when some gross settlement systems may be considered equivalent to net settlement. This amendment is effective for the Company's interim and annual consolidated financial statements commencing September 1, 2014. Earlier application is permitted when applied with corresponding amendment to IFRS 7.

IAS 36 "Impairment of Assets". In May 2013, the IASB issued an amendment to address the disclosure of information about the recoverable amount of the impaired assets if that amount is based on fair value less costs of disposal. This amendment is effective for the Company's interim and annual consolidated financial statements commencing September 1, 2014. The Company is assessing the impact of this amended standard on its consolidated financial statements.

IAS 39 "Financial Instruments: Recognition and Measurement". In June 2013, the IASB issued a narrow scope amendment to IAS 39. Under the amendment, there would be no need to discontinue hedge accounting if a hedging derivative was novated, provided that certain criteria are met. This amendment is effective for the Company's interim and annual consolidated financial statements commencing September 1, 2014. The Company is assessing the impact of this amended standard on its consolidated financial statements.

IFRIC 21 "levies". Issued in May 2013, this interpretation provides guidance on when to recognize a liability for a levy imposed by a government, both for levies that are accounted for in accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* and those where the timing and amount of the levy is certain. This is effective for the Company's interim and annual consolidated financial statements commencing September 1, 2014. The Company is assessing the impact of this amended standard on its consolidated financial statements.

IFRS 9 "Financial Instruments". In October 2010, the IASB issued IFRS 9, Financial Instruments ("IFRS 9"). IFRS 9, which replaces IAS 39, Financial Instruments: Recognition and Measurement, establishes principles for the financial reporting of financial assets and financial liabilities that will present relevant and useful information to users of financial statements for their assessment of the amounts, timing and uncertainty of an entity's future cash flows. This new standard is effective for the Company's interim and annual consolidated financial statements commencing September 1, 2015. The Company is assessing the impact of this new standard on its consolidated financial statements.

CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The Company's management made assumptions, estimates and judgments in the preparation of the Unaudited Condensed Interim Consolidated Financial Statements. Actual results may differ from those estimates, and those differences may be material. There has been no material changes in the three months ended February 28, 2014 to the critical accounting estimates and judgments.
