SOLID RESOURCES

MANAGEMENT'S DISCUSSION & ANALYSIS

DECEMBER 31, 2012

Introduction and Background

The Management's Discussion & Analysis is a discussion and assessment of the results to date and future prospects of Solid Resources Ltd. and its subsidiaries ("Solid" or the "Company"). The information provided herein should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2012 and related notes attached thereto, which have been prepared in accordance with International Financial Reporting Standards ("IFRS"). Except as otherwise disclosed, all dollar figures in this report are stated in Canadian dollars. The effective date of this report is April 29, 2013

Statements in this report that are not historical facts are forward-looking statements involving known and unknown risks and uncertainties, which could cause actual results to vary considerably from these statements. Readers are cautioned not to put undue reliance on forward-looking statements. See "Forward-Looking Information and Statements" herein.

Additional information related to the Company is available for view on SEDAR at www.sedar.com.

Solid is a Canadian company focused on mineral resource exploration in various countries including Spain, Mexico and Peru. Properties under exploration contain precious, rare, and base metals, including Silver, Gold, Copper, Lead, Zinc, Lithium, Tantalum, Cesium, Rubidium and Zinc. The Company's shares trade on the TSX Venture Exchange in Canada and on the Frankfurt Stock Exchange.

Overall Performance

Solid Resources Ltd. is incorporated under the laws of the Province of Alberta, Canada. Its shares are listed for trading on the TSX Venture Exchange and on the Frankfurt Stock Exchange. The Company is involved in the exploration and development of mineral resource properties and does not currently have a recurring revenue stream. In addition, the Company's goals are to prospect for mineral resource properties that exhibit the potential for development into profit producing mines, obtain the rights to such properties, conduct sampling, drilling, and assaying programs to establish mineral resources and reserves, and generate revenue for the benefit of its shareholders.

At December 31, 2012, there were 108,342,715 common shares issued and outstanding. There have been issuances of new securities during the past year in order to finance working capital and exploration work programs on the Company's properties. The global outlook is generally positive for mineral resource companies with good properties because of the high level of continuing demand for metals. With properties in various countries and consisting of various metals, there is a possibility that Solid will generate revenue from operations in the future. Management believes in diversification in terms of both mineral deposit types and geographical location.

Exploration and Evaluation Assets

Management has worked diligently to identify mineral resource properties that indicated potential for commercial ore bodies. Exploration programs and technical studies aimed at determining the existence, grade, and economic feasibility of mineral deposits are being carried out. Mining activities are generally required to comply with varying levels of regulatory and environmental requirements that vary by jurisdiction. Sufficient capital must be raised to carry out the programs. The accompanying discussions below address the status of each project and management's current beliefs with respect to each project.

The Doade-Presqueira Property, Spain

The Company has 100% interest in this concession which is located in Northwestern Spain and is 4,902 hectares (12,108 acres) in size. This property is under exploration for Lithium, Tantalum, Tin, Rubidium, and Cesium. During 2011, 31 holes (3500 metres) were drilled, sampled, and assayed were been completed and the results were filed on SEDAR and portions of it are posted on the Company's website.

Mineralization within the pegmatites consists of significant quantities of Lithium, Tantalum, Tin, Niobium, Rubidium, and Cesium. The surrounding schist also contains significant quantities of Lithium, Rubidium, and Cesium. The mineralized pegmatites are located in a northerly trending belt approximately 0.6 km wide and 15 km in length.

The reports its results on the property on regular basis or as assays results come available on the Company's website and are press released and filed on SEDAR.

The Company has received a technical report (NI 43-101) for the Alberta-1 (Doade-Presqeiras) property, prepared by Jose M Canto Romera Ph.D., P. Geol dated Dec. 8, 2011 which was filed on SEDAR at www.sedar.com on Dec. 15, 2011.

