The Transaction was completed in August 2018 and Schyan changed its name to Trulieve Cannabis Corp.

The Company’s head office and principal address is located at 6749 Ben Bostic Road, Quincy, Florida 32351. The Company’s registered office is located at Suite 2800, Park Place, 666 Burrard Street, Vancouver, British Columbia, V6C 2Z7.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**(a) Statement of Compliance**

The unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 – *Interim Financial Reporting*, following the same accounting policies and methods of application as those disclosed in the annual audited financial statements for the year ended December 31, 2019. The unaudited condensed consolidated interim financial statements should be read in conjunction with the annual financial statements of the Company for the year ended December 31, 2019, which have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). There has been no material impact on these unaudited condensed consolidated interim financial statements from changes in accounting standards during the period.

These unaudited condensed consolidated interim financial statements were approved by the Board of Directors and authorized for issue by the Board of Directors on May 19, 2020.

(b) Basis of Measurement

These unaudited condensed consolidated interim financial statements have been prepared on the going concern basis, under the historical cost convention except for biological assets and certain financial instruments, which are measured at fair value.

(c) Functional Currency

The functional currency of the Company and its subsidiaries, as determined by management, is the United States (“U.S.”) dollar. These unaudited condensed consolidated interim financial statements are presented in U.S. dollars.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNAUDITED)
AS AT AND FOR THE THREE MONTHS ENDED MARCH 31, 2020 AND 2019**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****(d) Basis of Consolidation**

These unaudited condensed consolidated interim financial statements include the financial information of the Company and its subsidiaries, Trulieve, Inc., Life Essence, Inc., Leef Industries, LLC, Trulieve Bristol, Inc. (formerly The Healing Corner, Inc.) and various holding companies that have no operations. The accounts of the subsidiaries are prepared for the same reporting period using consistent accounting policies from the date of acquired control. Intercompany transactions, balances and unrealized gains or losses on transactions are eliminated.

(e) Significant Accounting Judgments, Estimates, and Assumptions

The preparation of these unaudited condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to these unaudited condensed consolidated interim financial statements have been set out in Note 3 of the audited financial statements for the years ended December 31, 2019 and 2018.

(f) Recently Adopted Accounting Pronouncements*Amendments to IFRS 9, Financial Instruments (“IFRS 9”) and IAS 39, Financial Instruments: Recognition and Measurement (“IAS 39”)*

On September 26, 2019, the IASB issued amendments for some of its requirements for hedge accounting in IFRS 9, Financial Instruments and IAS 39, Financial Instruments: Recognition and Measurement, as well as the related standards on disclosures, IFRS 7, Financial Instruments: Disclosures. The amendments are effective from January 1, 2020. The amendments modify some specific hedge accounting requirements to provide relief from potential effects of the uncertainty caused by interest rate benchmark reform in the following areas:

- the ‘highly’ probable requirement,
- prospective assessments,
- retrospective assessments (for IAS 39), and
- eligibility of risk components.

The adoption of amendments to IFRS 9 and IAS 3 did not have a material impact on the unaudited condensed consolidated interim financial statements.

(g) COVID-19 Pandemic

The Company’s business could be materially and adversely affected by the outbreak of a widespread epidemic or pandemic or other public health crisis, including arising from the novel strain of the coronavirus known as “COVID-19.” This has resulted in significant economic uncertainty and consequently, it is difficult to reliably measure the potential impact of this uncertainty on our future financial results.

