

# Trulieve Brings Medical Cannabis Directly to Patients with Lake City's First Dispensary

*The new dispensary marks the Company's 67<sup>th</sup> location in Florida*

TALLAHASSEE, Fla., Nov. 17, 2020 /CNW/ - [Trulieve Cannabis Corp.](#) (CSE: TRUL) (OTCQX: TCNNF) ("Trulieve" or "the Company"), a leading and top-performing cannabis company based in the United States, announced today the opening of a brand-new Florida dispensary, the Company's 72nd nationwide. The new dispensary marks the first dispensary to open in Lake City, as well as the Company's first in Columbia County.

The new dispensary supports Trulieve's goal of expanding and ensuring direct, reliable patient access to medical cannabis across its home state of Florida. It joins the Company's 66 other dispensaries statewide and brings a storefront to patients between Gainesville, Jacksonville, and Tallahassee.

"It's always exciting to open the first dispensary in a new area like Lake City. Expanding medical cannabis access for patients in Lake City benefits those who have incorporated cannabis into their daily routines, and gaining new members of the community who may have been dissuaded from trying cannabis because of lack of access," said [Trulieve CEO Kim Rivers](#). "We thrive on the connection we've established with patients across the state and relish the opportunity to further connect directly with patients new and experienced throughout Columbia County."

In honor of the Company's brand-new dispensary, all patients — from those new to Trulieve to the dedicated Truliever community — will be eligible for a 25% in-store discount at the new Lake City dispensary on opening day. In line with policies adopted statewide, all visitors are required to wear masks for the duration of their dispensary visit. Additionally, only patients and their state-approved caregivers will be allowed inside the waiting room and dispensary at this time.

Trulieve is closely monitoring the coronavirus situation and will update store policies as needed to ensure the safety of patients and staff. All updates will be shared directly on Trulieve's website as they are enacted.