Peru Gold & Copper Property

The Company entered into a binding option agreement with an arm's length third party (the "Optionor") pursuant to which it acquired the option to purchase a metallic mining license, covering an area of 1,000 hectares, located in Northwest Peru. Under the terms of the option agreement, The Company has the right to purchase the license by paying the Optionor a total of US$500,000. The first cash payment of US$4,000 has already been paid to the Optionor.

The Cehegín Iron Ore Concession

On October 22, 2012, the Company entered into a binding option agreement with Lorente Y Pallares SL (the "Optionor") pursuant to which it acquired the option to purchase 100% of the sixty-two (62) iron ore concessions and metallic mining licenses, covering an area of 1,030 hectares, located in south eastern Spain.

Under the terms of the option agreement, Solid has the right to purchase the licenses during the one year term, by paying the Optionor a total of € 900,000 and an additional € 2,100,000, upon one of the 62 concessions going into production. The exercise of the option will be subject to acceptance by the TSX Venture Exchange.

The magnetite concessions are located in the province of Murcia, region of Cehegín, in the triangle formed by the towns of Calasparra, Cehegín and Mula in south eastern Spain. The geological formation where the magnetite mineralization is located in the various fields is a Triassic Keuper facies associated with ophitic sub volcanic rock. The concessions were formally owned by the Spanish ironworks company, Altos Hornos de Vizcaya, which was the largest industrial company in Spain for much of the twentieth century. In 1975, all 62 concessions were grouped together in one single subsidiary of Altos Hornos de Vizcaya called Agrupacion Minera, SA., who exploited one of the open pit mines – Mina Maria, for its own needs until 1985.

The 62 separate concessions, which were mined for iron ore during the 20th century, offer excellent infrastructure, including hydro, water and a railway, approximately 12 km away, connecting at the rail station in the municipality of Calasparra, to the deep sea port of Cartagena, 100 km away.

Production can commence on the existing permitted concessions upon the Company updating the viability and environmental studies to the satisfaction of the local mining and environmental authorities.

During the week of October 15, 2012, members of Solid's Spanish management and geological team had the opportunity to meet important officials of the Autonomous Community of the Region of Murcia: Mr. Pedro Jiménez, the Director General of the Department of Industry, Energy and Mines, Mr. Amador Lopez García, the Director General of the Environmental Office and Mr. José Soria García, the Mayor of the City of Cehegín, all of whom expressed their full support and collaboration for the project.

The Company will continue its policy of continuous contact with local and regional authorities of all levels to ensure an alliance of mutual benefit. Politically, there is a strong commitment for the economic development of this region.

The Cehegín iron ore concession has a good infrastructure and access by rail to a deep sea port. The concession is located in the south eastern area of the mineral rich Iberian Peninsula, this region has a long history of iron ore production that was once the dominant supplier to all of Europe. The Company was able to obtain all of the detailed historical mining and exploration data, compiled by the previous operational owner, Altos Hornos de Vizcaya. This valuable data will result in significant savings in exploration costs and advance the timeline to production.

The Company intends to release additional technical information on the property's potential in the very near future.

Select Annual Financial Information

	December 31, 2012	December 31, 2011	December 31, 2010(1

Summary of Quarterly Results

The following financial data is selected information for the Company for the eight most recently completed financial quarters:

	Dec 31, 2012	Sep 30, 2012	Jun 30, 2012	Mar 31, 2012	Dec 31, 2011	Sep 30, 2011	Jun 30, 2011	Mar 31, 2011
Total revenue	$ Nil	$ Nil	$ Nil	$ Nil	$ Nil	$ Nil	$ Nil	$ Nil
Loss for the period	(270,928)	(153,820)	(220,883)	(189,364)	(323,695)	(287,300)	(318,916)	(303,334)
Loss per share (basic & diluted)	(0.00)	(0.01)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)	(0.00)

Fluctuations in the Company's expenditures reflect the variations in the timing of exploration activities and general corporate operations, and the timing of share-based payments. For the quarters of the year ended December 31, 2011, the net loss fluctuate due to one-time expenses such as loss on disposal of Bear property described earlier in the financial statements.

