EXPLORATION SCHYAN EXPLORATION INC.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of Schyan Exploration Inc. / Exploration Schyan Inc. [the "Company"] are the responsibility of the management and Board of Directors of the Company.

The accompanying financial statements were prepared by management in accordance with IFRS. Management acknowledges responsibility for the preparation and presentation of the financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances. The significant accounting policies of the Company are summarized in Note 3 to the financial statements.

Management has established processes, which are in place to provide them with sufficient knowledge to support management representations that they have exercised reasonable diligence that (i) the financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the year presented by the financial statements and (ii) the financial statements fairly present in all material respects the financial condition and results of operations of the Company, as of the date of and for the year presented by the financial statements.

The Board of Directors is responsible for ensuring that management fulfills its financial reporting responsibilities and for reviewing and approving the financial statements together with other financial information. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the internal controls over the financial reporting process. The Audit Committee meets with management as well as with the independent auditors to review the financial statements and the auditors' report. The Audit Committee also reviews the Annual Report to ensure that the financial information reported therein is consistent with the information presented in the financial statements. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

"Mitchell E Lavery"
President and Chief Executive Officer

"George Rayfield"
Treasurer

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Schyan Exploration Inc.

We have audited the accompanying financial statements of Schyan Exploration Inc., which comprise the statements of financial position as at December 31, 2012 and 2011, and the statements of operations and comprehensive loss, statements of changes in equity and statements of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Schyan Exploration Inc. as at December 31, 2012 and 2011, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Emphasis of Matter

Without qualifying our opinion, we draw attention to Note 1 in the financial statements which indicates that the Company had continuing losses during the year ended December 31, 2012 and a cumulative deficit as at December 31, 2012. These conditions along with other matters set forth in Note 1 indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

1. NATURE OF OPERATIONS AND GOING CONCERN

Schyan Exploration Inc. / Exploration Schyan Inc. (the "Company") was incorporated in Canada under the Business Corporations Act (Ontario) and carries on business in one segment, being the acquisition, exploration and development of mineral properties in Canada. The Company's registered and head office is located at 370 Steeles Avenue West, Suite 203, Thornhill, Ontario, L4J 6X1.

As at December 31, 2012, the Company had a working capital deficiency of \$69,471 (2011 - \$29,225), had not yet achieved profitable operations, has accumulated losses of \$637,427 (2011 - \$597,181) and expects to incur future losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. These financial statements have been prepared on a going concern basis and do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs to the carrying values.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, aboriginal claims, unregistered claims, and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiating contracts and political uncertainty.

Management plans to secure the necessary financing through a combination of the issue of new equity or debt instruments and the entering into joint venture arrangements. Nevertheless, there is no assurance that these initiatives will be successful.

The Company will require substantial additional funds to further explore and, if warranted, develop its exploration properties. The Company has limited financial resources and no current source of recurring revenue, and there is no assurance that additional funding will be available to the Company to carry out the completion of its planned exploration activities. There can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favourable. Failure to obtain such additional financing could result in the delay or indefinite postponement of further exploration and property development. The terms of any additional financing obtained by the Company could result in substantial dilution to the shareholders of the Company.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These audited financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These financial statements were authorized by the Board of Directors of the Company on APRIL 15, 2013.

2.2 Basis of presentation and functional and presentation currency

These audited financial statements have been prepared on a going concern basis, under the historical cost convention, except fair value through profit and loss assets which are carried at fair value, and have been prepared using the accrual basis of accounting except for cash flow information, as explained in the accounting policies set out in Note 3.

The financial statements are presented in Canadian Dollars, which is the functional currency of the Company.

2. BASIS OF PREPARATION (continued)**2.3 Adoption of new and revised standards and interpretations**

The IASB issued a number of new and revised International Accounting Standards, IFRS, amendments and related interpretations which are effective for the Company's financial year beginning on or after January 1, 2013. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

At the date of authorization of these Financial Statements, the IASB and IFRIC has issued the following new and revised Standards and Interpretations which are not yet effective for the relevant reporting periods.

