UNAUDITED INTERIM FINANCIAL STATEMENTS

For the three month periods ended March 31, 2014 and 2013

## **MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING**

The accompanying unaudited interim financial statements of Goldtrain Resources Inc. are the responsibility of the management and Board of Directors of the Company.

The unaudited interim financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the unaudited interim financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the interim financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34 Interim Financial Reporting of International Financial Reporting Standards using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established systems of internal control over the financial reporting process, which are designed to provide reasonable assurance that relevant and reliable financial information is produced.

The Board of Directors is responsible for reviewing and approving the unaudited interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited interim financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

"Carl McGill", CEO and CFO  
Carl McGill

### **NOTICE TO READER**

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of management. The unaudited interim financial statements for the three month periods ended March 31, 2014 and 2013 have not been reviewed by the Company's auditors.

## GoldTrain Resources Inc.

### NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2014 AND 2013

(Canadian dollars)

---

#### 1. NATURE OF OPERATIONS AND GOING CONCERN CONSIDERATIONS

GoldTrain Resources Inc. ("GoldTrain" or the "Company") is a public company amalgamated under the laws of the Province of Ontario on April 27, 2009. The Company's head office is located at 180 Dundas St. W., Suite 1801, Toronto, ON, M5G 1Z8. GoldTrain's principal business is the acquisition and exploration of mineral properties. Substantially all of the efforts of the Company are devoted to these business activities. To date, the Company has not earned significant revenue and is considered to be in the exploration stage. The ability of the Company to carry out its business plan rests with its ability to secure equity and other financing.

As at March 31, 2014, the Company had a working capital deficiency of \$263,112 (December 31, 2013 – \$571,176), had not yet achieved profitable operations, had accumulated losses of \$2,878,979 (December 31, 2013 - \$2,840,939) and expects to incur further losses in the development of its business, all of which casts doubt upon the Company's ability to continue as a going concern. The Company is in the exploration stage and has no proven reserves or production relating to its operations. The application of the going concern assumption is dependent upon the Company's ability to generate future profitable operations and obtain necessary financing to do so.

Management believes the Company has sufficient funds or access to sufficient funds to cover planned operations throughout the next twelve-month period. However, management plans on securing additional financing through the issue of new equity, among other things. Nevertheless, there is no assurance that these initiatives will be successful.

These financial statements have been prepared on the basis of accounting principles applicable to a "going concern", which assume that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. The business of mining and exploring for minerals involves a high degree of risk and there is no guarantee that the Company's exploration programs will yield positive results or that the Company will be able to obtain the necessary financing to carry out the exploration and development of its mineral property interests.

Management believes the going concern assumption to be appropriate for these financial statements. If the going concern assumption was not appropriate, adjustments might be necessary to the carrying value of the assets and liabilities, reported revenues and expenses, and the statement of financial position classifications used in the financial statements.

The future profitability of exploration properties and the Company's continued existence are dependent upon the preservation of its interests in the underlying properties, the development of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or, alternatively, upon the Company's ability to dispose of its interests on an advantageous basis.

Although the Company has taken steps to verify title to the properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to government licensing requirements or regulations, unregistered prior agreements, undetected defects, unregistered claims, native land claims, and non-compliance with regulatory and environmental requirements.

## GoldTrain Resources Inc.

(An Exploration Stage Enterprise)

### NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2014 AND 2013

(Canadian dollars)

---

## 2. BASIS OF PREPARATION

### 2.1 Statement of compliance

These unaudited interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC") as at May 15, 2014.

These unaudited interim financial statements were authorized by the Board of Directors of the Company on May 15, 2014.

### 2.2 Basis of presentation

These unaudited interim financial statements have been prepared on the basis of accounting policies and methods of computation consistent with those applied in the Company's December 31, 2013 annual financial statements. Management advises readers of these unaudited interim financial statements to review the audited financial statements and accompanying notes as at December 31, 2013 in conjunction with the review of these statements.