Results of Operations

This review of the results of operations should be read in conjunction with the consolidated financial statements for the year ended December 31, 2012:

Financial results

The Company had no operating revenue for the year ended December 31, 2012 and 2011. For the year ended December 31, 2012, the Company incurred a net loss of $834,995 ($0.01 loss per share) compared to a net loss of $1,233,245 ($0.01 loss per share) for the year ended December 31, 2011. The loss is comprised of general and administrative expenses of $830,689 (2011 - $1,220,352).

During the year ended December 31, 2012, management fees of $222,000 (2011 - $192,859), consulting fees of $87,655 (2011 - $133,306), transfer agent and filing fees of $37,130 (2011 - $36,778), and office and general costs of $55,917 (2011 - $60,030) remained consistent with the prior year. Investor relations of $27,289 (2011 - $388,058), professional fees of $40,211 (2011 - $44,705), and travel expenses of $37,120 (2011 - $90,857) were lower due decreased corporate activity during the period as compared to the same period in 2011

Share-based payments of $171,411 (2011 - $150,856) increased as the number of stock options granted during the current period was greater than those granted or vested during the same period in 2011.

Foreign exchange loss was $4,306 for the year ended December 31, 2012 from a foreign exchange loss of $10,333 for the year ended December 31, 2011. The exchange rate loss is due to timing differences (difference in the amount recorded as compared to the amount paid) in the foreign exchange rate between the Canadian dollar and the Euro).

Fourth Quarter

Overall, the Company recorded a net loss of $270,928 ($nil per common share) for the three months ended December 31, 2012 as compared to a net loss of $323,695 ($nil per common share) for the three months ended December 31, 2011.

Operating expenses for the fourth quarter were $272,662 in 2012 compared to the $314,467 for the same period in 2011. The overall results for fourth quarter remained consistent with prior year.

Exploration and Evaluation Assets

For the year ended December 31, 2012, the Doade-Presqueira project's total expenditures were $707,214 (2011 - $1,275,175), comprised of geological fees and expenses were $136,733 (2011 - $342,910), mining rights and taxes were $63,010 (2011 - $57,168), and drilling, sampling and assay were $507,471 (2011 - $875,097).

For the year ended December 31, 2012, the Peru Gold and Copper project's expenditures comprised of geological fees and expenses were $35,894 (2011 - $41,880).

Liquidity and Capital Resources

As of December 31, 2012, the working capital deficiency was $47,991 as compared to working capital of $132,984 as at December 31, 2011.

The Company's cash position decreased to $22,851 as of December 31, 2012 as compared to a cash balance of $264,735 as at December 31, 2011 as the company used $770,685 (2011 - $967,338) to fund operations.

Net cash used in investing activities for the year ended December 31, 2012 was $696,915 (2011 - $1,317,055) which primarily relates to expenditure on exploration and evaluation assets.

Net cash from financing activities for the year ended December 31, 2012 was $1,225,716 (2011 - $1,584,750) was primarily the result of issuance of shares on private placement of $1,237,920 (2011 - $1,439,900), net of share subscription advances of

$155,000 received in 2011 and share issuance costs of $62,371 (2011 - $10,150) and cash of $50,167 (2011 - $nil) from the exercise of warrants.

As the Company is in an exploration phase and is not generating revenue as yet, it is expected that the working capital balance will follow a cycle of reduction and replenishment. Management currently follows a policy of raising only sufficient capital to carry out its near term plans. This policy is meant to minimize dilution of shareholders' positions by raising capital when the stock price is at higher levels.

Historically, the Company has been successful in raising working capital through private placements and loan money to fund its operations and exploration programs and will need to raise more working capital through private placements to continue this. With regard to the exploration of its Canadian property, the Company has been able to raise financing through the issue of common shares and sees this as a continuing source of financing.