- IFRS 7 '*Financial Instruments, Disclosures*' - effective for annual periods beginning on or after January 1, 2013, IFRS 7 has been amended to provide more extensive quantitative disclosures for financial instruments that are offset in the statement of financial position or that are subject to enforceable master netting similar arrangements.
- IFRS 9 '*Financial Instruments: Classification and Measurement*' – effective for annual periods beginning on or after January 1, 2015, with early adoption permitted, introduces new requirements for the classification and measurement of financial instruments.
- IFRS 10 '*Consolidated Financial Statements*' – effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities.
- IFRS 11 '*Joint Arrangements*' - effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form.
- IFRS 12 '*Disclosure of Interests in Other Entities*' - effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, requires the disclosure of information that enables users of financial statements to evaluate the nature of, and risks associated with its interests in other entities and the effects of those interests on its financial position, financial performance and cash flows.
- IFRS 13 '*Fair Value Measurement*' - effective for annual periods beginning on or after January 1, 2013, with early adoption permitted, provides the guidance on the measurement of fair value and related disclosures through a fair value hierarchy.
- IAS 1 '*Presentation of Financial Statements*' - the IASB amended IAS 1 with a new requirement for entities to group items presented in other comprehensive income on the basis of whether they are potentially re-classifiable to profit or loss.
- IAS 19 '*Employee Benefits*' - effective for annual periods beginning on or after January 1, 2013, a number of amendments have been made to IAS 19, which included eliminating the use of the "corridor" approach and requiring re-measurements to be presented in OCI. The standard also includes amendments related to termination benefits as well as enhanced disclosures.
- IAS 27 '*Separate Financial Statements*' - effective for annual periods beginning on or after January 1, 2013, as a result of the issue of the new consolidation suite of standards, IAS 27 Separate Financial Statements has been reissued, as the consolidation guidance will now be included in IFRS 10. IAS 27 will now only prescribe the accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements.
- IAS 28 '*Investments in Associates and Joint Ventures*' - effective for annual periods beginning on or after January 1, 2013, as a consequence of the issue of IFRS 10, IFRS 11 and IFRS 12, IAS 28 has been amended and will provide the accounting guidance for investments in associates and to set out the requirements for the application of the equity method when accounting for investments in associates and joint ventures. The amended IAS 28 will be applied by all entities that are investors with joint control of, or significant influence over, an investee.

2. BASIS OF PREPARATION (continued)

2.3 Adoption of new and revised standards and interpretations (continued)

- IAS 32 'Financial instruments, Presentation' – In December 2011, effective for annual periods beginning on or after January 1, 2013, IAS 32 was amended to clarify the requirements for offsetting financial assets and liabilities. The amendments clarify that the right of offset must be available on the current date and cannot be contingent on a future date.

Management anticipates that the above standards will be adopted in the Company's financial statements for the period beginning January 1, 2013 or later as applicable, and is currently evaluating the impact the adoption of these standards or amendments will have on the financial statements of the Company.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Mineral properties

All acquisition and exploration costs, net of incidental revenues, are charged to operations in the period incurred until such time as it has been determined that a property has economically recoverable reserves, in which case subsequent exploration costs and the costs incurred to develop a property are capitalized into Property, plant and equipment ("PPE"). On the commencement of commercial production, depletion of each mining property will be provided on a unit-of-production basis using estimated resources as the depletion base.

Quebec refundable tax credit

The Company is entitled to a refundable tax credit on qualified expenditures incurred. The refundable tax credit for exploration expenditures may reach 35% of qualified expenditures incurred.

The Company estimates the benefits to be recognized from refundable tax credits relating to qualified expenditures incurred. These receivables are recognized to the extent that it is probable that the Company has met all eligibility requirements for the expenditures in the period they are incurred and the refundable tax credit has been received. The Company presents these credits as refundable provincial exploration tax credits in the statements of comprehensive loss.

3.2 Decommissioning, restoration and similar liabilities

The Company recognizes liabilities for statutory, contractual, constructive or legal obligations, including those associated with the reclamation of mineral properties and PPE, when those obligations result from the acquisition, construction, development or normal operation of the assets. Initially, a liability for a decommissioning provision is recognized at its fair value in the period in which it is incurred. Upon initial recognition of the liability, the corresponding decommissioning provision is expensed to the statement of loss and the cost is amortized as an expense over the economic life of the asset using either the unit-of-production method or the straight-line method, as appropriate. Following the initial recognition of the decommissioning provision, the carrying amount of the liability is increased for the passage of time and adjusted for changes to the current market-based discount rate, amount or timing of the underlying cash flows needed to settle the obligation.

3.3 Share based payments

Share based payment transactions

Employees (including directors and senior executives) of the Company receive a portion of their remuneration in the form of share-based payment transactions, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

In situations where equity instruments are issued and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at fair value of the share-based payment.

