GENERAL

In this Annual Report, references to “we”, “us”, “our”, the “Company”, and “Novicius” means Novicius Corp. (Formerly: Intelligent Content Enterprises Inc.), and its subsidiaries, unless the context requires otherwise.

We use the Canadian dollar as our reporting and presentation currency and our consolidated financial statements are prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”). All monetary references in this document are to Canadian dollars, unless otherwise indicated. All references in this document to “dollars” or “\$” or “CDN\$” mean Canadian dollars, unless otherwise indicated, and references to “US\$” mean United States dollars.

Except as noted, and the Audit Report contained in the consolidated financial statements for the year ended August 31, 2017, 2016 and 2015 which is dated as of December 28, 2017, the information set forth in this Annual Report is as of November 30, 2017 and all information included in this document should only be considered accurate as of such date. Our business, financial condition or results of operations may have changed since that date.

NOTE REGARDING FORWARD-LOOKING STATEMENTS

Much of the information included in this Annual Report is based upon estimates, projections or other “forward-looking statements”. Such forward-looking statements include any projections or estimates made by us and our management in connection with our business operations. These statements relate to future events or our future financial performance. In some cases you can identify forward-looking statements by terminology such as “may”, “should”, “expects”, “plans”, “anticipates”, “believes”, “estimates”, “predicts”, “potential” or “continue” or the negative of those terms or other comparable terminology. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested herein. Such estimates, projections or other forward-looking statements involve various risks and uncertainties and other factors, including the risks in the section titled “Risk Factors” below, which may cause our actual results, levels of activities, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. We caution the reader that important factors in some cases have affected and, in the future, could materially affect actual results and cause actual results to differ materially from the results expressed in any such estimates, projections or other forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform those statements to actual results.

Please see “Item 3. Key Information — Risk Factors” for a further discussion of certain factors that may cause actual results to differ materially from those indicated by our forward-looking statements. The statements contained in Item 4 – “Information on the Company”, Item 5 – “Operating and Financial Review and Prospects” and Item 11 – “Quantitative and Qualitative Disclosures about Market Risk” are inherently subject to a variety of risks and uncertainties that could cause actual results, performance or achievements to differ significantly. “Exchange Act” shall mean Securities Exchange Act of 1934, as amended.

B. CAPITALIZATION AND INDEBTEDNESS

Not Applicable. This Form 20-F is being filed as an Annual Report under the Exchange Act.

C. REASONS FOR THE OFFER AND USE OF PROCEEDS

Not Applicable. This Form 20-F is being filed as an Annual Report under the Exchange Act.

D. RISK FACTORS

Our securities are highly speculative and subject to a number of risks. You should not consider an investment in our securities unless you are capable of sustaining an economic loss of the entire investment. Furthermore, if other risks not presently known to us, or that we do not currently believe to be significant, occur or become significant, our financial condition and results of operations could suffer and the trading price of our common stock could decline. **In addition to the other information presented in this Annual Report, the following risk factors should be given special consideration when evaluating an investment in our securities.**

INVESTING IN OUR COMMON STOCK INVOLVES A HIGH DEGREE OF RISK. PROSPECTIVE INVESTORS SHOULD CAREFULLY CONSIDER THE RISKS DESCRIBED BELOW, TOGETHER WITH ALL OF THE OTHER INFORMATION INCLUDED IN OR REFERRED TO IN THIS REPORT, BEFORE PURCHASING SHARES OF OUR COMMON STOCK. THERE ARE NUMEROUS AND VARIED RISKS, KNOWN AND UNKNOWN, THAT MAY PREVENT US FROM ACHIEVING OUR GOALS. THE RISKS DESCRIBED BELOW ARE NOT THE ONLY ONES WE WILL FACE. IF ANY OF THESE RISKS ACTUALLY OCCURS, OUR BUSINESS, FINANCIAL CONDITION OR RESULTS OF OPERATION MAY BE MATERIALLY ADVERSELY AFFECTED. IN SUCH CASE, THE TRADING PRICE OF OUR COMMON STOCK COULD DECLINE AND INVESTORS IN OUR COMMON STOCK COULD LOSE ALL OR PART OF THEIR INVESTMENT. THE INFORMATION IN THIS PROSPECTUS IS COMPLETE AND ACCURATE AS OF THE DATES REFERENCED HEREIN, BUT THE INFORMATION MAY CHANGE AFTER SUCH DATE.

SHOULD ONE OR MORE OF THE FOREGOING RISKS OR UNCERTAINTIES MATERIALIZE, OR SHOULD THE UNDERLYING ASSUMPTIONS OF OUR BUSINESS PROVE INCORRECT, ACTUAL RESULTS MAY DIFFER SIGNIFICANTLY FROM THOSE ANTICIPATED, BELIEVED, ESTIMATED, EXPECTED, INTENDED OR PLANNED.

General Risk Factors

We require additional capital which may not be available to us on acceptable terms, or at all. We have accumulated significant losses and negative cash flows from operations in recent years which raises doubt as to the validity of the going concern assumption. As at August 31, 2017, we had a working capital deficit of \$487,776 and an accumulated deficit of \$31,684,984. We may not have sufficient funds to meet our liabilities for the ensuing twelve months as they become due. In assessing whether the going concern assumption is appropriate, we take into account all available information about the future, which is at least, but not limited to, twelve months from August 31, 2017. Our ability to continue operations and fund our liabilities is dependent on our ability to secure additional financing and cash flow. We are pursuing such additional sources of financing and cash flow to fund our operations and obligations and while we have been successful in doing so in the past, there can be no assurance we will be able to do so in the future. We intend to satisfy any additional working capital requirements from cash flow and by raising capital through public or private sales of debt or equity securities, debt financing or short-term loans, or a combination of the foregoing. We have no current arrangements for obtaining additional capital, and may not be able to secure additional capital, or on terms which will not be objectionable to us or our shareholders. Under such circumstances, our failure or inability to obtain additional capital on acceptable terms or at all could have a material adverse effect on us.

We have a history of losses and a limited operating history as a technology company which makes it more difficult to evaluate our future prospects. To date, we have incurred significant losses. We have a limited operating history upon which any evaluation of us and our long-term prospects might be based. We are subject to the risks inherent in the technology industry, as well as the more general risks inherent to the operation of an established business. We and our prospects must be considered in light of the risks, expenses and difficulties encountered by all companies engaged in the extremely volatile and competitive technology markets. Any future success we might achieve will depend upon many factors, including factors, which may be beyond our control. These factors may include changes in technologies, price and product competition, developments and changes in the international market, changes in our strategy, changes in expenses, fluctuations in foreign currency exchange rates, general economic conditions, and economic and regulatory conditions specific to the areas in which we compete.

We have significant trade and other payables which may make it difficult to service our debts, and adversely affects our ability to obtain additional financing, engage in any business combinations which affects our operations. At August 31, 2017 we had trade and other payables in the amount of \$529,823. If in the future we are unable to service our debt obligations we may, among other things, need to refinance all or a portion of our debt at an increased borrowing cost, obtain additional financing, delay capital expenditures or sell material assets. If we are not able to re-finance our debt as necessary, obtain additional financing or sell assets on commercially acceptable terms or at all, we may not be able to satisfy our debt obligations.

Our operating results will be affected by foreign exchange rates. Since a portion of our revenue stream and a portion of our expenses are incurred in US dollars they are affected by U.S./Canadian dollar exchange rates. We do not hedge this exposure. While to date this exposure has not been material, it may become so in the future.

Our inability to manage our expected growth could have a material adverse effect on our business operations and prospects. We may be subject to growth-related risks including capacity constraints and pressure on our internal systems and controls. The ability to manage growth effectively will require us to continue to implement and improve our operational and financial systems and to expend, train and manage our employee base. The inability to deal with this growth could have a material adverse impact on our business, operations and prospects.

To compete in our industry, we must attract and retain qualified personnel. Our ability to continue our business and to develop a competitive edge in the marketplace depends, in large part, on our ability to attract and retain qualified management and personnel. Competition for such personnel is intense, and we may not be able to attract and retain such personnel which may negatively impact our share price. We do not have key-man insurance on any of our employees, directors or senior officers.

We must continue to institute procedures designed to avoid potential conflicts involving our officers and directors. Some of our directors and officers are or may serve on the board of directors of other companies from time to time. Pursuant to the provisions of the Business Corporations Act (*Ontario*), our directors and senior officers must disclose material interests in any contract or transaction (or proposed contract or transaction) material to us. To avoid the possibility of conflicts of interest which may arise out of their fiduciary responsibilities to each of the boards, all such directors have agreed to abstain from voting with respect to a conflict of interest between the applicable companies. In appropriate cases, we will establish a special committee of independent directors to review a matter in which several directors, or members of management, may have a conflict.

We rely on the expertise of certain persons and must insure that these relationships are developed and maintained. We are dependent on the advice and project management skills of various consultants and joint venture partners contracted by us from time to time. Our failure to develop and maintain relationships with qualified consultants and joint venture partners will have a material adverse effect on our business and operating results.

We must indemnify our officers and directors against certain actions. Our articles contain provisions that state, subject to applicable law, we must indemnify every director or officer, subject to the limitations of the Business Corporations Act (*Ontario*), against all losses or liabilities that our directors or officers may sustain or incur in the execution of their duties. Our articles further state that no director or officer will be liable for any loss, damage or misfortune that may happen to, or be incurred by us in the execution of his duties if he acted honestly and in good faith with a view to our best interests. Such limitations on liability may reduce the likelihood of litigation against our officers and directors and may discourage or deter our shareholders from suing our officers and directors based upon breaches of their duties to us, though such an action, if successful, might otherwise benefit us and our shareholders.

We do not currently maintain a permanent place of business within the United States. A majority of our directors and officers are nationals or residents of countries other than the United States, and all or a substantial portion of such persons' assets are located outside the United States. As a result, it may be difficult for investors to enforce within the United States any judgments obtained against our company or our officers or directors, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state.

Inability to Enforce Legal Right. Substantially all of our assets are located outside of the United States. It may not be possible for investors to enforce judgments in the United States against our assets. In addition, many of our directors and officers are residents of Canada or otherwise reside outside the United States, and all or a substantial portion of their assets, are located outside the United States. It may also be difficult for holders of our common shares who reside in the United States to realize in the United States upon judgments of courts of the United States predicated upon our civil liability and the civil liability of our directors, officers and experts under the U.S. federal securities laws.

Insurance Coverage. We may require insurance coverage for a number of risks. At present insurance coverage is unavailable to the company given its lack of funds. The Company's financial resources, results of operations and prospects could be adversely affected in the event of a claim against the Company.

Risks Factors Relating to Our Common Stock

Our stockholders may have difficulty selling shares of our common stock as there is a limited public trading market for such stock. There is only a limited public market for our common stock, and no assurance can be given that a broad or active public trading market will develop in the future or, if developed, that it will be sustained. Our common stock trades on the OTC Markets QB and the Canadian Securities Exchange. In addition, our common stock has not been qualified under any applicable state blue-sky laws, and we are under no obligation to so qualify or register our common stock, or otherwise take action to improve the public market for such securities. Our common stock could have limited marketability due to the following factors, each of which could impair the timing, value and market for such securities: (i) lack of profits, (ii) need for additional capital, (ii) limited public market for such securities; (iii) the applicability of certain resale requirements under the Securities Act; and (iv) applicable blue sky laws and the other factors discussed in this Risk Factors section.

Possible volatility of stock price. The market price for our common stock may be volatile and is subject to significant fluctuations in response to a variety of factors, including the liquidity of the market for the common stock, variations in our quarterly operating results, regulatory or other changes in the oil and gas industry generally, announcements of business developments by us or our competitors, litigation, changes in operating costs and variations in general market conditions. Because we have a limited operating history, the market price for our common stock may be more volatile than that of a seasoned issuer. Changes in the market price of our securities may have no connection with our operating results. No predictions or projections can be made as to what the prevailing market price for our common stock will be at any time.

We do not anticipate paying dividends on our common stock. We do not anticipate paying cash dividends on our common shares in the foreseeable future. We may not have sufficient funds to legally pay dividends. Even if funds are legally available to pay dividends, we may nevertheless decide, in our sole discretion, not to pay dividends. The declaration, payment and amount of any future dividends will be made at the discretion of our Board of Directors, and will depend upon, among other things, the results of our operations, cash flows and financial condition, operating and capital requirements, and other factors our Board of Directors may consider relevant. There is no assurance that we will pay any dividends in the future, and, if dividends are paid, there is no assurance with respect to the amount of any such dividend.

Our shareholders may experience dilution of their ownership interests because of our future issuance of additional shares of common stock.

Our constituting documents authorize the issuance of an unlimited number of shares of common stock, without par value. In the event that we are required to issue additional shares of common stock or securities exercisable for or convertible into additional shares of common stock, enter into private placements to raise financing through the sale of equity securities or acquire additional oil and gas property interests in the future from the issuance of shares of our common stock to acquire such interests, the interests of our existing shareholders will be diluted and existing shareholders may suffer dilution in their net book value per share depending on the price at which such securities are sold. If we do issue additional shares, it will cause a reduction in the proportionate ownership and voting power of all existing shareholders. As of the date of this Annual report we had outstanding the following common share purchase warrants: 160,519 warrants exercisable at \$3.50 per share, 23,636 warrants exercisable at \$12.50 per share and 24,056 warrants exercisable at \$10.00 per share. As of the date of this Annual report we had the following share purchase options outstanding; 5,000 exercisable at \$12.00 per share, 70,000 exercisable at \$15.00 per share and 80,000 exercisable at \$13.00 per share. If any of these common share purchase warrants or common share purchase options are exercised it would generate additional capital for us. (See Item 5: "Operating and Financial Review and Prospects – Share Capital and Reserves and Derivative Liabilities" and Item 4.A "History and Development of the Company").

Prospective investors in our Company are urged to seek independent investment advice. Independent legal, accounting or business advisors (i) have not been appointed by, and have not represented or held themselves out as representing the interests of prospective investors in connection with this Annual Report, and (ii) have not "expertized" or held themselves out as "expertizing" any portion of this Annual Report, nor is our legal counsel providing any opinion in connection with us, our business or the completeness or accuracy of this Annual Report. Neither we nor any of our respective officers, directors, employees or agents, including legal counsel, make any representation or expresses any opinion (i) with respect to the merits of an investment in our common stock, including without limitation the proposed value of our common stock; or (ii) that this Annual Report provides a complete or exhaustive description of us, our business or relevant risk factors which an investor may now or in the future deem pertinent in making his, her or its investment decision. Any prospective investor in our common stock is therefore urged to engage independent accountants, appraisers, attorneys and other advisors to (a) conduct such due diligence review as such investor may deem necessary and advisable, and (b) to provide such opinions with respect to the merits of an investment in our Company and applicable risk factors upon which such investor may deem necessary and advisable to rely. We will fully cooperate with any investor who desires to conduct such an independent analysis so long as we determine, in our sole discretion, that such cooperation is not unduly burdensome.

Applicable SEC rules governing the trading of “penny stocks” will limit the trading and liquidity of our common stock and may affect the trade price for our common stock. The Securities and Exchange Commission (“SEC”) has adopted rules which generally define “penny stock” to be any equity security that has a market price (as defined) of less than US\$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities will be covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and “accredited investors”. The term “accredited investor” refers generally to institutions with assets in excess of US\$5,000,000 or individuals with a net worth in excess of US\$1,000,000 or annual income exceeding US\$200,000 or US\$300,000 jointly with their spouse.

The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the SEC which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the shares that are subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We expect that the penny stock rules will discourage investor interest in and limit the marketability of our common shares.

In addition to the “penny stock” rules described above, The Financial Industry Regulatory Authority (“FINRA”) has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, the FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. The FINRA requirements will make it more difficult for broker-dealers to recommend that their customers buy our common shares, which may limit your ability to buy and sell our shares and have an adverse effect on the market for our shares.

Financial Industry Regulatory Authority, Inc. (“FINRA”) sales practice requirements may limit a shareholder's ability to buy and sell our common shares. In addition to the “penny stock” rules described above, FINRA has adopted rules that require that in recommending an investment to a client, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that client. Prior to recommending speculative low priced securities to their non-institutional clients, broker-dealers must make reasonable efforts to obtain information about the client's financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some clients. FINRA requirements make it more difficult for broker-dealers to recommend that their clients buy our common shares, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

As a public company we are subject to complex legal and accounting requirements that will require us to incur significant expenses and will expose us to risk of non-compliance. As a public company, we are subject to numerous legal and accounting requirements in both Canada and the United States of America that do not apply to private companies. The cost of compliance with many of these requirements is material, not only in absolute terms but, more importantly, in relation to the overall scope of the operations of a small company. Our relative inexperience with these requirements may increase the cost of compliance and may also increase the risk that we will fail to comply. Failure to comply with these requirements can have numerous adverse consequences including, but not limited to, our inability to file required periodic reports on a timely basis, loss of market confidence, delisting of our securities and/or governmental or private actions against us. We cannot assure you that we will be able to comply with all of these requirements or that the cost of such compliance will not prove to be a substantial competitive disadvantage compared to privately held and larger public competitors.

Compliance with changing regulation of corporate governance and public disclosure will result in additional expenses and pose challenges for our management. Changing laws, regulations and standards relating to corporate governance and public disclosure, including the Dodd-Frank Wall Street Reform and Consumer Protection Act and the rules and regulations promulgated thereunder, the Sarbanes-Oxley Act and SEC regulations, have created uncertainty for public companies and significantly increased the costs and risks associated with accessing the U.S. public markets. Our management team needs to devote significant time and financial resources to comply with both existing and evolving standards for public companies, which will lead to increased general and administrative expenses and a diversion of management time and attention from revenue generating activities to compliance activities.

Changes in tax laws or tax rulings could materially affect our financial position and results of operations. Changes in tax laws or tax rulings could materially affect our financial position and results of operations. For example, the current U.S. administration and key members of Congress have made public statements indicating that tax reform is a priority. Certain changes to U.S. tax laws, including limitations on the ability to defer U.S. taxation on earnings outside of the United States until those earnings are repatriated to the United States, could affect the tax treatment of our foreign earnings. In addition, many countries in the European Union, as well as a number of other countries and organizations such as the Organization for Economic Cooperation and Development, are actively considering changes to existing tax laws. Certain proposals could include recommendations that would significantly increase our tax obligations in many countries where we do business. Due to the large and expanding scale of our international business activities, any changes in the taxation of such activities may increase our worldwide effective tax rate and harm our financial position and results of operations.

Because we are quoted on the OTCQB instead of a national securities exchange in the United States, our U.S. investors may have more difficulty selling their stock or experience negative volatility on the market price of our stock in the United States. In the United States, our common shares are quoted on the OTCQB. The OTCQB is marketed as an electronic exchange for high growth and early stage U.S. companies and a prospective “final step toward a NASDAQ or NYSE listing” (although no assurances can be provided that such change of market shall occur). Trades are settled and cleared in the U.S. similar to any NASDAQ or NYSE stock and trade reports are disseminated through Yahoo, Bloomberg, Reuters, and most other financial data providers. The OTCQB may be significantly illiquid, in part because it does not have a national quotation system by which potential investors can follow the market price of shares except through information received and generated by a limited number of broker-dealers that make markets in particular stocks. There is a greater chance of volatility for securities that trade on the OTCQB as compared to a national securities exchange in the United States, such as the New York Stock Exchange, the NASDAQ Stock Market or the NYSE Amex. This volatility may be caused by a variety of factors, including the lack of readily available price quotations, the absence of consistent administrative supervision of bid and ask quotations, lower trading volume, and market conditions. U.S. investors in our common shares may experience high fluctuations in the market price and volume of the trading market for our securities. These fluctuations, when they occur, have a negative effect on the market price for our common shares. Accordingly, our U.S. shareholders may not be able to realize a fair price from their shares when they determine to sell them or may have to hold them for a substantial period of time until the market for our common shares improves.

Volatility in our common share price may subject us to securities litigation, thereby diverting our resources that may have a material effect on our profitability and results of operations. The market for our common shares is characterized by significant price volatility when compared to seasoned issuers, and we expect that our share price will continue to be more volatile than a seasoned issuer for the indefinite future. In the past, plaintiffs have often initiated securities class action litigation against a company following periods of volatility in the market price of its securities. We may in the future be the target of similar litigation. This type of litigation could result in substantial costs and could divert management’s attention and resources.

Rule 144 sales in the future may have a depressive effect on the company’s stock price as an increase in supply of shares for sale, with no corresponding increase in demand will cause prices to fall. All of the outstanding shares of common stock held by the present officers, directors, and affiliate stockholders are “restricted securities” within the meaning of Rule 144 under the Securities Act of 1933, as amended. As restricted shares, these shares may be resold only pursuant to an effective registration statement or under the requirements of Rule 144 or other applicable exemptions from registration under the Securities Act of 1933 and as required under applicable state securities laws. Rule 144 provides in essence that a person who is an affiliate or officer or director who has held restricted securities for six months may, under certain conditions, sell every three months, in brokerage transactions, a number of shares that does not exceed the greater of 1.0% of a Company’s issued and outstanding common stock. There is no limit on the amount of restricted securities that may be sold by a non-affiliate after the owner has held the restricted securities for a period of six months if the Company is a current reporting company under the Securities Exchange Act of 1934. A sale under Rule 144 or under any other exemption from the Securities Act of 1933, if available, or pursuant to subsequent registration of shares of common stock of present stockholders, may have a depressive effect upon the price of the common stock in any market that may develop. In addition, if we are deemed a shell company pursuant to Section 12(b)-2 of the Act, our “restricted securities”, whether held by affiliates or non-affiliates, may not be re-sold for a period of 12 months following the filing of a Form 10 level disclosure or registration pursuant to the Securities Act of 1933.

Failure to achieve and maintain effective internal controls in accordance with Section 404 of the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”) could have a material adverse effect on our business and our operating results. If we fail to comply with the requirements of Section 404 of the Sarbanes-Oxley Act regarding internal control over financial reporting or to remedy any material weaknesses in our internal controls that we may identify, such failure could result in material misstatements in our financial statements, cause investors to lose confidence in our reported financial information and have a negative effect on the trading price of our common shares.

Pursuant to Section 404 of the Sarbanes-Oxley Act and current SEC regulations, we are required to prepare assessments regarding internal controls over financial reporting. In connection with our on-going assessment of the effectiveness of our internal control over financial reporting, we may discover “material weaknesses” in our internal controls as defined in standards established by the Public Company Accounting Oversight Board, or the PCAOB. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the annual or interim financial statements will not be prevented or detected. The PCAOB defines “significant deficiency” as a deficiency that results in more than a remote likelihood that a misstatement of the financial statements that is more than inconsequential will not be prevented or detected. In the event that a material weakness is identified, we will employ qualified personnel and adopt and implement policies and procedures to address any material weaknesses that we identify. However, the process of designing and implementing effective internal controls is a continuous effort that requires us to anticipate and react to changes in our business and the economic and regulatory environments and to expend significant resources to maintain a system of internal controls that is adequate to satisfy our reporting obligations as a public company. We cannot assure you that the measures we will take will remediate any material weaknesses that we may identify or that we will implement and maintain adequate controls over our financial process and reporting in the future.

A failure remediate any material weaknesses that we may identify or to implement new controls, or difficulties encountered in their implementation, could harm our operating results, cause us to fail to meet our reporting obligations or result in material misstatements in our financial statements. Any such failure could adversely affect the results of the management evaluations of our internal controls. Inadequate internal controls could also cause investors to lose confidence in our reported financial information, which could have a negative effect on the trading price of our common shares.

Risks Factors Relating to Our Business

Changes in regulations or user concerns regarding privacy and protection of user data, or any failure to comply with such laws, could adversely affect our business. Federal, state, and international laws and regulations govern the collection, use, retention, disclosure, sharing and security of data that we receive from and about our users. The use of consumer data by online service providers and advertising networks is a topic of active interest among federal, state, and international regulatory bodies, and the regulatory environment is unsettled. Many states have passed laws requiring notification to users where there is a security breach for personal data, such as California’s Information Practices Act. We face similar risks in international markets where our products and services are offered. Any failure, or perceived failure, by us to comply with or make effective modifications to our policies, or to comply with any federal, state, or international privacy, data-retention or data-protection-related laws, regulations, orders or industry self-regulatory principles could result in proceedings or actions against us by governmental entities or others, a loss of user confidence, and a loss of users, advertising partners, any of which could potentially have an adverse effect on our business.

If we are unable to license, acquire, create or aggregate compelling content and services at reasonable cost, or receive compelling content, the number of users of our services may not grow as anticipated, or may decline, or users' level of engagement with our services may decline, all of which could harm our operating results. Our future success depends in part on our ability to aggregate compelling content and deliver that content through our online properties. We license from third parties much of the content and services on our online properties, such as news, stock quotes, weather, sports, video, and photos. In addition, our users also contribute content to us. We believe that users will increasingly demand high-quality content and services. We may need to make substantial payments to third parties from whom we license or acquire such content or services. Our ability to maintain and build relationships with such third-party providers is critical to our success. In addition, as users increasingly access the Internet via mobile and other alternative devices, we may need to enter into amended agreements with existing third-party providers to cover new devices. We may be unable to enter into new, or preserve existing, relationships with the third-parties whose content or services we seek to obtain. In addition, as competition for compelling content increases both domestically and internationally, our third-party providers may increase the prices at which they offer their content and services to us, stop offering their content or services to us, or offer their content and services on terms that are not agreeable to us. An increase in the prices charged to us by third-party providers could harm our operating results and financial condition. Further, because many of our licenses for our content and services with third parties are non-exclusive, other media providers may be able to offer similar or identical content. This increases the importance of our ability to deliver compelling editorial content and personalization of this content for users in order to differentiate Novicius from other businesses. If we are unable to license or acquire compelling content at reasonable cost, if other companies distribute content or services that are similar to or the same as that provided by us, or if we do not receive compelling content from our users, the number of users of our services may not grow as anticipated, or may decline, users' level of engagement with our services may decline, clicks on our ads may decrease, or advertisers may reduce future purchases of our ads, all or any of which could harm our operating results.

Technologies, tools, software, and applications could block our advertisements, impair our ability to deliver interest-based advertising, or shift the location in which advertising appears, which could harm our operating results. Technologies, tools, software, and applications (including new and enhanced browsers) have been developed and are likely to continue to be developed that can block or allow users to opt out of display, search, and interest-based advertising and content, delete or block the cookies used to deliver such advertising, or shift the location in which advertising appears on pages so that our advertisements do not show up in the most monetizable places on our pages or are obscured. Most of our revenue is derived from fees paid by advertisers in connection with the display of graphical and non-graphical advertisements or clicks on search advertisements on web pages. As a result, the adoption of such technologies, tools, software, and applications could reduce the number of search and display advertisements that we are able to deliver and/or our ability to deliver interest-based advertising and this, in turn, could reduce our advertising revenue and operating results.

Interruptions, delays, or failures in the provision of our services could damage our reputation and harm our operating results. Delays or disruptions to our service, or the loss or compromise of data, could result from a variety of causes, including power loss, equipment or telecommunications failures, cyber-attacks, terrorist attacks, political or social unrest, natural disasters or other events over which we have little or no control. The systems through which we provide our products and services are highly technical, complex, and interdependent. Design errors might exist in these systems, or might be introduced when we make modifications, which might cause service malfunctions or require services to be taken offline. We rely on third-party providers over which we have little or no control for our principal Internet connections and co-location of a significant portion of our data servers, as well as for our payment processing capabilities and key components or features of certain of our products and services. Any disruption of the services they provide us or any failure of these third-party providers to handle higher volumes of use could, in turn, cause delays or disruptions in our services and loss of revenue. In addition, if our agreements with these third-party providers are terminated for any reason, we might not have a readily available alternative. Prolonged delays or disruptions to our service could result in a loss of users, legal costs or liability, and harm to our operating results.

