### **Overview**

#### **Summary of Results**

In April 2010, a new majority shareholder took over control of the Company. The four former directors resigned effective April 5, 2010 and a new Chief Executive Officer was appointed. The new board of directors and management team intended to continue to review investment opportunities both inside and outside of the film industry.

On July 15, 2010, the Company granted an option to a third party with whom it negotiated at arm's length to purchase either its wholly owned subsidiary, LiveReel Productions Corporation ("LRPC"), or to sell LRPC's assets and assume its liabilities for \$1.00. The third party had the right to exercise the option until July 15, 2012. The Company also had an option in which it could force the third party to buy the subsidiary or its assets and assume its liabilities for a similar 24 month period. The option and put option described above expired unexercised.

On October 4, 2010, 100,000 options issued to the Chief Financial Officer were cancelled.

On November 20, 2010, 5,900,000 warrants were exercised at \$0.01 USD per warrant resulting in proceeds of \$60.062 CDN. In addition, 293,600 previously issued warrants expired on November 30, 2010.

On July 21, 2011, the Company entered into two unsecured loan agreements (1) with its former largest shareholder, Mad Hatter Investments Inc., in the amount of \$33,333 and (2) with a related entity, 1057111 Ontario Limited (which is owned by the same person who owns Mad Hatter), in the amount of \$16,667. The terms were both the same - loans had a term of approximately 12 months ending July 31, 2012, accrued interest at 10% per annum until maturity, and each were convertible at the option of the holder into common shares of the Company at \$0.10 per share. These loans and all accrued interest were repaid in connection with the change of control of the Company and additional debt financing of the Company on March 22, 2013.

On November 23, 2011, the Company entered into a secured loan agreement with Enthrive Inc., a related party by virtue of having certain common controlling shareholders at the time, in the principal amount of \$50,000. The loan had a term of 18 months ending May 23, 2013 or upon the sale or change of control of the Company, accrued interest at 10% per annum until maturity, and was convertible at the option of the holder into common shares of the Company at \$0.10 per share. The loan was secured against the assets of the Company. This loan and all accrued interest was repaid in connection with the change of control of the Company and additional debt financing of the Company on March 22, 2013.

On September 17, 2012, the Company entered into an unsecured loan agreement with Billidan Family Trust, a related party to the Company's former largest shareholder, in the aggregate principal amount of \$25,000. The loan had a term of 12 months ending September 17, 2013, accrued interest at 12% per annum until maturity, and could be prepaid at any time upon payment of a penalty of \$2,000. This note and all accrued interest was repaid in connection with the change of control of the Company and additional debt financing of the Company on March 22, 2013.

On December 19, 2012, the Company entered into an unsecured loan agreement with Difference Capital Financial Inc. ("Difference Capital"), an arms-length party at the time, in the aggregate principal amount of \$50,000. The loan had a term of 12 months, accrued interest at 12% per annum until maturity, and could be prepaid at any time without notice or penalty.

On March 22, 2013, the Company entered into an additional unsecured loan agreement in the principal amount of \$150,000 (the "Loan") with Difference Capital. The loan had a term of 12 months, accrued interest at 12% per annum, payable on maturity or termination, as the case may be, and may be repaid in advance without penalty. The Company used the proceeds of the Loan to pay out all of its existing indebtedness and the balance for working capital purposes.

## **Business Environment**

### **Risk Factors**

The following is a brief discussion of those distinctive or special characteristics of our operations and industry that may have a material impact on, or constitute risk factors in respect of, the Company's future financial performance.

#### **THE COMPANY HAS AN UNSUCCESSFUL OPERATING HISTORY**

Since March 1997, when it was incorporated in Ontario, Canada by amalgamating with two other Ontario entities, the Company has no significant revenues or earnings from operations since its incorporation. While one of the film properties acquired by the Company in fiscal 2005 and the film that was financed in fiscal 2007 have now been developed into feature films for which the Company holds certain distribution rights, it is not clear whether this will generate any revenue for the Company. The Company has operated at a loss to date and in all likelihood will continue to sustain operating losses in the foreseeable future. There is no assurance that the Company will ever be profitable.

