STAR NAVIGATION - Patent Infringement Claim Against Aeromechanical Services Ltd. ("AMA")

**TSX Venture Exchange Symbol: SNA** 

TORONTO, Dec. 24 /CNW/ - Star Navigation Systems Group Ltd. (TSX-V: SNA) ("Star" or the "Company") wishes to announce that the recent changes in its patent infringement complaint against AMA are not substantive in nature, and in no way reduce the strength or substance of Star's claims against AMA. Star's U.S counsel have responded firmly to all issues raised in AMA's press release of December 24, 2007. The inventors of the asserted patent have authorized this litigation, which continues to seek a permanent injunction against the continuing willful infringement of our patent rights by AMA. Star will always vigourously assert its intellectual property rights to the fullest extent of the law. Star firmly expects to succeed in both the Courts and in the marketplace, and believes that its product and technology are superior.