### 2.3 Future accounting policies and standards adopted

#### Future accounting policies

At the date of authorization of these financial statements, the IASB and IFRIC has issued the following new and revised Standards and Interpretations which are not yet effective for the relevant reporting periods and which the Company has not early adopted these standards, amendments and interpretations. However, the Company is currently assessing what impact the application of these standards or amendments will have on the financial statements of the Company.

- IFRS 9, 'Financial instruments', effective for annual periods beginning on or after January 1, 2018, addresses the classification, measurement and recognition of financial assets and financial liabilities. IFRS 9 was issued in November 2009 and October 2010. It replaces the parts of IAS 39 that relate to the classification and measurement of financial instruments. IFRS 9 requires financial assets to be classified into two measurement categories: those measured as at fair value and those measured at amortized cost. The determination is made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument. For financial liabilities, the standard retains most of the IAS 39 requirements. The main change is that, in cases where the fair value option is taken for financial liabilities, the part of a fair value change due to an entity's own credit risk is recorded in other comprehensive income, unless this creates an accounting mismatch. The Company is yet to assess IFRS 9's full impact. The Company will also consider the impact of the remaining phases of IFRS 9 when completed by the Board.

#### Standards adopted

- IAS 32 '*Financial instruments, Presentation*' – In December 2011, effective for annual periods beginning on or after January 1, 2014, IAS 32 was amended to clarify the requirements for offsetting financial assets and liabilities. The amendments clarify that the right of offset must be available on the current date and cannot be contingent on a future date. The amendment affected presentation only and had no impact on the Company's financial position or performance.

## GoldTrain Resources Inc.

(An Exploration Stage Enterprise)

### NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2014 AND 2013

(Canadian dollars)

---

## 2. BASIS OF PREPARATION *(continued)*

### Standards adopted *(continued)*

- IAS 36 – Impairments of Assets (“IAS 36”) was amended by the IASB in May 2013 to clarify the requirements to disclose the recoverable amounts of impaired assets and require additional disclosures about the measurement of impaired assets when the recoverable amount is based on fair value less costs of disposal, including the discount rate when a present value technique is used to measure the recoverable amount. The amendments to IAS 36 are effective for annual periods beginning on or after January 1, 2014. The application of IAS 36 had no impact to the Company.
- IAS 39 – Financial Instruments: Recognition and Measurement (“IAS 39”) was amended by the IASB in June 2013 to clarify that novation of a hedging derivative to a clearing counterparty as a consequence of laws or regulations or the introduction of laws or regulations does not terminate hedge accounting. The amendments to IAS 39 are effective for annual periods beginning on or after January 1, 2014. The amendment affected presentation only and had no impact on the Company’s financial position or performance. The application of IAS 39 had no impact to the Company.
- IFRIC 21 – Levies (“IFRIC 21”) was issued in May 2013. IFRIC 21 provides guidance on the accounting for levies within the scope of IAS 37 – Provisions, Contingent Liabilities and Contingent Assets (“IAS 37”). IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event (“obligating event”). IFRIC 21 clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. IFRIC 21 is effective for annual periods commencing on or after January 1, 2014. The application of IFRIC 21 had no impact to the Company.

### 2.4 Use of management estimates, judgments and measurement uncertainty

The preparation of these financial statements using accounting policies consistent with IFRS requires management to make judgements and estimates and form assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Such estimates primarily relate to unsettled transactions and events as at the date of the financial statements. On an ongoing basis, management evaluates its judgements and estimates in relation to assets, liabilities, revenue and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgements and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions. The most significant estimates relate to valuation of deferred tax amounts and the calculation of share-based payments and warrants. Significant estimates and judgments made by management in the preparation of these financial statements are outlined below:

#### **Income taxes**

Tax interpretations, regulations and legislation in the various jurisdictions in which the Company operates are subject to change and interpretation. As such, income taxes are subject to measurement uncertainty. The Company follows the liability method for calculating deferred taxes. Assessing the recoverability of deferred tax assets requires the Company to make significant estimates related to the expectations of future cash flows from operations and the application of existing tax laws. To the extent that future cash flows and taxable income differ significantly from estimates, the ability of the Company to realize the deferred tax assets and liabilities recorded at the statement of financial position date could be impacted. Additionally, changes in tax laws could limit the ability of the Company to obtain tax deductions in the future.

