

BIOSENTA INC. Announces First Shipments of Zeromold

Toronto, Ontario (October 15, 2012) – BIOSENTA INC. (CNSX: ZRO) (the "Company") is pleased to announce that it has produced and delivered the first order for Zeromold, the Company's proprietary retail anti-microbial product. Zeromold is being distributed across Canada by the Company's exclusive Canadian distributor, F.T.R. Products Group Inc. (ftrproductsgroup.com), and will be available for purchase at hardware, home improvement and other retail stores.

"We are very excited to have production started and to be sending out our first shipments and now being able to move forward aggressively with our distributor", said Bruce Lewis, the President & Chief Executive Officer of Biosenta. "We are looking forward to our role out across the country and further developing our unique line of business."

About BIOSENTA Inc.

BIOSENTA Inc.'s line of retail anti-microbial products will effectively kill mould, bacteria and fungi on contact and prevent re-growth. These products address the demand created by the mounting health and environmental concerns. Mould can affect the immune system, nervous system, liver, kidneys, blood and cause brain damage.

BIOSENTA will also manufacture and distribute an anti-microbial filler. Calcium Carbonate is one of the most common fillers used industrially. It is susceptible like other fillers that hold moisture to attracting mould. Annual global revenue in the calcium carbonate filler industry approximates 140 billion dollars. BIOSENTA will produce anti-microbial filler that performs 'filling' and 'bulking' functions like calcium carbonate. BIOSENTA's filler product will not attract moisture and consequently mould infestation. BIOSENTA's filler with its anti-microbial high ph core in individual particles will enhance commercial product life and eradicate a broad spectrum of known bacteria, fungi, algae and other micro-organisms by suppression of their reproduction.

Forward-Looking Information

This release may contain forward-looking statements information and statements which constitute "forward-looking information" under Canadian securities law and which may be material regarding, among other things, the Company's beliefs, plans, objectives, estimates, intentions and expectations with respect to its capital and funding plans. Inherent in the forward-looking information and statements are known and unknown risks, uncertainties and other factors beyond the Company's ability to control or predict, which give rise to the possibility that the Company's predictions, forecasts, expectations or conclusions will not prove to be accurate, that its assumptions may not be correct and that the Company's plans, objectives and statements will not be achieved. Actual results or developments may differ materially from those contemplated by the forward-looking information and statements. Consequently, undue reliance should not be placed on such forward-looking statements.

On behalf of the Board of Directors of BIOSENTA Inc.

Bruce Lewis
Chairman