Equity settled transactions

The costs of equity-settled transactions with employees are measured by reference to the fair value at the date on which they are granted.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.3 Share based payments (continued)

Equity settled transactions (continued)

The costs of equity-settled transactions are recognized, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ("the vesting date"). The cumulative expense is recognized for equity-settled transactions at each reporting date until the vesting date reflects the Company's best estimate of the number of equity instruments that will ultimately vest. The profit or loss charge or credit for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and the corresponding amount is represented in share option reserve.

No expense is recognized for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether or not the market condition is satisfied provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, the minimum expense recognized is the expense as if the terms had not been modified. An additional expense is recognized for any modification which increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee as measured at the date of modification.

The dilutive effect of outstanding options is reflected as additional dilution in the computation of earnings per share.

3.4 Taxation

Income tax expense represents the sum of tax currently payable and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the date of the statement of financial position.

Deferred income tax

Deferred income tax is provided using the liability method on temporary differences at the date of the statement of financial position between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred income tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized except:

- where the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred income tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.4 Taxation (continued)

Deferred income tax (continued)

The carrying amount of deferred income tax assets is reviewed at each date of the statement of financial position and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred income tax assets are reassessed at each date of the statement of financial position and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the date of the statement of financial position.

Deferred income tax relating to items recognized directly in equity is recognized in equity and not in the statement of loss and comprehensive loss.

Deferred income tax assets and deferred income tax liabilities are offset if, and only if, a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend to either settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be settled or recovered.

3.5 Loss per share

The basic loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. The diluted loss per share reflects the potential dilution of common share equivalents, such as outstanding stock options and share purchase warrants, in the weighted average number of common shares outstanding during the year, if dilutive. Diluted loss per share assumes proceeds received upon the exercise of the options and warrants that are used to purchase common shares at the average market price during the year. During the year ended December 31, 2012 and 2011 all the outstanding stock options and warrants were anti-dilutive.

3.6 Financial assets

All financial assets are initially recorded at fair value and designated upon inception into one of the following four categories: held-to-maturity, available-for-sale, loans-and-receivables or at fair value through profit or loss ("FVTPL").

Financial assets classified as FVTPL are measured at fair value with unrealized gains and losses recognized through earnings. The Company's cash and cash equivalents and short-term investments are classified as FVTPL.

Financial assets classified as loans-and-receivables are measured at amortized cost. The Company's trade and other receivables are classified as loans-and-receivables.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognized on the settlement date.

Transactions costs associated with FVTPL financial assets are expensed as incurred, while transaction costs associated with all other financial assets are included in the initial carrying amount of the asset.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.7 Financial liabilities

All financial liabilities are initially recorded at fair value and designated upon inception as FVTPL or other-financial-liabilities.

Financial liabilities classified as other-financial-liabilities are initially recognized at fair value less directly attributable transaction costs. After initial recognition, other-financial-liabilities are subsequently measured at amortized cost using the effective interest method. The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period. The Company's trade and other payables and due to related parties are classified as other-financial-liabilities.

Financial liabilities classified as FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Fair value changes on financial liabilities classified as FVTPL are recognized through the statement of comprehensive income. At December 31, 2012 and 2011, the Company has not classified any financial liabilities as FVTPL.

3.8 Impairment of financial assets

The Company assesses at each date of the statement of financial position whether a financial asset is impaired.

Assets carried at amortized cost

If there is objective evidence that an impairment loss on assets carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the assets carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is then reduced by the amount of the impairment. The amount of the loss is recognized in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed to the extent that the carrying value of the asset does not exceed what the amortized cost would have been had the impairment not been recognized. Any subsequent reversal of an impairment loss is recognized in profit or loss.

In relation to trade receivables, a provision for impairment is made and an impairment loss is recognized in profit and loss when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the Company will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount of the receivable is reduced through use of an allowance account. Impaired debts are written off against the allowance account when they are assessed as uncollectible.

3.9 Impairment of non-financial assets

At each date of the statement of financial position, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is an indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the assets belong.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in the statement of comprehensive income, unless the relevant asset is carried at a re-valued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

3.10 Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at banks and on hand, and short term deposits with an original maturity of three months or less, which are readily convertible into a known amount of cash.

3.11 Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) that has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

3.12 Related party transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence, related parties may be individuals or corporate entities. A transaction is considered to be a related party transaction when there is a transfer of resources or obligations between related parties.

