FOR IMMEDIATE RELEASE

April 7, 2016

ParcelPal Technology Announces Successful Beta Launch in Vancouver

Vancouver, British Columbia – April 7, 2016 – ParcelPal Technology Inc. ("ParcelPal" or the "Company"), (PKG:CSE) is pleased to announce the successful beta launch of ParcelPal crowd-sourced courier service and has entered into revenue generation in the Vancouver, British Columbia region.

ParcelPal is an innovative technology that is disrupting the local courier business. During the six week beta launch, registered couriers travelled over five thousand km's delivering over 200 packages. Current business users have found the technology and service to exceed expectations and overall the results have been very good from all forms of users. ParcelPal currently has received over 1200 courier applicants to date, potentially making ParcelPal the largest local courier service in British Columbia.

ParcelPal has shifted its efforts to developing their API to integrate into any online retail giants' checkout system, enabling automatic and instant courier notifications for same day delivery. Regional courier services in Canada account for \$1.8 Billion in annual revenue and has seen steady growth derived from the growing demand of purchasing through e-Commerce.

ParcelPal intends to execute and implement in each major Canadian city by the end of this year. The rapid expansion and implementation throughout Canada will make the Company one of the largest regional courier services in each city and one of the only crowd-sourced courier service in North America.

President and CEO Jason Moreau states, "Nothing is more satisfying than seeing our Vancouver beta launch roll out flawlessly. I feel confident our National rollout will position ParcelPal as a household name in Canada by year-end and bring the Company to profitability."

ParcelPal plans to expand delivery service to the US, UK and Australia in 2017.

About ParcelPal Technology Inc.
