FOR IMMEDIATE RELEASE

AFFINOR GROWERS SIGNS LOI WITH CANADIAN MARIJUANA PRODUCER LICENSE APPLICANT

Vancouver (Canada), February 14, 2018 – Affinor Growers Ltd. (“Affinor Growers”) (CSE:AFI, OTC:RSSFF, Frankfurt:1AF) is pleased to announce it has signed a letter of intent with a later stage Licensed Producer Applicant in British Columbia. The letter of intent represents a potential Joint Venture agreement to purchase equity in the private applicant once the Health Canada license is achieved, to grow, process, import and export Marijuana. The plan between both parties is to service Canada with the highest quality, best priced organic marijuana, using the patented Affinor Growers Vertical Farming Tower Technology. Affinor Growers will provide updates on the license status as the Health Canada licensing procedure continues.

Nick Brusatore CEO, commented that “I am looking forward to executing, in my opinion the most comprehensive competitive business plan the Canadian Marijuana Markets have seen, I am confident we will be a fierce competitor in the growing industry and am very excited about the production of Marijuana for Affinor Growers.

Affinor is also in the process of setting up a single vertical growing tower in Abbotsford for the purpose of completing a second phase test and improving efficiencies in growing Marijuana using the vertical growing tower technology developed by Affinor. The original test was completed in 2017 and was a success based on the increases in production using the vertical tower technology. Both of these tests are being done under medical marijuana licenses currently in good standing.

About Affinor Growers
