1. NATURE OF OPERATIONS AND GOING CONCERN

Schyan Exploration Inc. / Exploration Schyan Inc. (the "Company") was incorporated in Canada under the Business Corporations Act (Ontario) and carries on business in one segment, being the acquisition, exploration and development of mineral properties in Canada. The Company's registered and head office is located at 370 Steeles Avenue West, Suite 203, Thornhill, Ontario, L4J 6X1.

As at March 31, 2017, the Company had a working capital deficiency of \$304,524 (December 31, 2016 - \$305,915), had not yet achieved profitable operations, has accumulated losses of \$872,480 (December 31, 2016 - \$873,871) and expects to incur future losses in the development of its business, all of which represent material uncertainties which cast substantial doubt about the Company's ability to continue as a going concern. These financial statements have been prepared on a going concern basis and do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial position classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, aboriginal claims, unregistered claims, social licensing requirements and non-compliance with regulatory and environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiating contracts and political uncertainty.

Management plans to secure the necessary financing through a combination of the issue of new equity or debt instruments and the entering into joint venture arrangements. Nevertheless, there is no assurance that these initiatives will be successful.

The Company will require substantial additional funds to further explore and, if warranted, develop its exploration properties. The Company has limited financial resources and no current source of recurring revenue, and there is no assurance that additional funding will be available to the Company to carry out the completion of its planned exploration activities. There can be no assurance that the Company will be able to obtain adequate financing in the future or that the terms of such financing will be favourable. Failure to obtain such additional financing could result in the delay or indefinite postponement of further exploration and property development. The terms of any additional financing obtained by the Company could result in substantial dilution to the shareholders of the Company.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These unaudited interim condensed financial statements including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee (IFRIC").

These financial statements were authorized for issuance by the Board of Directors of the Company on May 29, 2017.

2.2 Basis of presentation and functional and presentation currency

These unaudited interim condensed financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's December 31, 2016 annual audited financial statements.

The financial statements are presented in Canadian Dollars, which is the functional currency of the Company.

(Expressed in Canadian Dollars)

Three Months Ended March 31, 2017 and 2016

2. BASIS OF PREPARATION (continued)

2.3 Adoption of new and revised standards and interpretations

New standards and interpretations adopted

During the period ending March 31, 2017, the Company did not adopt any new standards or interpretations.

Standards issued but not yet effective

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee ("IFRSIC") that are mandatory and would be applicable to Schyan for annual periods on or after January 1, 2017. Many are not applicable or do not have a significant impact to the Company and have been excluded. The following have not yet been adopted and are being evaluated to determine their impact on the Company.

• IFRS 9 Financial Instruments. - IFRS 9 covers the classification and measurement, impairment and hedge accounting of financial assets and financial liabilities and the effective date is for annual periods on or after January 1, 2018, with earlier application permitted. Amendments to IFRS 9 also provide relief from the requirement to restate comparative financial statements for the effect of applying IFRS 9. Instead, additional transition disclosures will be required to help investors understand the effect that the initial application of IFRS 9 has on the classification and measurement of financial instruments.

3. CAPITAL MANAGEMENT

The Company considers its capital to be equity, which is comprised of share capital, reserve accounts and deficit, which as at March 31, 2017 totaled (\$304,524), (December 31, 2016 (\$305,915)). The Company's capital structure is adjusted based on the funds available to the Company such that it may continue exploration and development of its properties for the mining of minerals that are economically recoverable. The Board of Directors does not establish quantitative return on capital criteria, but rather relies on the expertise of management and other professionals to sustain future development of the business.

The Company's properties are in the exploration and evaluation stage and, as a result, the Company currently has no source of operating cash flow. The Company intends to raise such funds as and when required to complete its projects. There is no assurance that the Company will be able to raise additional funds on reasonable terms. The only sources of future funds presently available to the Company are through the sale of equity capital of the Company or the sale by the Company of an interest in any of its properties in whole or in part. The ability of the Company to arrange such financing in the future will depend in part upon the prevailing capital market conditions as well as the business performance of the Company. There can be no assurance that the Company will be successful in its efforts to arrange additional financing, if needed, on terms satisfactory to the Company.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the periods ended March 31, 2017 and 2015. The Company is not subject to externally imposed capital restrictions.

4. FINANCIAL INSTRUMENTS

Fair value

The Company has designated its cash equivalents and short-term investments as FVTPL, which are measured at fair value. Cash and receivables and other assets are classified for accounting purposes as loans and receivables, which are measured at amortized cost. Trade and other payables and due to related parties are classified for accounting purposes as other financial liabilities, which are measured at amortized cost.

(Expressed in Canadian Dollars)

Three Months Ended March 31, 2017 and 2016

4. FINANCIAL INSTRUMENTS (continued)

Fair value (continued)

As at March 31, 2017 and 2016, the carrying and fair value amounts of the Company's financial instruments are approximately equivalent due to the relatively short periods to maturity of these instruments.