3.13 Significant accounting judgments and estimates

The preparation of these financial statements requires management to make judgements and estimates and form assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its judgements and estimates in relation to assets, liabilities, revenue and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgements and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the statement of financial position date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

- (i) the inputs used in accounting for valuation of warrants and options which are included in the statement of financial position and the statements of loss and comprehensive loss;
- (ii) the nil provision for asset retirement obligations which is included in the statement of financial position; and
- (iii) the nil provision for income taxes which is included in the statements of loss and comprehensive loss and composition of deferred income tax assets and liabilities included in the statements of financial position.

4. CAPITAL MANAGEMENT

The Company considers its capital to be equity, which is comprised of share capital, reserve accounts and retained earnings (deficit), which as at December 31, 2012 totaled (\$69,471), (2011 – (\$29,225)). The Company's capital structure is adjusted based on the funds available to the Company such that it may continue exploration and development of its properties for the mining of minerals that are economically recoverable. The Board of Directors does not establish quantitative return on capital criteria, but rather relies on the expertise of management and other professionals to sustain future development of the business.

The Company's properties are in the exploration and evaluation stage and, as a result, the Company currently has no source of operating cash flow. The Company intends to raise such funds as and when required to complete its projects. There is no assurance that the Company will be able to raise additional funds on reasonable terms. The only sources of future funds presently available to the Company are through the exercise of outstanding stock options or warrants, the sale of equity capital of the Company or the sale by the Company of an interest in any of its properties in whole or in part. The ability of the Company to arrange such financing in the future will depend in part upon the prevailing capital market conditions as well as the business performance of the Company. There can be no assurance that the Company will be successful in its efforts to arrange additional financing, if needed, on terms satisfactory to the Company.

4. CAPITAL MANAGEMENT (continued)

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the periods ended December 31, 2012 and 2011. The Company is not subject to externally imposed capital restrictions.

5. FINANCIAL INSTRUMENTS

Fair value

The Company has designated its cash and cash equivalents and short-term investments as FVTPL, which are measured at fair value. Trade and other receivables are classified for accounting purposes as loans and receivables, which are measured at amortized cost. Trade and other payables and due to related parties are classified for accounting purposes as other financial liabilities, which are measured at amortized cost.

As at December 31, 2012, the carrying and fair value amounts of the Company's financial instruments are approximately equivalent due to the relatively short periods to maturity of these investments.

Fair value estimates are made at a specific point in time, based on relevant market information and information about financial instruments. These estimates are subject to and involve uncertainties and matters of significant judgment, therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The fair value of short-term investments are based on quoted market prices in active markets and are classified as level 1 financial instruments under the fair value hierarchy.

A summary of the Company's risk exposures as it relates to financial instruments are reflected below:

i) Credit risk

Credit risk is the risk of loss associated with a counter-party's inability to fulfill its payment obligations. The credit risk is attributable to various financial instruments, as noted below. The credit risk is limited to the carrying value amount carried on the statement of financial position.

- a. **Cash and cash equivalents** – Cash and cash equivalents are held with major Canadian and therefore the risk of loss is minimal.
- b. **Trade and other receivables** – The Company is not exposed to significant credit risk as this amount is due from the Canadian and Quebec Provincial governments.

ii) Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities as they become due. As at December 31, 2012, the Company had a working capital deficiency of \$69,471 (December 31, 2011 - \$29,225). In order to meet its longer-term working capital and property exploration expenditures, the Company intends on securing further financing to ensure that those obligations are properly discharged. There can be no assurance that the Company will be successful in its efforts to arrange additional financing on terms satisfactory to the Company. If additional financing is raised by the issuance of shares from the treasury of the Company, control of the Company may change and shareholders may suffer additional dilution. If adequate financing is not available, the Company may be required to delay, reduce the scope of, or eliminate one or more exploration activities or relinquish rights to certain of its interests. Failure to obtain additional financing on a timely basis could cause the Company to forfeit its some or all of its interests and reduce or terminate its operations therein.

**5. FINANCIAL INSTRUMENTS** (continued)**iii) Market risk**

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, commodity prices and/or stock market movements (price risk).

a. Interest rate risk

The Company is not exposed to significant interest rate price risk due to the short-term nature of its monetary assets and liabilities. Cash not required in the short term, is invested in short-term guaranteed investment certificates, as appropriate.

b. Price risk

The Company holds the common shares of a TSX-traded company. The Company has classified this investment as FVTPL and such common shares are subject to stock market volatility. The value of this financial instrument fluctuates on a daily basis due to external market factors that are not within the control of the Company. The Company monitors the trading value of these common shares in order to ensure that, if in the best interest of the Company, sale of the shares is made under favourable conditions.

