

NameSilo 2nd Fastest Growing Domain Registrar in the World

VANCOUVER, April 8, 2019 /CNW/ - **NameSilo Technologies Corp.** (CSE: URL) (PINKSHEETS: URLOF) (the "**Company**") is pleased to report that according to industry source Registrar Owl (<http://www.registrarowl.com>) its subsidiary, NameSilo LLC ("NameSilo"), was the second fastest growing domain registrar on earth, behind only Chinese registrar XinNet in the month of December 2018.

NameSilo added 205,544 net new domains in November 2018, less than 350 domains behind XinNet's 205,877 net new domains and up from 183,570 in November 2018. This number represents a 247% increase from the 59,238 net new domains added in December 2017.

NameSilo LLC CEO Kristaps Ronka states: "We are very proud of the fact that we continue to grow at industry leading rates. We are thankful for the support of our existing customers and the new customers that hear about us through recommendations and referrals from our current clients and partners. The fact that NameSilo has reached over 2.7 million domains under management and is growing faster than almost every other domain registrar in the world, some of which are public companies with at least a billion-dollar market capitalization and very large marketing budgets, is a testament to the team and the service we are providing our customers. This rapid growth by NameSilo has been accomplished with a near zero marketing spend. We look forward to greater achievements in the months and quarters to come."