Transactions with Related Parties

The Company entered into the following transactions with related parties:

Key management personnel compensation

	Year Ended	
	December 31, 2012	December 31, 2011
Short-term employee benefits - management	$ 222,000	$ 192,859
Short-term employee benefits - directors	48,000	52,000
Share-based payments - officers	93,427	36,202
Share-based payments - directors	48,304	-
Total	$ 411,730	$ 281,061

These transactions were in the normal course of operations and were measured at the exchange amount which is the amount of consideration established and agreed to by the related parties.

Included in accounts payable as at December 31, 2012 is $3,438 in amounts due to two officers and directors. ($nil at December 31 2011.)

Changes in Accounting Policies Including Initial Adoption

Future Accounting Pronouncements

A number of new standards, amendments to standards and interpretations, described in the notes to the consolidated financial statements, are not yet effective as of the date of this report, and were not applied in preparing the financial statements. The Company is currently assessing the impact that these standards will have on the consolidated financial statements.

Financial Risk Management

International Financial Reporting Standards 7, *Financial Instruments: Disclosures*, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

As at December 31, 2012, the carrying values of cash, receivables and accounts payable and accrued liabilities approximate their fair values due to their short terms to maturity.

Financial risks

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

Credit risk

The Company's credit risk is primarily attributable to cash and receivables. The Company has no significant concentration of credit risk arising from operations. Cash consists of chequing account at reputable financial institution, from which management believes the risk of loss to be remote. Federal deposit insurance covers balances up to $100,000 in Canada. Financial instruments included in receivables consist of amounts due from government agencies. The Company limits its exposure to credit loss for cash by placing its cash with high quality financial institution and for receivables by standard credit checks. At December 31, 2012, the Company's exposure to credit risk is minimal.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash.

As at December 31, 2012, the Company had a cash balance of $22,851 (2011 - $264,735) to settle current liabilities of $91,116 (2011 - $159,395).

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements and loans from related and other parties. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

a) Interest and foreign exchange risk

The Company is subject to normal risks including fluctuations in foreign exchange rates and interest rates. While the Company manages its operations in order to minimize exposure to these risks, it has not entered into any derivatives or contracts to hedge or otherwise mitigate this exposure. At December 31, 2012, the Company was not exposed to significant interest rate risk.

The Company has significant operating expenditures which are denominated in Euro ("EUR"). The Company's exposure to exchange rate fluctuations arises mainly on foreign currencies against the Canadian dollar functional currency of the relevant business entities. The Company is principally engaged in the acquisition, exploration and development of mineral properties in Spain and Peru.

Financial assets

The Canadian dollar equivalent of the amounts denominated in foreign currencies as at December 31, 2012 and December 31, 2011 are as follows:

December 31, 2012		**EUR**
Cash	$	18,442

December 31, 2011		**EUR**
Cash	$	180,446

Financial liabilities

The exposure of the Company's financial liabilities to currency risk are as follows:

December 31, 2012		**EUR**
Accounts payable and accrued liabilities	$	46,193

December 31, 2011		**EUR**
Accounts payable and accrued liabilities	$	-

Sensitivity analysis

The Company is exposed to foreign currency risk on fluctuations related to cash, and accounts payable and accrued liabilities that are denominated in Euro. As at December 31, 2012, net financial liabilities totalling $27,551 were held in Euro.

Based on the above net exposure as at December 31, 2012 and assuming all other variables remain constant, a 2% depreciation or appreciation of the Euro against the Canadian dollar would result in an increase or decrease of approximately $555 in the Company's loss and comprehensive loss.

b) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

Capital Commitments

The Company had no commitments for property and equipment expenditures for fiscal 2013. The Company expects that any property and equipment expenditures incurred, based on future needs, will be funded from working capital and/or from operating or capital leases.

Off-Balance Sheet Arrangements

The Company has not entered into any off-balance sheet arrangements.