## GoldTrain Resources Inc.

(An Exploration Stage Enterprise)

### NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2014 AND 2013

(Canadian dollars)

---

#### 2. BASIS OF PREPARATION *(continued)*

##### ***Going concern assumption***

Going concern presentation of the financial statements which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due.

##### ***Calculation of share based payments and warrants***

The Black-Scholes option pricing model is used to determine the fair value for the share based payments and warrants and utilizes subjective assumptions such as expected price volatility and expected life of the option or warrant. Discrepancies in these input assumptions can significantly affect the fair value estimate.

##### ***Decommissioning provisions***

These are made based on the estimated settlement amounts. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed quarterly and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions on a quarterly basis. Actual rehabilitation costs will ultimately depend on actual future settlement amount for the rehabilitation costs which will reflect the market condition at the time of the rehabilitation costs are actually incurred. The final cost of the currently recognized rehabilitation provisions may be higher or lower than currently provided for.

#### 3. CAPITAL MANAGEMENT

The Company's objectives in managing its capital are: to maintain adequate levels of funding to support its expenditures arising from the Company's investments; to safeguard the Company's ability to continue as a going concern in order to pursue the exploration of its properties; to maintain a flexible capital structure for its projects for the benefit of its stakeholders; to maintain corporate and administrative functions necessary to support the Company's operations and corporate functions; and to seek out and acquire new projects of merit.

The Company considers its capital to be equity, which is comprised of share capital, reserve accounts, and accumulated deficit, which as at March 31, 2014 was a deficiency of \$438,112 (December 31, 2013 – \$571,176).

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The board of directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company expects its capital resources, together with its access to the capital markets and accommodation from its service providers, will be sufficient to carry out its exploration plans and operations through its current operating period. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the three month period ended March 31, 2014. The Company is not subject to externally imposed capital requirements.

(An Exploration Stage Enterprise)

### NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2014 AND 2013

(Canadian dollars)

---

#### 4. FINANCIAL INSTRUMENTS

##### *Fair Value Hierarchy*

Financial instruments recorded at fair value on the statement of financial position are classified using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

*Level 1* - valuation based on quoted prices (unadjusted) in active markets for identical assets or liabilities;

*Level 2* - valuation techniques based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);

*Level 3* - valuation techniques using inputs for the asset or liability that are not based on observable market data.

##### *Fair value*

The Company's financial instruments as at March 31, 2014 include cash, trade and other payables and long term debt. The Company has designated its cash as FVTPL, which is measured at fair value. Fair value of cash is determined based on transaction value and is categorized as Level 1 measurement. Fair value of trade and other payables and long term debt is determined from transaction values which were derived from observable market inputs. Fair values of these financial instruments are based on Level 2 measurements. The Company records its financial instruments at their carrying amounts which approximates fair value, unless otherwise disclosed in the financial statements. The carrying amounts approximate fair values due to the short-term maturities of cash and trade and other payables.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

##### *Interest-rate risk*

The Company has cash and cash equivalent balances bearing fixed interest rates and no interest-bearing debt. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

##### *Liquidity risk*

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2014, the Company had current assets of \$408 (December 31, 2013 - \$6,299) to settle current liabilities of \$263,520 (December 31, 2013 - \$577,475). The ability of the Company to continue to pursue its exploration activities and continue as a going concern is dependent on its ability to secure additional equity or other financing and the continued accommodation from its service providers. All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms, except for long term debt (see Note 8). As at March 31, 2014, the Company had a working capital deficiency of \$263,112 (December 31, 2013 - \$571,176).

## GoldTrain Resources Inc.

(An Exploration Stage Enterprise)

### NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2014 AND 2013

(Canadian dollars)

#### 4. FINANCIAL INSTRUMENTS (continued)

##### *Credit risk*

Credit risk is the risk of financial loss to the Company if a customer or counter party to a financial instrument fails to meet its contractual obligations.

