Forward-Looking Statements

This document contains forward-looking statements. The Company's representatives may also make forward-looking statements orally from time to time.

Statements in this document that are not historical facts, including statements about the Company's beliefs and expectations, recent business and economic trends constitute forward-looking statements. Forward-looking statements include, without limitation, statements regarding the outlook for future operations, forecasts of future revenue and expenditures, market conditions, specifically the Canadian and German stock markets or other business plans. Forward-looking statements include statements regarding the intent, belief or current expectations of the Company, primarily with respect to the results of operations, financial position or cash flows of the Company.

The statements are based on current plans, estimates, and projections and are subject to change. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, and the Company undertakes no obligation to update publicly any changes in light of new information or future events.

Shareholders and potential investors are cautioned that any such forward-looking statements are not guarantees and involve risks and uncertainties, and that actual results may differ from those in the forward-looking statements as a result of various factors such as general economic and business conditions particularly in North America and Europe, including changes in interest rates, actions by government authorities in Canada, Germany or the European Union, including changes in government regulation, political conditions in Europe and future decisions by the Company's directors or officers in response to changing conditions, the ability to execute prospective business plans and misjudgments in the course of preparing forward-looking statements.

Material factors and assumptions underlying the Company's expectations regarding forward-looking statements include, among others: the ability of the Company to obtain financing on acceptable terms, that the Company will be able to maintain appropriate levels of liquidity in order to make investments when attractive opportunities arise, stability in the global economic environment particularly in Canada and Germany and broadly in regard to North America and the European Union, and Canadian and German interest rates and that interest rates and foreign exchange rates, particularly in regard to the Canadian dollar and Euro ("€"), will not vary materially from current levels.

Shareholders and potential investors are advised that these cautionary remarks expressly qualify in their entirety all forward-looking statements attributable to the Company or persons acting on its behalf contained in this MD&A.

The Company will review its forward-looking statement when it files its second quarter financial results for the six months ending June 30th, 2019.

This forward-looking statement dated May 30th, 2019, references CSA Staff Notice 51-330 Guidance regarding the Application of Forward-Looking Information Requirements under National Instrument 51-102 Continuous Disclosure Obligations dated November 20th, 2009.

Accounting Policy

Financial information for 2019 and 2018 presented and discussed in this MD&A is prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”)¹.

The Company

Chinook is a German managed investment company that invests in the cannabis industry in Europe. Chinook holds investments in AMP Alternative Medical Products GmbH and Mercury Partners & Company plc.

Chinook is listed on the TSX Venture Exchange (“TSXV”) in Canada under the trading symbol “XCX” and on the Frankfurt Stock Exchange in Germany under the trading symbols, “C4T” and “WKN: A12DYZ” and is a reporting issuer in the Canadian provinces of British Columbia, Alberta, Ontario, and Québec.

AMP Alternative Medical Products GmbH (“AMP Germany”)

AMP Germany, a German biopharmaceutical company based in Erfurt, Germany, which will provide medical cannabis formulations and dose delivery systems for German patients. AMP Germany purchases EU-GMP medical cannabis from third-party suppliers located in Canada and other countries and arranges transportation, logistics and storage services for ultimate distribution through pharmaceutical distributors to pharmacists in Germany. All of AMP Germany’s suppliers are audited by German auditors to ensure they meet the stringent EU-GMP standards. Meeting the EU-GMP standard is the biggest obstacle for licensed producers of cannabis (“LP”) trying to export to Germany. As the majority of LPs in Canada are not EU-GMP, AMP Germany assists LPs in their audit and arranges EU-GMP certification in Germany to allow importation.

During 2019, AMP entered into a memorandum of understanding production supply agreement with Pure Life Cannabis Corporation, a late stage Health Canada applicant to become a licensed producer of cannabis flower based in Edmonton, Alberta. The MOU covers the purchase of 1,200 kilograms of cannabis annually in the first year of production and increasing thereafter.

Mercury Partners & Company plc (“MPC”)

Non-medical cannabis investments are held through MPC, a public liability investment holding company based and operated in Valetta, Malta, whose investments include cash held in €, its 50% ownership and investment loan receivable² in the MPC-JV and shareholdings in publicly listed and private companies.

The MPC-JV owns a majority shareholding in a merchant banking company, whose assets predominately include cash and a non-performing €10-million loan to a real estate development company in Dusseldorf, Germany.

The status of the equity markets in Canada and Germany, in particular, the TSXV and the Frankfurt Stock Exchange, may affect the financial performance of the Company. In addition, as the Company’s cash and assets are held in €s and to a lesser extent in \$s high annual inflation in Germany, the European Union and Canada may affect the financial performance and condition of the Company. A majority of the Company’s assets have an economic interest in Germany, therefore the fluctuation between the \$ and the € may affect financial performance. The economic health of the economies of Germany and the European Union may also affect the financial performance of the Company. Generally, the status of the real estate property markets in Germany and particularly Dusseldorf may affect the financial position of the Company. The status of digital currencies, which have a limited history and the fair value historically has been very volatile may affect the financial performance of the Company.