**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNAUDITED)
AS AT AND FOR THE THREE MONTHS ENDED MARCH 31, 2020 AND 2019**
3. BIOLOGICAL ASSETS AND INVENTORIES

As at March 31, 2020 and December 31, 2019 biological assets comprise:

	March 31, 2020	December 31, 2019
Cannabis plants	<u>\$ 41,261,811</u>	<u>\$ 66,718,321</u>

The changes in the carrying value of biological assets are as follows:

Balance at December 31, 2018	\$ 29,636,269
Net increase in fair value less costs to sell due to biological transformation for indoor flower	277,981,960
Net increase in fair value less costs to sell due to biological transformation for outdoor flower	56,245,844
Transferred to inventory upon harvest	<u>(297,145,752)</u>
Balance at December 31, 2019	\$ 66,718,321
Net increase in fair value less costs to sell due to biological transformation for indoor flower	70,300,291
Net increase in fair value less costs to sell due to biological transformation for outdoor flower	7,287,099
Transferred to inventory upon harvest	<u>(103,043,900)</u>
Balance at March 31, 2020	<u>\$ 41,261,811</u>

Biological assets are measured at fair value less costs to sell until harvest. All production costs related to biological assets are expensed as incurred. All direct and indirect costs related to both biological assets and inventory are included in the 'Production Expenses and Cost of Goods From Third Party Suppliers' line on the accompanying condensed consolidated interim statements of operations.

The fair value measurements for biological assets have been categorized as Level 3 fair values based on the inputs to the valuation technique used. The fair value was determined using a model which assumes the biological assets at the end of the reporting period will grow to maturity, be harvested and converted into finished goods inventory and sold in the medical cannabis market. The Company's method of accounting for biological assets attributes value accretion on a straight-line basis throughout the life of the biological asset from initial cloning to the point of harvest.

**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNAUDITED)
AS AT AND FOR THE THREE MONTHS ENDED MARCH 31, 2020 AND 2019**
3. BIOLOGICAL ASSETS AND INVENTORIES (CONTINUED)

The cannabis plant model utilizes the following significant assumptions:

Assumption	March 31, 2020		December 31, 2019	
	Range	Average	Range	Average
(i) Weighted average of expected loss of plants until harvest (a)	0-84%	19%	0-74%	26%
(ii) Expected yields for cannabis plants (average grams per plant)	68 - 219 grams per plant	193 grams per plant	55 - 250 grams per plant	146 grams per plant
(iii) Expected number of growing days	119 - 133	126	119 - 133	126
(iv) Weighted average number of growing days completed as a percentage of total growing days as at period end	N/A	43%	N/A	48%
(v) Estimated selling price (per gram) (b)	N/A	\$9.30	N/A	\$10.33
(vi) After harvest cost to complete and sell (per gram)	\$1.15 - \$2.30	\$1.72	\$1.07 - \$2.34	\$1.71
(vii) Reasonable margin \$ on after harvest costs to complete and sell (per gram)	\$1.79 - \$2.33	\$2.06	\$1.85 - \$2.10	\$1.98

(a) Weighted average of expected loss of plants until harvest represents loss via plants that do not survive to the point of harvest. It does not include any financial loss on a surviving plant.

(b) The estimated selling price (per gram) for March 31, 2020 and December 31, 2019 represent the average sales price for the Company's various strains sold as medical products.

These estimates are subject to volatility in market prices and a number of uncontrollable factors, which could significantly affect the fair value of biological assets in future periods.

The following table presents the effect of 10% positive change and 10% negative change on the fair valuation of cannabis plants biological assets as at March 31, 2020 and December 31, 2019.

Assumption	10% change as at March 31, 2020 \$	10% change as at December 31, 2019 \$
Weighted average of expected loss of plants until harvest	4,126,181	6,671,832
Expected yields for cannabis plants	3,987,436	6,671,832
Expected number of growing days	4,126,181	6,671,832

3. BIOLOGICAL ASSETS AND INVENTORIES (CONTINUED)

The Company does not capitalize any production costs including overheads to biological assets. All production costs related to biological assets are expensed as incurred and are included in production costs in the table above. All indirect and direct cost related to biological assets are recorded within production expenses and cost of goods from third party suppliers.

The Company capitalizes cost incurred after harvest to bring the products to their present location and condition in accordance with IAS 2 Inventories. The cost of inventories includes the fair value of the cannabis at harvest and costs incurred after harvest (such as quality assurance costs, fulfillment costs and packaging costs) to bring the products to their present location and condition.