Fluctuations in foreign currency exchange rates may adversely affect our operating results and financial condition. Revenue generated and expenses incurred by us are often denominated in U.S. dollars. Our financial statements are reported in Canadian Dollars and as such are subject to fluctuations due to changes in exchange rates as the financial results are translated into Canadian dollars. From time to time we hold a significant portion of our cash reserves in Canadian dollars. Due to foreign exchange rate fluctuations, the value of these Canadian dollar reserves can result in translation gains or losses in U.S. dollar terms. If there was a significant decline in the Canadian dollar versus the U.S. dollar, our converted Canadian dollar cash balances presented in U.S. dollars on our balance sheet would significantly decline. If the US dollar significantly declines relative to the Canadian dollar our quoted US dollar cash position would significantly decline as it would be more expensive in US dollar terms to pay Canadian dollar expenses. We have not entered into derivative instruments to offset the impact of foreign exchange fluctuations Our financial results are also subject to changes in exchange rates that impact the settlement of transactions in foreign currencies.

We may be subject to legal liability associated with providing online services or content. We provide a wide variety of services and technology products that enable and encourage individuals and businesses to exchange information; upload or otherwise generate photos, videos, text, and other content; advertise products and services; conduct business; and engage in various online activities both domestically and internationally. The law relating to the liability of providers of online services and products for activities of their users is currently unsettled both within the United States and internationally. As a publisher and producer of original content, we may be subject to claims such as copyright, libel, defamation or improper use of publicity rights, as well as other infringement claims such as plagiarism which could result in substantial costs to enforce or defend.

Certain of our metrics are subject to inherent challenges in measurement, and real or perceived inaccuracies in such metrics may harm our reputation and negatively affect our business. We present key metrics such as unique users, number of Ads Sold, number of Paid Clicks, Search click-driven revenue, Price-per-Click and Price-per-Ad that are calculated using internal company data. We periodically review, refine and update our methodologies for monitoring, gathering, and calculating these metrics.

While our metrics are based on what we believe to be reasonable measurements and methodologies, there are inherent challenges in deriving our metrics across large online and mobile populations around the world. In addition, our user metrics may differ from estimates published by third parties or from similar metrics of our competitors due to differences in methodology. Furthermore, over time we may revise or cease reporting certain metrics that we no longer believe are useful or meaningful measures of our performance and add new metrics which we believe are better measurements of performance.

If advertisers or publishers do not perceive our metrics to be accurate, or if we discover material inaccuracies in our metrics, it could negatively affect our reputation, business and financial results.

We rely on third parties to provide the technologies necessary to deliver content, advertising, and services to our users, and any change in the licensing terms, costs, availability, or acceptance of these formats and technologies could adversely affect our business. We rely on third parties to provide the technologies that we use to deliver the majority of the content, advertising, and services to our users. There can be no assurance that these providers will continue to license their technologies or intellectual property to us on reasonable terms, or at all. Providers may change the fees they charge users or otherwise change their business model in a manner that slows the widespread acceptance of their technologies. In order for our services to be successful, there must be a large base of users of the technologies necessary to deliver our content, advertising, and services. We have limited or no control over the availability or acceptance of those technologies, and any change in the licensing terms, costs, availability, or user acceptance of these technologies could adversely affect our business.

Our business depends on continued and unimpeded access to the Internet by us and our users. Internet access providers may be able to block, degrade, or charge for access to certain of our products and services, which could lead to additional expenses and the loss of users and advertisers. Our products and services depend on the ability of our users to access the Internet, and certain of our products require significant bandwidth to work effectively. Currently, this access is provided by companies that have significant market power in the broadband and internet access marketplace, including incumbent telephone companies, cable companies, mobile communications companies, and government-owned service providers. Some of these providers may take, or have stated that they may take, measures that could degrade, disrupt, or increase the cost of user access to certain of our products by restricting or prohibiting the use of their infrastructure to support or facilitate our offerings, or by charging increased fees to us or our users to provide our offerings. Such interference could result in a loss of existing users and advertisers, and increased costs, and could impair our ability to attract new users and advertisers, thereby harming our revenues and growth. The adoption of any laws or regulations that limit access to the Internet by blocking, degrading or charging access fees to us or our users for certain services could decrease the demand for, or the usage of, our products, services and apps, increase our cost of doing business and adversely affect our operating results.

Any failure to manage expansion and changes to our business could adversely affect our operating results. If we are unable to effectively manage our employees or to anticipate our future growth, our business may be adversely affected. As we change and attempt to expand our business, we must also expand and adapt our operational infrastructure. Our business relies on data systems, billing systems, and financial reporting and control systems, among others. All of these systems have become increasingly complex in the recent past due to the growing complexity of our business, acquisitions of new businesses and increased regulation over controls and procedures. To manage our business in a cost-effective manner, we will need to continue to upgrade and improve our data systems, billing systems, and other operational and financial systems, procedures, and controls. In some cases, we are outsourcing administrative functions to lower-cost providers. These upgrades, improvements and outsourcing changes will require a dedication of resources and in some cases are likely to be complex. If we are unable to adapt our systems and put adequate controls in place in a timely manner, our business may be adversely affected.

Adverse macroeconomic conditions could cause decreases or delays in spending by our advertisers and could harm our ability to generate revenue and our results of operations. Advertising expenditures tend to be cyclical, reflecting overall economic conditions and budgeting and buying patterns. Since we anticipate that most of our revenue will be derived from advertising, future adverse macroeconomic conditions could cause, decreases or delays in advertising spending and negatively impact our advertising revenue and short-term ability to grow our revenue. Further, any decreased collectability of accounts receivable or early termination of agreements, whether resulting from customer bankruptcies or otherwise due to adverse macroeconomic conditions, could negatively impact our results of operations.

If we are not able to protect and control unpatented trade secrets, know-how and other technological innovation, we may suffer competitive harm. We rely to a large extent on trade secrets, confidential information and proprietary know-how to protect our technology and maintain our competitive position, especially when we do not believe that patent protection is appropriate or can be obtained. Trade secrets are difficult to protect. In order to protect proprietary technology and processes, we rely in part on confidentiality and intellectual property assignment agreements with our employees, consultants and others. These agreements generally provide that the individual must keep confidential and not disclose to other parties any confidential information developed or learned by the individual during the course of the individual's relationship with us except in limited circumstances. These agreements generally also provide that we shall own all inventions conceived by the individual in the course of rendering services to us. These agreements may not effectively prevent disclosure of confidential information or result in the effective assignment to us of intellectual property, and may not provide an adequate remedy in the event of unauthorized disclosure of confidential information or other breaches of the agreements. In addition, others may independently discover trade secrets and proprietary information that have been licensed to us or that we own, and in such case we could not assert any trade secret rights against such party.

Enforcing a claim that a party illegally obtained and is using trade secrets that have been licensed to us or that we own is difficult, expensive and time-consuming, and the outcome is unpredictable. In addition, courts outside the United States may be less willing to protect trade secrets. Costly and time-consuming litigation could be necessary to seek to enforce and determine the scope of our proprietary rights, and failure to obtain or maintain trade secret protection could have a material adverse effect on our business. If we cannot maintain the confidentiality of our technologies and other confidential information in connection with our collaborations, our ability to protect our proprietary information or obtain patent protection in the future may be impaired, which could have a material adverse effect on our business.

Costs of Maintaining a Public Listing. As a public company, there are costs associated with legal, accounting and other expenses related to regulatory compliance. Securities legislation and the rules and policies of the CSE require listed companies to, among other things, adopt corporate governance and related practices, and to continuously prepare and disclose material information, all of which add to a company's legal and financial compliance costs. We may also elect to devote greater resources than we otherwise would have as a private company on communication and other activities typically considered important by publicly traded companies.

Risks Associated with Acquisitions. Subsequent to the year ended August 31, 2017, the Company executed a non-binding Letter of Intent with Grown Rogue Unlimited, LLC, an Oregon limited liability company ("Grown Rogue") according to which it is contemplated that the Company will combine its business operations with Grown Rogue (the "Transaction") resulting in a reverse take-over of the Company by Grown Rogue (See Item 4.A "History and Development of the Company").

As part of our overall business strategy, the Company intends to pursue select strategic acquisitions, which may provide additional product offerings, vertical integrations, additional industry expertise, and a stronger industry presence in both existing and new jurisdictions. Future acquisitions may expose us to potential risks, including risks associated with: (a) the integration of new operations, services and personnel; (b) unforeseen or hidden liabilities; (c) the diversion of resources from our existing business and technology; (d) potential inability to generate sufficient revenue to offset new costs; (e) the expenses of acquisitions; or (f) the potential loss of or harm to relationships with both employees and existing users resulting from our integration of new businesses (g) industry specific risks associated with any such acquisition, including but not limited to potential risks associated with the cannabis industry. In addition, any proposed acquisitions may be subject to regulatory approval.

Difficulty Implementing Business Strategy. Our growth and expansion is heavily dependent upon the successful implementation of our business strategy. There can be no assurance that we will be successful in the implementation of our business strategy.

A. HISTORY AND DEVELOPMENT OF THE COMPANY

We were incorporated in Ontario, Canada on September 22, 1978, under the Business Corporations Act (*Ontario*), under the name Bonanza Red Lake Explorations Inc. (“Bonanza Red Lake”). By prospectus dated November 20, 1978 and a further amendment to the Prospectus dated January 10, 1979 we became a reporting issuer in the Province of Ontario and raised \$250,000 to acquire interests in and to explore and develop certain mineral lands located near the Town of Red Lake, Ontario, Canada. In 1987, we optioned our mineral lands in Red Lake, Ontario to Pure Gold Resources Inc., who expended sufficient funds during 1988 and 1989 to earn an 85% interest in our eight patented mineral claims, and then discontinued its exploration program on the property. Bonanza Red Lake had subsequently written the carrying amount of these mineral claims down to \$1.

On March 29, 2000, Bonanza Red Lake entered into a Share Exchange Agreement with 1406768 Ontario Inc. (“1406768 Ontario”). 1406768 Ontario is a company incorporated under the laws of the Province of Ontario by articles of incorporation dated effective March 13, 2000. The purpose of the transaction was to allow Bonanza Red Lake to acquire a company, 1406768 Ontario, which resulted in our owning part of an operating business. At an Annual and Special Meeting of shareholders held on May 10, 2000 we received shareholder approval for the acquisition of 1406768 Ontario; the consolidation of Bonanza Red Lake’s issued and outstanding common shares on a one new common share for every three old common shares basis; a name change from Bonanza Red Lake to Eugenic Corp; a new stock option plan (the “Plan”) authorizing 1,275,000 common shares to be set aside for issuance under the Plan; and authorizing the directors to determine or vary the number of directors of the Company from time to time which pursuant to our Articles provide for a minimum of three and a maximum of ten.

By Articles of Amendment dated August 15, 2000, Bonanza Red Lake consolidated its issued and outstanding common shares on a one new common share for every three old common shares basis and changed the name of the company to Eugenic Corp.

We completed the acquisition of 1406768 Ontario on October 12, 2000 and acquired all of the issued and outstanding shares of 1406768 Ontario for \$290,000. The purchase price was satisfied by our issuance of 5,800,000 company units at \$0.05 per unit. Each unit consisted of one common share and one common share purchase warrant entitling the holder to purchase one common share of ours at an exercise price of \$0.25 per common share until October 12, 2003. As a result of this transaction, the original shareholders of 1406768 Ontario owned 90.7% of our issued shares. The acquisition resulted in a change in business and an introduction of new management for us. The acquisition was accounted for as a reverse take-over of us by 1406768 Ontario. On February 27, 2009, we purchased all of the issued and outstanding shares issued in the capital stock of 1354166 Alberta Ltd. ("1354166 Alberta"), a company incorporated on October 3, 2007 in the Province of Alberta Canada (the "Transaction") under the Business Corporations Act (Alberta). In connection therewith, we issued to the shareholders of 1354166 an aggregate of 8,910,564 units (each a "Unit") at \$0.05 per unit or an aggregate of \$445,528 and following the closing repaid \$118,000 of shareholders' loans in 1354166 by cash payment. 1354166 was a private company that had a 5.1975% working interest in a natural gas unit located in the Botha area of Alberta, Canada.

By Articles of Amendment dated November 12, 2009, 1406768 Ontario changed its name to Eagleford Energy Inc. By Articles of Amalgamation dated November 30, 2009 we amalgamated with Eagleford Energy Inc. and upon the amalgamation the amalgamated entity's name became Eagleford Energy Inc.

On August 31, 2010 we acquired a 10% working interest before payout and a 7.5% working interest after payout of production revenue of \$15 million in the Matthews lease comprising approximately 2,629 gross acres of land in Zavala County, Texas (the "Lease Interest"). As consideration for the Lease Interest we paid on closing \$212,780 (US\$200,000).

On August 31, 2010, we acquired 100% of the issued and outstanding membership interests of Dyami Energy LLC, a Texas limited liability corporation for consideration of \$4,218,812. (US\$3,965,422) satisfied by (i) the issuance of 3,418,467 units of the Company. Each unit is comprised of one common share and one-half a purchase warrant. Each full warrant was exercisable into one additional common share at US\$1.00 per share on or before August 31, 2014 (the "Units") and (ii) the assumption of \$1,021,344 (US\$960,000) of Dyami Energy debt by way of a secured promissory note payable to Benchmark Enterprises LLC ("Benchmark"). The 6% per annum note was secured by Dyami's interest in the Matthews and Murphy leases and was payable on December 31, 2011 or upon the Company closing a financing or series of financings in excess of US\$4,500,000. Commencing January 1, 2012 the interest rate increased from 6% to 10% and the due date of the note was extended to August 31, 2013, or within 15 days of written demand to us, or upon us closing of a cash financing or series of cash financings closing after the date of this agreement in excess of US\$2,500,000 (Two Million, Five Hundred Thousand USA dollars), (the "Funding Threshold") in which case fifty cents of every one dollar exceeding the Funding Threshold will be allocated to the Note until paid in full or upon an Event of Default. On January 3, 2012 we issued 515,406 pre forward split common shares to shares Benchmark as full settlement of interest due at December 31, 2011 in the amount of \$103,028.

Dyami Energy held a 75% working interest before payout and a 61.50% working interest after payout of production revenue of \$12.5 million in the Matthews Lease comprising approximately 2,629 gross acres of land in Zavala County, Texas and a 100% working interest in a mineral lease comprising approximately 2,637 acres of land in Zavala County, Texas (the "Murphy Lease") subject to a 10% carried interest on the drilling costs from surface to base of the Austin Chalk formation, and a 3% carried interest on the drilling costs from the top of the Eagle Ford shale formation to basement on the first well drilled into a serpentine plug and for the first well drilled into a second serpentine plug, if discovered (collectively the "Leases") (See *Item 4.B: "Information on the Company – History and Development of the Company"*).

The Members of Dyami entered into lock up agreements on closing and placed 50% of the Units in escrow until such time that we receive a National Instrument 51-101 compliant report from an independent engineering firm indicating at least 100,000 boe of proven reserves on either the Murphy Lease or any formation below the San Miguel on the Matthews Lease (the "Report"). The Report was not received by Dyami Energy within two years of the closing date of the acquisition and the escrow units were to be returned to us for cancellation. On August 31, 2012 we cancelled the 50% of Units held in escrow as the conditions precedent had not been satisfied and the time allowed for performance expired.

On March 31, 2011 we entered into a Farmout Agreement (the "Farmout") from surface to the base of the San Miguel formation (the "San Miguel") on the Matthews Lease located in Zavala County, Texas. Under the Farmout, the farmee may spend up to US\$1,050,000 on exploration and development of the San Miguel to earn a maximum of 42.50% working interest (31.875% net revenue interest). Under the terms of the Farmout, the farmee may earn an initial 25% of the Company's working interest in the San Miguel by paying 100% of the costs to drill, complete, equip and perform an injection operation on a test well to a depth of approximately 3,500 feet (the "Initial Test Well"). After the performance of the Initial Test Well, the farmee may increase its working interest to 50% of the Company's working interest by spending the entire \$1,050,000 on additional operations on the San Miguel in a good faith effort to produce hydrocarbons. We received US\$647,536 from the farmee against costs of \$711,395 related to the drilling, completion and injection operation of the Matthews/Dyami #3 well. As of the date of this Annual Report we have not assigned any interest to the farmee in the San Miguel formation.

During the fiscal year ended August 31, 2011 we drilled four wells and recorded additions of \$3,262,782 to exploration and evaluation assets related to the Matthews and Murphy Leases.

As of the close of business on March 16, 2012, we completed a two-for-one forward stock split, pursuant to which one (1) newly-issued share of the Company's common stock was issued to each holder of a share of common stock.

Subsequent to September 1, 2013 and the continuing development of the Matthews lease, Dyami Energy continued its development efforts with the Murphy lease. A tentative joint venture agreement with Stratex was reached but did not materialize and efforts to develop the Murphy lease were not successful. The Company had solicited lenders and investors in an attempt to obtain debt/equity financings as a means to improve Dyami Energy's financial situation. Despite the Company's attempts, these efforts were unsuccessful and management determined that it could no longer fund the Murphy operations, hence the lease was considered impaired and an impairment loss was recorded by Dyami Energy during the third quarter.

On March 6, 2014, the Company filed a Certificate of Termination of a Domestic Entity with the Secretary of State, Texas for our wholly-owned subsidiary Dyami Energy and effective April 3, 2014, Dyami Energy was dissolved. All prior obligations with respect to the Matthew's and Murphy leases on the books of Dyami Energy prior to its dissolution were recorded by the Company.

During the year ended August 31, 2013, the Company, Dyami Energy and OGR Energy Corporation, the Lessees, were litigating a dispute with the Lessors of the Matthew's property. During the last quarter of fiscal year August 2013, the Company and the Lessors agreed to resolve the litigation and continue with the development of the Matthew's property. In order to comply with certain State legal requirements, it was deemed necessary by the Lessors counsel to continue with the development through a newly executed lease document and the Company formed, Zavala Inc. a new wholly owned subsidiary to execute the new lease. The new lease was signed effective September 1, 2013 and the first of two payments of US\$150,000 were paid to the Lessors upon signing the new lease as required initial pre-payment of anticipated production royalties along with a continuing development obligation under the lease to complete the previously drilled Matthews #1H horizontal well or drill a new well on the Matthews property no later than March 30, 2014. On September 1, 2013, the Matthews lease was renewed by the Company through Zavala Inc. and based on the concept of faithful representation under IAS 8, the carrying value of the Matthew's lease by Dyami Energy was considered to be the value for Zavala Inc. as this arrangement is simply a reorganization in substance.

On December 3, 2013, (amended January 21, 2014) we had entered into a Joint Development Agreement with Stratex Oil and Gas Holdings, Inc. ("Stratex") (the "Stratex JDA") to further develop the Matthews Lease. Under the terms of the Stratex JDA, Stratex acted as operator and upon Stratex delivering i) US\$150,000 to the lessors of the Matthews Lease on behalf of Zavala Inc., ii) delivering US \$150,000 to the Company; and iii) commencing a hydraulic fracture of the Matthews #1H not later than March 31, 2014, Stratex earned a 66.67% working interest before payout (50% working interest after payout) in the Matthews #1H well and a 50% working interest in the 2,629 acre Matthews Lease.

On April 11, 2014, the Company entered into a further Joint Development Agreement ("JDA2") with Stratex and Quadrant Resources LLC, ("Quadrant") for the development of the San Miguel formation on the Matthews Lease. Pursuant to the terms of the JDA2, upon satisfaction of certain conditions including the Phase 1 Work Program and the cash consideration described below, Quadrant could earn an undivided 66.67% before payout and a 50% working interest after payout to the base of the San Miguel formation of the Matthews Lease by i) drilling 3 new wells and reworking 5 wells at its sole cost and expense by June 30, 2015 (the "Phase I Work Program"); ii) deliver US\$100,000 to the Company upon execution of the JDA2 (paid); and iii) deliver US\$65,000 to the Company on each of July 8, 2014, October 6, 2014, January 5, 2015 and April 6, 2015. The Company recorded the cash payments and the payment of certain obligations under the Matthews Lease by Quadrant totaling US\$303,712 (CDN\$378,577) as a reduction in exploration and evaluation assets. Under the terms of the JDA2 Quadrant was required to complete the Phase I Work Program and pay the Company cash consideration totaling US\$360,000 by June 30, 2015, which it did not and accordingly the JDA2 expired without Quadrant earning any interest in the development area.

We filed Articles of Amendment effective August 25, 2014 consolidating the common shares of Eagleford Energy Inc., on the basis of one (1) common share for every ten (10) common shares and changed our name to Eagleford Energy Corp.

During the year ended August 30, 2014, we converted shareholders' loans and interest due in the aggregate amount of \$1,180,570 through the issuance of a total of 147,571 units in the capital of our Company at a price of \$8.00 per unit. Each unit is comprised of one (1) common share and one half of one (1/2) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of CDN\$10.00 until August 30, 2017.

For the twelve months ended August 31, 2014, the Company recorded net additions of \$113,578 in exploration and evaluation assets and a net impairment loss of \$1,315,276 related to the Murphy Lease.

Effective March 31, 2015, we entered into a settlement with Stratex and Quadrant pursuant to which Stratex assigned all of its rights, title and interest in, to and under the Matthews Lease and the JDA, to us and Quadrant, and issued to us 1,333,333 common shares of Stratex as repayment of the disputed minimum royalty of US\$152,293 and a further payment of US\$25,000 was to be paid to us under the settlement agreement. On May 12, 2015 we incorporated EEZ Operating Inc., in the state of Texas and took over as the operator of the Matthews Lease.

On July 2, 2015, the 2629 acre Matthews Lease transitioned into its production unit phase. A total of 340 acres were held as production units. Accordingly, we wrote down the lease to fair value of \$1,212,996 and recorded an impairment of exploration and evaluation assets at August 31, 2015 of \$4,490,045.

At August 31, 2014, we had a secured convertible promissory note payable with a face value of (US\$1,216,175) (the "Note"). The Note had an interest rate of 10%. The Note was due on the earliest to occur of: (a) August 31, 2015; (b) the closing of any subsequent financing or series of financings by us that resulted in gross proceeds of an aggregate amount equal to or greater than US\$4,400,000, excluding conversion of any existing debt into equity; (c) the date of a sale by us of all of the shares in the capital stock of Zavala Inc. held by us from time to time; (d) the closing of a merger, reorganization, take-over or other business combination which results in a change of control of us or Zavala Inc.; or (e) an event of default.

In accordance with the terms of the Note and the General Security Agreement (the "Loan Agreements") between us and Benchmark Enterprises Inc., ("Benchmark") we had granted and conveyed a first priority security interest in the Company and Zavala Inc.

At August 31, 2015, we were unable to pay the Note of \$1,608,149 (US\$1,216,175) plus interest of \$154,179 (US\$121,618), totaling \$1,762,328 (US\$1,337,793), which constituted an event of default pursuant to the terms of the Loan Agreements. Benchmark having made demand for payment of all amounts owed to it under the Note, gave notice to us that it intended to exercise its security on our assets.

In an effort to avoid further costs, we entered into a Settlement and Exercise of Security Agreement with Benchmark whereby effective August 31, 2015, the Company assigned and conveyed to Benchmark all of its rights, title and interest in and to Zavala Inc., and issued to Benchmark 100,000 shares of common stock of the Company. As a result of the extinguishment of the Note, the Company's investment in Zavala Inc. has been deconsolidated from the Company's Consolidated Financial Statements as at August 31, 2015 and presented as discontinued operations.

On August 13, 2015, we filed a petition against Stratex in the District Court of Harris County, Texas seeking breach of the settlement agreement dated March 31, 2015, for monies owed under the settlement agreement and unpaid production revenue of approximately US\$44,000 in the aggregate plus damages. On December 4, 2015, we obtained a judgment against Stratex in the amount of \$62,069.

Effective November 18, 2015, we entered into shares for debt conversion agreements and converted loans and interest due in the aggregate amount of \$1,262,453 through the issuance of 954,311 common shares in the capital of the Company. The fair value of \$6,371,457 was recorded as an increase to common shares and \$5,097,166 was recorded as a loss on settlement of debt.

Effective November 18, 2015, we issued 50,000 common shares in our capital at a price of \$1.00 per share for gross proceeds of \$50,000.

Effective November 18, 2015, we issued 1,032,998 Units in the capital of the Company pursuant to the anti-dilution provision of the August 30, 2014, debt conversion agreements. Each unit was comprised of one (1) common share and one half of one (1/2) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of CDN\$10.00 until August 30, 2017. The fair value of the units of \$6,896,800 was allocated to the common shares in the amount of \$5,034,157 and warrants in the amount of \$1,862,643 based on their relative fair values and \$6,896,800 was recognized as a loss on settlement of debt in the statement of operations.

We filed articles of amendment effective February 1, 2016, and changed our name from Eagleford Energy Corp., to Intelligent Content Enterprises Inc., and consolidated our common shares on the basis of one (1) new share for every ten (10) old shares.

The Company negotiated an Asset Purchase Agreement to be effective February 29, 2016, with an expectation to acquire the net assets (the "Acquired Assets") of Digital Widget Factory Inc., a Belize company (the "Vendor"), in an all-stock transaction by issuing 12,500,000 common shares and 5,750,000 Series A preferred shares (the "Proposed Purchase Price Shares"). The essential components of the proposed Acquired Assets were an intelligent content platform technology developed by Digital Widget Factory Inc. and a series of related websites under the url digiwdgy.com. The fair value of the transaction was estimated at \$9,530,250 and agreed to be paid by the Company through the issuance of the Proposed Purchase Price Shares.

Subsequent to February 29, 2016, management of the Company came to the conclusion that certain representations and warranties made under the Asset Purchase Agreement were conceivably deficient and on November 24, 2016, the Company advanced a Notice of Claim. On December 22, 2016, it was agreed that all disputed matters contained in the Asset Purchase Agreement, be resolved in a Settlement Agreement whereby the Company agreed to return the Acquired Assets to the Vendor and the Vendor agreed to return the Proposed Purchase Price Shares back to the Company.

The Settlement Agreement closed effective January 20, 2017, when the Company returned the Acquired Assets to the Vendor and the Vendor returned to the Company the Proposed Purchase Price Shares previously issued to the Vendor and a full and final release in respect of all obligations under the DWF Agreement was exchanged between the Vendor and the Company. The Proposed Purchase Price Shares have been cancelled in the capital stock of the Company and the Company no longer has any interest in the DWF Technology and the series of digiwdgy.com websites.

Effective February 29, 2016, we disposed of our investment in 1354166 Alberta Ltd. ("1354166 Alberta") an Alberta company.

On February 29, 2016, we entered into asset purchase and debt settlement agreement and converted loans and interest in the aggregate amount of \$277,473 in exchange for our 0.03% net smelter return royalty on 8 mining claim blocks located in Red Lake, Ontario which were carried on the consolidated statement of financial position at \$Nil.