The Company's credit risk is primarily attributable to cash included in current assets. The Company has no material concentration of credit risk arising from operations. Cash consist of bank deposits, which have been invested in a Canadian chartered bank, from which management believes the risk of loss is remote.

The Company's maximum exposure to credit risk as at March 31, 2014 is the carrying value of cash.

#### 5. OTHER FINANCIAL ASSETS – FVTPL SECURITIES

Other financial assets were comprised of marketable securities of a publicly traded company on the TSX Venture Exchange ("TSXV"). The impact to the financial statements of the revaluation to market value resulted in an unrealized gain of \$Nil (2013 – \$51,199) due to the reclassification of previously unrealized losses as a result of the sale of these financial assets and a realized loss of \$Nil (2013 – \$70,466) through the sale of these marketable securities.

#### 6. MINERAL PROPERTIES

The evaluation and exploration expenses for the Company are broken down as follows:

	Three Month Period Ended March 31,		Cumulative to date *
	2014	2013	
Missinabie/Nudulama Property	\$ 1,037	\$ -	\$ 1,186,091
<b>Exploration and evaluation expenditures</b>	<b>\$ 1,037</b>	<b>\$ -</b>	<b>\$ 1,186,091</b>

\* Only properties currently under exploration are included in this figure.

##### **Missinabie/Nudulama Property – Brackin and Leeson Township, Ontario**

The Company has a 100% interest in 7 unpatented mining claims (containing 92 claim units) covering approximately 1472 hectares in the Brackin Township area, approximately 72 kilometres northeast of the town of Wawa, Ontario. The vendor retains a 2% net smelter royalty which continues until the property is written off.

In 2010, the Company acquired a 100% interest in 2 unpatented mining claims in the Leeson Township area, in the mining district of Sault Ste. Marie by issuing 400,000 common shares (issued) and paying \$11,200 (paid). The vendor retains a 3% net smelter royalty on the property, two-thirds of which can be purchased for \$2,000,000.

In 2011, the Company purchased a 100% interest in 11 patented and 11 leased claims in Leeson Township (Nudulama Property) approximately 85 kilometers northeast of Wawa, Ontario. The patented claims are adjacent to the Missinabie Property. The Company paid \$100,000, issued 300,000 common shares and issued 300,000 warrants. Each warrant entitled the holder to acquire one common share at an exercise price of \$0.10 for 24 months, which expired on September 26, 2013. The vendor retains a 2% net smelter royalty on the property, one-half of which can be purchased for \$1,000,000.

## GoldTrain Resources Inc.

(An Exploration Stage Enterprise)

### NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2014 AND 2013

(Canadian dollars)

#### 7. TRADE AND OTHER PAYABLES

Trade and other payables of the Company are principally comprised of amounts outstanding for trade purchases relating to exploration activities and amounts payable for operating and financing activities. The usual credit period taken for trade purchases is between 30 to 90 days.

The following is an aged analysis of the trade and other payables:

	As at,	
	March 31, 2014	December 31, 2013
Less than 1 month and accruals	\$ 63,539	\$ 117,636
1 – 3 months	61,960	886
Over 3 months	138,021	458,953
<b>Total trade and other payables</b>	<b>\$ 263,520</b>	<b>\$ 577,475</b>

#### 8. LONG TERM DEBT

The following is a summary of the activity of long term debt:

	Period/Year Ending	
	March 31, 2014	December 31, 2013
Opening Balance	\$ -	\$ -
Issued in the year	175,000	-
<b>Ending Balance</b>	<b>\$ 175,000</b>	<b>\$ -</b>

In February 2014, the Company agreed with one of its creditors and significant shareholders to defer payment of amounts owed by converting \$175,000 of accounts payable into long-term debt represented by interest-free convertible promissory notes (i) maturing on June 30, 2015, (ii) extendible for one year by the Company in certain circumstances, (iii) acceleration of the maturity date on any change of control or other fundamental change in respect of the Company, and (iv) convertible in tranches of \$25,000 each into units at \$0.05 per unit with each unit being comprised of one common share of the Company and one whole warrant exercisable to purchase one common share of the Company for \$0.10 within 3 years from the date of the convertible promissory notes at the option of the holder.