Fair value estimates are made at a specific point in time, based on relevant market information and information about financial instruments. These estimates are subject to and involve uncertainties and matters of significant judgment, therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Financial instruments recorded at fair value on the statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels: Level 1 - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and Level 3 - valuation techniques using inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The fair value of short-term investments are based on quoted market prices in active markets and are classified as level 1 financial instruments under the fair value hierarchy. Cash equivalents are classified as level 2 financial instruments.

A summary of the Company's risk exposures as it relates to financial instruments are reflected below:

i) Credit risk

Credit risk is the risk of loss associated with a counter-party's inability to fulfill its payment obligations. The credit risk is attributable to various financial instruments, as noted below. The credit risk is limited to the carrying value amount carried on the statement of financial position.

- a. Cash and cash equivalents Cash and cash equivalents are held with major Canadian banks and therefore the risk of loss is minimal.
- Receivables and other assets The Company is not exposed to significant credit risk as this amount is due from the Canadian Federal government.

ii) Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities as they become due. As at March 31, 2017, the Company had a working capital deficiency of \$304,524 (December 31, 2016 - \$305,915). In order to meet its longer-term working capital and property exploration expenditures, the Company intends on securing further financing to ensure that those obligations are properly discharged. There can be no assurance that the Company will be successful in its efforts to arrange additional financing on terms satisfactory to the Company. If additional financing is raised by the issuance of shares from the treasury of the Company, control of the Company may change and shareholders may suffer additional dilution. If adequate financing is not available, the Company may be required to delay, reduce the scope of, or eliminate one or more exploration activities or relinquish rights to certain of its interests. Failure to obtain additional financing on a timely basis could cause the Company to forfeit some or all of its interests and reduce or terminate its operations therein. The Company's financial liabilities generally have contractual maturities of 30 days and are subject to normal trade terms.

iii) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, commodity prices and/or stock market movements (price risk).

a. Interest rate risk

The Company is not exposed to significant interest rate price risk due to the short-term nature of its monetary assets and liabilities. Cash not required in the short term, is invested in short-term guaranteed investment certificates, as appropriate.

(Expressed in Canadian Dollars)

Three Months Ended March 31, 2017 and 2016

4. FINANCIAL INSTRUMENTS (continued)

Fair value (continued)

b. Price risk

The Company holds the common shares of publicly traded companies. The Company has classified these investments as FVTPL and such common shares are subject to stock market volatility. The value of these financial instruments fluctuates on a daily basis due to external market factors that are not within the control of the Company. The Company monitors the trading value of these common shares in order to ensure that, if in the best interest of the Company, sale of the shares is made under favourable conditions.

5. SENSITIVITY ANALYSIS

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a one year period:

The Company's short-term investments are subject to fair value fluctuations. As at March 31, 2017, if the quoted market value of short-term investments had decreased/increased by 10% net loss would have been approximately \$9,375 (December 31, 2016 - \$8,300) higher/lower. Similarly, as at March 31, 2017, reported equity would have been approximately \$9,375 (December 31, 2016 - \$8,300) lower/higher as a result of a 10% decrease/increase in the fair value of short-term investments.

6. CASH AND CASH EQUIVALENTS

The balance at March 31, 2017, consists of \$49,296 (December 31, 2016 - \$52,216) on deposit with a major Canadian bank.

Cash and cash equivalents consist of the following:

	As at			
	March 31, 2017	December 31, 2016		
Cash	\$ 49,296	\$ 52,216		
Cash equivalents	-	-		
Total Cash and Cash Equivalents	\$ 49,296	\$ 52,216		

7. SHORT-TERM INVESTMENTS

Short-term investments were comprised of 50,000 common shares of Balmoral Resources Ltd; 50,000 common shares of Barkerville Gold Mines Ltd.; and 50,000 common shares of Eastmain Resources Inc. (December 31, 2016 – 50,000 common shares of Balmoral Resources Ltd; 50,000 common shares of Barkerville Gold Mines Ltd.; and 50,000 common shares of Eastmain Resources Inc.), all publicly listed companies.

As at March 31, 2017, the short-term investments had a quoted market value approximating \$93,750 (December 31, 2016 - \$83,000). The impact to the financial statements of this revaluation to quoted market value and the sale of the Lake Shore Gold Inc. shares, resulted in a increase of \$10,750 (December 31, 2016 – \$7,155) to the value of the investments with a corresponding gain on change in fair value of short-term investment of \$10,750 (December 31, 2016 – \$7,155 a gain on sale of investment of \$86,625.)

During the year ending December 31, 2016, the Company sold 100,000 shares of Lake Shore Gold Inc. for net proceeds of \$198,625.

(Expressed in Canadian Dollars)

Three Months Ended March 31, 2017 and 2016

8. RECEIVABLES AND OTHER ASSETS

The Company's receivables and other assets arise from Harmonized Sales Tax ("HST") receivable. These are broken down as follows:

	As at			
	March 31, 2017	December 31, 2016		
HST receivable	\$ 4,589	\$ 4,170		
Total Receivables and other assets	\$ 4,589	\$ 4,170		

At March 31, 2017, the Company anticipates full recovery of these amounts and therefore no impairment has been recorded against these receivables. The Company holds no collateral for any receivable amounts outstanding as at March 31, 2017.

