

Star Announces That It Has Successfully Been Recertified Under The AS9100 Rev "D" Quality Systems Renewal Audit

Brampton, Ontario--(Newsfile Corp. - December 16, 2022) - Star Navigation Systems Group Ltd. (CSE: SNA) (CSE: SNA.CN) ("Star" or the "Company") is pleased to announce that it has secured its AS9100 Rev "D" Quality Systems certification after a successful renewal Audit. The renewal of its AS9100 certification reaffirms its commitment to the rigorous standards of the aerospace industry and ensures that Star products are manufactured and installed at the highest quality levels.

Meeting the AS9100 Rev "D" standards does more than simply assure customers that the company's products are of the highest quality, it ensures its processes and controls are effective. Retaining this certification is evidence that continuous improvement and continually exceeding customer's expectations permeates Star's culture at every level.

Sponsored by major original equipment manufacturers (OEMs), AS9100 Rev D is a global quality management system standard based on ISO 9001:2015. Star Navigation performed a top-down gap analysis examining its existing quality system and identified processes to be updated. Star manufactures products for Aerospace, Military, Land and Sea vehicles.

Amir Bhatti, CEO of Star Navigation states: "AS9100 Rev "D" is a stringent certification and our team at Star is proud of this accomplishment. We were aggressive in performing gap assessments early and having a competent team to help guide our Quality Assurance process, resulted in a very successful audit with some very positive feedback from our outside auditors. Major aerospace manufacturers and suppliers worldwide require compliance as a condition of doing business, and this re-certification will help us continue to elevate the customer experience and ensure our design, development and production of aerospace products are of the highest quality."

About Star Navigation Systems www.star-navigation.com

Star Navigation Systems Group Ltd. manufactures the In-flight Safety Monitoring System, STAR-ISMS®, the heart of the STAR-A.D.S.® System. The STAR-A.D.S.® System has real-time capability of tracking, performance trends and predicting incident-occurrences which enhances aviation safety and improves fleet management while reducing costs for the operator. Star's MMI Division (Military and Defence) designs and manufactures high performance, mission critical, flight deck flat panel displays for defence and commercial aviation industries worldwide.

Forward-Looking Information

Certain statements in this news release may constitute "forward-looking statements." Forward-looking statements are statements that address or discuss activities, events or developments that Star expects or anticipates may occur in the future.

When used in this news release, words such as "estimates", "expects", "plans", "anticipates", "projects", "will", "believes", "intends" "should", "could", "may" and other similar terminology are intended to identify such forward-looking statements.

Forward-looking statements reflect the current expectations and beliefs of Star's management. Because forward-looking statements involve known and unknown risks, uncertainties and other factors, actual results, performance or achievements of Star or the industry may be materially different from those implied by such forward-looking statements.

Examples of such forward-looking information that may be contained in this news release include

statements regarding; growth and future prospects of our business; our perceptions of the industry and markets in which we operate and anticipated trends in such markets; expectations regarding the operation of our app; and our future revenues.

Material factors or assumptions that were applied in drawing a conclusion or making an estimate set out in the forward-looking statements may include, but are not limited to, our ability to execute on our business plan, increase visibility amongst consumers and convert users to revenue producing subscribers and the success of the business of our partners. Forward-looking statements involve significant uncertainties, should not be read as a guarantee of future performance or results, and will not necessarily be an accurate indication of whether or not such results will be achieved.

The risks posed by the COVID-19 pandemic to the airline industry are real and substantial but cannot be defined or measured in any meaningful way at this time.

Should one or more of these factors or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described herein as intended, planned, anticipated, believed, estimated or expected.

Accordingly, readers should exercise caution in relying upon forward-looking statements and Star undertakes no obligation to publicly revise them to reflect subsequent events or circumstances, except as required by law.

NEITHER CANADIAN SECURITIES EXCHANGE NOR ITS REGULATION SERVICES PROVIDER (AS THAT TERM IS DEFINED IN THE POLICIES OF THE CANADIAN SECURITIES EXCHANGE) ACCEPTS RESPONSIBILITY FOR THE ADEQUACY OR ACCURACY OF THIS RELEASE.