On February 29, 2016, the Company entered into debt conversion agreements and converted debt in the aggregate amount of \$451,557 through the issuance of 150,519 units in the capital of the Company. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$3.50 until March 1, 2019.

On February 29, 2016, the Company completed a private placement for gross proceeds of \$30,000 and issued 10,000 units in the capital of the Company at a purchase price of \$3.00 per unit. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$3.50 until March 1, 2019.

On May 25, 2016, the Company entered into a Term Sheet to license to acquire all the technology, production and client operations owned and operated by New York based Catch Star Studios LLC (“Catch Star”). On October 12, 2016, the Company advanced US\$65,000 (\$81,483 at August 31, 2017) to Catch Star and entered into a Secured Promissory Note and General Security Agreement (the “Note”) with Catch Star. The Note is due on demand and is secured by all of the assets of Catch Star. Subsequently, Catch Star and the Company could not reach a definitive agreement to memorialize the terms and conditions of the Term Sheet and abandoned the prospective transaction. On February 1, 2017, the Company issued a letter of demand for the repayment of the Note in full. At August 31, 2017, the Company determined that the Secured Note was uncollectible and recorded an impairment of the full amount.

On August 31, 2016, we completed private placements for gross proceeds of \$260,000 and issued 23,636 units in the capital of the Company at a purchase price of \$11.00 per unit. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$12.50 until August 31, 2019.

During the year ended August 31, 2016, 51,868 common share purchase warrants were exercised at \$10.00 for proceeds of \$518,683.

On November 30, 2016, we completed a private placement for gross proceeds of \$50,000 and issued 7,692 units in the capital of the Company at a purchase price of \$6.50 per unit. Each unit was comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$10.00 until November 30, 2019.

Effective May 26, 2017, we changed our name from Intelligent Content Enterprises Inc., to Novicius Corp., and consolidated our common shares on the basis of one (1) new share for every ten (10) old shares.

Effective August 31, 2017, we settled shareholder advances of \$213,781 and issued 1,187,672 common shares in the capital ours at a price of \$0.18 per share.

As a result of the November 30, 2016, private placement of \$50,000 and the August 31, 2017, settlement of shareholder advances of \$213,781, effective August 31, 2017, we issued 1,420,809 common shares and 16,364 Units in the capital of the Company pursuant to the anti-dilution provisions of the August 31, 2016, private placement agreements.

On August 31, 2017, 538,417 common share purchase warrants expired. The amount allocated to warrants based on the Binomial Lattice model was \$2,195,738 with a corresponding increase to contributed surplus.

Subsequent to the year ended August 31, 2017, the Company executed a non-binding Letter of Intent with Grown Rogue Unlimited, LLC, an Oregon limited liability company (“Grown Rogue”) according to which it is contemplated that the Company will combine its business operations with Grown Rogue (the “Transaction”) resulting in a reverse take-over of the Company by Grown Rogue. The Transaction as currently contemplated will result in Grown Rogue becoming a wholly-owned subsidiary of the Company or otherwise combining its corporate existence with a wholly-owned subsidiary of the Company. No representation is given that the Transaction will close however if closed as contemplated it is expected that: (a) the current holders of the Company securities will own, and have the right to acquire upon exercise of warrants and options, common shares representing 3.6% of fully diluted common shares of the Resulting Issuer; (b) 55,500,000 post consolidated common shares of the Company (“Nov Shares”), or as adjusted such that the owners of Grown Rogue will own at least 75.9% of the Resulting Issuer on the closing of the Transaction, will be issued to the owners of Grown Rogue in exchange for all of the issued and outstanding equity membership interests of Grown Rogue based on a valuation acceptable to the parties of at least \$27,750,000 and Nov Shares being issued at \$0.50 per share and (c) purchasers of Offered Securities issued in the Private Placement will own 20.5% of fully diluted common shares of the Resulting Issuer.

The Company anticipates further expenditures to be made on future opportunities evaluated by the Company. Any expenditure which exceeds available cash will be required to be funded by additional share capital or debt issued by the Company, or by other means. The Company’s long-term profitability will depend upon its ability to successfully implement its business plan. The Company’s past primary source of liquidity and capital resources has been proceeds from the issuance of share capital, shareholders’ loans and cash flow from oil and gas operations.

B. BUSINESS OVERVIEW

We are an emerging media and internet company with a focus on user experience and engagement, creating brands, products and destinations globally, regionally and by language that are value driven providing an informative, interactive, entertaining and engaging look at content.

Through our wholly owned subsidiary DoubleTap Daily Inc., the Company is developing an online management and advertising platform that powers user and advertising engagement programs in real-time to desktop, mobile and portable devices (<http://doubletap.co>).

Our platform had not generated any revenue at August 31, 2016. As at August 31, 2017 our platform generated a total of \$20,788 in advertising revenue.

During the year ended August 31, 2016, we disposed of our investment in 1354166 Alberta and its operations including revenues and it has been accounted for as discontinued operations in our consolidated statements of operations.

For the fiscal year ended August 31, 2015 the total revenue, net of royalties was derived from the sale of natural gas from our interests in Canada.

The following table sets out our revenue for the years ended August 31, 2017, 2016 and 2015:

Year	Advertising Revenue \$	Natural Gas Sales \$	Total Revenue \$
August 31, 2017	20,788	-	20,788
August 31, 2016	-	-	-
August 31, 2015	-	53,055	53,055

Our future success depends in part on our ability to aggregate compelling content and deliver that content through our online properties. We license from third parties much of the content and services on our online properties, such as news, stock quotes, weather, sports, video, and photos. In addition, our users also contribute content to us. We believe that users will increasingly demand high-quality content and services. We may need to make substantial payments to third parties from whom we license or acquire such content or services. Our ability to maintain and build relationships with such third-party providers is critical to our success. Numerous factors beyond our control, which could affect our success and operating results could include:

- Changes in regulations or user concerns regarding privacy and protection of user data
- Ability to create or aggregate compelling content and services at reasonable cost
- Impairment of our ability to deliver interest-based advertising
- Interruptions, delays, or failures in the provision of our services
- Fluctuations in foreign currency exchange rates
- Legal liability associated with providing online services or content
- Reliance on third parties to provide the technologies necessary to deliver content, advertising, and services
- Continued and unimpeded access to the internet by us and our users
- Failure to manage expansion and changes to our business
- Adverse macroeconomic conditions could cause decreases or delays in spending by our advertisers
- Competition for, among other things, financings, acquisitions, technology licenses and skilled personnel (See, *Item 3.D Key Information - Risk Factors*).

We caution that the foregoing list of important factors is not exhaustive. Investors and others who base themselves on our forward-looking statements should carefully consider the above factors as well as the uncertainties they represent and the risk they entail. We also caution readers not to place undue reliance on these forward-looking statements. Moreover, the forward-looking statements may not be suitable for establishing strategic priorities and objectives, future strategies or actions, financial objectives and projections other than those mentioned above.

We do not have a reliance on raw materials, as we operate in a technology industry.

We do not have a reliance on any significant patents.

The technology industry is highly competitive in every phase. Many of our competitors have greater financial and technical resources, and have established multi-national operations, secured patents and licenses, which we may not have or be able to obtain. As a result, we may be prevented from participating in certain media and advertising programs (See, *Item 3.D Key Information - Risk Factors*).

Governmental Regulation

Federal, state, and international laws and regulations govern the collection, use, retention, disclosure, sharing and security of data that we receive from and about our users. The use of consumer data by online service providers and advertising networks is a topic of active interest among federal, state, and international regulatory bodies, and the regulatory environment is unsettled. Many states have passed laws requiring notification to users where there is a security breach for personal data, such as California’s Information Practices Act. We face similar risks in international markets where our products and services are offered. In addition, the application and interpretation of these laws and regulations are often uncertain, particularly in the new and rapidly-evolving industry in which we operate. There are also a number of legislative proposals pending before the U.S. Congress, various state legislative bodies, and foreign governments concerning data protection which could affect us. For example, a revision to the 1995 European Union Data Protection Directive is currently being considered by legislative bodies that may include more stringent operational requirements for data processors and significant penalties for non-compliance. Any failure, or perceived failure, by us to comply with or make effective modifications to our policies, or to comply with any federal, state, or international privacy, data-retention or data-protection-related laws, regulations, orders or industry self-regulatory principles could result in proceedings or actions against us by governmental entities or others, a loss of user confidence, and a loss of users, advertising partners, any of which could potentially have an adverse effect on our business (See, *Item 3.D Key Information - Risk Factors*).

C. ORGANIZATIONAL STRUCTURE

We have two wholly-owned subsidiaries, Ice Studio Productions Inc., a company incorporated in the Province of Ontario on June 16, 2016 (“ICE Studio”) and DoubleTap Daily Inc., a company incorporated in the Province of Ontario on February 29, 2016, (“DoubleTap”). All intercompany balances and transactions have been eliminated on consolidation.

Novicius Corp. (“Parent”)	
100% owned subsidiaries incorporated in the Province of Ontario	
DoubleTap Daily Inc. (incorporated February 29, 2016)	ICE Studio Productions Inc. (incorporated June 16, 2016)

D. PROPERTY, PLANTS AND EQUIPMENT

We signed a sublease agreement effective August 1, 2016 until December 31, 2017 for approximately 1,740 square feet of office space located at 251 Consumers Road, Suite 240, Toronto, Ontario, Canada to commence commercial operations at a cost of approximately \$4,300 per month. During December 2016, we closed the office and returned the subleased space back to the lessee.

We do not own any real property at this time. Our executive offices consist of approximately 850 square feet of office space and are rented at \$1,500 per month on a month to month basis. The address of our executive offices is 1 King Street West, Suite 1505, Toronto, Ontario Canada.

Our intangible asset, the DoubleTap platform is comprised of a cloud based, global online content creation, management and advertising platform that powers online user and engagement programs globally in real-time to desktop, mobile and portable devices.

ITEM 5 OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion should be read in conjunction with our “Selected Financial Data” under Item 3 above, our Audited Consolidated Financial Statements for the fiscal years ended August 31, 2017 and 2016 and notes thereto included under Item 18.

Certain statements made in this Item are forward-looking statements under the Reform Act. Forward-looking statements are based on current expectations that involve a numbers of risks and uncertainties, which could cause actual events or results to differ materially from those reflected herein. See, Item 3.D Key Information - Risk Factors for discussion of important factors, which could cause results to differ materially from the forward-looking statements below.

Overview

Novicius Corp., (formerly: Intelligent Content Enterprises Inc.) was amalgamated under the Business Corporations Act (*Ontario*) on November 30, 2009 (“Novicius” or the “Company”). The Company filed articles of amendment effective May 26, 2017, and changed its name from Intelligent Content Enterprises Inc., to Novicius Corp., and consolidated its common shares on the basis of one (1) new share for every ten (10) old shares. The Company filed articles of amendment effective February 1, 2016, and changed its name from Eagleford Energy Corp., to Intelligent Content Enterprises Inc., and consolidated its common shares on the basis of one (1) new share for every ten (10) old shares. Through the Company’s wholly owned Ontario subsidiary, DoubleTap Daily Inc., (formerly: Digital Widget Factory Inc.) the Company has developed an online content management and advertising platform that powers user and advertising engagement programs in real-time to desktop, mobile and portable devices (<http://doubletap.co>).

The Company’s registered office is 1 King Street West, Suite 1505, Toronto, Ontario, M5H 1A1. The Company’s common shares trade on OTCQB under the symbol NVSIF and on the Canadian Securities Exchange under the symbol NVS.

The consolidated financial statements include the accounts of Novicius, the legal parent, together with its wholly-owned subsidiaries, Ice Studio Productions Inc., incorporated in the Province of Ontario on June 16, 2016 (“ICE Studio”) and DoubleTap Daily Inc., incorporated in the Province of Ontario on February 29, 2016 (“DoubleTap”).

Effective February 29, 2016, the Company disposed of its investment in 1354166 Alberta Ltd., a company operating in the province of Alberta (“1354166 Alberta”). The Company’s former subsidiaries, Eagleford Energy, Zavala Inc., a Nevada company (“Zavala Inc.”), and its’ wholly owned subsidiary EEZ Operating Inc., a Texas company (“EEZ Operating”) were disposed of effective August 31, 2015 (see Note 15 to the Consolidated Financial Statements).

Capital Management

The Company’s objectives when managing capital are to ensure the Company will have sufficient financial capacity, liquidity and flexibility to fund its operations, growth and ongoing development opportunities. The Company’s capital requirements currently exceed its operational cash flow. As such, the Company is dependent upon future financings in order to maintain liquidity and will be required to issue equity or issue debt.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions, availability of capital and the risk characteristics of any underlying assets in order to meet current and upcoming obligations.

The board of directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company’s management and favourable market conditions to sustain future development of the business. As at August 31, 2017 and 2016, the Company considered its capital structure to be comprised of shareholders’ deficiency.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND FUTURE ACCOUNTING PRONOUNCEMENTS

Our consolidated financial statements for the years ended August 31, 2017 and 2016 have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the International Financial Reporting Interpretation Committee (“IFRIC”). (See *Item 18– Financial Statements*).

NATURE OF BUSINESS AND GOING CONCERN

Nature of Business

Novicius Corp., (formerly: Intelligent Content Enterprises Inc.) was amalgamated under the Business Corporations Act (*Ontario*) on November 30, 2009 (“Novicius” or the “Company”). The Company filed articles of amendment effective May 26, 2017, and changed its name from Intelligent Content Enterprises Inc., to Novicius Corp., and consolidated its common shares on the basis of one (1) new share for every ten (10) old shares. Effective February 29, 2016, the Company disposed of its investment in 1354166 Alberta Ltd., a company operating in the province of Alberta (“1354166 Alberta”). The Company’s former subsidiaries, Eagleford Energy, Zavala Inc., a Nevada company (“Zavala Inc.”), and its’ wholly owned subsidiary EEZ Operating Inc., a Texas company (“EEZ Operating”) were disposed of effective August 31, 2015.

Going Concern

These consolidated financial statements (the “Consolidated Financial Statements”) have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business, as they come due for the foreseeable future. The Company is in the process of developing its advertising platform and has not yet realized profitable operations. The Company requires additional financing for its working capital and for the costs of development, content creation and marketing of its platform.

Due to continuing operating losses, the Company’s continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. The Company will continue to seek additional forms of debt or equity financing, or other means of funding its operations, however, there is no assurance that it will be successful in doing so or that funds will be available on terms acceptable to the Company or at all. The ability of the Company to arrange such financing in the future will depend in part upon the prevailing capital market conditions as well as the business performance of the Company.

The Company has accumulated significant losses and negative cash flows from operations in recent years which raise doubt as to the validity of the going concern assumption. As at August 31, 2017, the Company has working capital deficiency of \$487,776 (2016: working capital deficiency \$690,649) and an accumulated deficit of \$31,684,984, (2016: \$29,587,246). These material uncertainties may cast significant doubt upon the entity’s ability to continue as a going concern. The Consolidated Financial Statements do not give effect to adjustments, if any that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts that may differ from those shown in the accompanying Consolidated Financial Statements.

BASIS OF PREPARATION

Statement of Compliance

These Consolidated Financial Statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the International Financial Reporting Interpretation Committee (“IFRIC”). The policies applied in these Consolidated Financial Statements are based on IFRS issued and outstanding as of January 1, 2017. The Board of Directors approved the Consolidated Financial Statements on December 28, 2017.

Basis of Measurement

The Consolidated Financial Statements have been prepared on a historical cost basis except for certain financial instruments measured at fair value.

Functional and Presentation Currency

The functional and presentation currency of the parent Novicius and its wholly owned subsidiaries ICE Studio and DoubleTap is Canadian dollars.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**Basis of Consolidation**

Control exists when the Company is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect these returns through its power over the entity. The financial statements of the subsidiaries are included in the Consolidated Financial Statements from the date that control commences until the date that control ceases. Intercompany balances and transactions, and any unrealized income and expenses arising from intercompany transactions, are eliminated in preparing the Consolidated Financial Statements. The Consolidated Financial Statements include the accounts of the Company, the legal parent, together with its wholly-owned subsidiaries, Ice Studio and DoubleTap.

Revenue Recognition

Revenue is recognized when there is persuasive evidence that an arrangement exists which is when a contract or sales order is signed by both parties, delivery has occurred, ownership has been transferred to the customer, price is fixed or determinable and ultimate collection is reasonably assured at the time of delivery.

Revenue from advertising revenue were recognized when services were provided.

Foreign Currency

Items included in the Consolidated Financial Statements of each of the Company's wholly owned subsidiaries are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities not denominated in the functional currency of an entity are recognized in profit or loss.

Assets and liabilities of entities with functional currencies other than Canadian dollars are translated at the year- end rates of exchange, and the results of their operations are translated at average rates of exchange for the period. The resulting translation adjustments are included in the foreign currency translation reserve under other comprehensive income.

Significant Accounting Estimates and Judgements

The preparation of the Consolidated Financial Statements in accordance with IFRS requires that management make estimates and assumptions and use judgment regarding the measured amounts of assets, liabilities and contingent liabilities at the date of the Consolidated Financial Statements and reported amounts of revenue and expenses during the reporting period. Such estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes may differ from these estimates.

The key sources of estimation uncertainty that have a significant risk of causing material adjustment to the amounts recognized in the Consolidated Financial Statements are:

Going Concern

The assessment of the Company's ability to execute its strategy by funding future working capital requirements involves judgment. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. There is an uncertainty regarding the Corporation's ability to continue as a going concern.

Fair value of financial instruments

The estimated fair value of financial assets and liabilities, by their very nature, are subject to measurement uncertainty.

Fair Value of Derivative Liabilities

The Company is exposed to risks related to changes in its share prices, foreign exchange rates, interest rate and volatility rates used to determine the estimated fair value of its derivative liabilities. In the determination of the fair value of these instruments, the Company utilizes certain independent values and, when not available, internal financial models which are based primarily on observable market data. Management's judgment is required in the development of these models. This estimate also requires determining and making assumptions about the most appropriate inputs to the valuation model including the expected life, volatility, discount rates and dividend yield.

Settlement of Debt with Equity Instruments

Equity instruments issued to a creditor to extinguish a financial liability are measured at the fair value of the equity instruments at the date the financial liability is extinguished. The Company estimates the fair value of warrants using the Binomial Lattice pricing model and further assumptions including the expected life, volatility, discount rates and dividend yield. The fair value of the units comprising shares and warrants issued in connection with the extinguishment of a financial liability are then prorated to the total market value of the common shares.

Fair Value of Stock Based Compensation and Warrants

In determining the fair value of share based payments the calculated amounts are not based on historical cost, but is derived based on assumptions (such as the expected volatility of the price of the underlying security, expected hold period before exercise, dividend yield and the risk-free rate of return) input into a pricing model. The model requires that management make forecasts as to future events, including estimates of: the average future hold period of issued stock options and compensation warrants before exercise, expiry or cancellation; future volatility of the Company's share price in the expected hold period; dividend yield; and the appropriate risk-free rate of interest. The resulting value calculated is not necessarily the value that the holder of the option or warrant could receive in an arm's length transaction, given that there is no market for the options or compensation warrants and they are not transferable. Similar calculations are made in estimating the fair value of the warrant component of an equity unit. The assumptions used in these calculations are inherently uncertain. Changes in these assumptions could materially affect the related fair value estimates.

Income Tax

Provisions for taxes are made using the best estimate of the amount expected to be paid based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these provisions at the end of the reporting period. However, it is possible that at some future date an additional liability could result from audits by taxing authorities. Where the final outcome of these tax-related matters is different from the amounts that were initially recorded, such differences will affect the tax provisions in the period in which such determination is made

Earnings (Loss) per Share

The basic loss per share is calculated by dividing net loss by the weighted average number of common shares outstanding during the period. The diluted earnings per share reflects the dilution that would occur if outstanding stock options and share purchase warrants were exercised or converted into common shares using the treasury stock method.

The inclusion of the Company's stock options and share purchase warrants in the computation of diluted loss per share would have an anti-dilutive effect on loss per share and are therefore excluded from the computation.

Discontinued Operations

A discontinued operation is a component of the Company's business that represents a separate major line of business or geographical area of operations that has been disposed of or is held for sale, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. Effective August 31, 2015, the Company assigned all of its right, title and interest in Zavala Inc., as partial settlement of a secured convertible note payable and effective February 29, 2016, the Company disposed of its investment in 1354166 Alberta and accordingly their operations have been treated as discontinued operations.

Financial Instruments

Classification and Measurement

Financial instruments are measured at fair value on initial recognition of the instrument. Measurement in subsequent periods depends on whether the financial instrument has been classified as “fair value through profit and loss”, “loans and receivables”, “available-for-sale”, “held-to-maturity”, or “other financial liability” as defined by IAS 39, “Financial Instruments: Recognition and Measurement”.

Financial assets and financial liabilities at “fair value through profit or loss” and are measured at fair value with changes in fair value recognized in the statement of operations. Transaction costs are expensed when incurred. The Company has classified cash and derivative liabilities as “fair value through profit and loss”.

Financial instruments classified as “loans and receivables”, “held-to-maturity”, or “financial liabilities” are measured at amortized cost using the effective interest rate method of amortized cost. “Loans and receivables” are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. “Held-to-maturity” financial assets are non-derivative investments that an entity has the positive intention and ability to hold to maturity.

“Other financial liabilities measured at amortized cost” are those financial liabilities that are not designated as “fair value through profit or loss”. The Company has classified trade and other payables as “other financial liabilities”.

Financial assets classified as “available-for-sale” are measured at fair value, with changes in fair value recognized in other comprehensive income. The Company has classified its marketable securities as “available for sale”.

Cash

Cash in the statement of financial position comprise cash held in banking institutions.

Marketable Securities

At each financial reporting period, the Company estimates the fair value of investments which are available-for-sale, which could be based on quoted closing bid ask spread prices or other measures for unquoted instruments. Adjustments to the fair value of the marketable securities at the financial position date are recorded to other comprehensive income until re-classified to the statement of operations.

Derivative Financial Instruments

The Company’s derivative instruments consist of derivative liabilities in relation to its i) anti-dilution units issued; and ii) its previous secured convertible note payable; and iii) share purchase warrants with a US Dollar exercise price.

i) The Company has issued Units that contain an anti-dilution provision such that if within 18 months of the issue date, the Company issues additional common shares for a consideration per share or with an exercise or conversion price per share, less than issue price (the “Adjusted Price”) the Holder shall be entitled to receive (for no additional consideration) additional Units in an amount such that, when added to the number of Units acquired by Holder under the agreement will equal the number of Units that the Holder would otherwise be entitled to receive had the transaction occurred at the Adjusted Price. The anti-dilution provision is considered a derivative and requires fair value measurement at each reporting period. During the reporting periods August 31, 2016 and 2015 the Company determined that based on the market price being greater than the issue price per share, no additional common shares were required to be fair valued and recorded as a derivative liability.

ii) The Company had a secured convertible note payable that had a conversion feature which could convert any unpaid principal and accrued interest into conversion units. A conversion unit was comprised of one (1) common share and one (1) common share purchase warrant entitling the holder to acquire a common share of the Company at a price equal to a 15% premium to the price of the common share acquired under the conversion unit. The price of the conversion unit was the lesser of a price equal to the 30-day rolling weighted average price of the Company’s common shares as of the date of conversion, less 20% or US\$0.80 per share the (“Conversion Unit”). The terms and features of the conversion met the definition of an embedded derivative. Since both components of the Conversion Unit (the common share component and warrant component) contained a variable exercise/conversion price, the Conversion Unit met the definition of a financial liability under IAS 32 “Financial Instruments: Presentation”. As a result, the Conversion Unit was a derivative liability that required fair value measurement each reporting period. The Company had selected the Binomial Lattice model to fair value the warrant component of the conversion unit and the Monte Carlo Simulations process for the common share component of the Conversion Unit.

iii) In prior years, the Company had issued share purchase warrants with an exercise price in US dollars, rather than Canadian dollars (the functional currency of the Company). Such share purchase warrants are derivative instruments and the Company was required to re-measure the fair value at each reporting date. The fair value of these share purchase warrants are re-measured at each reporting date using the Black-Scholes option pricing model with changes recorded to the statement of operations.

Impairment

Financial Assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset. An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. Individually significant financial assets are tested for impairment on an individual basis. Remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses are recognized in the statement of operations. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortized cost the reversal is recognized in profit or loss.

Income tax

Income tax expense consists of current and deferred tax expense. Current and deferred tax are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or other comprehensive income.

Current tax is recognized and measured at the amount expected to be recovered from or payable to the taxation authorities based on the income tax rates enacted or substantively enacted at the end of the reporting period and includes any adjustment to taxes payable in respect of previous years.

Deferred tax is recognized on any temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable earnings. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized and the liability is settled. The effect of a change in the enacted or substantively enacted tax rates is recognized in net earnings and comprehensive income or in equity depending on the item to which the adjustment relates.

Deferred tax assets are recognized to the extent future recovery is probable. At each reporting period end, deferred tax assets are reduced to the extent that it is no longer probable that sufficient taxable earnings will be available to allow all or part of the asset to be recovered.

Share-Based Compensation

The Company has a share-based compensation plan that grants stock options to employees and non-employees. This plan is an equity settled plan. The Company uses the fair value method for accounting for share-based awards to employees and non-employees.

The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Company's estimate of equity instruments that will eventually vest. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest.

The impact of the revision of the original estimates, if any, is recognized in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to contributed surplus.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the Company obtains the goods or the counterparty renders the service.

Warrants

When the Company issues units comprising common shares and warrants, the Company follows the relative fair value method of accounting for warrants attached to and issued with common shares of the Company. Under this method, the fair value of the common shares is estimated and the fair value of the warrants issued is estimated using an option pricing model. The fair value is then prorated to the total of the net proceeds received on issuance of the common shares and the warrants.

RECENT ACCOUNTING PRONOUNCEMENTS AND RECENT ADOPTED ACCOUNTING STANDARDS

Recent Issued Accounting Pronouncements

The following standards, amendments and interpretations, which may be relevant to the Company have been introduced or revised by the IASB:

(i) In May 2014, the IASB issued IFRS 15 Revenue from Contracts with Customers, which supersedes IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, and IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers, and SIC 31 Revenue – Barter Transactions Involving Advertising Services. IFRS 15 establishes a comprehensive five-step framework for the timing and measurement of revenue recognition. The Company intends to adopt IFRS 15 effective September 1, 2018, and is currently assessing the impact of this new standard on the Consolidated Financial Statements.

(ii) In July 2014, the IASB issued the final version of IFRS 9, Financial Instruments which reflects all phases of the financial instruments project and replaces IAS 39, Financial Instruments – Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. The Company does not intend to adopt the new standard prior to its effective date and has not yet determined the impact of this new standard on the Consolidated Financial Statements.

(iii) On January 13, 2016, the IASB issued IFRS 16 Leases ("IFRS 16") which will replace IAS 17, Leases. IFRS 16 will bring leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however, remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 is effective for annual reporting periods beginning on or after January 1, 2019. The Company is assessing the impact of this new standard on the Consolidated Financial Statements.