6. SENSITIVITY ANALYSIS

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a one year period:

The Company's investments are subject to fair value fluctuations. As at December 31, 2012, if the fair value of investments had decreased/increased by 25% net loss would have been approximately \$18,750 (2011 - \$32,000) higher/lower. Similarly, as at December 31, 2012, reported equity would have been approximately \$18,750 (2011 - \$32,000) lower/higher as a result of a 25% decrease/increase in the fair value of investments.

7. CASH AND CASH EQUIVALENTS

The balance at December 31, 2012, consists of \$203,357 (2011 - \$180,372) on deposit with a major Canadian bank.

Cash and cash equivalents consists of the following:

	As at,	
	December 31, 2012	December 31, 2011
Cash	\$ 45,259	\$ 30,838
Cash equivalent	160,074	149,534
Total Cash and Cash Equivalents	\$ 205,333	\$ 180,372

8. SHORT-TERM INVESTMENTS

Short-term investments are comprised of 100,000 (December 31, 2011 – 100,000) common shares of Lake Shore Gold Inc., a publicly listed company. As at December 31, 2012, the short-term investment had a quoted market value approximating \$75,000, (2011 - \$128,000). The impact to the financial statements of this revaluation to market value resulted in a decrease of \$53,000 (December 31, 2011 –\$288,000) to the value of the investments with a corresponding loss on change in fair value of short-term investment of \$53,000 (December 31, 2011 – \$288,000).

**9. TRADE AND OTHER RECEIVABLES**

The Company's trade and other receivables arise from two main sources: trade receivables: harmonized sales tax ("HST") receivable and Quebec tax credits due from government taxation authorities. These are broken down as follows:

	As at,	
	December 31, 2012	December 31, 2011
HST receivable	\$ 3,910	\$ 13,404
Quebec Tax credits	20,757	-
Total Trade and Other Receivables	\$ 24,667	\$ 13,404

At December 31, 2012, the Company anticipates full recovery of these amounts and therefore no impairment has been recorded against these receivables. The credit risk on the receivables has been further discussed in Note 5.

The Company holds no collateral for any receivable amounts outstanding as at December 31, 2012.

10. TRADE AND OTHER PAYABLES

Trade and other payables of the Company are principally comprised of amounts outstanding for trade purchases relating to exploration activities and amounts payable for operating and financing activities. The usual credit period taken for trade purchases is between 30 to 90 days.

The following is an aged analysis of the trade and other payables:

	As at,	
	December 31, 2012	December 31, 2011
Less than 1 month	\$ 2,421	\$ 5,662
Over 3 months	144,138	139,288
Total Trade and Other Payables	\$ 146,559	\$ 144,950

11. DUE TO RELATED PARTIES

	December 31, 2012	December 31, 2011
Balance, beginning of year	\$ 206,051	\$ 185,742
Transactions in the year:		
Related party reimbursements payable	21,861	20,309
Balance, end of year	\$ 227,912	\$ 206,051

The balances due to related parties are owing to a director and officer of the Company and are unsecured, non-interest bearing and due on demand.

12. RELATED PARTY TRANSACTIONS

The remuneration of directors and members of key management personnel during the years ended December 31, 2012 and 2011 was as follows:

	2012	2011
Aggregate compensation	\$ -	\$ -
Share-based payments	-	-
	\$ -	\$ -

During the year ended December 31, 2012, \$801 (2011 - \$14,582) was expensed as professional fees to a law firm in which one of the directors of the Company is a partner.
See Note 11.