Critical Accounting Estimates

The preparation of the Company's financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

Areas requiring a significant degree of estimation and judgment relate to the recoverability of the carrying value of exploration and evaluation assets, fair value measurements for financial instruments and share-based payments and other equity-based payments, and the recoverability and measurement of deferred tax assets and liabilities. Actual results may differ from those estimates and judgments.

Proposed Transactions

As at the date of this MD&A, there are no proposed transactions that the board of directors or senior management who believe that confirmation of the decision by the board is probable, have decided to proceed with and that have not been publicly disclosed.

Outstanding Share Data

Authorized share capital

Unlimited number of common shares without par value.

Common shares

At December 31, 2012, there were 108,342,715 issued and fully paid common shares.

At April 29, 2013 (date of report), there were 116,346,879 issued and fully paid common shares as the Company issued 8,004,164 shares as a result of the two private placements issued, subsequent to the year-end, described below.

Private placement

i) On January 6, 2012, the Company closed a non-brokered private placement of 3,129,200 units at a price of $0.10 per unit for gross proceeds of $312,920. Each unit consists of one common share and one common share purchase warrant. Each warrant is exercisable into one additional common share for a period of 24 months after the closing at a price of $0.15 per common share, subject to earlier termination in the event that the closing price exceeds $0.25 for 20 consecutive trading days. In connection with the offering, the Company paid finders' fees of $9,520.

ii) On May 10, 2012, the Company closed a non-brokered private placement of 11,000,000 units at a price of $0.10 per unit for gross proceeds of $1,100,000. Each unit consists of one common share and one common share purchase warrant. Each warrant will entitle the holder thereof to purchase one common share at a price of $0.15 at any time prior to the date that is twenty four months from the date of the issuance of the units, subject to earlier termination in the event that the closing price exceeds $0.25 for 20 consecutive trading days. The securities issued in connection with the offering are subject to a four month hold period expiring on September 11, 2012.

In connection with this offering, the Company paid finders' fees of $52,850 and 525,000 finder's warrants, with each finder's warrant entitling the holder to purchase one common share at an exercise price of $0.15 per common share for a period of 24 months after the closing and are subject to the early termination clause as outlined in the previous paragraph.

Subsequent to the year-end,

iii) On January 24, 2013, the Company closed the non-brokered private placement of 4,166,666 units at a price of $0.06 per unit for aggregate gross proceeds of $250,000. Each unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one (1) common share in the share capital of the Corporation at a price of $0.15 at any time prior twenty four (24) months from the date of the issuance of the units, subject to earlier termination in the event that the closing price (or closing bid price on days when there are no trades) of the common shares on the TSX Venture Exchange exceeds $0.25 for 20 consecutive trading days, then upon the Company sending subscribers written notice of such date and issuing a news release announcing such date, the Warrant will only be exercisable for a period of 30 days following the date on which such written notice is sent to the subscribers. The securities issued in connection with the Offering will be subject to a four month hold period that expires on May 22, 2013

iv) On March 22, 2013, the Company closed the first tranche of its previously announced non-brokered private placement consisting of up to 6,250,000 units ("Units") at a price of $0.08 per unit for gross proceeds of up to $500,000. Each unit is comprised of one common share of the Company and one share purchase warrant.

The Company issued 3,837,500 units for total gross proceeds of $307,000 pursuant to the first tranche. The securities issued pursuant to the first tranche are subject to a four month hold period from the date of closing and the warrants are exercisable to acquire an additional common share at a price of $0.15 until March 22, 2015. The warrants are subject to an accelerated expiry stating that if at any time, after the standard 4 month hold period, the closing price of the Company's common shares on the TSX Venture Exchange exceeds $0.25 for any 20 consecutive trading days, the warrant holder will be given notice that the warrants will expire 30 days following the date of such notice. The Company will pay finder's fees of $13,930 cash.