(iv) Amendments to IFRS 2 - Classification and measurement of Share-based payment transactions ("IFRS 2"):

On June 20, 2016, the IASB issued amendments to IFRS 2, clarifying how to account for certain types of share-based payment transactions. The amendments apply for annual periods beginning on or after January 1, 2018. As a practical simplification, the amendments can be applied prospectively, retrospectively, or early application is permitted if information is available without the use of hindsight. The amendments provide requirements on the accounting for:

- The effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments;
- Share-based payment transactions with a net settlement feature for withholding tax obligations; and
- A modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

The Company intends to adopt the amendments to IFRS 2 in its Consolidated Financial Statements for the annual period beginning on September 1, 2018. The extent of the impact of adoption of the standard has not yet been determined.

IFRIC 22 – Foreign currency transactions and advance consideration: IFRIC was issued in December 2016 to provide guidance on accounting for transactions that include the receipt or payment of advance consideration in a foreign currency. The new interpretation is effective for annual periods beginning on or after January 1, 2018. The Company is currently assessing the interpretation on its consolidated financial statements.

SEGMENTED INFORMATION

The Company's reportable and geographical segments are Canada and previously the United States. The accounting policies used for the reportable segments are the same as the Company's accounting policies. For the purposes of monitoring segment performance and allocating resources between segments, the Company's executive officer monitors the tangible, intangible and financial assets attributable to each segment. All assets are allocated to reportable segments. Effective August 31, 2015, the Company discontinued its reportable segment in the United States. The following tables show information regarding the Company's reportable segments.

(a) Effective November 18, 2015, the Company entered into shares for debt conversion agreements and converted loans and interest due in the aggregate amount of \$1,262,453 through the issuance of 954,311 common shares in the capital of the Company. The fair value of \$6,371,457 was recorded as an increase to common shares and \$5,109,004 was recorded as a loss on settlement of debt in the consolidated statement of operations (Note 9).

(b) Effective November 18, 2015, the Company completed a private placement for gross proceeds of \$50,000 and issued 50,000 common shares in the capital of the Company at a purchase price of \$1.00 per share.

(c) Effective November 18, 2015, the Company issued 1,032,998 Units in the capital of the Company pursuant to the anti-dilution provision of the August 30, 2014, debt conversion agreements. Each unit was comprised of one (1) common share and one half of one (1/2) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$10.00 until August 30, 2017. The fair value of the units of \$6,896,800 was allocated to the common shares in the amount of \$5,034,157 and warrants in the amount of \$1,862,643 based on their relative fair values and \$6,896,800 was recognized as a loss on settlement of debt in the consolidated statement of operations (Note 9).

(d) On February 29, 2016, the Company completed a private placement for gross proceeds of \$30,000 and issued 10,000 units in the capital of the Company at a purchase price of \$3.00 per unit. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$3.50 until March 1, 2019. The fair value of the units of \$30,000 was allocated to common shares \$9,044 and the amount allocated to warrants component using a Binomial Lattice model was \$20,956.

(e) On February 29, 2016, the Company entered into debt conversion agreements and converted debt in the aggregate amount of \$451,557 through the issuance of 150,519 units in the capital of the Company. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$3.50 until March 1, 2019. The fair value of the units of \$1,220,709 was allocated to common shares in the amount of \$638,295 and warrants in the amount of \$582,414 based on their relative fair values and \$769,152 was recognized as a loss on extinguishment of debt in the consolidated statement of operations.

(f) During the year ended August 31, 2016, 51,868 common share purchase warrants were exercised at \$10.00 for proceeds of \$518,683. The amount allocated to warrants using a Binomial Lattice model was \$467,984.

(g) On August 31, 2016, the Company completed private placements for gross proceeds of \$260,000 and issued 23,636 units in the capital of the Company at a purchase price of \$11.00 per unit. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$12.50 until August 31, 2019. The Subscription agreements contain an anti-dilution provision such that if within 18 months of August 31, 2016, the Company issues additional common shares for a consideration per share or with an exercise or conversion price per share, less than \$11.00 (the "Adjusted Price") the Holder shall be entitled to receive from the Company (for no additional consideration) additional Units in an amount such that, when added to the number of Units acquired by Holder under this agreement will equal the number of Units that the Holder would otherwise be entitled to receive had this transaction occurred at the Adjusted Price. At August 31, 2016, the Company determined that based on the market price of the Company's common shares being greater than the Unit issue price per share, no additional common shares were required to be fair valued and recorded as a derivative liability.

The fair value of the units of \$260,000 was allocated to common shares in the amount of \$133,271 and the amount allocated to warrants using a Binomial Lattice model was \$126,729. The assumptions utilized in the Binomial Lattice process for the common share purchase warrants were as follows:

	August 31, 2016
Market value on valuation date	\$ 13.10
Contractual exercise rate	\$ 12.50
Term	3 Years
Expected market volatility	152.78%
Risk free rate using zero coupon US Treasury Security rate	0.92%

(h) On November 30, 2016, the Company completed private placements for gross proceeds of \$50,000 and issued 7,692 units in the capital of the Company at a purchase price of \$6.50 per unit. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$10.00 until November 30, 2019. The fair value of the units (\$50,000) was allocated to common shares \$30,233 and the amount allocated to warrants component using a Binomial Lattice model was \$19,767.

(i) Effective August 31, 2017, the Company settled shareholder advances of \$213,781 and issued 1,187,672 common shares in the capital of the Company at a price of \$0.18 per share.

(j) Pursuant to the August 31, 2017, settlement of shareholder advances of \$213,781 (Note b (i), effective August 31, 2017, the Company issued 1,420,809 common shares in the capital of the Company pursuant to the anti-dilution provision of the August 31, 2016, private placement agreements. The fair value of \$184,705 was calculated on the previous day's closing price of the Company's common shares and allocated to common shares and anti-dilution fees in the consolidated statement of operations.

(k) Pursuant to the November 30, 2016, private placement of \$50,000 (Note b (h), effective August 31, 2017, the Company issued 16,364 Units in the capital of the Company pursuant to the anti-dilution provision of the August 31, 2016, private placement agreements. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$10.00 until November 30, 2019. The fair value of the units of \$2,127 was allocated to common shares and anti-dilution fees in the consolidated statement of operations. No value was allocated to warrants based on the Binomial Lattice model.

(l) On August 31, 2017, 538,417 common share purchase warrants exercisable at \$10.00 expired. The amount allocated to warrants based on the Binomial Lattice model was \$2,195,738 with a corresponding increase to contributed surplus.

The following table summarizes the outstanding warrants as at August 31, 2017 and August 31, 2016, respectively:

Weighted Average Shares Outstanding, diluted	2,663,614	2,077,096	375,551

At August 31, 2017, there were 155,000 stock options and 208,211 common share purchase warrants that could be exercised, however they are anti-dilutive. The effects of any potential dilutive instruments on loss per share are anti-dilutive and therefore have been excluded from the calculation of diluted loss per share.

d) Share Purchase Options

The Company has a stock option plan to provide incentives for directors, officers, employees and consultants of the Company. The maximum number of shares, which may be set aside for issuance under the stock option plan, is 20% of the issued and outstanding common shares of the Company on a rolling basis.

The following table is a summary of the status of the Company's stock options and changes during the period:

e) **Stock Based Compensation**

Employees

On September 9, 2016, the Company granted 30,000 immediately vesting common share purchase options to shares to a director and 30,000 common share purchase options vesting February 6, 2017 to the President. These options are exercisable at \$13.00 per share and expire on September 8, 2021. The Company recorded non-cash stock based compensation expense of \$706,178.

On September 9, 2016, the Company granted to the President 70,000 common share purchase options exercisable at \$15.00 per share and expiring on September 8, 2021. Of these options 35,000, vest on September 8, 2017 and 35,000 vest on September 8, 2018. The Company recorded non-cash stock based compensation expense of \$613,532.

On November 1, 2016, the Company granted 50,000 common share purchase options vesting March 30, 2017 to the former Chief Financial Officer. These options were exercisable at \$6.40 per share and expired on April 25, 2017. The Company recorded non-cash stock based compensation expense of \$294,895.

Non Employees

On September 9, 2016, the Company granted 20,000 immediately vesting common share purchase options to a consultant of the Company. These options are exercisable at \$13.00 per share and expire on September 8, 2021. The Company recorded non-cash stock based compensation expense of \$235,393.

The fair value of the stock options granted were estimated on the date of the grant using the Black Scholes option pricing model with the following assumptions and inputs:

	November 1, 2016	September 9, 2016
Weighted average fair value per option	\$ 5.90	\$ 11.70
Weighted average risk free interest rate	0.68%	0.59%

Stock price on the date of grant	\$ 6.40	\$ 12.90

OVERALL PERFORMANCE

For the year ended August 31, 2017, net loss from continuing operations was \$2,097,738 compared to a net loss from continuing operations of \$13,534,298 for year ended August 31, 2016. The decrease in net loss during 2017, was primarily related to a loss on settlement of debt of \$Nil compared to \$12,489,249 in fiscal 2016. The loss on settlement of debt during fiscal 2016 was primarily attributed to the issuance of 1,032,998 units in the capital of the Company at fair value pursuant to the anti-dilution provisions of the August 30, 2014, debt conversion agreements and the issuance of 954,311 common shares of the Company at fair value as settlement of loans and interest due in the amount of \$1,262,453. In addition during fiscal 2017, the Company experienced an increase in stock based compensation of \$1,234,074 to \$1,849,998 versus stock based compensation expense of \$615,924 during fiscal 2016. The increase in stock based compensation expenses is largely related to increase in allotments, changes in share prices and assumptions used in the fair value calculation of stock options. During fiscal 2017, prior obligations of the Company's former defunct subsidiary Dyami Energy, LLC ("Dyami Energy") expired and the Company recorded a gain on de-recognition of financial liabilities in the amount of \$893,990. Also in the current period the Company recorded a loss on marketable securities of \$Nil versus \$120,125 for the same twelve month period in fiscal 2016. During fiscal 2017, the Company recorded an impairment loss of \$81,483 on a secured note receivable compared to \$Nil in the prior fiscal period in 2016.

On November 30, 2016, the Company completed a private placement for gross proceeds of \$50,000 and issued 7,692 units in the capital of the Company at a purchase price of \$6.50 per unit. Each unit was comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$10.00 until November 30, 2019.

On May 25, 2016, the Company entered into a Term Sheet to license to acquire all the technology, production and client operations owned and operated by New York based Catch Star Studios LLC ("Catch Star"). On October 12, 2016, the Company advanced US\$65,000 (\$81,483 at August 31, 2017) to Catch Star and entered into a Secured Promissory Note and General Security Agreement with Catch Star (the "Secured Note"). The Secured Note is due on demand and is secured by all of the assets of Catch Star. Subsequently, Catch Star and the Company could not reach a definitive agreement to memorialize the terms and conditions of the Term Sheet and abandoned the prospective transaction. On February 1, 2017, the Company issued a letter of demand for the repayment in full of the Secured Note from Catch Star. At August 31, 2017, the Company determined that the Secured Note was uncollectible and recorded an impairment of the full amount.

Effective August 31, 2017, the Company settled shareholder advances of \$213,781 and issued 1,187,672 common shares in the capital of the Company at a purchase price of \$0.18 per share.

As a result of the November 30, 2016, private placement of \$50,000 and the August 31, 2017, settlement of shareholder advances of \$213,781, effective August 31, 2017, the Company issued 1,420,809 common shares and 16,364 Units in the capital of the Company pursuant to the anti-dilution provisions of the August 31, 2016, private placement agreements.

On August 31, 2017, 538,417 common share purchase warrants expired. The amount allocated to warrants based on the Binomial Lattice model was \$2,195,738 with a corresponding increase to contributed surplus.

The Company anticipates further expenditures to be made on future opportunities evaluated by the Company. Any expenditure which exceeds available cash will be required to be funded by additional share capital or debt issued by the Company, or by other means. The Company's long-term profitability will depend upon its ability to successfully implement its business plan. The Company's past primary source of liquidity and capital resources has been proceeds from the issuance of share capital, shareholders' loans and cash flow from oil and gas operations.

RISK AND UNCERTAINTIES

The Company is subject to several risk factors which may have adverse effects on our business which could harm our operating results including, but not limited to: the ability to generate and aggregate compelling content to increase the number of users of our services or users' level of engagement with our services; the effect of technologies, tools, software, and applications could block our advertisements, impair our ability to deliver interest-based advertising, or shift the location in which advertising appears; changes in regulations or user concerns regarding privacy and protection of user data; continued and unimpeded access to the internet by us and our users. Internet access providers may be able to block, degrade, or charge for access to certain of our products and services, which could lead to additional expenses and the loss of users and advertisers and certain of our metrics are subject to inherent challenges in measurement, and real or perceived inaccuracies in such metrics may harm our reputation and negatively affect our business.

As the Company has not experienced any significant cash flow from operations to independently finance its growth and operations, it has been reliant on access to capital in the form of both debt and equity to fund on-going operations and to fund capital investments. Although periodic volatility of financial and capital markets may severely limit access to capital, the Company has been able to attract the required investment capital in the past however no assurances can be made that it will continue to do so in the future.

The Company cautions that the foregoing list of important factors is not exhaustive. Investors and others who base themselves on the Company's forward-looking statements should carefully consider the above factors as well as the uncertainties they represent and the risk they entail. The Company also cautions readers not to place undue reliance on these forward-looking statements. Moreover, the forward-looking statements may not be suitable for establishing strategic priorities and objectives, future strategies or actions, financial objectives and projections other than those mentioned above (See Item 3D: "Key Information, Risk Factors").

Total	\$ 508,241	\$ 418,206	\$ 89,007

For the year ended August 31, 2017, the Company's general and administrative costs increased by \$90,035 to \$508,241 versus \$418,206 for the year ended August 31, 2016. The increase expenses during fiscal 2017 was primarily attributed to an increase in professional fees of \$31,245 to \$179,907 compared to \$148,662 in fiscal 2016, an increase in consulting fees of \$30,000, and an increase of \$15,671 in rent versus \$3,776 recorded in the comparable period in 2016. The increase in professional fees was mainly attributed to the correction of prior period errors related to the DWF Settlement Agreement. The increase in rent during 2017 was a result of the office space rented in relation to DWF operations. During fiscal 2017, the Company also experienced an increase of \$9,098 in shareholders information and an increase of \$8,143 in transfer and registrar costs related to the name change of the Company from Intelligent Content Enterprises Inc., to Novicius Corp., and the consolidation of common shares effective May 26, 2017. In addition, the Company has recorded increased fees related to its listing on the Canadian Securities Exchange.

For the year ended August 31, 2016, the Company's general and administrative costs were significantly higher by \$329,199 to \$418,206 compared to \$89,007 for the comparable year ended August 31, 2015. The increase in expenses during fiscal 2016 was mainly attributed to an increase in management fees to \$60,000 compared to a recovery of management fees of \$156,250 in 2015 as a result of \$306,250 of management fees forgiven by the former President. Shareholders' information costs also increased by \$29,188 during the current fiscal year to \$63,375 compared to \$34,187. The increases in shareholders information costs were by in large related to the consolidation of shares and name change of the Company effective February 1, 2016, and the annual listing fees for the OTCQB. The Company also experienced increases in professional fees of \$57,429 to \$148,662 during fiscal 2016 compared to \$91,233 for the year ended August 31, 2015. In addition, during fiscal 2016 the Company incurred additional increases in travel, insurance and transfer agent fees.

At August 31, 2017, the Company determined that the Secured Note was uncollectible and recorded an impairment of the full amount

The Company expects that capital expenditures will increase in future reporting periods as the Company seeks further opportunities and ventures of merit in an effort to increase shareholder value.

FINANCING ACTIVITIES

During the year ended August 31, 2017, the Company completed a private placement for gross proceeds of \$50,000 and issued 7,692 units in the capital of the Company at a price of \$6.50 per unit. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$10.00 until November 30, 2019.

Effective August 31, 2017, the Company settled shareholder advances of \$213,781 and issued 1,187,672 common shares in the capital of the Company at a purchase price of \$0.18 per share.

B. LIQUIDITY AND CAPITAL RESOURCES

Cash as of August 31, 2017, was \$1,040 (August 31, 2016: \$449,983).

For the year ended August 31, 2017, the primary use of funds was related to general administrative expenses and the US \$65,000 advance to Catch Star. The Company's working capital deficiency at August 31, 2017 was \$487,776 (August 31, 2016 working capital deficiency: \$690,649).

Our current assets of \$42,047 as at August 31, 2017 (\$482,582 as of August 31, 2016) include the following items: cash \$1,040 (\$449,983 as of August 31, 2016); other receivables \$41,007 (\$14,800 as of August 31, 2016); and prepaid expenses and deposits \$Nil (\$17,799 as of August 31, 2016). Our current liabilities of \$529,823 as of August 31, 2017 (\$1,173,231 as of August 31, 2016) include the following items: trade and other \$529,823 (\$1,173,231 as of August 31, 2016).

Management of the Company recognizes that cash flow from operations is not sufficient to meet its working capital requirements or fund additional opportunities or ventures of merit. The Company has liquidity risk which necessitates the Company to obtain debt financing or raise additional equity. There is no assurance the Company will be able to obtain the necessary financing in a timely manner.

The Company's past primary source of liquidity and capital resources has been proceeds from the issuance of share capital, shareholders' loans and cash flow from oil and gas operations. If the Company issued additional common shares from treasury it would cause the current shareholders of the Company dilution.

Outlook and Capital Requirements

We anticipate further expenditures to expand our current business plan. Amounts expended on future opportunities and ventures of merit is dependent on the nature of the opportunities evaluated by us. Any expenditure which exceeds available cash will be required to be funded by additional share capital or debt issued by us, or by other means. Our long-term profitability will depend upon its ability to successfully implement its business plan.

C. RESEARCH AND DEVELOPMENT, PATENTS AND LICENSES

We do not engage in research and development activities.

D. TREND INFORMATION

There are a number of trends that have been developing in the technology and media industry during the past few years that appear to be shaping the near future of the business including managements review and analysis:

- Growth of revenue from content marketing is set to rise to \$54.25 billion by 2019**
- Analysis suggests that certain increases due to marketers refocusing on Millennials, who are more mobile and in control of their digital environments,* source: <http://ad-rank.com/content-marketing-revenue-set-to-double-in-2019/>
- In 2016, the Global advertising market expected to surpass \$100 Billion**
- Digital ad expenditure will account for more than 50% for the first time, a 430% increase from 2013

- Between 2016 and 2019, mobile ad spending will nearly double, hitting \$195.55 Billion to account for 70.1% of digital ad spend
- US and China will drive mobile ad spending growth
- In 2016, US advertisers will spend \$40.14 Billion (nearly triple the amount spent in 2014)
- The top 5 ad spenders in the world are: USA, China, Japan, Germany and UK
- US to remain at the top at roughly 32% of total market

Another trend currently affecting the technology industry is the impact on capital markets caused by investor uncertainty in the domestic and global economy. Market events and conditions in recent years including disruptions in the international credit markets and other financial systems and the deterioration of global economic conditions have caused significant volatility to the capital markets. These conditions contribute to a loss of confidence in the domestic and global credit and financial markets.

E. OFF-BALANCE SHEET ARRANGEMENTS

There are no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes of financial condition, revenues, or expenses, results of operations, liquidity, capital expenditures or capital resources, which individually or in the aggregate are material to our investors.

SECURED NOTE PAYABLE, SHAREHOLDERS' LOANS, NOTES PAYABLE AND DEBT CONVERSION

Secured Note Payable

As at August 31, 2014, the Company had a secured convertible promissory note payable to Benchmark Enterprises LLC. ("Benchmark") with a face value of \$1,322,347 (US\$1,216,175) with an interest rate of 10% (the "Note"). The Note was being accreted up to its face value over the life of Note, based on an effective interest rate. For the year ended August 31, 2015, the Company recorded interest on the Note of \$154,179. The Note was due on the earliest to occur of: (a) August 31, 2015; (b) the closing of any subsequent financing or series of financings by the Company that results in gross proceeds of an aggregate amount equal to or greater than US\$4,400,000, excluding conversion of any existing debt into equity; (c) the date of a sale by the Company of all of the shares in the capital stock of Zavala Inc. held by the Company from time to time; (d) the closing of a merger, reorganization, take-over or other business combination which results in a change of control of the Company or Zavala Inc.; or (e) an event of default. The Note was secured by all of the assets of the Company and Zavala Inc. Benchmark had the option at any time while the Note was outstanding to convert any unpaid principal and accrued interest into conversion units.

In accordance with the terms of the Note and the General Security Agreement (the "Loan Agreements") the Company had granted and conveyed to Benchmark a first priority security interest in the Company and Zavala Inc., prior and superior to the rights of all third parties existing on or arising after the date of such Loan Agreements, subject to the Permitted Liens.

At August 31, 2015, the Company was unable to pay the Note due in the amount \$1,608,149 plus interest of \$154,179, totaling \$1,762,328, which constituted an event of default pursuant to the terms of the Loan Agreements. Benchmark, having made demand for payment of all amounts owed to it under the Note, gave notice to the Company that it intended to exercise its security on the Company's assets. In an effort to avoid further costs, the Company and Benchmark entered into a Settlement and Exercise of Security Agreement effective August 31, 2015, with the following terms:

1. Effective August 31, 2015, the Company assigns and conveys to Benchmark all of its rights, title and interest in and to Zavala Inc., including but not limited to all of the issued and outstanding common shares of Zavala Inc.; and
2. Issuance of 1,000,000 shares of common stock of the Company.

As a result the Company's extinguishment of the Note, the Company's investment in Zavala Inc. had been derecognized from the Company's Consolidated Financial Statements as at August 31, 2015. The fair value of the common shares was determined to be equal to the fair value of the secured note settled. The following table presents the effect of the extinguishment of the Note on the Consolidated Financial Statements of the Company:

	August 31, 2015
Secured note payable settled	\$ 1,608,149
Interest payable settled	154,179
Net assets and liabilities of Zavala Inc. transferred (Note 16 a)	(836,717)

Effective August 30, 2014, the Company converted shareholders' loans and interest due in the aggregate amount of \$1,180,570 through the issuance of a total of 147,571 units in the capital of the Company. The terms of the August 30, 2014, conversion agreements contained an anti-dilution provision such that if within 18 months of the effective date, the Company issues additional common shares for a consideration per share or with an exercise or conversion price per share, less than \$8.00 (the "Adjusted Price") the Holder herein shall be entitled to receive from the Company (for no additional consideration) additional Units in an amount such that, when added to the number of Units acquired by Holder under this agreement will equal the number of Units that the Holder would otherwise be entitled to receive had this transaction occurred at the Adjusted Price. Effective November 18, 2015, the Company issued a total of 103,299 Units in the capital of the Company pursuant to the Adjusted Price. The warrant component was valued using a Binomial Lattice model whereas the fair value of the common share component was based on the current market value of the company's stock. The fair value of the units of \$6,896,800 was allocated to the common shares in the amount of \$5,034,157 and warrants in the amount of \$1,862,643 based on their relative fair values and \$6,896,800 was recognized as a loss on settlement of debt in the statement of operations. Significant assumptions utilized in the Binomial Lattice process for the warrant component of the conversion were as follows:

	November 18, 2015
Market value on valuation date	\$ 6.60
Contractual exercise rate	\$ 10.00
Term	1.79 Years
Expected market volatility	183.30%

Compensation Discussion and Analysis

Objective of the Compensation Program

The objectives of the Company's compensation program are to attract, hold and inspire performance of its Named Executive Officers ("NEOs") of a quality and nature that will enhance the sustainable profitability and growth of the Company. The Company views it as an important objective of the Company's compensation program to ensure staff retention.

The Compensation Review Process

To determine compensation payable, the compensation committee of the Company (the "**Compensation Committee**") determines an appropriate compensation reflecting the need to provide incentive and compensation for the time and effort expended by the NEOs of the Company while taking into account the financial and other resources of the Company.

The Company's Compensation Committee is comprised of Dikshant Batra and James Cassina (Chair). Compensation is determined in the context of our strategic plan, our growth, shareholder returns and other achievements and considered in the context of position descriptions, goals and the performance of each NEO. With respect to directors' compensation, the Compensation Committee reviews the level and form of compensation received by the directors, members of each committee, the board chair and the chair of each board committee, considering the duties and responsibilities of each director, his or her past service and continuing duties in service to us. The compensation of directors, the CEO and executive officers of competitors are considered, to the extent publicly available, in determining compensation and the Compensation Committee has the power to engage a compensation consultant or advisor to assist in determining appropriate compensation.

Elements of Executive Compensation

The Company's NEO compensation program is based on the objectives of: (a) recruiting and retaining the executives critical to the success of the Company; (b) providing fair and competitive compensation; (c) balancing the interests of management and shareholders of the Company; and (d) rewarding performance, on the basis of both individual and corporate performance.

For the financial year ended August 31, 2017, the Company's NEO compensation program consisted of the following elements:

- (a) a management fee (the "**Short-Term Incentive**").
- (b) a long-term equity compensation consisting of stock options granted under the Company's stock incentive plan ("**Long-Term Incentive**").

The specific rationale and design of each of these elements are outlined in detail below.

Short-Term Incentive

Salaries form an essential element of the Company's compensation mix as they are the first base measure to compare and remain competitive relative to peer groups. Base salaries are fixed and therefore not subject to uncertainty and are used as the base to determine other elements of compensation and benefits. The base salary provides an immediate cash incentive for the Named Executive Officers. The Compensation Committee and the Board review salaries at least annually.

Base salary/management fees of the Named Executive Officers is set by the Compensation Committee on the basis of the applicable officer's responsibilities, experience and past performance. In determining the base salary to be paid to a particular Named Executive Officer, the Compensation Committee considers the particular responsibilities related to the position, the experience level of the officer, and his or her past performance at the Company and the current financial position of the Company.

Long-Term Incentive

The granting of stock options is a variable component of compensation intended to reward the Company's Named Executive Officers for their success in achieving sustained, long-term profitability and increases in stock value. Stock options may be provided to enhance the Named Executive Officers motivation to achieve long-term growth of the Company and increases in shareholder value. The Company provides long-term incentive compensation through its stock option plan. The Compensation Committee recommends the granting of stock options from time to time based on its assessment of the appropriateness of doing so in light of the long-term strategic objectives of the Company, its current stage of development, the need to retain or attract particular key personnel, the number of stock options already outstanding and overall market conditions. The Compensation Committee views the granting of stock options as a means of promoting the success of the Company and higher returns to its shareholders. The Board grants stock options after reviewing recommendations made by the Compensation Committee.

Stock Option Plan

The Company's Amended Stock Option Plan (the "Plan") was adopted by the Board of Directors on January 20, 2012 and approved by a majority of our shareholders voting at the Annual and Special Meeting held on February 24, 2012. The Plan was adopted in order that we may be able to provide incentives for directors, officers, employees, consultants and other persons (an "Eligible Individual") to participate in our growth and development by providing us with the opportunity through share options to acquire an ownership interest in us. Directors and officers currently are not remunerated for their services except as stated in "Executive Compensation" above.

The maximum number of common shares which may be set aside for issue under the Plan is an amount not to exceed 20% of the total shares issued and outstanding of the Company as of the date of each Option grant provided that the board has the right, from time to time, to increase such number subject to the approval of our shareholders and any relevant stock exchange or other regulatory authority. Any common shares subject to an option, which are not exercised, will be available for subsequent grant under the Plan. The option price of any common shares is to be determined by the Board in its sole discretion.