#### **INVESTMENT STRATEGY**

The controlling shareholder of the Company changed in March 2013 and a new Board of Directors were appointed. The Company has focused its efforts on identifying for purchase other active business interests, both within and outside of the film industry. The Company has not yet identified or selected any additional specific investment opportunity or business. Accordingly, there is no current basis for the reader to evaluate the possible merits or risks of the investment opportunity which we may ultimately decide to pursue.

#### **UNCERTAINTY REGARDING AUDIENCE ACCEPTANCE OF PROGRAMS**

The television and motion picture industries have always involved a substantial degree of risk. There can be no assurance of the economic success of any motion picture or television program as revenue derived depends on audience acceptance, which cannot be accurately predicted. Audience acceptance is a factor not only of the response to the television program's or motion picture's artistic components but also to the reviews of critics, promotions, the quality and acceptance of other competing programs released into, or channels existing in, the marketplace at or near the same time, the availability of alternative forms of entertainment and leisure time activities, general economic conditions, public tastes generally and other intangible factors, all of which could change rapidly and many of which are beyond the Company's control. A lack of audience acceptance for any of the films licensed, co-produced or distributed by the Company could have an adverse effect on its businesses, results of operations, prospects and financial condition.

#### **UNAUTHORIZED OR PIRATED USE MAY ADVERSELY AFFECT REVENUE**

Technological advances and the conversion of motion pictures into digital formats have made it easier to create, transmit and "share" high quality unauthorized copies of motion pictures in theatrical release, on videotapes and DVDs, from pay-per-view through unauthorized set-top boxes and other devices and through unlicensed broadcasts on free TV. As a result, users may be able to download and distribute unauthorized or "pirated" copies of copyrighted motion pictures over the Internet. As long as pirated content is available to download digitally, some consumers may choose to digitally download pirated motion pictures rather than pay for legitimate motion pictures or to purchase pirated DVD's of motion pictures or of boxed sets of television series from unauthorized vendors.

## CHANGES IN REGULATIONS AND INCENTIVES MAY ADVERSELY AFFECT THE BUSINESS OF THE COMPANY

The Company plans to co-produce with or license its scripts and other intellectual properties to other entities which are expected to rely heavily on grants and labor rebates available for Canadian contents under the current regulations of federal and provincial governments of Canada.

Any significant changes in these regulations that result in reduced grants and rebates or elimination thereof may significantly affect the Company's ability to produce and or license its scripts and in turn its ability to generate revenue.

## THE COMPANY MAY NOT BE ABLE TO ACHIEVE AND MAINTAIN ITS COMPETITIVE POSITION

The entertainment industry is highly capital intensive and is characterized by intense and substantial competition. A number of the Company's competitors are well established, substantially larger and have substantially greater market recognition, greater resources and broader distribution capabilities than the Company. New competitors are continually emerging. Increased competition by existing and future competitors could materially and adversely affect the Company's ability to implement its business plan profitably. The lack of availability of unique quality content could adversely affect its business.

## THE COMPANY'S COMMON SHARES ARE CONSIDERED TO BE PENNY STOCK, WHICH MAY ADVERSELY AFFECT THE LIQUIDITY OF ITS COMMON SHARES

The capital stock of the Company would be classified as "penny stock" as defined in Reg. § 240.3a51-1 promulgated under the Securities Exchange Act of 1934 (the "1934 Act"). In response to perceived abuse in the penny stock market generally, the 1934 Act was amended in 1990 to add new requirements in connection with penny stocks. In connection with effecting any transaction in a penny stock, a broker or dealer must give the customer a written risk disclosure document that (a) describes the nature and level of risk in the market for penny stocks in both public offerings and secondary trading, (b) describes the broker's or dealer's duties to the customer and the rights and remedies available to such customer with respect to violations of such duties, (c) describes the dealer market, including "bid" and "ask" prices for penny stock and the significance of the spread between the bid and ask prices, (d) contains a toll-free telephone number for inquiries on disciplinary histories of brokers and dealers, and (e) define significant terms used in the disclosure document or the conduct of trading in penny stocks. In addition, the broker-dealer must provide to a penny stock customer a written monthly account statement that discloses the identity and number of shares of each penny stock held in the customer's account, and the estimated market value of such shares. The extensive disclosure and other broker-dealer compliance related to penny stocks may result in reducing the level of trading activity in the secondary market for such stocks, thus limiting the ability of the holder to sell such stock.