The Company intends to use the proceeds from the Offering to fund exploration of the Company's Albert-1 Tin, Tantalum and Lithium project in north-western Spain and the Cehegin iron ore concessions in south-eastern Spain, plus general working capital.

Stock options

As at December 31, 2012, there were 10,200,000 stock options of the Company outstanding and exercisable at weighted average price of $0.14, of which 10,012,500 are exercisable at weighted average price of $0.15.

As at April 29, 2013 (date of report), there were 13,000,000 stock options of the Company outstanding at weighted average price of $0.13, of which 12,500,000 are exercisable at weighted average price of $0.13.

Warrants

As at December 31, 2012, there were 44,262,533 warrants outstanding and exercisable at weighted average exercise price of $0.13.

As at April 29, 2013 (date of report), there were 52,266,697 warrants outstanding at weighted average exercise price of $0.13

Finders' warrants

As at December 31, 2012 and April 29, 2013 (date of report), there were 626,500 finders' warrants outstanding and exercisable at weighted average exercise price of $0.15.

Forward-Looking Information and Statements

This MD&A contains certain forward-looking statements and forward-looking information (collectively referred to herein as "forward-looking statements") within the meaning of applicable Canadian securities laws. All statements other than statements of present or historical fact are forward-looking statements. Forward-looking information is often, but not always, identified by the use of words such as "could", "should", "can", "anticipate", "expect", "believe", "will", "may", "projected", "sustain", "continues", "strategy", "potential", "projects", "grow", "take advantage", "estimate", "well positioned" or similar words suggesting future outcomes. In particular, this MD&A contains forward-looking statements relating to: the future opportunities for the Company; the business strategy of the Company; and the competitive advantage of the Company.

In addition, forward looking statements regarding the Company are based on certain key expectations and assumptions of the Company concerning anticipated financial performance, business prospects, strategies, the sufficiency of budgeted capital expenditures in carrying out planned activities, the availability and cost of services, the ability to obtain financing on acceptable terms, the actual results of exploration projects being equivalent to or better than estimated results in technical reports or prior exploration results, and future costs and expenses being based on historical costs and expenses, adjusted for inflation, all of which are subject to change based on market conditions and potential timing delays. Although management of the Company consider these assumptions to be reasonable based on information currently available to them, these assumptions may prove to be incorrect.

By their very nature, forward looking statements involve inherent risks and uncertainties (both general and specific) and risks that forward looking statements will not be achieved. Undue reliance should not be placed on forward looking statements, as a number of important factors could cause the actual results to differ materially from the Company's beliefs, plans, objectives and expectations, including, among other things: general economic and market factors, including business competition, changes in government regulations or in tax laws; the early stage development of the Company and its projects; general political and social uncertainties; commodity prices; the actual results of current exploration and development or operational activities; changes in project parameters as plans continue to be refined; accidents and other risks inherent in the mining industry; lack of insurance; delay or failure to receive board or regulatory approvals; changes in legislation, including environmental legislation, affecting the Company; timing and availability of external financing on acceptable terms; conclusions of economic evaluations; and lack of qualified, skilled labour or loss of key individuals. These factors should not be considered exhaustive. Many of these risk factors are beyond the Company's control and each contributes to the possibility that the forward-looking statements will not occur or that actual results, performance or achievements may differ materially from those expressed or implied by such statements. The impact of any one risk, uncertainty or factor on a particular forward-looking statement is not determinable with certainty as these risks, uncertainties and factors are interdependent and management's future course of action depends upon the Company's assessment of all information available at that time.

The forward-looking statements contained herein are expressly qualified in their entirety by this cautionary statement. The forward-looking statements included in this MD&A are made as of the date of this MD&A and the Company does not undertake and is not obligated to publicly update such forward-looking statements to reflect new information, subsequent events or otherwise unless so required by applicable securities laws.

Additional Information

The Company's publicly filed documents are available on SEDAR at www.sedar.com and more information is also available on Company's website at www.solidresources.com.