Options granted under the Plan may be exercised during a period no exceeding five years, subject to earlier termination upon the optionee ceasing to be an Eligible Individual, or, in accordance with the terms of the grant of the option. The options are non-transferable and non-assignable except between an Eligible Individual and a related corporation controlled by such Eligible Individual upon the consent of the Board of Directors. The Plan contains provisions for adjustment in the number of shares issuable there under in the event of subdivision, consolidation, reclassification, reorganization or change in the number of common shares, a merger or other relevant change in the Company's capitalization. The Board of Directors may from time to time amend or revise the terms of the Plan or may terminate the Plan at any time. The Company does not have any other long-term incentive plans, including any supplemental executive retirement plans.

Overview of How the Compensation Program Fits with Compensation Goals

The compensation package is designed to meet the goal of attracting, holding and motivating key talent in a highly competitive oil and gas exploration environment through salary and providing an opportunity to participate in the Company's growth through stock options. Through the grant of stock options, if the price of the Company shares increases over time, both the Named Executive Officer and shareholders will benefit.

Incentive Plan Awards

At August 31, 2017, the Company has outstanding 2,500 stock options exercisable at \$12.00 expiring on November 19, 2019; 60,000 stock options exercisable at \$13.00 per share expiring on September 8, 2021; and 70,000 stock options exercisable at \$15.00 per share expiring on September 8, 2021 (35,000 vested on September 8, 2017 and 35,000 vest on September 8, 2018) to Named Executive Officers and directors.

Pension Plan Benefits

The Company does not currently provide pension plan benefits to its Named Executive Officers.

Termination and Change of Control Benefits

At August 31, 2016, the Company did not have executive employment agreements in place with any of its Named Executive Officers that include termination or change of control benefits; except that Ritwik Uban, subsequent to the year and, on September 9, 2016, executed an employment agreement that provided for consideration in the event of termination or change of control. (See Exhibit 4.46).

The Company has no compensatory plan, contract or arrangement where a named executive officer or director is entitled to receive compensation in the event of resignation, retirement, termination, change of control or a change in responsibilities following a change in control; except that Ritwik Uban, subsequent to the year and, on September 9, 2016, executed an employment agreement that provided for consideration in the event of termination or change of control. (See Exhibit 4.46).

Director Compensation

Each director of the Company is entitled to receive the sum of \$100 for each meeting of the directors, meeting of a committee of the directors or meeting of the shareholders attended. During the fiscal year ended August 31, 2017, no amount was paid (\$3,800 accrued) by the Company with respect to such fees.

Retirement Policy for Directors

The Company does not have a retirement policy for its directors.

Directors' and Officers' Liability Insurance

The Company does not maintain directors' and officers' liability insurance.

C. BOARD PRACTICES

Board of Directors

The mandate of our Board of Directors, prescribed by the Business Corporations Act (Ontario), is to manage or supervise the management of our business and affairs and to act with a view to our best interests. In doing so, the board oversees the management of our affairs directly and through its committees.

Mr. Uban and Mr. Batra were appointed as directors on September 9, 2016. Mr. Cassina was appointed as a director of ours on February 9, 2010. The term of Mr. Klyman as a director began on August 10, 2000 and ended upon his resignation on September 9, 2016. Mr. Budden who was appointed on December 22, 2015 and resigned on September 9, 2016. Our directors' serve until our next Annual General Meeting or until a successor is duly elected, unless the office is vacated in accordance with our Articles or Bylaws. Our chief executive officer, our president and our chief financial officer were appointed by our Board of Directors to serve until the earlier of their resignation or removal, with or without cause by the directors. There was no compensation paid by us to our directors during the fiscal year ended August 31, 2017 for their services in their capacity as directors or any compensation paid to committee members.

As of the date of this Annual Report our Board of Directors consists of three directors, one of which none are considered "independent directors" in that they are "independent from management and free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the directors ability to act with a view to our best interests, other than interests and relationships arising from their shareholding". It is our practice to attempt to maintain a diversity of professional and personal experience among our directors.

The Company holds meetings as required, at which the opinions of the directors are sought by management and duly acted upon for all material matters relating to the Company.

Directorships

None of our directors are directors of other Canadian or United States reporting issuers

Board and Committee Meetings

The Board of Directors has met at least once annually or otherwise as circumstances warrant to review our business operations, corporate governance and financial results. The table below reflects the attendance of each director of ours at each Board and committee meeting of the Board during the fiscal year ended August 31, 2017.

Name	Board of Directors Meetings	Audit Committee Meetings	Compensation Committee Meetings	Disclosure Committee Meetings
James Cassina	8	3	1	Nil
Ritwik Uban	8	3	0	Nil
Dikshant Batra	8	3	1	Nil

Board Mandate

The Board assumes responsibility for stewardship of the Company, including overseeing all of the operation of the business, supervising management and setting milestones for the Company. The Board reviews the statements of responsibilities for the Company including, but not limited to, the code of ethics and expectations for business conduct.

The Board approves all significant decisions that affect the Company and its subsidiaries and sets specific milestones towards which management directs their efforts.

The Board ensures, at least annually, that there are long-term goals and a strategic planning process in place for the Company and participates with management directly or through its committees in developing and approving the mission of the business of the Company and the strategic plan by which it proposes to achieve its goals, which strategic plan takes into account, among other things, the opportunities and risks of the Company's business. The strategic planning process is carried out at each Board meeting where there are regularly reviewed specific milestones for the Company.

The strategic planning process incorporates identifying the main risks to the Company's objectives and ensuring that mitigation plans are in place to manage and minimize these risks. The Board also takes responsibility for identifying the principal risks of the Company's business and for ensuring these risks are effectively monitored and mitigated to the extent practicable. The Board appoints senior management.

The Company adheres to regulatory requirements with respect to the timeliness and content of its disclosure. The Board approves all of the Company's major communications, including annual and quarterly reports and press releases. The Chief Executive Officer authorizes the issuance of news releases. The Chief Executive Officer is generally the only individual authorized to communicate with analysts, the news media and investors about information concerning the Company.

The Board and the audit committee of the Company (the "**Audit Committee**") examines the effectiveness of the Company's internal control processes and information systems.

The Board as a whole, given its small size, is involved in developing the Company's approach to corporate governance. The number of scheduled board meetings varies with circumstances. In addition, special meetings are called as necessary. The Chief Executive Officer establishes the agenda at each Board meeting and submits a draft to each director for their review and recommendation for items for inclusion on the agenda. Each director has the ability to raise subjects that are not on the agenda at any board meeting. Meeting agendas and other materials to be reviewed and/or discussed for action by the Board are distributed to directors in time for review prior to each meeting. Board members have full and free access to senior management and employees of the Company.

Position Descriptions

The Board has not developed written position descriptions for the Chairman of the Board, the Chief Executive Officer, Chief Financial Officer or the President (the "Officers"). The Board is currently of the view that the respective corporate governance roles of the Board and management, as represented by the Officers, are clear and that the limits to management's responsibility and authority are well-defined.

Each of the Audit Committee, Compensation Committee and Disclosure Committee has a chair and a mandate.

Orientation and Continuing Education

We have developed an orientation program for new directors including a director's manual ("Director's Manual") which contains information regarding the roles and responsibilities of the board, each board committee, the board chair, the chair of each board committee and our president. The Director's Manual contains information regarding its organizational structure, governance policies including the Board Mandate and each Board committee charter, and our code of business conduct and ethics. The Director's Manual is updated as our business, governance documents and policies change. We update and inform the board regarding corporate developments and changes in legal, regulatory and industry requirements affecting us.

Ethical Business Conduct

We have adopted a written code of business conduct and ethics (the "**Code**") for our directors, officers and employees. The board encourages following the Code by making it widely available. It is distributed to directors in the Director's Manual and to officers, employees and consultants at the commencement of their employment or consultancy. The Code reminds those engaged in service to us that they are required to report perceived or actual violations of the law, violations of our policies, dangers to health, safety and the environment, risks to our property, and accounting or auditing irregularities to the chair of the Audit Committee .. In addition, to requiring directors, officers and employees to abide by the Code, we encourage consultants, service providers and all parties who engage in business with us to contact the chair of the Audit Committee regarding any perceived and all actual breaches by our directors, officers and employees of the Code. The chair of our Audit Committee is responsible for investigating complaints, presenting complaints to the applicable board committee or the board as a whole, and developing a plan for promptly and fairly resolving complaints. Upon conclusion of the investigation and resolution of a complaint, the chair of our Audit Committee will advise the complainant of the corrective action measures that have been taken or advise the complainant that the complaint has not been substantiated. The Code prohibits retaliation by us, our directors and management, against complainants who raise concerns in good faith and requires us to maintain the confidentiality of complainants to the greatest extent practical. Complainants may also submit their concerns anonymously in writing. In addition to the Code, we have an Audit Committee Charter and a Policy of Procedures for Disclosure Concerning Financial/Accounting Irregularities.

Since the beginning of our most recently completed financial year, no material change reports have been filed that pertain to any conduct of a director or executive officer that constitutes a departure from the Code. The board encourages and promotes a culture of ethical business conduct by appointing directors who demonstrate integrity and high ethical standards in their business dealings and personal affairs. Directors are required to abide by the Code and expected to make responsible and ethical decisions in discharging their duties, thereby setting an example of the standard to which management and employees should adhere. The board is required by the Board Mandate to satisfy our CEO and other executive officers are acting with integrity and fostering a culture of integrity throughout the Company. The board is responsible for reviewing departures from the Code, reviewing and either providing or denying waivers from the Code, and disclosing any waivers that are granted in accordance with applicable law. In addition, the board is responsible for responding to potential conflict of interest situations, particularly with respect to considering existing or proposed transactions and agreements in respect of which directors or executive officers advise they have a material interest. The Board Mandate requires that directors and executive officers disclose any interest and the extent, no matter how small, of their interest in any transaction or agreement with us, and that directors excuse themselves from both board deliberations and voting in respect of transactions in which they have an interest. By taking these steps the board strives to ensure that directors exercise independent judgment, unclouded by the relationships of the directors and executive officers to each other and us, in considering transactions and agreements in respect of which directors and executive officers have an interest.

Nomination of Directors

The Board has not appointed a nominating committee and does not believe that such a committee is warranted at the present time. The entire Board determines new nominees to the Board, although a formal process has not been adopted. The nominees are generally the result of recruitment efforts by the Board members, including both formal and informal discussions among Board members and officers. The Board generally looks for the nominee to have significant public company experience. The nominee must not have a significant conflicting public company association.

Compensation

The Board determines director and executive officer compensation by recommendation of the Compensation Committee. The Company's Compensation Committee reviews the amounts and effectiveness of compensation. The Board reviews the adequacy and form of compensation and compares it to other companies of similar size and stage of development. There is no minimum share ownership requirement of directors.

The Compensation Committee generally convenes at least once annually to review director and officer compensation and status of stock options. The Compensation Committee also responds to requests from management and the Board to review recommendations of management for new senior employees and their compensation. The Compensation Committee has the power to approve and/or amend these recommendations.

The Company has felt no need to retain any compensation consultants or advisors at any time since the beginning of the Company's most recently completed financial year.

Committees of the Board

Our Board of Directors discharges its responsibilities directly and through committees of the Board of Directors, currently consisting of the Audit Committee, a compensation committee (the "**Compensation Committee**"), and a disclosure committee (the "**Disclosure Committee**").

Audit Committee

The mandate of the Audit Committee is formalized in a written charter. The members of the Audit Committee are James Cassina, Ritwik Uban and Dikshant Batra (Chair). Based on his professional experience, the board has determined that Dikshant Batra is an Audit Committee Financial Expert and that James Cassina and Ritwik Uban are financially literate. The Audit Committee's primary duties and responsibilities are to serve as an objective party to monitor our financial reporting process and control systems, review and appraise the audit activities of our independent auditors, financial and senior management, and the lines of communication among the independent auditors, financial and senior management, and the Board of Directors for financial reporting and control matters including investigating fraud, illegal acts or conflicts of interest.

Compensation Committee

The mandate of the Compensation Committee is formalized in a written charter. The members of the Compensation Committee are Dikshant Batra and James Cassina (Chair). Compensation is determined in the context of our strategic plan, our growth, shareholder returns and other achievements and considered in the context of position descriptions, goals and the performance of each individual director and officer. With respect to directors' compensation, the Compensation Committee reviews the level and form of compensation received by the directors, members of each committee, the board chair and the chair of each board committee, considering the duties and responsibilities of each director, his or her past service and continuing duties in service to us. The compensation of directors, the CEO, CFO and executive officers of competitors are considered, to the extent publicly available, in determining compensation and the Compensation Committee has the power to engage a compensation consultant or advisor to assist in determining appropriate compensation.

Disclosure Committee

The mandate of the Disclosure Committee is formalized in a written charter. The members of the Disclosure Committee are Dikshant Batra, Ritwik Uban and James Cassina (Chair). The Committee's duties and responsibilities include, but are not limited to, review and revise our controls and other procedures ("Disclosure and Controls Procedures") to ensure that (i) information required by us to be disclosed to the applicable regulatory authorities and other written information that we will disclose to the public is reported accurately and on a timely basis, and (ii) such information is accumulated and communicated to management, as appropriate to allow timely decisions regarding required disclosure; assist in documenting and monitoring the integrity and evaluating the effectiveness of the Disclosure and Control Procedures; the identification and disclosure of material information about us, the accuracy completeness and timeliness of our financial reports and all communications with the investing public are timely, factual and accurate and are conducted in accordance with applicable legal and regulatory requirements.

Assessments

The board assesses, on an annual basis, the contributions of the board as a whole, the Audit Committee and each of the individual directors, in order to determine whether each is functioning effectively. The board monitors the adequacy of information given to directors, communication between the board and management and the strategic direction and processes of the board and committees. The Audit Committee will annually review the Audit Committee Charter and recommend, if any, revisions to the board as necessary.

Relevant Education and Experience of Audit Committee Members

Dikshant Batra, BBA – Honours is the Chairman of the Audit Committee. Mr. Batra's company, Torinit Technologies Inc., is a global technology and development outsourcing firm. Audit Committee Charter

- Our Audit Committee Charter (the "Charter") has been adopted by our Board of Directors. The Audit Committee of the board (the "Committee") will review and reassess this charter annually and recommend any proposed changes to the board for approval. The Audit Committee's primary duties and responsibilities are to:
 - Oversee (i) the integrity of our financial statements; (ii) our compliance with legal and regulatory requirements; and (iii) the independent auditors' qualifications and independence.
 - Serve as an independent and objective party to monitor our financial reporting processes and internal control systems.
 - Review and appraise the audit activities of our independent auditors and the internal auditing functions.
 - Provide open lines of communication among the independent auditors, financial and senior management, and the board for financial reporting and control matters.

Role and Independence: Organization

The Committee assists the board on fulfilling its responsibility for oversight of the quality and integrity of our accounting, auditing, internal control and financial reporting practices. It may also have such other duties as may from time to time be assigned to it by the board.

The Audit Committee is to be comprised of at least three directors.

All members shall, to the satisfaction of the board, be financially literate (i.e. will have the ability to read and understand a balance sheet, an income statement, a cash flow statement and the notes attached thereto), and at least one member shall have accounting or related financial management expertise to qualify as “financially sophisticated”. A person will qualify as “financially sophisticated” if an individual who possesses the following attributes:

- an understanding of financial statements and generally accepted accounting principles;
- an ability to assess the general application of such principles in connection with the accounting for estimates, accruals and reserves;
- experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by our financial statements, or experience actively supervising one or more persons engaged in such activities;
- an understanding of internal controls and procedures for financial reporting; and
- an understanding of audit committee functions.

The Board has determined that Dikshant Batra is an “audit committee financial expert” as defined in Item 401(h) of Regulation S-K promulgated by the Securities and Exchange Commission.

The Committee members will be elected annually at the first meeting of the Board following the annual meeting of shareholders. Each member of the Committee serves during the pleasure of the Board and, in any event, only so long as he or she is a director.

One member of the Committee shall be appointed as chair. The chair shall be responsible for leadership of the Committee, including scheduling and presiding over meetings and making regular reports to the Board. The chair will also maintain regular liaison with the CEO, CFO, President and the lead independent audit partner.

Responsibilities and Powers

Although the Committee may wish to consider other duties from time to time, the general recurring activities of the Committee in carrying out its oversight role are described below.

- Annual review and revision of the Charter as necessary with the approval of the board.
- Review and obtain from the independent auditors a formal written statement delineating all relationships between the auditor and us, consistent with Independence Standards Board Standard 1.
- Recommending to the board the independent auditors to be retained (or nominated for shareholder approval) to audit our financial statements. Such auditors are ultimately accountable to the board and the Committee, as representatives of the shareholders.
- Evaluating, together with the board and management, the performance of the independent auditors and, where appropriate, replacing such auditors.
- Obtaining annually from the independent auditors a formal written statement describing all relationships between the auditors and us. The Committee shall actively engage in a dialogue with the independent auditors with respect to any relationship that may impact the objectivity and the independence of the auditors and shall take, or recommend that the board take, appropriate actions to oversee and satisfy itself as to the auditors’ independence.
- Ensuring that the independent auditors are prohibited from providing the following non-audit services and determining which other non-audit services the independent auditors are prohibited from providing:
 - o Bookkeeping or other services related to our accounting records or consolidated financial statements;
 - o Financial information systems design and implementation;

- o Appraisal or valuation services, fairness opinions, or contribution-in-kind reports;
 - o Actuarial services;
 - o Internal audit outsourcing services;
 - o Management functions or human resources;
 - o Broker or dealer, investment advisor or investment banking services;
 - o Legal services and expert services unrelated to the audit; and
 - o Any other services which the Public Company Accounting Oversight Board determines to be impermissible.
- Approving any permissible non-audit engagements of the independent auditors.
 - Meeting with our auditors and management to review the scope of the proposed audit for the current year, and the audit procedures to be used, and to approve audit fees.
 - Reviewing the audited consolidated financial statements and discussing them with management and the independent auditors. Consideration of the quality our accounting principles as applied in its financial reporting. Based on such review, the Committee shall make its recommendation to the Board as to the inclusion of our audited consolidated financial statement in our Annual Report to Shareholders.
 - Discussing with management and the independent auditors the quality and adequacy of and compliance with our internal controls.
 - Establishing procedures: (i) for receiving, handling and retaining of complaints received by us regarding accounting, internal controls, or auditing matters, and (ii) for employees to submit confidential anonymous concerns regarding questionable accounting or auditing matters.
 - Review and discuss all related party transactions involving us.
 - Engaging independent counsel and other advisors if the Committee determines that such advisors are necessary to assist the Committee in carrying out its duties.
 - Publicly disclose the receipt of warning about any violations of corporate governance rules.

Authority

The Committee will have the authority to retain special legal, accounting or other experts for advice, consultation or special investigation. The Committee may request any officer or employee of ours, our outside legal counsel, or the independent auditor to attend a meeting of the Committee, or to meet with any member of, or consultants to, the Committee. The Committee will have full access to our books, records and facilities.

Meetings

The Committee shall meet at least yearly, or more frequently as the Committee considers necessary. Opportunities should be afforded periodically to the external auditor and to senior management to meet separately with the independent members of the Committee. Meetings may be with representatives of the independent auditors, and appropriate members of management, all either individually or collectively as may be required by the Chairman of the Committee.

The independent auditors will have direct access to the Committee at their own initiative.

The Chairman of the Committee will report periodically the Committee's findings and recommendations to the Board of Directors.

B. MEMORANDUM AND ARTICLES OF ASSOCIATION

Certificate of Incorporation

We were incorporated under the Business Corporations Act (Ontario) on September 22, 1978 under the name Bonanza Red Lake Explorations Inc. The corporation number as assigned by Ontario is 396323.

Articles of Amendment dated January 14, 1985

By Articles of Amendment dated January 14, 1985, our Articles were amended as follows:

1. The minimum number of directors of the Company shall be 3 and the maximum number of directors of the Company shall be 10.
2. (a) Delete the existing objects clauses and provide that there are no restrictions on the business we may carry on or on the powers that we may exercise;
 - (b) Delete the term "head office" where it appears in the articles and substitute therefor the term "registered office";
 - (c) Delete the existing special provisions contained in the articles and substitute therefor the following:

The following special provisions shall be applicable to the Company:

Subject to the provisions of the Business Corporations Act, as amended or re-enacted from time to time, the directors may, without authorization of the shareholders:

- (i) borrow money on the credit of the Company;
 - (ii) issue, re-issue, sell or pledge debt obligations of the Company;
 - (iii) give a guarantee on behalf of the Company to secure performance of an obligation of any person;
 - (iv) mortgage, hypothecate, pledge or otherwise create a security interest in all or any property of the Company owned or subsequently acquired, to secure any obligation of the Company; and
 - (v) by resolution, delegate any or all such powers to a director, a committee of directors or an officer of the Company.
3. (a) Provide that the Company is authorized to issue an unlimited number of shares;
 - (b) Provide that the Company is authorized to issue an unlimited number of preference shares.

Articles of Amendment dated August 16, 2000

By Articles of Amendment dated August 16, 2000 our articles were amended to consolidate our issued and outstanding common shares on the basis on one common share for every three issued and outstanding common shares in our capital, and change our name from Bonanza Red Lake Explorations Inc. to Eugenic Corp.

Our Articles of Amendment state that there are no restrictions on the business that may carry on, but do not contain a stated purpose or objective.

Articles of Amalgamation dated November 30, 2009

By Articles of Amalgamation dated November 30, 2009 we amalgamated with our wholly owned subsidiary Eagleford Energy Inc., (formerly: 1406768 Ontario Inc.) and changed the entity's name to Eagleford Energy Inc.

Our Articles of Amalgamation state that there are no restrictions on the business that may carry on or on the powers the Company may exercise.

We are authorized to issue an unlimited number of common shares and an unlimited number of preference shares of which Nil were outstanding as of the date of this Annual Report (the "Preference Shares").

A description of the rights, preferences and privileges relating to the Company's Preference Shares is as follows:

- (a) Our Preference Shares have a par value of one-tenth of one cent (1/10) and are redeemable, voting, non-participating shares.
- (b) No dividends at any time shall be declared, set aside or paid on our Preference Shares.
- (c) In the event of a liquidation, dissolution or winding of the Company or other distribution of assets or property of the Company among shareholders for the purpose of winding up its affairs, the holders of the Preference Shares shall be entitled to received from the assets and property of the Company a sum equivalent to the aggregate par value of the Preference Shares held by them respectively before any amount shall be paid or any property or assets of the Company distributed to holders of any common shares or shares of any other class ranking junior to the Preference Shares. After payment to the holders of the Preference Shares of the amount so payable to them as above provided, they shall not be entitled to share in any further distribution of the assets or property of the Company.
- (d) The Company may not redeem the Preference Shares prior to the expiration of five years from the respective dates of issuance thereof, without the prior consent of the holders of the Preference Shares to be redeemed. The Company shall redeem all of the then outstanding Preference Shares five years from the respective dates of issue
- (e) The Company may at any time or times purchase for cancellation all or any part of the Preference Shares outstanding from time to time from the holders thereof, at a price not exceeding the par value thereof, with the consent of the holders thereof.
- (f) The holders of the Preference Shares shall be entitled to receive notice of and attend all meetings of shareholders of the Company and shall have one (1) vote for each Preference Share held at all meetings of the shareholders of the Company.

Other Provisions

The following special provisions shall be applicable to the Company:

Subject to the provisions of the Business Corporations Act, as amended or re-enacted from time to time, the directors may, without authorization of the shareholders:

- (i) borrow money on the credit of the Company;
- (ii) issue, re-issue, sell or pledge debt obligations of the Company;
- (iii) give a guarantee on behalf of the Company to secure performance of an obligation of any person;
- (iv) mortgage, hypothecate, pledge or otherwise create a security interest in all or any property of the Company owned or subsequently acquired, to secure any obligation of the Company; and

(v) by resolution, delegate any or all such powers to a director, a committee of directors or an officer of the Company.

Articles of Amendment dated effective March 16, 2012

By Articles of Amendment dated effective March 16, 2012 our articles were amended to

a) To change each issued and outstanding common share in the capital of the Corporation into two (2) common share of the Corporation (the "Stock Split") effective as of the close of business on March 16, 2012; and

b) To provide that no fractional shares shall be issued as a result of the Stock Split, and if any fractional share would otherwise result from the Stock Split, such fractional share shall be rounded up to the nearest whole share and distributed to the holder of the fractional interest as his or her interest appears

Bylaws

At the Annual and Special Meeting of Shareholders held on February 24, 2012, shareholders approved a resolution to repeal and replace the Company's By-Law No. 1 and Special By-Law No. 1 (the "**Old By-Laws**") with a new By-Law No. 1 (the "**New By-Laws**") in order to reflect the current circumstances and practices of the Company and certain amendments to the *Business Corporations Act* (Ontario) (the "**OBCA**"), which came into force on August 1, 2007.

No director of ours is permitted to vote on any resolution to approve a material contract or transaction in which such director has a material interest (Bylaws, Article 3.17).

Neither our Articles nor our Bylaws limit the directors' power, in the absence of an independent quorum, to vote compensation to themselves or any members of their body. The Bylaws provide that directors shall receive remuneration as the Board of Directors shall determine from time to time (Bylaws, Article 3.19).

Under our Articles and Bylaws, our Board of Directors may, without the authorization of our shareholders, (i) borrow money upon our credit; (ii) issue, reissue, sell or pledge debt obligations of ours; whether secured or unsecured (iii) give a guarantee on behalf of us to secure performance of obligations; and (iv) charge, mortgage, hypothecate, pledge or otherwise create a security interest in all currently owned or subsequently acquired real or personal, movable or immovable, tangible or intangible, property of ours to secure obligations (Bylaws, Article 13.1).

The annual meeting of shareholders shall be held at such time in each year as the Board, the Chairman of the Board (if any), the Chief Executive Officer, or the President may from time to time determine, for the purpose of considering the financial statements and reports required by the OBCA to be placed before the annual meeting, electing directors, appointing an auditor and for the transaction of such other business as may properly be brought before the meeting (Bylaws, Article 9.1).

The Board of Directors, the Chairman of the Board (if any) or the President shall have power to call a special meeting of shareholders at any time (Bylaws, Article 9.2).

Shareholders of record must be given notice of any meeting not less than 21 days or more than 50 days before the date of the meeting or as otherwise prescribed by applicable laws. Notice of a meeting of shareholders called for any purpose other than consideration of the financial statements and auditors' report, election of directors and reappointment of the incumbent auditor shall state or be accompanied by a statement of the nature of such business in sufficient detail to permit the shareholder to form a reasoned judgment thereon and the text of any special resolution or by-law to be submitted to the meeting (Bylaws, Article 9.4). Our Board of Directors is permitted to fix a record date for any meeting of the shareholders that is between 30 and 60 days prior to such meeting or as otherwise prescribed by applicable laws. (Bylaws, Article 9.6). The only persons entitled to be present at a meeting of shareholders shall be those entitled to vote thereat, the directors and the auditor of the Company and others who, although not entitled to vote are entitled or required under any provision of the OBCA or the articles or the by-laws to be present at the meeting. Any other person may be admitted only on the invitation of the chairman of the meeting or with the consent of the meeting (Bylaws, Article 9.9).

Neither our Articles nor our Bylaws discuss limitations on the rights to own securities or exercise voting rights thereon, and there is no provision of our Articles or Bylaws that would delay, defer or prevent a change in control of us, or that would operate only with respect to a merger, acquisition, or corporate restructuring involving us or any of its subsidiaries. Our Bylaws do not contain a provision indicating an ownership threshold above which shareholder ownership must be disclosed.

