Star Navigation Announces Closing of Private Placement

TORONTO, Ontario, August 18, 2015, –Star Navigation Systems Group Ltd. (TSX-V: SNA) (OTCBB: SNAVF) ("Star" or the "Company") is pleased to announce that it has closed the final tranche of its previously announced non-brokered private placement, having issued a total of 5,240,000 units of the Company (the "Units") at a price per Unit of \$0.05 for gross proceeds of \$262,000. Each Unit consists of one common share in the capital of the Company and one warrant. One-half (1/2) of the number of warrants acquired entitle the holder to purchase one (1) additional common share of the Corporation at six (\$0.06) cents per warrant exercised and the remaining one-half (1/2) of the warrants entitle the holder to purchase one additional common share of the Corporation at twelve (\$0.12) cents per warrant exercised. The warrants are exercisable during the two (2) year period from the date of issue.

All securities issued in the Offering and any shares issued upon exercise of warrants are subject to a four month statutory hold period from the date of issuance. Due to the fact that the private placement was completed in two tranches, there are two hold period expiry dates and two warrant expiry dates associated with the shares and warrants issued. The first tranche four month hold period on 5,000,000 common shares expires November 25, 2015; the second tranche four month hold period on 240,000 common shares expires December 25, 2015. Any common shares issued as the result of conversion of warrants will also be subject to the same hold periods. In addition, 5,000,000 warrants will expire on July 25, 2017, while 240,000 warrants will expire on August 25, 2017.

The net proceeds of the placement will be used for research and development, marketing and corporate overhead. Star has agreed to pay finder's fees in the amount 128,000 Units. The price was reserved with the TSX-V.

About Star Navigation:

Star Navigation Systems Group Ltd. owns the exclusive worldwide license to its proprietary, patented In-flight Safety Monitoring System, STAR-ISMS®, the heart of the STAR-A.D.S.™ System. It is the first system in the world to feature in-flight data-analysis, monitoring and diagnostics with a real-time connection between aircraft and ground. Its real-time capability of

tracking performance trends and predicting incident-occurrence enhances aviation safety and improves fleet management while reducing costs for the operator.

Star's MMI Division designs and manufactures high performance, mission critical, flight deck flat panel displays for defence and commercial aviation industries worldwide.

Certain statements contained in this News Release constitute forward-looking statements. When used in this document, the words "may", "would", "could", "will" and similar expressions, as they relate to Star or its management are intended to identify forward-looking statements. Such statements reflect Star's current views with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause Star's actual performance or achievements to vary from those described herein. Should one or more of these factors or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected. Star does not assume any obligation to update these forward-looking statements, except as required by law.
