

## **Triangle Multi-Services Corp. hold Canadian rights for SYNTHETIC CARBIDE LIME**

Toronto, Ont Feb 9, 2011

Triangle Multi-Services Corp. CNSX trading symbol TMS a Company holding the entire Canadian rights to SYNTHETIC CARBIDE LIME US patent 10/841,903, at the request of Market Surveillance, on behalf of CNSX, wishes to issue a statement that the upward swing in the company's share price is not the result of any undisclosed development at the company.

### About Triangle Multi-Services

Triangle Multi-Services holds the exclusive rights for Canada to the SYNTHETIC CARBIDE LIME US patent 10/ 841,903 which is the worlds only true anti microbial killer of bacteria and mould with a proven history of performance for over 100 years.

The products are used to replace current fillers used in the manufacture of new filled automotive and building materials making them anti microbial while killing mould on contact. The company also markets a line of mould remedial products along with the Canadian company Rx Remedy for it's current mould remediation work.