Articles of Amendment dated effective August 25, 2014

By Articles of Amendment dated effective August 25, 2014 our articles were amended to change our name from Eagleford Energy Inc., to Eagleford Energy Corp., and

- a) To change every ten (10) issued and outstanding common share in the capital of the Corporation into one (1) common share of the Corporation (the "Stock Consolidation") effective as of the close of business on August 25, 2014; and
- a) To provide that no fractional shares shall be issued as a result of the Stock Consolidation and if any fractional share would otherwise result from the Stock Split, such fractional share shall be rounded up to the nearest whole share and distributed to the holder of the fractional interest as his or her interest appears.

Articles of Amendment dated effective February 1, 2016

By Articles of Amendment dated effective February 1, 2016 our articles were amended to change our name from Eagleford Energy Corp., to Intelligent Content Enterprises Inc., and

- a) To change every ten (10) issued and outstanding common share in the capital of the Corporation into one (1) common share of the Corporation (the "Stock Consolidation") effective as of the close of business on February 1, 2016; and
- b) To provide that no fractional shares shall be issued as a result of the Stock Consolidation and if any fractional share would otherwise result from the Stock Split, such fractional share shall be rounded up to the nearest whole share and distributed to the holder of the fractional interest as his or her interest appears.

Articles of Amendment dated effective February 29, 2016

By Articles of Amendment dated effective February 29, 2016 our articles were amended to revise the attributes of the preferred shares.

The Company is authorized to issue an unlimited number of common shares and an unlimited number of preference shares, issuable in series with the following attributes:

Share Provisions

(a) The Common Shares of the Corporation shall have attached thereto the following rights, privileges, restrictions and conditions:

1. DIVIDENDS

Subject to the prior rights of the holders of the Preference Shares and to any other shares ranking senior to the Common Shares with respect to priority in the payment of dividends, the holders of the Common Shares shall be entitled to receive dividends and the Corporation shall pay dividends thereon, as and when declared by the Board of Directors of the Corporation, out of moneys properly applicable to the payment of dividends, in such amount and in such form as the Board of Directors may from time to time determine and all dividends which the directors may declare on the Common Shares shall be declared and paid in equal amounts per share on all Common Shares at the time outstanding.

2. DISSOLUTION

In the event of the dissolution, liquidation or winding-up of the Corporation, whether voluntary or involuntary, or any other distribution of assets of the Corporation among its shareholders for the purpose of winding-up its affairs, subject to the prior rights of the holders of the Preference Shares and to any other shares ranking senior to the Common Shares with respect to priority in the distribution of assets upon dissolution, liquidation or winding-up, the holders of the Common Shares shall be entitled to receive the remaining property and assets of the Corporation.

3. VOTING RIGHTS

The holders of the Common Shares shall be entitled to receive notice of and to attend all meetings of the shareholders of the Corporation and shall have one (1) vote for each Common Share held at all meetings of the shareholders of the Corporation, except for meetings at which only holders of another specified class or series of shares of the Corporation are entitled to vote separately as a class or series.

(b) The rights, privileges, restrictions and conditions attaching to the Preference Shares, as a class, are as follows:

1. DIRECTORS' AUTHORITY TO ISSUE ONE OR MORE SERIES

The Board of Directors of the Corporation may issue the Preference Shares at any time and from time to time in one or more series. Before the first shares of a particular series are issued, the Board of Directors of the Corporation shall fix the number of shares in such series and shall determine, subject to the limitations set out in the articles, the designation, rights, privileges, restrictions and conditions to attach to the shares of such series which may include, without limiting the generality of the foregoing, the rate or rates, amount or method or methods of calculation of preferential dividends, whether cumulative or non-cumulative or partially cumulative, and whether such rate(s), amount or method(s) of calculation shall be subject to change or adjustment in the future, the currency or currencies of payment, the date or dates and place or places of payment thereof and the date or dates from which such preferential dividends shall accrue, the redemption price and terms and conditions of redemption (if any), the rights of retraction (if any), and the prices and other terms and conditions of any rights of retraction and whether any additional rights of retraction may be vested in such holders in the future, voting rights and conversion or exchange rights (if any), and any sinking fund, purchase fund or other provisions attaching thereto. Before the issue of the first shares of a series, the Board of Directors of the Corporation shall send to the Director (as defined in the Business Corporations Act) articles of amendment in the prescribed form containing a description of such series including the designation, rights, privileges, restrictions and conditions determined by the directors.

2. RANKING OF PREFERENCE SHARES

2.1 No rights, privileges, restrictions or conditions attaching to a series of Preference Shares shall confer upon a series a priority in respect of dividends or return of capital in the event of liquidation, dissolution or winding-up of the Corporation over any other series of Preference Shares. The Preference Shares of each series rank on a parity with the Preference Shares of every other series with respect to priority in the payment of dividends and the return of capital and the distribution of assets of the Corporation in the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding-up its affairs.

2.2 The Preference Shares shall be entitled to priority over the Common Shares and over any other shares of any other class of the Corporation ranking junior to the Preference Shares with respect to priority in the payment of dividends and the return of capital and the distribution of assets in the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding-up its affairs.

2.3 If any amount of cumulative dividends, whether or not declared, or declared non-cumulative dividends or amount payable on a return of capital in the event of the liquidation, dissolution or winding-up of the Corporation in respect of a series of Preference Shares is not paid in full, the Preference Shares of all series shall participate rateably in respect of all accumulated dividends, whether or not declared, and all declared non-cumulative dividends in accordance with the sums that would be payable on such shares if all such dividends were declared and paid in full, and in respect of amounts payable on return of capital in the event of the liquidation, dissolution or winding-up of the Corporation in accordance with the sums that would be payable on such repayment of capital if all sums so payable were paid in full; provided, however, that in the event of there being insufficient assets to satisfy in full all such claims as aforesaid, the claims of the holders of the Preference Shares with respect to amounts payable on return of capital shall first be paid and satisfied and any assets remaining thereafter shall be applied towards the payment and satisfaction of claims in respect of dividends.

2.4 The Preference Shares of any series may also be given such other preferences not inconsistent with the provisions hereof over the Common Shares and over any other shares ranking junior to the Preference Shares as may be determined in the case of such series of Preference Shares.

3. RESTRICTIONS ON DIVIDENDS AND REDEMPTIONS, ETC.

Except with the approval of all the holders of the Preference Shares, no dividends shall at any time be declared or paid or set apart for payment on the Common Shares or any other shares of the Corporation ranking junior to the Preference Shares unless all dividends which have been declared by the Board of Directors up to and including the dividend payable for the last completed period for which such dividends have been declared by the Board of Directors on each series of Preference Shares then issued and outstanding shall have been paid or set apart for payment at the date of such declaration or payment or setting apart for payment on the Common Shares or such other shares of the Corporation ranking junior to the Preference Shares; nor shall the Corporation call for redemption, redeem, purchase for cancellation, acquire for value or reduce or otherwise pay off any of the Preference Shares (less than the total amount then outstanding) or any Common Shares or any other shares of the Corporation ranking junior to the Preference Shares unless and until all dividends up to and including the dividends payable for the last completed period for which such dividends have been declared by the Board of Directors on each series of Preference Shares then issued and outstanding shall have been paid or set apart for payment at the date of such call for redemption, purchase, acquisition, reduction or other payment.

4. VOTING RIGHTS

Except as hereinafter referred to or as otherwise provided by law or in accordance with any voting rights which may from time to time be attached to any series of Preference Shares, the holders of the Preference Shares as a class shall not be entitled as such to receive notice of, to attend to vote at any meeting of the shareholders of the Corporation.

5. SPECIFIC MATTERS REQUIRING APPROVAL

5.1 The approval of the holders of the Preference Shares, given in the manner described in Section 6.1 below, shall be required for the creation of any new shares ranking prior to or on a parity with the Preference Shares, and if, but only so long as, any cumulative dividends are in arrears or any declared non-cumulative dividends are unpaid on any outstanding series of Preference Shares, for the issuance of any additional series of Preference Shares or of any shares ranking prior to or on a parity with the Preference Shares.

5.2 The provisions of Clauses 1 to 6 inclusive may be deleted, amended, modified or varied in whole or in part by a certificate of amendment issued by the Director appointed under the Business Corporations Act, but only with the prior approval of the holders of the Preference Shares given as hereinafter specified in addition to any other approval required by the Business Corporations Act or any other statutory provisions of like or similar effect, from time to time in force.

6. APPROVAL OF THE HOLDERS OF THE PREFERENCE SHARES

The approval of the holders of the Preference Shares with respect to any and all matters hereinbefore referred to may be given by at least two thirds of the votes cast at a meeting of the holders of the Preference Shares duly called for that purpose and held upon at least 21 days' notice at which the holders of a majority of the outstanding Preference Shares are present or represented by proxy. If at any such meeting the holders of a majority of the outstanding Preference Shares are not present or represented by proxy within one half-hour after the time appointed for such meeting, then the meeting shall be adjourned to such date being not less than 30 days later and to such time and place as may be appointed by the chairman and not less than 21 days' notice shall be given of such adjourned meeting. At such adjourned meeting the holders of the Preference Shares present or represented by proxy may transact the business for which the meeting was originally called and a resolution passed thereat by not less than two-thirds of the votes cast at such adjourned meeting shall constitute the approval of the holders of the Preference Shares referred to above. The formalities to be observed with respect to the giving of notice of any such meeting or adjourned meeting and the conduct thereof shall be those from time to time prescribed by the Business Corporations Act and the by-laws of the Corporation with respect to meetings of shareholders. On every poll taken at every such meeting or adjourned meeting every holder of Preference Shares shall be entitled to one (1) vote in respect of each Preference Share held.

Articles of Amendment dated effective May 26, 2017

By Articles of Amendment dated effective May 26, 2017, our articles were amended to change our name from Intelligent Content Enterprises Inc., to Novicius Corp., and

- a) To change every ten (10) issued and outstanding common share in the capital of the Corporation into one (1) common share of the Corporation (the "Stock Consolidation") effective as of the close of business on May 26, 2017; and
- c) To provide that no fractional shares shall be issued as a result of the Stock Consolidation and if any fractional share would otherwise result from the Stock Split, such fractional share shall be rounded up to the nearest whole share and distributed to the holder of the fractional interest as his or her interest appears.

Other Provisions

Neither our Articles nor our Bylaws discuss the retirement or non-retirement of directors under an age limit requirement or the number of shares required for director qualification.

Neither our Articles nor our Bylaws require that a director hold a share in the capital of the Company as qualification for his/her office.

Neither our Articles nor our Bylaws contain sinking fund provisions, provisions allowing us to make further capital calls with respect to any shareholder of ours, or provisions which discriminate against any holders of securities as a result of such shareholder owning a substantial number of shares.

C. MATERIAL CONTRACTS

During the two year period preceding the filing date of this Annual Report, we entered into no material contracts other than contracts entered into in the ordinary course except for the following:

On June 22, 2016, the Company entered into a consulting agreement to assist with the development of new business programs, business units, partnerships, revenues, concepts and ideas as well as technical, commercial and creative advisory services. As consideration for the services, the Company agreed to provide to the consultant remuneration of \$20,000 upon execution the agreement, \$10,000 monthly commencing July 1, 2016, and issue 175,000 common share purchase warrants, valid for 5 years with cashless exercise provisions issued at a price of \$15.00 vesting 43,750 per quarter. On January 15, 2017, the consulting agreement was terminated and no warrants vested.

On May 25, 2016, the Company entered into a Term Sheet to license to acquire all the technology, production and client operations owned and operated by New York based Catch Star Studios LLC ("Catch Star"). On October 12, 2016, the Company advanced US\$65,000 (\$81,483 as at August 31, 2017) to Catch Star and entered into a Secured Promissory Note and General Security Agreement (the "Note") with Catch Star. The Note is due on demand and is secured by all of the assets of Catch Star. Subsequently, Catch Star and the Company could not reach a definitive agreement to memorialize the terms and conditions of the Term Sheet and abandoned the prospective transaction. On February 1, 2017, the Company issued a letter of demand for the repayment of the Note in full. At August 31, 2017 the Company determined that the Secured Note was uncollectible and recorded an impairment of the full amount.

The Company negotiated an Asset Purchase Agreement to be effective February 29, 2016, with an expectation to acquire the net assets (the "Acquired Assets") of Digital Widget Factory Inc., a Belize company (the "Vendor"), in an all-stock transaction by issuing 12,500,000 common shares and 5,750,000 Series A preferred shares (the "Proposed Purchase Price Shares"). The essential components of the proposed Acquired Assets were an intelligent content platform technology developed by Digital Widget Factory Inc. and a series of related websites under the url digiwdgy.com. The fair value of the transaction was estimated at \$9,530,250 and was agreed to be paid by the Company through the issuance of the Proposed Purchase Price Shares.

Subsequent to February 29, 2016, management of the Company came to the conclusion that certain representations and warranties made under the Asset Purchase Agreement were conceivably deficient and on November 24, 2016, the Company advanced a Notice of Claim. On December 22, 2016, it was agreed that all disputed matters contained in the Asset Purchase Agreement, be resolved in a Settlement Agreement whereby the Company agreed to return the Acquired Assets to the Vendor and the Vendor agreed to return the Proposed Purchase Price Shares back to the Company.

The Settlement Agreement closed effective January 20, 2017, when the Company returned the Acquired Assets to the Vendor and the Vendor returned to the Company the Proposed Purchase Price Shares previously issued to the Vendor and a full and final release in respect of all obligations under the DWF Agreement was exchanged between the Vendor and the Company. The Proposed Purchase Price Shares have been cancelled in the capital stock of the Company and the Company no longer has any interest in the DWF Technology and the series of digiwdgy.com websites.

D. EXCHANGE CONTROLS

There are no governmental laws, decrees or regulations in Canada that restrict the export or import of capital, or affect the remittance of dividends, interest or other payments to a non-resident holder of our common stock, other than withholding tax requirements (See "Taxation" below).

Except as provided in the Investment Canada Act, there are no limitations imposed under the laws of Canada, the Province of Ontario, or by our constituent documents on the right of a non-resident to hold or vote our common stock.

The Investment Canada Act (the "ICA"), which became effective on June 30, 1985, regulates the acquisition by non-Canadians of control of a Canadian business enterprise. In effect, the ICA requires review by Investment Canada, the agency which administers the ICA, and approval by the Canadian government, in the case of an acquisition of control of a Canadian business by a non-Canadian where: (i) in the case of a direct acquisition (for example, through a share purchase or asset purchase), the assets of the business are CDN \$5 million or more in value; or (ii) in the case of an indirect acquisition (for example, the acquisition of the foreign parent of the Canadian business) where the Canadian business has assets of CDN \$5 million or more in value or if the Canadian business represents more than 50% of the assets of the original group and the Canadian business has assets of CDN \$5 million or more in value. Review and approval are also required for the acquisition or establishment of a new business in areas concerning "Canada's cultural heritage or national identity" such as book publishing, film production and distribution, television and radio production and distribution of music, and the oil and natural gas industry, regardless of the size of the investment.

As applied to an investment in us, three methods of acquiring control of a Canadian business would be regulated by the ICA: (i) the acquisition of all or substantially all of the assets used in carrying on the Canadian business; (ii) the acquisition, directly or indirectly, of voting shares of a Canadian corporation carrying on the Canadian business; or (iii) the acquisition of voting shares of an entity which controls, directly or indirectly, another entity carrying on a Canadian business. An acquisition of a majority of the voting interests of an entity, including a corporation, is deemed to be an acquisition of control under the ICA. An acquisition of less than one-third of the voting shares of a corporation is deemed not to be an acquisition of control. An acquisition of less than a majority, but one-third or more, of the voting shares of a corporation is presumed to be an acquisition of control unless it can be established that on the acquisition the corporation is not, in fact, controlled by the acquirer through the ownership of voting shares. For partnerships, trusts, joint ventures or other unincorporated entities, an acquisition of less than a majority of the voting interests is deemed not to be an acquisition of control.

In 1988, the ICA was amended, pursuant to the Free Trade Agreement dated January 2, 1988 between Canada and the United States, to relax the restrictions of the ICA. As a result of these amendments, except where the Canadian business is in the cultural, oil and gas, uranium, financial services or transportation sectors, the threshold for direct acquisition of control by US investors and other foreign investors acquiring control of a Canadian business from US investors has been raised from CDN \$5 million to CDN \$150 million of gross assets, and indirect acquisitions are not reviewable.

In addition to the foregoing, the ICA requires that all other acquisitions of control of Canadian businesses by non-Canadians are subject to formal notification to the Canadian government. These provisions require a foreign investor to give notice in the required form, which notices are for information, as opposed to review, purposes.

E. TAXATION

Certain Canadian Federal Income Tax Consequences

The following discussion describes the principal Canadian federal income tax consequences applicable to a holder of our common shares which are traded on the OTCQB, who, at all material times, is a resident of the United States for purposes of the Canada-United States Income Tax Convention (the "Treaty") entitled to the full benefit of the Treaty and is not a resident, or deemed to be a resident, of Canada, deals at arm's length and is not affiliated with the Company, did not acquire our common shares by virtue of employment, is not a financial institution, specified financial institution, registered non-resident insurer, authorized foreign bank, partnership or a trust as defined in the Income Tax Act (Canada) (the "ITA"), holds our common shares as capital property and as beneficial owner, and does not use or hold, is not deemed to use or hold, his or her common shares in connection with carrying on a business in Canada and, did not, does not and will not have a fixed base or permanent establishment in Canada within the meaning of the Treaty (a "non-resident holder").

This description is based upon the current provisions of the ITA, the regulations thereunder (the "Regulations"), management's understanding of the current publicly announced administration and assessing policies of Canada Revenue Agency, and all specific proposals (the "Tax Proposals") to amend the ITA and Regulations announced by the Minister of Finance (Canada) prior to the date hereof. This description is not exhaustive of all possible Canadian federal income tax consequences and, except for the Tax Proposals, does not take into account or anticipate any changes in law, whether by legislative, governmental or judicial action, nor does it take into account any income tax laws or considerations of any province or territory of Canada or foreign tax considerations which may differ significantly from those discussed below.

The following discussion is for general information only and is not intended to be, nor should it be construed to be, legal or tax advice to any holder of common shares of the Company, and no opinion or representation with respect to the Canadian Federal Income Tax consequences to any such holder or prospective holder is made. Accordingly, holders and prospective holders of common shares are urged to consult with their own tax advisors about the federal, provincial and foreign tax consequences of purchasing, owning and disposing of common shares.

Dividends

Dividends paid on our common shares to a non-resident holder will be subject to a 25% withholding tax pursuant to the provision of the ITA. The Treaty provides that the normal 25% withholding tax rate is generally reduced to 15% on dividends paid on shares of a corporation resident in Canada (such as the Company) to beneficial owners who are residents of the United States. However, if the beneficial owner is a resident of the United States and is a corporation which owns at least 10% of the voting stock of the Company, the withholding tax rate on dividends is reduced to 5%.

Capital Gains

A non-resident of Canada is subject to tax under the ITA in respect of a capital gain realized upon the disposition of a share of a corporation if the shares are considered to be "taxable Canadian property" of the holder within the meaning of the ITA and no relief is afforded under an applicable tax treaty. For purposes of the ITA, a common share of the Company will be taxable Canadian property to a non-resident holder if more than 50% of the fair market value of the common share during the 60 month period immediately preceding the disposition of the common share, was derived directly or indirectly from real or immovable property situated in Canada, Canadian resource properties or any options or interests in such properties.

In the case of a non-resident holder to whom shares of our common stock represent taxable Canadian property and who is a resident in the United States and not a former resident of Canada, no Canadian taxes will be payable on a capital gain realized on such shares by reason of the Treaty unless the value of such shares is derived principally from real property situated in Canada within the meaning of the Treaty at the time of the disposition.

Certain United States Federal Income Tax Consequences

The following is a general discussion of certain possible United States Federal income tax consequences, under current law, generally applicable to a US Holder (as defined below) of our common shares. This discussion does not address all potentially relevant Federal income tax matters and does not address consequences peculiar to persons subject to special provisions of Federal income tax law, such as those described below as excluded from the definition of a US Holder. In addition, this discussion does not cover any state, local or foreign tax consequences (See "Certain Canadian Federal Income Tax Consequences" above).

The following discussion is based upon the sections of the Internal Revenue Code of 1986, as amended (the "Code"), Treasury Regulations, published Internal Revenue Service ("IRS") rulings, published administrative positions of the IRS and court decisions that are currently applicable, any or all of which could be materially and adversely changed, possibly on a retroactive basis, at any time. In addition, this discussion does not consider the potential effects, both adverse and beneficial, of recently proposed legislation which, if enacted, could be applied, possibly on a retroactive basis, at any time. The following discussion is for general information only and it is not intended to be, nor should it be construed to be, legal or tax advice to any holder or prospective holder of common shares, and no opinion or representation with respect to the United States Federal income tax consequences to any such holder or prospective holder is made. Accordingly, holders and prospective holders of common shares are urged to consult their own tax advisors about the Federal, state, local, and foreign tax consequences of purchasing, owning and disposing of common shares.

U.S. Holders

As used herein, a “U.S. Holder” means a holder of common shares who is a citizen or individual resident (as defined under United States tax laws) of the United States; a corporation created or organized in or under the laws of the United States or of any political subdivision thereof; an estate the income of which is taxable in the United States irrespective of source; or a trust if (a) a court within the United States is able to exercise primary supervision over the trust’s administration and one or more United States persons have the authority to control all of its substantial decisions or (b) the trust was in existence on August 20, 1996 and has properly elected to continue to be treated as a United States person. This summary does not address the United States tax consequences to, and U.S. Holder does not include, persons subject to specific provisions of federal income tax law, including but not limited to tax-exempt organizations, qualified retirement plans, individual retirement accounts and other tax-deferred accounts, financial institutions, insurance companies, real estate investment trusts, regulated investment companies, broker-dealers, non-resident alien individuals, persons or entities that have a “functional currency” other than the U.S. dollar, persons who hold common shares as part of a straddle, hedging or a conversion transaction, and persons who acquire their common shares as compensation for services. This discussion is limited to U.S. Holders who own common shares as capital assets and who hold the common shares directly (e.g., not through an intermediary entity such as a corporation, partnership, limited liability company, or trust). This discussion does not address the consequences to a person or entity of the ownership, exercise or disposition of any options, warrants or other rights to acquire common shares.

Distributions on Our Common Shares

Subject to the discussion below regarding passive foreign investment companies (“PFICs”), the gross amount of any distribution (including non-cash property) by us (including any Canadian taxes withheld therefrom) with respect to common shares generally should be included in the gross income of a U.S. Holder as foreign source dividend income to the extent such distribution is paid out of current or accumulated earnings and profits of ours, as determined under United States Federal income tax principles. Distributions received by non-corporate U.S. Holders may be subject to United States Federal income tax at lower rates than other types of ordinary income (generally 15%) in taxable years beginning on or before December 31, 2010 if certain conditions are met. These conditions include the Company not being classified as a PFIC, it being a “qualified foreign corporation,” the U.S. Holder’s satisfaction of a holding period requirement, and the U.S. Holder not treating the distribution as “investment income” for purposes of the investment interest deduction rules. To the extent that the amount of any distribution exceeds our current and accumulated earnings and profits for a taxable year, the distribution first will be treated as a tax-free return of capital to the extent of the U.S. Holder’s adjusted tax basis in our common shares and to the extent that such distribution exceeds the Holder’s adjusted tax basis in our common shares, will be taxed as capital gain. In the case of U.S. Holders that are corporations, such dividends generally will not be eligible for the dividends received deduction.

If a U.S. Holder receives a dividend in Canadian dollars, the amount of the dividend for United States federal income tax purposes will be the U.S. dollar value of the dividend (determined at the spot rate on the date of such payment) regardless of whether the payment is later converted into U.S. dollars. In such case, the U.S. Holder may recognize additional ordinary income or loss as a result of currency fluctuations between the date on which the dividend is paid and the date the dividend amount is converted into U.S. dollars.

Disposition of Common Shares

Subject to the discussion below regarding PFIC’s, gain or loss, if any, realized by a U.S. Holder on the sale or other disposition of our common shares (including, without limitation, a complete redemption of our common shares) generally will be subject to United States Federal income taxation as capital gain or loss in an amount equal to the difference between the U.S. Holder’s adjusted tax basis in our common shares and the amount realized on the disposition. Net capital gain (i.e., capital gain in excess of capital loss) recognized by a non-corporate U.S. Holder (including an individual) upon a sale or other disposition of our common shares that have been held for more than one year will generally be subject to a maximum United States federal income tax rate of 15% subject to the PFIC rules below. Deductions for capital losses are subject to certain limitations. If the U.S. Holder receives Canadian dollars on the sale or disposition, it will have a tax basis in such dollars equal to the U.S. dollar value. Generally, any gain or loss realized on a subsequent disposition of the Canadian dollars will be U.S. source ordinary income or loss.

U.S. “Anti-Deferral” Rules

Passive Foreign Investment Company (“PFIC”) Regime. If we, or a non-U.S. entity directly or indirectly owned by us (“Related Entity”), has 75% or more of its gross income as “passive” income, or if the average value during a taxable year of ours or the Related Entity’s “passive assets” (generally, assets that generate passive income) is 50% or more of the average value of all assets held by us or the Related Entity, then the United States PFIC rules may apply to U.S. Holders. If we or a Related Entity is classified as a PFIC, a U.S. Holder will be subject to increased tax liability in respect of gain recognized on the sale of his, her or its common shares or upon the receipt of certain distributions, unless such person makes a “qualified electing fund” election to be taxed currently on its *pro rata* portion of our income and gain, whether or not such income or gain is distributed in the form of dividends or otherwise, and we provide certain annual statements which include the information necessary to determine inclusions and assure compliance with the PFIC rules. As another alternative to the foregoing rules, a U.S. Holder may make a mark-to-market election to include in income each year as ordinary income an amount equal to the increase in value of its common shares for that year or to claim a deduction for any decrease in value (but only to the extent of previous mark-to-market gains). We or a related entity can give no assurance as to its status as a PFIC for the current or any future year. U.S. Holders should consult their own tax advisors with respect to the PFIC issue and its applicability to their particular tax situation.

Controlled Foreign Corporation Regime (“CFC”). If a U.S. Holder (or person defined as a U.S. person under Section 7701(a)(30) of the Code) owns 10% or more of the total combined voting power of all classes of our stock (, a “U. S. Shareholder”) and U.S. Shareholders own more than 50% of the vote or value of our Company, we would be a “controlled foreign corporation”. This classification would result in many complex consequences, including the required inclusion into income by such U. S. Shareholders of their pro rata shares of “Subpart F income” of our Company (as defined by the Code) and our earnings invested in “US property” (as defined by the Code). In addition, under Section 1248 of the Code, gain from the sale or exchange of our common shares by a US person who is or was a U. S. Shareholder at any time during the five year period before the sale or exchange may be treated as ordinary income to the extent of earnings and profits of ours attributable to the stock sold or exchanged. It is not clear the CFC regime would apply to the U.S. Holders of our common shares, and is outside the scope of this discussion.