**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNAUDITED)
AS AT AND FOR THE THREE MONTHS ENDED MARCH 31, 2020 AND 2019****8. DEBT (CONTINUED)**

The fair value of the June Notes was determined to be \$63,890,650 using an interest rate of 13.32% which the Company estimates would have been the coupon rate required to issue the notes had the financing not included the June Warrants. The fair value of the June Warrants was determined to be \$4,709,349 using the Black Scholes option pricing model and the following assumptions: Share Price: C\$14.48; Exercise Price: C\$17.25; Expected Life: 3 years; Annualized Volatility: 49.96%; Dividend yield: 0%; Discount Rate: 1.92%; C\$ Exchange Rate: 1.34.

Because of the Canadian denominated exercise price, the June Warrants do not qualify to be classified within equity and are therefore classified as derivative liabilities at fair value through profit or loss "FVTPL".

Issuance costs totaling \$3,117,093 were allocated between the June Notes and the June Warrants based on their relative fair values with \$2,903,106 allocated to the June Notes and \$213,987 expensed as incurred.

Each Unit was comprised of one Note issued in denominations of \$1,000 and 26 Warrants.

The fair value of the November Notes was determined to be \$56,682,835 using an interest rate of 13.43% which the Company estimates would have been the coupon rate required to issue the notes had the financing not included the November Warrants. The fair value of the November Warrants was determined to be \$4,376,164 using the Black Scholes option pricing model and the following assumptions: Share Price: C\$14.29; Exercise Price: C\$17.25; Expected Life: 2.6 years; Annualized Volatility: 48.57%; Dividend yield: 0%; Discount Rate: 1.92%; C\$ Exchange Rate: 1.32

Because of the Canadian denominated exercise price, the November Warrants do not qualify to be classified within equity and are therefore classified as derivative liabilities at FVTPL.

Issuance costs totaling \$2,111,480 were allocated between the November Notes and the November Warrants based on their relative fair values with \$1,954,450 allocated to the November Notes and \$157,030 expensed as incurred.

The Company has a Stock Option Plan (the “Plan”) as administered by the board of the directors. The aggregate number of Subordinate Voting Shares which may be reserved for issue under the Plan shall not exceed 10% of the issued and outstanding number of Subordinate Voting Shares.

In determining the amount of share-based compensation related to options issued during the three months ended March 31, 2020, the Company used the Black-Scholes pricing model to establish the fair value of the options granted.

	<u>Three Months Ended March 31, 2020</u>	
Fair Value at Grant Date	\$	3.26
Stock Price at Grant Date	\$	11.52
Exercise Price at Grant Date	\$	11.52
Expected Life in Years		2.00
Expected Volatility		49.10%
Expected Annual Rate of Dividends		0%
Risk Free Annual Interest Rate		1.58%

The expected volatility was estimated by using the historical volatility of other companies that the Company considers comparable that have trading and volatility history prior to the Company becoming public. The expected life in years represents the period of time that options granted are expected to be outstanding. The risk-free rate was based on the United States 2-year bond yield rate at the time of grant of the award. Expected annual rate of dividends is based on the fact that the Company has never paid cash dividends and does not expect to pay any cash dividends in the foreseeable future.

For the three months ended March 31, 2020, the Company recorded share-based compensation in the amount of \$1,222,223. This is recognized as \$98,373 in production expenses and cost of goods from third party suppliers, \$927,102 in general and administrative, and \$196,748 in sales and marketing.

12. EARNINGS PER SHARE

The following is a reconciliation for the calculation of basic and diluted earnings per share for the three months ended March 31, 2020 and 2019:

Weighted average number of common shares outstanding	110,346,346	110,132,168
Dilutive effect of warrants outstanding	4,889,394	5,472,093
Diluted weighted average number of common shares outstanding	115,235,740	115,604,261
Basic earnings per share	\$ 0.13	\$ 0.13
Diluted earnings per share	\$ 0.12	\$ 0.13

For the three Months ended March 31, 2020, all options outstanding were not included in the computation of diluted earnings per share because the options' exercise prices or assumed proceeds per share were greater than the average market price of our common stock, and therefore, would have an anti-dilutive effect.