## MARKET PRICE FOR THE COMPANY'S COMMON SHARES HAS BEEN VOLATILE IN THE PAST AND MAY DECLINE IN THE FUTURE

In recent years, the securities markets in Canada and the United States have experienced a high level of price and volume volatility, and the market prices of securities of many companies, particularly small-cap companies like ours, have experienced wide fluctuations which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. Our shares may continue to experience significant market price and volume fluctuations in the future in response to factors, which are beyond our control.

## THE COMPANY MAY NOT BE ABLE TO RAISE ADDITIONAL FINANCING TO MEET CURRENT OPERATING NEEDS AND IMPLEMENT ITS NEW BUSINESS STRATEGY

The Company continues to review different investment opportunities both inside and outside of the film industry. If the Company is unable to achieve revenue or obtain financing and cannot pay its debts as they become due, it may be forced to solicit a buyer or be forced into bankruptcy by its creditors.

## DIVIDENDS

All of the Company's available funds will be invested to finance the growth of the Company's business and therefore investors cannot expect and should not anticipate receiving a dividend on the Company's common shares in the foreseeable future.

## DILUTION

The Company may in the future grant to some or all of its own and its subsidiaries' directors, officers, insiders and key consultants options to purchase the Company's Common Shares as non-cash incentives to those people. Such options may be granted at exercise prices equal to market prices at a time when the public market is depressed or at exercise prices which may be substantially lower than the market prices. To the extent that significant numbers of such options may be granted and exercised, the interests of the then existing shareholders of the Company may be subject to additional dilution.

The Company is currently without a source of revenue and therefore is not able to adequately cover its operating costs. The Company will most likely be required to issue additional securities to finance its operations and may also issue substantial additional securities to finance the development of any or all of its projects. These actions will cause further dilution of the interests of the existing shareholders.

## SHARES ELIGIBLE FOR FUTURE SALE MAY DEPRESS OUR STOCK PRICE

At June 30, 2014, the Company had 23,521,744 shares of common stock outstanding of which approximately 18,767,200 are restricted securities under Rule 144 promulgated under the Securities Act.

Sales of shares of common stock pursuant to an effective registration statement or under Rule 144 or another exemption under the US Securities Act could have a material adverse effect on the price of our common stock and could impair our ability to raise additional capital through the sale of equity securities.

## YOUR RIGHTS AND RESPONSIBILITIES AS A SHAREHOLDER WILL BE GOVERNED BY CANADIAN LAW AND DIFFER IN SOME RESPECTS FROM THE RIGHTS AND RESPONSIBILITIES UNDER U.S. LAW

The Company is incorporated under Canadian law. The rights and responsibilities of holders of our shares are governed by our Articles and By-Laws and by Canadian law. These rights and responsibilities may differ in some respects from the rights and responsibilities of shareholders in typical U.S. corporations.

## CHANGING REGULATIONS OF CORPORATE GOVERNANCE AND PUBLIC DISCLOSURE CAN CAUSE ADDITIONAL EXPENSES AND FAILURE TO COMPLY MAY ADVERSELY AFFECT OUR REPUTATION AND THE VALUE OF OUR SECURITIES

Changing laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002, new SEC regulations and new and changing provisions of Canadian securities laws, are creating uncertainty because of the lack of specificity and varying interpretations of the rules. As a result, the application of the rules may evolve over time as new guidance is provided by regulatory and governing bodies, which could result in continuing uncertainty regarding compliance matters and higher costs necessitated by ongoing revisions to disclosure and governance practices. The Company is committed to maintaining high standards of corporate governance and public disclosure. As a result, our efforts to comply with evolving laws, regulations and standards have resulted in, and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities. Any failure to comply with applicable laws may materially adversely affect its reputation and the value of its securities.

### **Business Plan and Strategy**

The Company’s business plan continued to evolve. During most of fiscal 2007 and 2008, management focused on the financing and distribution of feature films.

However, in fiscal 2007, management also received board of director approval to utilize excess cash in our business to pursue additional investment opportunities outside the film industry in order to potentially increase our return to shareholders. Management is not limited to any particular industry or type of business with respect to what it considers as investment opportunities.