Foreign Tax Credit

A U.S. Holder who pays (or has withheld from distributions) Canadian income tax with respect to us may be entitled to either a deduction or a tax credit for such foreign tax paid or withheld, at the option of the U.S. Holder. Generally, it will be more advantageous to claim a credit because a credit reduces United States federal income tax on a dollar-for-dollar basis, while a deduction merely reduces the taxpayer’s income subject to tax. This election is made on a year-by-year basis and generally applies to all foreign taxes paid by (or withheld from) the U.S. Holder during that year.

There are significant and complex limitations which apply to the credit, among which is the general limitation that the credit cannot exceed the proportionate share of the U.S. Holder’s United States income tax liability that the U.S. Holder’s foreign source income bears to its worldwide taxable income. This limitation is designed to prevent foreign tax credits from offsetting United States source income. In determining this limitation, the various items of income and deduction must be classified into foreign and domestic sources. Complex rules govern this classification process.

In addition, this limitation is calculated separately with respect to specific “baskets” of income such as passive income, high withholding tax interest, financial services income, shipping income, and certain other classifications of income. Foreign taxes assigned to a particular class of income generally cannot offset United States tax on income assigned to another class. Under the American Jobs Creation Act of 2004 (the “Act”), this basket limitation will be modified significantly after 2006.

Unused foreign tax credits can generally be carried back one year and carried forward ten years. U.S. Holders should consult their own tax advisors concerning the ability to utilize foreign tax credits, especially in light of the changes made by the Act.

Backup Withholding

Payment of dividends and sales proceeds that are made within the United States or through certain U.S.-related financial intermediaries generally are subject to information reporting requirement and to backup withholding unless the US Holder (i) is a corporation or other exempt recipient or (ii) in the case of backup withholding, provides a correct taxpayer identification number and certifies that no loss of exemption from backup withholding has occurred

The amount of any backup withholding from a payment to a US Holder will be allowed as a credit against the US Federal income tax liability of the US Holder and may entitle the US Holder to a refund, provided that the required information is furnished to the IRS.

ITEM 11 QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is exposed in varying degrees of risks arising from its financial instruments. The Company has entered into certain financial derivative contracts. These instruments are not used for trading or speculative purposes. The Company has not designated its financial derivative contracts as effective accounting hedges, and thus has not applied hedge accounting. As a result, all financial derivative contracts are classified as fair value through “fair value through profit or loss” and are recorded on the statement of financial position at fair value.

The Board approves and monitors the risk management processes. The Board’s main objectives for managing risks are to ensure liquidity, the fulfillment of obligations and limited exposure to credit and market risks while ensuring greater returns on any surplus funds.

The Company’s financial instruments included on the consolidated statements of financial position are comprised of cash, secured note receivable and trade and other payables. The Company classifies the fair value of financial instruments measured at fair value according to the following hierarchy based on the amount of observable inputs used to value the instrument.

- Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.
- Level 3 – Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

Financial Instrument Classification	Level	August 31, 2017		August 31, 2016	
		Carrying Value (\$)	Fair Value (\$)	Carrying Value (\$)	Fair Value (\$)
Fair value through profit or loss:					
Cash	1	1,040	1,040	449,983	449,983
Other financial liabilities:					
Trade and other payables		529,823	529,823	1,173,231	1,173,231

Cash is stated at fair value (Level 1 measurement). The carrying value of trade and other payables approximate their fair value due to the short-term maturity of these financial instruments.

The types of risk exposure and the ways in which such exposures are managed are as follows:

Credit Risk

Credit risk is primarily related to the Company's receivables and cash and the risk of financial loss if a partner or counterparty to a financial instrument fails to meet its contractual obligations. At August 31, 2017, trade receivable amounts are \$Nil (August 31, 2016: \$Nil). At August 31, 2017, included in other receivables is HST due from the Government of Canada in the amount of \$41,007 (August 31, 2016: \$14,800).

Concentration risk exists in cash because cash balances are maintained with one financial institution. The risk is mitigated because the financial institution is an international bank and all amounts are due on demand.

The Company's maximum exposure to credit risk is as follows:

	August 31, 2017 (\$)	August 31, 2016 (\$)
Cash	1,040	449,983
Balance	<u>1,040</u>	<u>449,983</u>

Liquidity Risk

The Company monitors its liquidity position regularly to assess whether it has the funds necessary to fulfill planned opportunities or that viable options are available to fund such opportunities from new equity issuances or alternative sources of financings. As a company without significant revenue, there are inherent liquidity risks, including the possibility that additional financing may not be available to the Company, or that such financing terms may not be acceptable to the Company.

The following table illustrates the contractual maturities of financial liabilities:

August 31, 2017

	Payments Due by Period \$				
	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Trade and others payables	529,823	529,823	-	-	-
Total	<u>529,823</u>	<u>529,823</u>	<u>-</u>	<u>-</u>	<u>-</u>

August 31, 2016

	Payments Due by Period \$				
	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Trade and others payables	1,173,231	1,173,231	-	-	-
Total	<u>1,173,231</u>	<u>1,173,231</u>	<u>-</u>	<u>-</u>	<u>-</u>

Market Risk

Market risk represents the risk of loss that may impact the Company's financial position, results of operations, or cash flows due to adverse changes in financial market prices, including interest rate risk, foreign currency exchange rate risk, and other relevant market or price risks. The Company does not use derivative instruments to mitigate this risk.

(i) Currency Risk

The Company is exposed to the fluctuations in foreign exchange rates. The Company operates in Canada and a portion of its expenses are incurred in US dollars. A significant change in the currency exchange rates between the Canadian dollar relative to US dollar could have an effect on the Company's financial instruments. The Company does not hedge its foreign currency exposure.

The following assets and liabilities are denominated in US dollars as at the year-end set out below:

	August 31, 2017 (\$)	August 31, 2016 (\$)
Cash	77	6,157
Prepaid expenses and deposits	-	7,814
Trade and other payables	(38,777)	(26,322)
Net assets (liabilities) denominated in US\$	(38,700)	(12,351)
Net assets (liabilities) CDN dollar equivalent at period end ⁽¹⁾	(48,514)	(16,209)

(1) Translated at the exchange rate in effect at August 31, 2017 \$1.2536 (August 31, 2016 \$1.3124)

The following table shows the estimated sensitivity of the Company's total loss for the periods set out from a change in the US dollar exchange rate in which the Company has exposure with all other variables held constant.

Percentage change in US Dollar	August 31, 2017		August 31, 2016	
	Increase	Decrease	Increase	Decrease
	In total loss from a change in % in the US Exchange Rate (\$)		In total loss from a change in % in the US Exchange Rate (\$)	
5%	(3,041)	3,041	(1,064)	1,064
10%	(6,082)	6,082	(2,127)	2,127
15%	(9,123)	9,123	(3,191)	3,191

(ii) Interest Rate Risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. The majority of the Company's debt is short-term in nature with fixed rates.

ITEM 15 CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Under the supervision and with the participation of our senior management, including our chief executive officer and chief financial officer, James Cassina, we conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this annual report (the "Evaluation Date"). Based on this evaluation, our chief executive officer and chief financial officer concluded as of the Evaluation Date that our disclosure controls and procedures were effective such that the information relating to us, required to be disclosed in our Securities and Exchange Commission ("SEC") reports (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with generally accepted accounting principles.

Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of assets; (ii) provide reasonable assurances that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures are being made only in accordance with authorizations of management and the directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on our financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements.

Management assessed the effectiveness of our internal control over financial reporting as of August 31, 2017 based on the framework established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on that assessment, management concluded that, as of August 31, 2017, our internal control over financial reporting was effective based on the criteria established in Internal Control—Integrated Framework.

Limitations on Effectiveness of Controls and Procedures

Our management, including our Chief Executive Officer (Principal Executive Officer) and Chief Financial Officer (Principal Financial Officer), does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Our control systems are designed to provide such reasonable assurance of achieving their objectives. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our Company have been detected. These inherent limitations include, but are not limited to, the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the quarter ended August 31, 2017 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

ITEM 16 [RESERVED]

A. AUDIT COMMITTEE FINANCIAL EXPERT

Our Board of Directors has determined that Mr. Dikshant Batra is an "audit committee financial expert", as defined in Item 16A of Form 20-F. Dikshant Batra, BBA-Honors is the Chairman of the Audit Committee. He is a self-employed consultant. Mr. Batra's company, Torinit Technologies Inc., is a global technology and development outsourcing firm. Mr. Batra is the founder and major shareholder of Nova Sentio which builds market-centric teams to turnaround struggling value chains and companies into high performing, rapid growth enterprises. Mr. Batra is also the founder of Phoenix 1™ a North American company that is re-inventing a key automotive after care area in developing countries and is the Co-Founder of the Canada Entrepreneur Organization.

B. CODE OF ETHICS

We have adopted a written code of business conduct and ethics (the "Code") for our directors, officers and employees. The board encourages following the Code by making it widely available. It is distributed to directors in the Director's Manual and to officers, employees and consultants at the commencement of their employment or consultancy. The Code reminds those engaged in service to us that they are required to report perceived or actual violations of the law, violations of our policies, dangers to health, safety and the environment, risks to our property, and accounting or auditing irregularities to the chair of the Audit Committee. In addition, to requiring directors, officers and employees to abide by the Code, we encourage consultants, service providers and all parties who engage in business with us to contact the chair of the Audit Committee regarding any perceived and all actual breaches by our directors, officers and employees of the Code. The chair of our Audit Committee is responsible for investigating complaints, presenting complaints to the applicable board committee or the board as a whole, and developing a plan for promptly and fairly resolving complaints. Upon conclusion of the investigation and resolution of a complaint, the chair of our Audit Committee will advise the complainant of the corrective action measures that have been taken or advise the complainant that the complaint has not been substantiated. The Code prohibits retaliation by us, our directors and management, against complainants who raise concerns in good faith and requires us to maintain the confidentiality of complainants to the greatest extent practical. Complainants may also submit their concerns anonymously in writing. In addition to the Code, we have an Audit Committee Charter and a Policy of Procedures for Disclosure Concerning Financial/Accounting Irregularities.

Since the beginning of our most recently completed financial year, no material change reports have been filed that pertain to any conduct of a director or executive officer that constitutes a departure from the Code. The board encourages and promotes a culture of ethical business conduct by appointing directors who demonstrate integrity and high ethical standards in their business dealings and personal affairs. Directors are required to abide by the Code and expected to make responsible and ethical decisions in discharging their duties, thereby setting an example of the standard to which management and employees should adhere. The board is required by the Board Mandate to satisfy our CEO and other executive officers are acting with integrity and fostering a culture of integrity throughout the Company. The board is responsible for reviewing departures from the Code, reviewing and either providing or denying waivers from the Code, and disclosing any waivers that are granted in accordance with applicable law. In addition, the board is responsible for responding to potential conflict of interest situations, particularly with respect to considering existing or proposed transactions and agreements in respect of which directors or executive officers advise they have a material interest. The Board Mandate requires that directors and executive officers disclose any interest and the extent, no matter how small, of their interest in any transaction or agreement with us, and that directors excuse themselves from both board deliberations and voting in respect of transactions in which they have an interest. By taking these steps the board strives to ensure that directors exercise independent judgment, unclouded by the relationships of the directors and executive officers to each other and us, in considering transactions and agreements in respect of which directors and executive officers have an interest. Our Code applies to our directors, officers and employees, including our principal executive officer, principal financial officer, principal accounting officer or persons performing similar functions of the Company. There have been no waivers of our Code granted to our principal executive officer, principal financial officer, principal accounting officer or controller, or similar persons during the period covered by this Annual Report.

Upon written request to us at our registered and management office, attention: the President, we will provide by mail, to any person without charge a copy of our Code of Ethics.

C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

It is the policy of the Audit Committee that all audit and non-audit services are pre-approved prior to engagement. Before the initiation of each audit, the principal accountant submits a budget of the expected range of expenditures to complete their audit engagement (including Audit Fees, Audit-Related Fees and Tax Fees) to the Audit Committee for approval. In the event that the principal accountant exceeds these parameters, the individual auditor is expected to communicate to management the reasons for the variances, so that such variances can be ratified by the Audit Committee. As a result, 100% of expenditures within the scope of the noted budget are approved by the Audit Committee.

During fiscal 2017 and 2016 there were no hours performed by any person other than the primary accountant's fulltime permanent employees.

Since the commencement of the Company's most recently completed financial year, no recommendations were made by the Audit Committee to nominate or compensate an external auditor.

External Auditor Service Fees (By Category)

The aggregate fees billed or accrued for professional fees rendered by MNP LLP, Chartered Accountants for the year ended August 31, 2017 and Schwartz Levitsky Feldman llp, Chartered Accountants for the year ended August August 31, 2016 are as follows:

F. CHANGE IN REGISTRANT'S CERTIFYING ACCOUNTANT

- (a) Resignation of Swartz Levitsky Feldman LLP

Schwartz Levitsky Feldman, LLP, Chartered Accountants ("SLF") tendered their resignation, upon their own initiative, as auditors of the Company effective November 1, 2017;

The resignation of SLF was considered and approved by the Board of Directors of the Company;

During the two fiscal years ended August 31, 2016 and 2015 and the subsequent interim period through May 31, 2017, there were no (i) disagreements with SLF on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to their satisfaction would have caused them to make reference in connection with their report to the subject matter of the disagreement, or (ii) reportable events.

(b) Appointment of MNP LLP

Effective November 14, 2017, directors of the Corporation approved the appointment of MNP LLP, Chartered Accountants (“MNP”), as successor auditors for the year ended August 31, 2017;

During the two fiscal years ended August 31, 2016 and 2015 and the subsequent interim period through May 31, 2017, neither we nor anyone on our behalf consulted MNP regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed; or the type of audit opinion that might be rendered on our financial statements, and neither a written report nor oral advice was provided us that MNP concluded was an important factor considered by us in reaching a decision as to the accounting, auditing or financial reporting issue, or (ii) any matter that was either the subject of a “disagreement” (as defined in Item 16F(a)(1)(iv) of Form 20-F and related instructions to Item 16-F of Form 20-F) with MNP or a “reportable event” (as described in Item 16F(a)(1)(v) of Form 20-F).

Our First Notice of Change of Auditor dated November 6, 2017; the resignation of SLF effective November 1, 2017; our Second Notice of Change of Auditor dated November 14, 2017; and the acceptance of appointment of auditors from MNP dated November 17, 2017 were previously filed by Registrant on Form 6-K on November 22, 2017 (Exhibit 4.48).

Report of Independent Registered Public Accounting Firm

To the Shareholders of Novicius Corp. (formerly Intelligent Content Enterprises Inc.):

We have audited the accompanying consolidated financial statements of Novicius Corp. (formerly Intelligent Content Enterprises Inc.), which comprise the consolidated statement of financial position as at August 31, 2017, and the consolidated statement of operations and other comprehensive income (loss), changes in shareholders' deficiency, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audit in accordance with Canadian generally accepted auditing standards and the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Novicius Corp. (formerly Intelligent Content Enterprises Inc.), as at August 31, 2017 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

Emphasis of Matter

Without modifying our opinion, we draw attention to Note 1 to the consolidated financial statements which highlights the existence of a material uncertainty relating to conditions that cast significant doubt on the Company's ability to continue as a going concern.

Other Matter

The consolidated financial statements of Novicius Corp. (formerly Intelligent Content Enterprises Inc.) as at August 31, 2016 and 2015, and for the years then ended, were audited by another auditor who expressed an unqualified opinion on those consolidated financial statements in their report dated March 13, 2017.

Notes to the Consolidated Financial Statements
August 31, 2017 and 2016 and 2015
(Expressed In Canadian Dollars)

1. a) Nature of Business

Novicius Corp., (formerly: Intelligent Content Enterprises Inc.) was amalgamated under the Business Corporations Act (*Ontario*) on November 30, 2009 ("Novicius" or the "Company"). The Company filed articles of amendment effective May 26, 2017, and changed its name from Intelligent Content Enterprises Inc., to Novicius Corp., and consolidated its common shares on the basis of one (1) new share for every ten (10) old shares. The Company filed articles of amendment effective February 1, 2016, and changed its name from Eagleford Energy Corp., to Intelligent Content Enterprises Inc., and consolidated its common shares on the basis of one (1) new share for every ten (10) old shares. Through the Company's wholly owned Ontario subsidiary, DoubleTap Daily Inc., (formerly: Digital Widget Factory Inc.) the Company has developed an online content management and advertising platform that powers user and advertising engagement programs in real-time to desktop, mobile and portable devices (<http://doubletap.co>).

The Company's registered office is located at 1 King Street West, Suite 1505, Toronto, Ontario, M5H 1A1. The Company's common shares trade on the OTCQB under the symbol NVSIF and on the Canadian Securities Exchange under the symbol NVS.

The consolidated financial statements include the accounts of Novicius, the legal parent, together with its wholly-owned subsidiaries, Ice Studio Productions Inc. incorporated in the Province of Ontario on June 16, 2016 ("ICE Studio") and DoubleTap Daily Inc. incorporated in the Province of Ontario on February 29, 2016, ("DoubleTap").

Effective February 29, 2016, the Company disposed of its investment in 1354166 Alberta Ltd., a company operating in the province of Alberta ("1354166 Alberta"). The Company's former subsidiaries, Eagleford Energy, Zavala Inc., a Nevada company ("Zavala Inc."), and its wholly owned subsidiary EEZ Operating Inc., a Texas company ("EEZ Operating") were disposed of effective August 31, 2015 (Note 15).

b) Going Concern

These consolidated financial statements (the "Consolidated Financial Statements") have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business, as they come due for the foreseeable future. The Company is in the process of developing its advertising platform and has not yet realized profitable operations. The Company requires additional financing for its working capital and for the costs of development, content creation and marketing of its platform.

Due to continuing operating losses, the Company's continuance as a going concern is dependent upon its ability to obtain adequate financing and to reach profitable levels of operation. The Company will continue to seek additional forms of debt or equity financing, or other means of funding its operations, however, there is no assurance that it will be successful in doing so or that funds will be available on terms acceptable to the Company or at all. The ability of the Company to arrange such financing in the future will depend in part upon the prevailing capital market conditions as well as the business performance of the Company.

The Company has accumulated significant losses and negative cash flows from operations in recent years which raise doubt as to the validity of the going concern assumption. As at August 31, 2017, the Company has working capital deficiency of \$487,776 (2016: working capital deficiency \$690,649) and an accumulated deficit of \$31,684,984, (2016: \$29,587,246). These material uncertainties may cast significant doubt upon the entity's ability to continue as a going concern. The Consolidated Financial Statements do not give effect to adjustments, if any that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities in other than the normal course of business and at amounts that may differ from those shown in the accompanying Consolidated Financial Statements.

2. Basis of Preparation

Statement of Compliance

These Consolidated Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretation Committee ("IFRIC"). The policies applied in these Consolidated Financial Statements are based on IFRS issued and outstanding as of January 1, 2017. The Board of Directors approved the Consolidated Financial Statements on December 28, 2017.

Basis of Measurement

The Consolidated Financial Statements have been prepared on a historical cost basis except for certain financial instruments measured at fair value.

Functional and Presentation Currency

The functional and presentation currency of the parent Novicius and its wholly owned subsidiaries ICE Studio and DoubleTap is Canadian dollars.

3. Summary of Significant Accounting Policies

Basis of Consolidation

Control exists when the Company is exposed to, or has rights to variable returns from its involvement with the entity and has the ability to affect these returns through its power over the entity. The financial statements of the subsidiaries are included in the Consolidated Financial Statements from the date that control commences until the date that control ceases. Intercompany balances and transactions, and any unrealized income and expenses arising from intercompany transactions, are eliminated in preparing the Consolidated Financial Statements. The Consolidated Financial Statements include the accounts of the Company, the legal parent, together with its wholly-owned subsidiaries, Ice Studio and DoubleTap.

Revenue Recognition

Revenue is recognized when there is persuasive evidence that an arrangement exists which is when a contract or sales order is signed by both parties, delivery has occurred, ownership has been transferred to the customer, price is fixed or determinable and ultimate collection is reasonably assured at the time of delivery.

Revenue from advertising revenue were recognized when services were provided.

Foreign Currency

Items included in the Consolidated Financial Statements of each of the Company's wholly owned subsidiaries are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities not denominated in the functional currency of an entity are recognized in profit or loss.

Assets and liabilities of entities with functional currencies other than Canadian dollars are translated at the year-end rates of exchange, and the results of their operations are translated at average rates of exchange for the period. The resulting translation adjustments are included in the foreign currency translation reserve under other comprehensive income.

Significant Accounting Estimates and Judgements

The preparation of the Consolidated Financial Statements in accordance with IFRS requires that management make estimates and assumptions and use judgment regarding the measured amounts of assets, liabilities and contingent liabilities at the date of the Consolidated Financial Statements and reported amounts of revenue and expenses during the reporting period. Such estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual outcomes may differ from these estimates.

The key sources of estimation uncertainty that have a significant risk of causing material adjustment to the amounts recognized in the Consolidated Financial Statements are:

Going Concern

The assessment of the Company's ability to execute its strategy by funding future working capital requirements involves judgment. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. There is an uncertainty regarding the Corporation's ability to continue as a going concern (see Note 1 b).

Fair value of financial instruments

The estimated fair value of financial assets and liabilities, by their very nature, are subject to measurement uncertainty.

Fair Value of Derivative Liabilities

The Company is exposed to risks related to changes in its share prices, foreign exchange rates, interest rate and volatility rates used to determine the estimated fair value of its derivative liabilities. In the determination of the fair value of these instruments, the Company utilizes certain independent values and, when not available, internal financial models which are based primarily on observable market data. Management's judgment is required in the development of these models. This estimate also requires determining and making assumptions about the most appropriate inputs to the valuation model including the expected life, volatility, discount rates and dividend yield.

Settlement of Debt with Equity Instruments

Equity instruments issued to a creditor to extinguish a financial liability are measured at the fair value of the equity instruments at the date the financial liability is extinguished. The Company estimates the fair value of warrants using the Binomial Lattice pricing model and further assumptions including the expected life, volatility, discount rates and dividend yield. The fair value of the units comprising shares and warrants issued in connection with the extinguishment of a financial liability are then prorated to the total market value of the common shares.

Fair Value of Stock Based Compensation and Warrants

In determining the fair value of share based payments the calculated amounts are not based on historical cost, but is derived based on assumptions (such as the expected volatility of the price of the underlying security, expected hold period before exercise, dividend yield and the risk-free rate of return) input into a pricing model. The model requires that management make forecasts as to future events, including estimates of: the average future hold period of issued stock options and compensation warrants before exercise, expiry or cancellation; future volatility of the Company's share price in the expected hold period; dividend yield; and the appropriate risk-free rate of interest. The resulting value calculated is not necessarily the value that the holder of the option or warrant could receive in an arm's length transaction, given that there is no market for the options or compensation warrants and they are not transferable. Similar calculations are made in estimating the fair value of the warrant component of an equity unit. The assumptions used in these calculations are inherently uncertain. Changes in these assumptions could materially affect the related fair value estimates.

Income Tax

Provisions for taxes are made using the best estimate of the amount expected to be paid based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these provisions at the end of the reporting period. However, it is possible that at some future date an additional liability could result from audits by taxing authorities. Where the final outcome of these tax-related matters is different from the amounts that were initially recorded, such differences will affect the tax provisions in the period in which such determination is made.

Earnings (Loss) per Share

The basic loss per share is calculated by dividing net loss by the weighted average number of common shares outstanding during the period. The diluted earnings per share reflects the dilution that would occur if outstanding stock options and share purchase warrants were exercised or converted into common shares using the treasury stock method.

The inclusion of the Company's stock options and share purchase warrants in the computation of diluted loss per share would have an anti-dilutive effect on loss per share and are therefore excluded from the computation.

Discontinued Operations

A discontinued operation is a component of the Company's business that represents a separate major line of business or geographical area of operations that has been disposed of or is held for sale, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. Effective August 31, 2015, the Company assigned all of its right, title and interest in Zavala Inc., as partial settlement of a secured convertible note payable and effective February 29, 2016, the Company disposed of its investment in 1354166 Alberta and accordingly their operations have been treated as discontinued operations.

Financial Instruments

Classification and Measurement

Financial instruments are measured at fair value on initial recognition of the instrument. Measurement in subsequent periods depends on whether the financial instrument has been classified as "fair value through profit and loss", "loans and receivables", "available-for-sale", "held-to-maturity", or "other financial liability" as defined by IAS 39, "Financial Instruments: Recognition and Measurement".

Financial assets and financial liabilities at "fair value through profit or loss" and are measured at fair value with changes in fair value recognized in the statement of operations. Transaction costs are expensed when incurred. The Company has classified cash and derivative liabilities as "fair value through profit and loss".

Financial instruments classified as "loans and receivables", "held-to-maturity", or "financial liabilities" are measured at amortized cost using the effective interest rate method of amortized cost. "Loans and receivables" are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. "Held-to-maturity" financial assets are non-derivative investments that an entity has the positive intention and ability to hold to maturity.

"Other financial liabilities measured at amortized cost" are those financial liabilities that are not designated as "fair value through profit or loss". The Company has classified trade and other payables as "other financial liabilities".

Financial assets classified as "available-for-sale" are measured at fair value, with changes in fair value recognized in other comprehensive income. The Company has classified its marketable securities as "available for sale".

Cash

Cash in the statement of financial position comprise cash held in banking institutions.

Marketable Securities

At each financial reporting period, the Company estimates the fair value of investments which are available-for-sale, which could be based on quoted closing bid ask spread prices or other measures for unquoted instruments. Adjustments to the fair value of the marketable securities at the financial position date are recorded to other comprehensive income until re-classified to the statement of operations.

Derivative Financial Instruments

The Company's derivative instruments consist of derivative liabilities in relation to its i) anti-dilution units issued; and ii) its previous secured convertible note payable; and iii) share purchase warrants with a US Dollar exercise price.

i) The Company has issued Units that contain an anti-dilution provision such that if within 18 months of the issue date, the Company issues additional common shares for a consideration per share or with an exercise or conversion price per share, less than issue price (the "Adjusted Price") the Holder shall be entitled to receive (for no additional consideration) additional Units in an amount such that, when added to the number of Units acquired by Holder under the agreement will equal the number of Units that the Holder would otherwise be entitled to receive had the transaction occurred at the Adjusted Price. The anti-dilution provision is considered a derivative and requires fair value measurement at each reporting period. During the reporting periods August 31, 2016 and 2015 the Company determined that based on the market price being greater than the issue price per share, no additional common shares were required to be fair valued and recorded as a derivative liability.

ii) The Company had a secured convertible note payable that had a conversion feature which could convert any unpaid principal and accrued interest into conversion units. A conversion unit was comprised of one (1) common share and one (1) common share purchase warrant entitling the holder to acquire a common share of the Company at a price equal to a 15% premium to the price of the common share acquired under the conversion unit. The price of the conversion unit was the lesser of a price equal to the 30-day rolling weighted average price of the Company's common shares as of the date of conversion, less 20% or US\$0.80 per share the ("Conversion Unit"). The terms and features of the conversion met the definition of an embedded derivative. Since both components of the Conversion Unit (the common share component and warrant component) contained a variable exercise/conversion price, the Conversion Unit met the definition of a financial liability under IAS 32 "Financial Instruments: Presentation". As a result, the Conversion Unit was a derivative liability that required fair value measurement each reporting period. The Company had selected the Binomial Lattice model to fair value the warrant component of the conversion unit and the Monte Carlo Simulations process for the common share component of the Conversion Unit.

iii) In prior years, the Company had issued share purchase warrants with an exercise price in US dollars, rather than Canadian dollars (the functional currency of the Company). Such share purchase warrants are derivative instruments and the Company was required to re-measure the fair value at each reporting date. The fair value of these share purchase warrants are re-measured at each reporting date using the Black-Scholes option pricing model with changes recorded to the statement of operations.

