(Unaudited)

1. ACCOUNTING POLICIES

These unaudited interim financial statements and the notes thereto should be read in conjunction with the most recent annual financial statements of the Company as they have been prepared using the same accounting policies.

2. ACCOUNTING CHANGES

The Accounting Standards Board has confirmed that the adoption of International Financial Reporting Standards (IFRS) will be effective for interim and annual periods beginning on or after January 1, 2011, for Canadian publicly accountable profit-oriented enterprises. The Company adopted these new standards effective in the second quarter of Fiscal 2011 which had no material effect on the company's business operations or cash flow.

3. LICENSE

On November 26, 2010, the Company entered into an exclusive license agreement with Rx100 Inc. to manufacture, import, market and sell in Canada filler products for stopping mould at source.

Pursuant to the terms of the License Agreement, and as compensation for Rx100 Inc. entering into the License Agreement, the Company issued to Rx100 Inc. 10,000,000 Class A shares in the capital of the company and granted an ongoing royalty equal to 3% of all the company's revenues generated from the sale of Rx products. The term of the License Agreement continues until the expiration of the last of the Rx100 Inc. patents.

On June 2, 2011 RXT 110 Inc. served notice of revocation of the license granted pursuant to the Rx100 Inc. License Agreement. The Company has secured a release of any liability from Rx100 Inc. and related entities in connection with the Company's activities and the Company does not foresee that it will be subject to the 3% royalty on the sale of products. The Company has not yet determined if it will pursue damages against the licensor.

On June 10, 2011, the Company entered into an exclusive world-wide license agreement with Marcus Martin, a Director of the Company and also the inventor, with respect to certain intellectual property rights held by Mr. Martin relating to a process for the manufacture of anti-microbial filler product (the "MM License Agreement"). The MM License Agreement provides for an interim license period during which time the Company has the opportunity to prove out the process and obtain all legal and regulatory approvals. Pursuant to the terms of the MM License Agreement, the Company agreed to make payments aggregating to \$150,000 over the course of the four month period for the interim license. The Company has the option to convert the interim license to a license and upon the exercise of such option the Company is required to issue 20,000,000 Class A Shares to the licensor and pay a royalty equal to 7% of the gross margin actually received by the Company on the sale and manufacture of products by the Company utilizing the license.