13. CAPITAL STOCK

Capital Stock

The Company is authorized to issue an unlimited number of common shares without par value. The issued and outstanding common shares consist of the following:

Balance at December 31, 2011 and 2012	3,961,372	\$ 531,694
--	------------------	-------------------

Stock Options

The Company has a stock option plan pursuant to which options to purchase common shares may be granted to certain officers, directors, employees and consultants. The plan allows for the issuance of up to 367,000 stock options. As at December 31, 2012 the Company had 67,000, (2011 – 67,000) options available for issuance. A continuity of the unexercised options to purchase common shares is as follows:

	December 31, 2012		December 31, 2011	
	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price	Number of Options
Outstanding at beginning of year	\$ 0.10	300,000	\$ 0.10	300,000
Transactions during the year:				
Granted	-	-	-	-
Outstanding at end of year	\$ 0.10	300,000	\$ 0.10	300,000

The following table provides additional information about outstanding stock options as at December 31, 2012:

No. of Options Outstanding	Weighted Average Remaining Life (Years)	Weighted Average Exercise Price	No. of Options Exercisable	Weighted Average Exercisable Exercise Price	Estimated Grant Date Fair Value
300,000	2.34	\$ 0.10	300,000	\$ 0.10	\$20,012

14. RESERVE FOR SHARE BASED PAYMENTS

A summary of the changes in the Company's reserve for share based payments for the years ended December 31, 2012 and 2011 is set out below:

	December 31, 2012	December 31, 2011
Balance at beginning of year	\$ 36,262	\$ 36,012
Transactions during the year:		
Warrants expired	-	250
Balance at end of year	\$ 36,262	\$ 36,262

**15. EXPLORATION AND EVALUATION EXPENDITURES**

The evaluation and exploration expenses for the Company are broken down as follows:

	Year ended December 31,		Cumulative to date*
	2012	2011	
Casino Property	\$ (61,449)	\$ 59,083	\$ 255,903
Exploration and evaluation costs	\$ (61,449)	\$ 59,083	\$ 255,903

* Only properties currently under exploration are included in this figure.

Casino Property

Pursuant to a purchase agreement dated August 29, 2008, the Company acquired 22 mining claims located in the Township of Cadillac, county of Abitibi, in the Province of Quebec. The purchase price of \$100,000 was settled by the issuance of 1,000,000 common shares of the Company at a price of \$0.10 per share. The property was acquired from a director and officer of the Company.

In September 2008, the Company entered into an Option Agreement with The Globex-Queenston Joint Venture ("Globex-Queenston") whereas the Company granted Globex-Queenston the right and option to acquire a 50% interest in the Casino Claims. Under the terms of the agreement, Globex-Queenston was required to spend \$500,000 in exploration expenditures on or before September 2, 2010.

In March 2009, Globex-Queenston decided not to complete the Option Agreement. As per the terms outlined in the Option Agreement, Schyan will reimburse Globex-Queenston a total of \$13,000 spent in exploration expenditures which has been accrued as at December 31, 2012 and 2011.

In June 2012, the Company received proceeds from a Quebec provincial exploration tax credit in the amount of \$44,087. In March 2013 the Company received an additional \$20,757 in Quebec provincial exploration tax credits. (Note 9).

16. INCOME TAXES**(a) Provision for Income Taxes**

The Company's income tax provision differs from the amount resulting from the application of the Canadian statutory income tax rate. A reconciliation of the combined Canadian federal and provincial income tax rates with the Company's effective tax rate is as follows:

For the year ended December 31,	2012	2011
	\$	\$
Loss before income taxes	(40,246)	(410,533)
Combined statutory rate	26.50%	28.25%
	(10,700)	(116,000)
Non-deductible differences	7,000	40,700
Tax benefits not realized	10,500	66,600
Difference between current and future tax rates	(6,800)	8,700
	-	-

In 2012 the Federal tax rate decreased from 16.50% to 15.00% and the Provincial tax rate decreased for 11.75% to 11.50%.

**16. INCOME TAXES** (continued)**(b) Deferred Income Tax Balances**

Deferred tax assets have not been recognized in respect of the following temporary differences because it is not probable that future taxable profits will be available against which the Company can utilize the benefits.

As at December 31,	2012	2011
Exploration and evaluation assets	\$ 430,000	\$ 441,200
Non-capital loss carry forwards	66,000	68,400
	\$ 496,000	\$ 509,600

(c) Tax Loss Carry-forwards

The Company has accumulated non-capital losses of \$66,000 (2011-\$68,400), which may be deducted in the calculation of taxable income in future years. The losses expire in 2028.

The Company has approximately \$430,000 of Canadian development and exploration expenditures as at December 31, 2012 (2011 - \$441,000) which under certain circumstances may be utilized to reduce the taxable income of future years.

17. COMMITMENTS AND CONTINGENCIES

The Company's exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

18. SUBSEQUENT EVENT

At April 15, 2013, management has evaluated that there were no additional subsequent events occurring after December 31, 2012 that required disclosure in these financial statements.