Impairment

Financial Assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset. An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate. Individually significant financial assets are tested for impairment on an individual basis. Remaining financial assets are assessed collectively in groups that share similar credit risk characteristics. All impairment losses are recognized in the statement of operations. An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized. For financial assets measured at amortized cost the reversal is recognized in profit or loss.

Income tax

Income tax expense consists of current and deferred tax expense. Current and deferred tax are recognized in profit or loss except to the extent that it relates to items recognized directly in equity or other comprehensive income.

Current tax is recognized and measured at the amount expected to be recovered from or payable to the taxation authorities based on the income tax rates enacted or substantively enacted at the end of the reporting period and includes any adjustment to taxes payable in respect of previous years.

Deferred tax is recognized on any temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable earnings. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized and the liability is settled. The effect of a change in the enacted or substantively enacted tax rates is recognized in net earnings and comprehensive income or in equity depending on the item to which the adjustment relates.

Deferred tax assets are recognized to the extent future recovery is probable. At each reporting period end, deferred tax assets are reduced to the extent that it is no longer probable that sufficient taxable earnings will be available to allow all or part of the asset to be recovered.

Share-Based Compensation

The Company has a share-based compensation plan that grants stock options to employees and non-employees. This plan is an equity settled plan. The Company uses the fair value method for accounting for share-based awards to employees and non-employees.

The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Company's estimate of equity instruments that will eventually vest. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest.

The impact of the revision of the original estimates, if any, is recognized in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to contributed surplus.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the Company obtains the goods or the counterparty renders the service.

Warrants

When the Company issues units comprising common shares and warrants, the Company follows the relative fair value method of accounting for warrants attached to and issued with common shares of the Company. Under this method, the fair value of the common shares is estimated and the fair value of the warrants issued is estimated using an option pricing model. The fair value is then prorated to the total of the net proceeds received on issuance of the common shares and the warrants.

4. Recent Accounting Pronouncements and Recent Adopted Accounting Standards

Recent Issued Accounting Pronouncements

The following standards, amendments and interpretations, which may be relevant to the Company have been introduced or revised by the IASB:

(formerly: Intelligent Content Enterprises Inc.)

Notes to the Consolidated Financial Statements
August 31, 2017 and 2016 and 2015
(Expressed In Canadian Dollars)

(i) In May 2014, the IASB issued IFRS 15 Revenue from Contracts with Customers, which supersedes IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, and IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfers of Assets from Customers, and SIC 31 Revenue – Barter Transactions Involving Advertising Services. IFRS 15 establishes a comprehensive five-step framework for the timing and measurement of revenue recognition. The Company intends to adopt IFRS 15 effective September 1, 2018, and is currently assessing the impact of this new standard on the Consolidated Financial Statements.

(ii) In July 2014, the IASB issued the final version of IFRS 9, Financial Instruments which reflects all phases of the financial instruments project and replaces IAS 39, Financial Instruments – Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. Retrospective application is required, but comparative information is not compulsory. The Company does not intend to adopt the new standard prior to its effective date and has not yet determined the impact of this new standard on the Consolidated Financial Statements.

(iii) On January 13, 2016, the IASB issued IFRS 16 Leases ("IFRS 16") which will replace IAS 17, Leases. IFRS 16 will bring leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however, remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 is effective for annual reporting periods beginning on or after January 1, 2019. The Company is assessing the impact of this new standard on the Consolidated Financial Statements.

(iv) Amendments to IFRS 2 - Classification and measurement of Share-based payment transactions ("IFRS 2"):

On June 20, 2016, the IASB issued amendments to IFRS 2, clarifying how to account for certain types of share-based payment transactions. The amendments apply for annual periods beginning on or after January 1, 2018. As a practical simplification, the amendments can be applied prospectively, retrospectively, or early application is permitted if information is available without the use of hindsight. The amendments provide requirements on the accounting for:

- The effects of vesting and non-vesting conditions on the measurement of cash-settled share-based payments;
- Share-based payment transactions with a net settlement feature for withholding tax obligations; and
- A modification to the terms and conditions of a share-based payment that changes the classification of the transaction from cash-settled to equity-settled.

The Company intends to adopt the amendments to IFRS 2 in its Consolidated Financial Statements for the annual period beginning on September 1, 2018. The extent of the impact of adoption of the standard has not yet been determined.

IFRIC 22 – Foreign currency transactions and advance consideration: IFRIC was issued in December 2016 to provide guidance on accounting for transactions that include the receipt or payment of advance consideration in a foreign currency. The new interpretation is effective for annual periods beginning on or after January 1, 2018. The Company is currently assessing the interpretation on its consolidated financial statements.

5. Segmented Information

The Company's reportable and geographical segments are Canada and previously the United States. The accounting policies used for the reportable segments are the same as the Company's accounting policies. For the purposes of monitoring segment performance and allocating resources between segments, the Company's executive officer monitors the tangible, intangible and financial assets attributable to each segment. All assets are allocated to reportable segments. Effective August 31, 2015, the Company discontinued its reportable segment in the United States.

7. Secured Note Receivable

On May 25, 2016, the Company entered into a Term Sheet to license to acquire all the technology, production and client operations owned and operated by New York based Catch Star Studios LLC ("Catch Star"). On October 12, 2016, the Company advanced US\$65,000 (\$81,483 as at August 31, 2017) to Catch Star and entered into a Secured Promissory Note and General Security Agreement with Catch Star (the "Secured Note"). The Secured Note is due on demand and is secured by all of the assets of Catch Star. Subsequently, Catch Star and the Company could not reach a definitive agreement to memorialize the terms and conditions of the Term Sheet and abandoned the prospective transaction. On February 1, 2017, the Company issued a letter of demand for the repayment in full of the Secured Note from Catch Star. At August 31, 2017, the Company determined that the Secured Note was uncollectible and recorded an impairment of the full amount.

	<u>\$ 1,734,586</u>	<u>\$ 675,924</u>	<u>\$ 234,520</u>

The following balances owing to the President and Chief Financial Officer of the Company are included in trade and other payables and are unsecured, non-interest bearing and due on demand:

	August 31, 2017	August 31, 2016
Short term employee benefits payable (1)(2)	\$ 101,500	\$ 40,000
	<u>\$ 101,500</u>	<u>\$ 40,000</u>

- (1) The Company accrued management fees to the Chief Financial Officer of the Company at a rate of \$5,000 per month during fiscal 2017 and 2016 (\$12,500 per month during fiscal 2015).
- (2) On September 9, 2016, the Company entered into an employment agreement with the President of the Company under which the Company agreed to pay to the President, a base salary of \$90,000 and grant one hundred thousand (100,000) common share purchase options (Note 12 e). Effective May 21, 2017, the Company and the President agreed to amend the terms of the employment agreement, by reducing the President's base salary to \$10.00 annually, allowing the President to contract his services to Torinit contemporaneous with his continued employment with the Company and providing a top up provision of up to \$1,500 in a month from the Company if the gross compensation earned by the President from Torinit during June, July and August of 2017 (the "Period"), reduces the overall compensation earned by the President below \$7,500 in any such month during the Period.
- (3) On November 12, 2014, the Company granted options to purchase 7,500 common shares to three directors. On April 1, 2016, the Company granted options to purchase 30,000 common shares to a director. On September 9, 2016 and November 1, 2016, the Company granted options to purchase 130,000 and 50,000 common shares to officers and directors (Note 11 e).

On September 1, 2016, the Company entered into an agreement for a period of 12 months with Torinit Technologies Inc., ("Torinit") to provide dedicated resource augmentation to DoubleTap in an effort to optimize user experience while navigating through the <http://DoubleTap.co> website and drive traffic growth by engaging users across all demographics (the "Torinit Services"). As consideration for the Torinit Services, the Company agreed to compensate Torinit the sum of \$8,000 per month based on 320 hours per month for a 12 month period. Dikshant Batra, a director of the Company, is also the President, a director and major shareholder of Torinit. As at August 31, 2017, included in trade and other payables is \$23,961 due to Torinit.

As at August 31, 2017, the amount of directors' fees included in trade and other payables was \$10,200 (August 31, 2016: \$7,100). On February 29, 2016, Mr. Klyman, a former director of the Company agreed to convert outstanding directors' fees due to him of \$7,400 into 2,467 units of the Company (Note 9 and 11 b (a)).

As at August 31, 2017 and 2016, the Company had a promissory note payable to the former President of the Company of \$Nil. For the year ended August 31, 2016, the Company recorded interest on the promissory note of \$496 (August 31, 2015: \$838). On February 26, 2016, the former President assigned the promissory note of \$10,000 and all accumulated interest due in the amount of \$113,844 to an arms-length third party. The note was due on demand with interest at a rate of 10% per annum. Effective November 18, 2015, the Company issued to the former President 114,009 Units in the capital of the Company pursuant to the anti-dilution provision contained in the August 30, 2014, debt conversion agreements. On February 29, 2016, the former President converted \$38,239 in outstanding debt into 12,746 units in the capital of the Company (Note 9 and 11 b (a)).

(Expressed In Canadian Dollars)**

Effective November 18, 2015, the Company entered into a shares for debt conversion agreement and converted a note and interest payable to Core Energy Enterprises Inc. (“Core”) in the aggregate amount of \$362,793 through the issuance of 274,243 common shares in the capital of the Company. The fair value of the common shares of \$1,830,983 was recorded as an increase to common shares and \$1,468,190 was recorded as a loss on settlement of debt in the statement of operations. The CFO of the Company is a major shareholder, officer and a director of Core (Note 10 and 11 b (a)).

9. Secured Note Payable, Shareholders’ Loans, Notes Payable and Debt Conversion

Secured Note Payable

As at August 31, 2014, the Company had a secured convertible promissory note payable to Benchmark Enterprises LLC. (“Benchmark”) with a face value of \$1,322,347 (US\$1,216,175) with an interest rate of 10% (the “Note”). The Note was being accreted up to its face value over the life of Note, based on an effective interest rate. For the year ended August 31, 2015, the Company recorded interest on the Note of \$154,179. The Note was due on the earliest to occur of: (a) August 31, 2015; (b) the closing of any subsequent financing or series of financings by the Company that results in gross proceeds of an aggregate amount equal to or greater than US\$4,400,000, excluding conversion of any existing debt into equity; (c) the date of a sale by the Company of all of the shares in the capital stock of Zavala Inc. held by the Company from time to time; (d) the closing of a merger, reorganization, take-over or other business combination which results in a change of control of the Company or Zavala Inc.; or (e) an event of default. The Note was secured by all of the assets of the Company and Zavala Inc. Benchmark had the option at any time while the Note was outstanding to convert any unpaid principal and accrued interest into conversion units.

In accordance with the terms of the Note and the General Security Agreement (the “Loan Agreements”) the Company had granted and conveyed to Benchmark a first priority security interest in the Company and Zavala Inc., prior and superior to the rights of all third parties existing on or arising after the date of such Loan Agreements, subject to the Permitted Liens.

At August 31, 2015, the Company was unable to pay the Note due in the amount \$1,608,149 plus interest of \$154,179, totaling \$1,762,328, which constituted an event of default pursuant to the terms of the Loan Agreements. Benchmark, having made demand for payment of all amounts owed to it under the Note, gave notice to the Company that it intended to exercise its security on the Company’s assets. In an effort to avoid further costs, the Company and Benchmark entered into a Settlement and Exercise of Security Agreement effective August 31, 2015, with the following terms:

1. Effective August 31, 2015, the Company assigns and conveys to Benchmark all of its rights, title and interest in and to Zavala Inc., including but not limited to all of the issued and outstanding common shares of Zavala Inc.; and
2. Issuance of 1,000,000 shares of common stock of the Company.

As a result the Company’s extinguishment of the Note, the Company’s investment in Zavala Inc. had been derecognized from the Company’s Consolidated Financial Statements as at August 31, 2015 (Note 16 a). The fair value of the common shares was determined to be equal to the fair value of the secured note settled. The following table presents the effect of the extinguishment of the Note on the Consolidated Financial Statements of the Company:

	August 31, 2015
Secured note payable settled	\$ 1,608,149
Interest payable settled	154,179
Net assets and liabilities of Zavala Inc. transferred (Note 16 a)	(836,717)

Shareholder Loans

As at August 31, 2017 and 2016 the Company had shareholders' loans payable of \$Nil.

Effective August 30, 2014, the Company converted shareholders' loans and interest due in the aggregate amount of \$1,180,570 through the issuance of a total of 147,571 units in the capital of the Company. The terms of the August 30, 2014, conversion agreements contained an anti-dilution provision such that if within 18 months of the effective date, the Company issues additional common shares for a consideration per share or with an exercise or conversion price per share, less than \$8.00 (the "Adjusted Price") the Holder herein shall be entitled to receive from the Company (for no additional consideration) additional Units in an amount such that, when added to the number of Units acquired by Holder under this agreement will equal the number of Units that the Holder would otherwise be entitled to receive had this transaction occurred at the Adjusted Price. Effective November 18, 2015, the Company issued a total of 103,299 Units in the capital of the Company pursuant to the Adjusted Price. The warrant component was valued using a Binomial Lattice model whereas the fair value of the common share component was based on the current market value of the company's stock. The fair value of the units of \$6,896,800 was allocated to the common shares in the amount of \$5,034,157 and warrants in the amount of \$1,862,643 based on their relative fair values and \$6,896,800 was recognized as a loss on settlement of debt in the statement of operations. Significant assumptions utilized in the Binomial Lattice process for the warrant component of the conversion were as follows:

	November 18, 2015
Market value on valuation date	\$ 6.60
Contractual exercise rate	\$ 10.00
Term	1.79 Years
Expected market volatility	183.30%
Risk free rate using zero coupon US Treasury Security rate	0.90%

Loans Payable

As at August 31, 2017 and 2016 the Company had loans payable of \$Nil. For the year ended August 31, 2016, the Company recorded interest on the loans payable of \$4,945. Effective November 18, 2015, the Company converted loans and interest due in the aggregate amount of \$899,660 through the issuance of 680,068 common shares in the capital of the Company. The fair value of the common shares of \$4,540,474 was allocated to common shares and \$3,640,814 was recorded as loss on settlement of debt in the consolidated statement of operations (Note 11 b).

On February 29, 2016, the Company entered into asset purchase and debt settlement agreement and converted loans and interest in the aggregate amount of \$277,473 in exchange for the Company's 0.03% net smelter return royalty on 8 mining claim blocks located in Red Lake, Ontario which were carried on the consolidated statement of financial position at \$Nil. Accordingly, the Company recorded a gain on settlement of debt for the full amount.

Debt Conversion

On February 29, 2016, the Company entered into shares for debt conversion agreements and converted debt in the aggregate amount of \$451,557 through the issuance of 150,519 units in the capital of the Company. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$3.50 until March 1, 2019. The fair value of the units of \$1,220,709 was allocated to common shares in the amount of \$638,295 and warrants in the amount of \$582,414 based on their relative fair values and \$769,152 was recognized as a loss on extinguishment of debt in the consolidated statement of operations. Significant assumptions utilized in the Binomial Lattice process for the warrant component of the conversion were as follows:

The fair value of \$6,371,457 was recorded as an increase to common shares and \$5,109,004 was recorded as a loss on settlement of debt in the consolidated statement of operations (Note 9).

(b) Effective November 18, 2015, the Company completed a private placement for gross proceeds of \$50,000 and issued 50,000 common shares in the capital of the Company at a purchase price of \$1.00 per share.

(c) Effective November 18, 2015, the Company issued 1,032,998 Units in the capital of the Company pursuant to the anti-dilution provision of the August 30, 2014, debt conversion agreements. Each unit was comprised of one (1) common share and one half of one (1/2) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$10.00 until August 30, 2017. The fair value of the units of \$6,896,800 was allocated to the common shares in the amount of \$5,034,157 and warrants in the amount of \$1,862,643 based on their relative fair values and \$6,896,800 was recognized as a loss on settlement of debt in the consolidated statement of operations (Note 9).

(d) On February 29, 2016, the Company completed a private placement for gross proceeds of \$30,000 and issued 10,000 units in the capital of the Company at a purchase price of \$3.00 per unit. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$3.50 until March 1, 2019. The fair value of the units of \$30,000 was allocated to common shares \$9,044 and the amount allocated to warrants component using a Binomial Lattice model was \$20,956.

(e) On February 29, 2016, the Company entered into debt conversion agreements and converted debt in the aggregate amount of \$451,557 through the issuance of 150,519 units in the capital of the Company. (f) During the year ended August 31, 2016, 51,868 common share purchase warrants were exercised at \$10.00 for proceeds of \$518,683. The amount allocated to warrants using a Binomial Lattice model was \$467,984.

(g) On August 31, 2016, the Company completed private placements for gross proceeds of \$260,000 and issued 23,636 units in the capital of the Company at a purchase price of \$11.00 per unit. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$12.50 until August 31, 2019. The Subscription agreements contain an anti-dilution provision such that if within 18 months of August 31, 2016, the Company issues additional common shares for a consideration per share or with an exercise or conversion price per share, less than \$11.00 (the "Adjusted Price") the Holder shall be entitled to receive from the Company (for no additional consideration) additional Units in an amount such that, when added to the number of Units acquired by Holder under this agreement will equal the number of Units that the Holder would otherwise be entitled to receive had this transaction occurred at the Adjusted Price. At August 31, 2016, the Company determined that based on the market price of the Company's common shares being greater than the Unit issue price per share, no additional common shares were required to be fair valued and recorded as a derivative liability (Note 9, Note 11 b (j) and Note 11 b (k)).

The fair value of the units of \$260,000 was allocated to common shares in the amount of \$133,271 and the amount allocated to warrants using a Binomial Lattice model was \$126,729. The assumptions utilized in the Binomial Lattice process for the common share purchase warrants were as follows:

	August 31, 2016
Market value on valuation date	\$ 13.10
Contractual exercise rate	\$ 12.50
Term	3 Years
Expected market volatility	152.78%

(h) On November 30, 2016, the Company completed private placements for gross proceeds of \$50,000 and issued 7,692 units in the capital of the Company at a purchase price of \$6.50 per unit. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$10.00 until November 30, 2019. The fair value of the units (\$50,000) was allocated to common shares \$30,233 and the amount allocated to warrants component using a Binomial Lattice model was \$19,767.

(i) Effective August 31, 2017, the Company settled shareholder advances of \$213,781 and issued 1,187,672 common shares in the capital of the Company at a price of \$0.18 per share.

(j) Pursuant to the August 31, 2017, settlement of shareholder advances of \$213,781 (Note 11 b (i), effective August 31, 2017, the Company issued 1,420,809 common shares in the capital of the Company pursuant to the anti-dilution provision of the August 31, 2016, private placement agreements. The fair value of \$184,705 was calculated on the previous day's closing price of the Company's common shares and allocated to common shares and anti-dilution fees in the consolidated statement of operations (Note 11 b (g)).

(k) Pursuant to the November 30, 2016, private placement of \$50,000 (Note 11 b (h), effective August 31, 2017, the Company issued 16,364 Units in the capital of the Company pursuant to the anti-dilution provision of the August 31, 2016, private placement agreements. Each unit is comprised of one (1) common share and one (1) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) common share at an exercise price of \$10.00 until November 30, 2019. The fair value of the units of \$2,127 was allocated to common shares and anti-dilution fees in the consolidated statement of operations. No value was allocated to warrants based on the Binomial Lattice model (Note 11 b (g)).

13. Financial Instruments and Concentration of Risks

Financial instruments are measured at fair value on initial recognition of the instrument. The types of risk exposure to the Company's financial instruments and the ways in which such exposures are managed are as follows:

Credit Risk

Credit risk is primarily related to the Company's receivables and cash and the risk of financial loss if a partner or counterparty to a financial instrument fails to meet its contractual obligations. At August 31, 2017, trade and other receivables amounts are \$Nil (August 31, 2016: \$Nil). At August 31, 2017, included in other receivables is HST due from the Government of Canada in the amount of \$41,007 (August 31, 2016: \$14,800).

Concentration risk exists in cash because cash balances are maintained with one financial institution. The risk is mitigated because the financial institution is an international bank and all amounts are due on demand.

The Company's maximum exposure to credit risk is as follows:

	August 31, 2017 (\$)	August 31, 2016 (\$)
Cash	1,040	449,983
Balance	1,040	449,983

(formerly: Intelligent Content Enterprises Inc.)

Notes to the Consolidated Financial Statements

(Expressed In Canadian Dollars)

Liquidity Risk

The Company monitors its liquidity position regularly to assess whether it has the funds necessary to fulfill planned opportunities or that viable options are available to fund such opportunities from new equity issuances or alternative sources of financings. As a company without significant revenue, there are inherent liquidity risks, including the possibility that additional financing may not be available to the Company, or that such financing terms may not be acceptable to the Company.

The following table illustrates the contractual maturities of financial liabilities:

August 31, 2017	Payments Due by Period \$				
	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
Trade and others payables	529,823	529,823	-	-	-

Trade and others payables	1,173,231	1,173,231	-	-	-
Total	1,173,231	1,173,231	-	-	-

Market Risk

Market risk represents the risk of loss that may impact the Company's financial position, results of operations, or cash flows due to adverse changes in financial market prices, including interest rate risk, foreign currency exchange rate risk, and other relevant market or price risks. The Company does not use derivative instruments to mitigate this risk.

(i) Currency Risk

The Company is exposed to the fluctuations in foreign exchange rates. The Company operates in Canada and a portion of its expenses are incurred in US dollars. A significant change in the currency exchange rates between the Canadian dollar relative to US dollar could have an effect on the Company's financial instruments. The Company does not hedge its foreign currency exposure.

The following assets and liabilities are denominated in US dollars as at the year-end set out below:

	August 31, 2017 (\$)	August 31, 2016 (\$)

Notes to the Consolidated Financial Statements
August 31, 2017 and 2016 and 2015
(Expressed In Canadian Dollars)

The following table shows the estimated sensitivity of the Company's total loss for the periods set out from a change in the US dollar exchange rate in which the Company has exposure with all other variables held constant.

Percentage change in US Dollar	August 31, 2017		August 31, 2016	
	Increase	Decrease	Increase	Decrease
	In total loss from a change in % in the US Exchange Rate (\$)		In total loss from a change in % in the US Exchange Rate (\$)	
5%	(3,041)	3,041	(1,064)	1,064
10%	(6,082)	6,082	(2,127)	2,127
15%	(9,123)	9,123	(3,191)	3,191

(ii) Interest Rate Risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. The majority of the Company's debt is short-term in nature with fixed rates.

(iii) Fair Value of Financial Instruments

The Company's financial instruments included on the consolidated statements of financial position are comprised of cash, secured note receivable and trade and other payables. The Company classifies the fair value of financial instruments measured at fair value according to the following hierarchy based on the amount of observable inputs used to value the instrument.

- Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 – Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.
- Level 3 – Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

Financial Instrument Classification	Level	August 31, 2017		August 31, 2016	
		Carrying Value (\$)	Fair Value (\$)	Carrying Value (\$)	Fair Value (\$)
Fair value through profit or loss:					
Cash	1	1,040	1,040	449,983	449,983
Other financial liabilities:					
Trade and other payables		529,823	529,823	1,173,231	1,173,231

Cash is stated at fair value (Level 1 measurement). The carrying value of trade and other payables approximate their fair value due to the short-term maturity of these financial instruments.

Capital Management

The Company's objectives when managing capital are to ensure the Company will have sufficient financial capacity, liquidity and flexibility to fund its operations, growth and ongoing development opportunities. The Company's capital requirements currently exceed its operational cash flow. As such, the Company is dependent upon future financings in order to maintain liquidity and will be required to issue equity or issue debt.

Notes to the Consolidated Financial Statements
August 31, 2017 and 2016 and 2015
(Expressed In Canadian Dollars)

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions, availability of capital and the risk characteristics of any underlying assets in order to meet current and upcoming obligations.

The board of directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management and favourable market conditions to sustain future development of the business. As at August 31, 2017 and 2016, the Company considered its capital structure to be comprised of shareholders' deficiency.

14. Income Taxes

The reconciliation of the combined Canadian federal and provincial statutory tax rate of 26.5% to the effective tax rate is as follows:

	2017	2016	2015
Net loss before recovery of income taxes	\$ 2,097,738	\$ 13,531,587	\$ 1,436,812

c) Dissolution of Dyami Energy, LLC

Effective April 3, 2014, the Company's former wholly owned subsidiary Dyami Energy, LLC ("Dyami Energy") was dissolved.

The Company's investment in Dyami Energy had been derecognized from the Company's Consolidated Financial Statements as at the effective date, and presented on the Consolidated Statements of Operations and the Consolidated Statements of Cash Flow as an impairment of the net assets and liabilities on dissolution of subsidiary. Prior obligations of Dyami Energy, with respect to the Matthews and Murphy Leases of \$893,990 were previously recorded by the Company as financial liabilities and in the current period recognized as a gain upon de-recognition of financial liabilities.

16. Subsequent Events

Subsequent to the year ended August 31, 2017, the Company's Chief Financial Officer advanced the Company \$35,000.

Subsequent to the year ended August 31, 2017, the Company received a non interest bearing due on demand loan of US \$20,000.

Subsequent to the year ended August 31, 2017, the Company executed a non-binding Letter of Intent with Grown Rogue Unlimited, LLC, an Oregon limited liability company ("Grown Rogue") according to which it is contemplated that the Company will combine its business operations with Grown Rogue (the "Transaction") resulting in a reverse take-over of the Company by Grown Rogue. The Transaction as currently contemplated will result in Grown Rogue becoming a wholly-owned subsidiary of the Company or otherwise combining its corporate existence with a wholly-owned subsidiary of the Company. No representation is given that the Transaction will close however if closed as contemplated it is expected that: (a) the current holders of the Company securities will own, and have the right to acquire upon exercise of warrants and options, common shares representing 3.6% of fully diluted common shares of the Resulting Issuer; (b) 55,500,000 post consolidated common shares of the Company ("Nov Shares"), or as adjusted such that the owners of Grown Rogue will own at least 75.9% of the Resulting Issuer on the closing of the Transaction, will be issued to the owners of Grown Rogue in exchange for all of the issued and outstanding equity membership interests of Grown Rogue based on a valuation acceptable to the parties of at least \$27,750,000 and Nov Shares being issued at \$0.50 per share and (c) purchasers of Offered Securities issued in the Private Placement will own 20.5% of fully diluted common shares of the Resulting Issuer.

Prior to the closing of the Private Placement and the Transaction, if at all, it is intended that the Company will complete a consolidation (the "Consolidation") of its common shares on the basis of two (2) pre-consolidated common shares for one (1) post-consolidated common share.

CERTIFICATIONS

I, Ritwik Uban, certify that:

1. I have reviewed this annual report on Form 20-F of Novicius Corp.
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the company as of, and for, the periods presented in this report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the company and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the company, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under my supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the company's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the company's internal control over financial reporting that occurred during the period covered by the annual report that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting; and
5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the company's auditors and the audit committee of the company's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weakness in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the company's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the company's internal control over financial reporting.
