

**Form 51-102F3  
Material Change Report**

**Item 1 Name and Address of Company**

**MINEWORX TECHNOLOGIES LTD.** (The "Company")

Unit 113/114 – 8331 Eastlake Drive  
Burnaby, B.C. V5A 4W2

**Item 2 Date of Material Change**

November 13, 2018

**Item 3 News Release**

A News Release over Globe Newswire on Nov 13, 2018

**Item 4 Summary of Material Change**

The Company announced the U.S. Patent issuance for its mobile modular gold mining/extraction process.

**Item 5 Full Description of Material Change**

**5.1 Full Description of Material Change**

**Vancouver, B.C., Canada – November 13, 2018 – Mineworx Technologies Ltd.**, (the "Company" or "Mineworx") (TSXV: MWX) (OTCQB: MWXRF) (FSE: YRS WKN: A2DSW3), a leading provider of proprietary, cost-effective and non-toxic precious metals extraction solutions to the mining industry as well as to the E-Waste industry, through its collaboration with EnviroLeach Technologies, is pleased to announce that further to its news release dated September 25, 2018 that the United States Patent and Trademark Office (USPTO) has issued U.S. Patent Number 10/124,345 covering the Mineworx HM X-tract mobile modular mining/extraction process.

The HM X-tract proprietary mining technology, combined with a unique operational system results in an environmentally responsible, non-toxic process for precious metal reclamation which requires no tailings ponds and consumes 80% less water. The system is capable of high efficiency recoveries from both alluvial and crushed hard rock deposits as well as being able to process old tailings for remaining value. The new technology allows us to deploy rapidly, process efficiently and decommission quickly in an environmentally sound manner with little capital expenditure and significantly reduced permitting process.

The HM X-tract will target:

- Deposits previously not minable due to environmental concerns.
- Smaller deposits where large capital expenditures are not justified.
- Deposits in areas where permitting and lack of water prohibit mining.
- Cleanup of any other metallic solids soil contamination.

**5.2 Disclosure for Restructuring Transactions**

Not applicable.

**Item 6 Reliance on subsection 7.1(2) of National Instrument 51-102**

Not applicable.

**Item 7 Omitted Information**

Not applicable.

**Item 8 Executive Officer**

Mr. Greg Pendura, President and Chief Executive Officer