9. TRADE AND OTHER PAYABLES

Trade and other payables of the Company are principally comprised of amounts outstanding for trade purchases relating to exploration activities and amounts payable for operating and financing activities.

The following is an aged analysis of the trade and other payables:

	As at			
	March 31, 2017	December 31, 2016		
Less than 1 month	\$ 3,443	\$ 2,564		
Over 3 months	139,085	136,331		
Total Trade and Other Payables	\$ 142,528	\$ 138,895

Balance, end of period/year	\$	309,631	\$	306,406	

The balances due to related parties are owing to directors and officers of the Company and are unsecured, non-interest bearing and due on demand.

As at March 31, 2017, the trade and other payables balance includes related party amounts of \$5,370 (December 31, 2016 - \$8,120). The related parties are directors of the Company. The amounts are for services rendered during previous periods and arose as a result of transactions entered into with the related parties in the ordinary course of business.

11. KEY MANAGEMENT COMPENSATION

The financial statements include balances and transactions with directors and/or officers of the Company.

These expenditures are summarized as follows:

	Three Months Ended				
	March 31, 2017		Ma	March 31, 2016	
Legal fees paid to a director's firm	\$	-	\$	2,750

(Expressed in Canadian Dollars)

Three Months Ended March 31, 2017 and 2016

11. KEY MANAGEMENT COMPENSATION (continued)

In accordance with IAS 24, Related Party Disclosures, key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company.

During the period ended March 31, 2017, \$NIL (2016 - \$2,750) was expensed as professional fees to a law firm in which one of the Directors of the Company is a partner.

12. CAPITAL STOCK

Capital Stock

The Company is authorized to issue an unlimited number of common shares without par value. The issued and outstanding common shares consist of the following:

	# of shares	Amount
Balance at December 31, 2016 and March 31, 2017	3,961,372	\$ 531,694

Stock Options

The Company has a stock option plan pursuant to which options to purchase common shares may be granted to certain officers, directors, employees and consultants. The plan allows for the issuance of up to 367,000 stock options. As at March 31, 2017; the Company had 396,137, (December 31, 2016 – 396,137) options available for issuance. A continuity of the unexercised options to purchase common shares is as follows:

	March 31, 2017			December 31, 2016		
	Weight Avera Exercise Pri	ge	Number of Options	_	ghted erage Price	Number of Options

(Expressed in Canadian Dollars)

Three Months Ended March 31, 2017 and 2016

14. EXPLORATION AND EVALUATION EXPENDITURES

The evaluation and exploration expenses of the Company are broken down as follows:

	Three months ended March 31,					Cumulative to date*	
_	2016		2016				
Casino Property Star Lake and Crest Lake	\$	25	\$	-	\$	326,038	
Properties	\$	-	\$	-	\$	45,123	
Exploration and evaluation costs	\$	25	\$	-	\$	371,161	

^{*} Only properties currently under exploration are included in this figure.

Casino Property

Schyan has a total of 30 mining claims at December 31, 2016 located in the Township of Cadillac, county of Abitibi, in the Province of Quebec; of which 22 claims are included in Casino Property Purchase Agreement and 21 are staked claims.

The Company, over time has allowed certain claims to lapse as they were no longer in line with the Company's strategic objectives and has re-staked claims that Management has deemed to add value to the Company's land holdings.

Casino Property Purchase

Pursuant to a purchase agreement dated August 29, 2008, the Company acquired 22 mining claims located in the Township of Cadillac, county of Abitibi, in the Province of Quebec. The purchase price of \$100,000 was settled by the issuance of 1,000,000 common shares of the Company at a price of \$0.10 per share. The property was acquired from a director and officer of the Company.

Star Lake and Crest Lake Properties

In July, 2014 the Company signed letters of intent to acquire certain claim units in the Keefer Township located in Ontario. Under the terms of the Crest Lake agreement, the Company agrees to pay a cumulative amount of \$200,000 and issue 500,000 common shares of the Company over a four year period. In addition to these payments, the Company agreed to complete a 1,000 meters of diamond drilling on the property in the first year. Under the terms of the Star Lake agreement the Company paid \$7,500 in cash upon the signing of the Letter of Intent and will issue 150,000 shares once the agreement has been finalized.

In March 2015 the Letter of Intent was amended to delay any cash payments to such a time that the Company has completed a financing and is listed on the CSE Stock Exchange. As of May 27, 2016 the Company's Management decided not to proceed with either the cash payment or issuance of shares to earn an interest in the Property.

15. COMMITMENTS AND CONTINGENCIES

The Company's exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.

16. SUBSEQUENT EVENT

At May 29, 2017, management has evaluated that there were no additional subsequent events occurring after March 31, 2017 that required disclosure in these financial statements.