15. CONTINGENCIES**(a) Operating Licenses**

Although the possession, cultivation and distribution of cannabis for medical use is permitted in Florida, California, and Connecticut cannabis is a Schedule-I controlled substance and its use remains a violation of federal law. Since federal law criminalizing the use of cannabis preempts state laws that legalize its use, strict enforcement of federal law regarding cannabis would likely result in the Company’s inability to proceed with our business plans. In addition, the Company’s assets, including real property, cash, equipment and other goods, could be subject to asset forfeiture because cannabis is still federally illegal.

(b) Claims and Litigation

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. Except as disclosed below, at March 31, 2020, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company’s consolidated statements of operations. There are also no proceedings in which any of the Company’s directors, officers or affiliates is an adverse party or has a material interest adverse to the Company’s interest.

Securities Litigation*, No. 1:19-cv-07289, was filed against the Company and is still ongoing. This case has been removed from New York to Florida federal court with no other developments. The Company believes that the suit is immaterial and that the claims are without merit and intends to vigorously defend against them.

16. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT
(a) Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, accounts payable and accrued liabilities, warrant liability, notes payable (both to third parties and related parties) and finance liability. Excluding the warrant liability classified at FVTPL, the carrying values of these financial instruments approximate their fair values at March 31, 2020 and December 31, 2019 due to their short-term nature or because the effective interest rate applied to the balance approximates the market rate.

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the significance of the inputs to fair value measurements. The three levels of hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and
- Level 3 – Inputs for the asset or liability that are not based on observable market data.

The warrants liability is classified within level 2 of the fair value hierarchy.

There have been no transfers between hierarchy levels during the three months ended March 31, 2020 or the three months ended March 31, 2019.

(c) Credit Risk

Credit risk is the risk of a potential loss to the Company if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company is moderately exposed to credit risk from its cash. The risk exposure is limited to the carrying amount at the statements of financial position date. The risk for cash is mitigated by holding these instruments with highly rated U.S. state financial institutions. The Company does not have significant credit risk with respect to its customers.

The Company's interest-bearing loans and borrowings are all at fixed interest rates. The Company considers interest rate risk to be immaterial.

The Company operates substantially in Florida. Should economic conditions deteriorate within that region, its results of operations and financial position would be negatively impacted.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS (UNAUDITED)
AS AT AND FOR THE THREE MONTHS ENDED MARCH 31, 2020 AND 2019**16. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONTINUED)***(iii) Price Risk*

Price risk is the risk of variability in fair value due to movements in equity or market prices. See “*Note 3 Biological Assets and Inventories*” for the Company’s assessment of certain changes in the fair value assumption used in the calculation of biological asset values. The Company has exposure to the U.S. dollar and Canadian dollar from warrant derivatives. The Company is mainly exposed to a 10% change in the U.S. dollar against the Canadian dollar which would result in an impact of approximately \$90,000 to net income

(e) Banking risk

Notwithstanding that a majority of states have legalized medical marijuana, there has been no change in U.S. federal banking laws related to the deposit and holding of funds derived from activities related to the marijuana industry. Given that U.S. federal law provides that the production and possession of cannabis is illegal, there is a strong argument that banks cannot accept for deposit funds from businesses involved with the marijuana industry. Consequently, businesses involved in the marijuana industry often have difficulty accessing the U.S. banking system and traditional financing sources. The inability to open bank accounts with certain institutions may make it difficult to operate the businesses of the Company, its subsidiaries and investee companies, and leaves their cash holdings vulnerable. The Company has banking relationships in all jurisdictions in which it operates.