During fiscal 2009, the Company did deploy a portion of its excess cash by investing in exchange traded securities. It did have some success in the third quarter of fiscal 2009, but then incurred significant losses in the fourth quarter of fiscal 2009. As a result, the Company did not continue this practice in the fiscal 2010.

In April 2010, the controlling shareholder of the business changed and a new board of directors and management team were appointed. The new management team continued to pursue investment opportunities both inside and outside of the film industry.

On July 15, 2010, the Company granted an option to a third party with whom it negotiated at arm's length to purchase either its wholly owned subsidiary, LRPC, or to sell LRPC's assets and assume its liabilities for \$1.00. The third party had the right to exercise the option until July 15, 2012. The Company also had an option in which it could force the third party to buy the subsidiary or its assets and assume its liabilities for a similar 24 month period. The option and put option described above expired unexercised.

On July 21, 2011, the Company entered into two unsecured loan agreements (1) with its former largest shareholder, Mad Hatter Investments Inc., in the amount of \$33,333 and (2) with a related entity, 1057111 Ontario Limited (which is owned by the same person who owns Mad Hatter), in the amount of \$16,667. The terms were both the same - loans had a term of approximately 12 months ending July 31, 2012, accrued interest at 10% per annum until maturity, and each were convertible at the option of the holder into common shares of the Company at \$0.10 per share. These notes and all accrued interest were repaid in connection with the change of control of the Company and additional debt financing of the Company on March 22, 2013.

On November 23, 2011, the Company entered into a secured loan agreement with Enthrive Inc., a related party by virtue of having certain common controlling shareholders at the time, in the principal amount of \$50,000. The loan had a term of 18 months ending May 23, 2013 or upon the sale or change of control of the Company, accrued interest at 10% per annum until maturity, and was convertible at the option of the holder into common shares of the Company at \$0.10 per share. The loan was secured against the assets of the Company. This note and all accrued interest was repaid in connection with the change of control of the Company and additional debt financing of the Company on March 22, 2013.

On September 17, 2012, the Company entered into an unsecured loan agreement with Billidan Family Trust, a related party to the Company's former largest shareholder, in the aggregate principal amount of \$25,000. The loan had a term of 12 months ending September 17, 2013, accrued interest at 12% per annum until maturity, and may be prepaid at any time upon payment of a penalty of \$2,000. This note and all accrued interest was repaid in connection with the change of control of the Company and additional debt financing of the Company on March 22, 2013.

On December 19, 2012, the Company entered into an unsecured loan agreement with Difference Capital, an arms-length party at the time, in the aggregate principal amount of \$50,000. The loan had a term of 12 months maturing December 19, 2013, accrued interest at 12% per annum until maturity, and could be prepaid at any time without notice or penalty.

On March 22, 2013, the Company entered into an additional unsecured loan agreement in the principal amount of \$150,000 (the "Loan") with Difference Capital. The Loan had a term of 12 months, accrued interest at 12% per annum, payable on maturity or termination, as the case may be, and would be repaid in advance without penalty. The Company used the proceeds of the Loan to pay out all of its existing indebtedness and the balance for working capital purposes.

Following the change in control of the Company, the Company announced the appointment of Michael Wekerle and Henry Kneis who joined the board of directors following the resignation of

Janice Barone and Diana van Vliet. Mr. Jason Meretsky resigned as Chief Executive Officer and was replaced by Michael Wekerle. Steve Wilson, the Corporation's Chief Financial Officer resigned and was replaced by Henry Kneis.

On March 22, 2013, Difference Capital entered into five separate stock purchase agreements with arms-length third parties whereby it acquired 20,648,150 common shares in the capital of the Company, representing approximately 87.8% of the issued and outstanding voting securities of the Company on a fully-diluted basis.

On June 10, 2013, the Company announced the appointment of Jeff Kehoe as a director of the Company following the resignation of Jason Meretsky.

On March 18, 2014, Jeff Kehoe resigned as a director and was replaced by Paul Sparkes. The Board currently consists of three directors, Henry Kneis, Paul Sparkes and Michael Wekerle.

On May 28 2014, the Company extended the term of its loans with Difference Capital to provide that such loans now mature on a demand basis.

Currently, the Company is focused on preserving its cash by minimizing operating expenses, and looking to investment opportunities both within and outside of the film industry.