#### 9. RELATED PARTY TRANSACTIONS AND KEY MANAGEMENT

Key management includes the Company's directors, officers and any employees with authority and responsibility for planning, directing and controlling the activities of an entity, directly or indirectly.

For the three month period ended March 31,	2014	2013
<b>Balances:</b>		
Short-term employee benefits	\$ 9,000	\$ 18,000
Total compensation paid to key management	\$ 9,000	\$ 18,000

## GoldTrain Resources Inc.

(An Exploration Stage Enterprise)

### NOTES TO THE UNAUDITED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTH PERIODS ENDED MARCH 31, 2014 AND 2013

(Canadian dollars)

#### 9. RELATED PARTY TRANSACTIONS AND KEY MANAGEMENT *(continued)*

Certain corporate entities and consultants that are related to the Company's officers and directors or persons holding more than 10% of the issued and outstanding shares of the Company provide consulting and other services to the Company. All transactions were conducted in the normal course of operations and are measured at the exchange amounts, which is the amount of consideration established and agreed to by the related parties and are as follows:

During the three month period ended March 31, 2014, the Company was charged \$40,000 (2013 - \$Nil) for legal fees by a law firm of which a director, officer and shareholder of the law firm is an indirect significant shareholder owning more than 10% of the Company.

Included in accounts payable at March 31, 2014 is \$29,000 (December 31, 2013 - \$91,000) owing to key management and related parties. In addition, included in accounts payable at March 31, 2014 is \$194,000 (December 31, 2013 - \$500,000) owing to former directors and officers or companies controlled by them and a law firm of which a director, officer and shareholder of the law firm is an indirect significant shareholder owning more than 10% of the Company.

In February 2014, the Company issued 9,161,452 common shares at \$0.02/common share to settle trade and other payables due to current and former related parties of \$183,229. In addition, the Company converted \$175,000 of trade and other payables owing to former directors and officers or companies controlled by them into convertible promissory notes. See notes 7 and 10 for further details.

#### 10. SHARE CAPITAL

Interest paid	\$ -	\$ -
Income tax paid	\$ -	\$ -

#### 14. COMMITMENTS AND CONTRACTUAL OBLIGATIONS

The Company's activities are subject to environmental regulation (including regular environmental impact assessments and permitting) in each of the jurisdictions in which its mineral properties are located. Such regulations cover a wide variety of matters including, without limitation, prevention of waste, pollution and protection of the environment, labour relations and worker safety. The Company may also be subject under such regulations to clean-up costs and liability for toxic or hazardous substances which may exist on or under any of its properties or which may be produced as a result of its operations. It is likely that environmental legislation and permitting will evolve in a manner which will require stricter standards and enforcement. This may include increased fines and penalties for non-compliance, more stringent environmental assessments of proposed projects and a higher degree of responsibility for companies, their directors and employees. The Company has not determined and is not aware whether any provision for such costs is required and is unable to determine the impact on its financial position, if any, of environmental laws and regulations that may be enacted in the future due to the uncertainty surrounding the form that these laws and regulations may take.

#### 15. SUBSEQUENT EVENTS

In the three month period ended March 31, 2014, the Company signed an agreement to acquire properties in Hawkins and Walls Townships, Ontario from Pavey Ark Minerals Inc., for \$50,000 payable by issuing 2,500,000 common shares of the Company at a deemed price of \$0.02 per share, subject to due diligence investigations, any necessary regulatory approvals and other standard conditions in transactions of this nature. On completion of the transaction, the vendor will retain a 2% net smelter returns royalty on the property, one half of which may be purchased by the Company for \$1,000,000 to reduce the royalty to 1% of the net smelter returns. Subsequent to March 31, 2014, this agreement was terminated by mutual consent prior to completion.
