MANAGEMENT'S DISCUSSION AND ANALYSIS

For the six and three months ended June 30, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS OF THE COMPANY'S FINANCIAL CONDITION AND RESULTS OF OPERATIONS FOR THE SIX AND THREE MONTHS ENDED JUNE 30, 2021

Date and Subject of this Discussion and Analysis

The following is management's discussion and analysis ("MD&A") of AMP Alternative Medical Products Inc. (previously "AMP German Cannabis Group Inc.") (the "Company" or "AMP") financial condition and results of operations for the six and three months ended June 30th 2021, and should be read in conjunction with the unaudited condensed consolidated financial statements and related notes for the same reporting period and the Company's audited financial statements for the year ended December 31, 2020. The MD&A will also outline the economic operating conditions and how these influence AMP's business activities.

The financial information contained herein has been prepared in accordance with International Financial Reporting Standards ("IFRS"). All dollar figures included are quoted in Euros ("€"), which is the functional currency of the Company or Canadian dollars ("\$"), unless stated otherwise.

Cautionary Statement Regarding Forward-Looking Information

This MD&A and the documents incorporated by reference herein contain forward-looking information (collectively "**forward-looking statements**") within the meaning of the applicable Canadian securities laws concerning our planned activities for the current financial year. The Company's representatives may also make forward-looking statements orally from time to time.

Statements in this document that are not historical facts, including statements about the Company's beliefs and expectations, recent business and economic trends, constitute forward-looking statements. Forward-looking statements include, without limitation, statements regarding the outlook for future operations, forecasts of future revenue and expenditures, market conditions, specifically the Canadian and German stock markets or other business plans. Forward-looking statements include statements regarding the intent, belief or current expectations of the Company, primarily with respect to the results of operations, financial position or cash flows of the Company.

The statements are based on current plans, estimates, and projections and are subject to change. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, and the Company undertakes no obligation to update publicly any changes in light of new information or future events.

Shareholders and potential investors are cautioned that any such forward-looking statements are not guarantees and involve risks and uncertainties, and that actual results may differ from those in the forward-looking statements as a result of various factors such as general economic and business conditions particularly in North America and Europe, including changes in interest rates, actions by government authorities in Canada, Germany or the European Union, including changes in government regulation, political conditions in Europe and future decisions by the Company's directors or officers in response to changing conditions, the ability to execute prospective business plans and misjudgments in the course of preparing forward-looking statements.

Material factors and assumptions underlying the Company's expectations regarding forward-looking statements include, among others: the ability of the Company to obtain financing on acceptable terms, that the Company will be able to maintain appropriate levels of liquidity in order to make investments when attractive opportunities arise, stability in the global economic environment particularly in Canada and Germany and broadly in regard to North America and the European Union, and Canadian and German interest rates and that interest rates and foreign exchange rates, particularly in regard to the Canadian dollar and Euro, will not vary materially from current levels.

The status of the equity markets in Canada and Germany, in particular, the Canadian Securities Exchange and the Frankfurt Stock Exchange, may affect the financial performance of the Company. In addition, as the Company's cash and assets are held in €s and to a lesser extent in \$, high annual inflation in Germany, the European Union and Canada may affect the financial performance and condition of the Company. A majority of the Company's assets have an economic interest in Germany. Therefore, the fluctuation between the \$ and the € may affect financial performance. The economic health of the economies of Germany and the European Union may also affect the financial performance of the Company.

Shareholders and potential investors are advised that these cautionary remarks expressly qualify in their entirety all forward-looking statements attributable to the Company or persons acting on its behalf contained in this MD&A. This forward-looking

statement dated August 25, 2021, references CSA Staff Notice 51-330 Guidance regarding the Application of Forward-Looking Information Requirements under National Instrument 51-102 Continuous Disclosure Obligations dated November 20, 2009.

Description of AMP

AMP is a pharmaceutical narcotic supplier of medical cannabis to German pharmacies with offices in Erfurt and Berlin, Germany.

AMP’s common shares trade on the Frankfurt Stock Exchange under the trading symbol is “C4TA” and on the Canadian Securities Exchange (“CSE”) under the trading symbol, “XCX” and is a securities reporting issuer in the Canadian provinces of British Columbia, Alberta, Ontario, and Quebec.

Operations

AMP operates in accordance with the German Narcotic Drug Act (BtMG) and with the Free State of Thuringia, ensuring medical cannabis products imported by AMP from around the world and sold in Germany meet the European Union - Good Manufacturing Practice (EU-GMP) standard.

EU-GMP certification is an internationally recognized system, which ensures that pharmaceutical goods, including medical cannabis, meet the highest consumer health and safety standards. All medical cannabis imported into or produced in Germany is regulated by EU-GMP, and the cultivation facility must be inspected and certified by a German state.

The Thuringia State Office for Consumer Protection (Thueringer Landesamt fuer Verbraucherschutz) (“TLV”) has granted an import license to AMP for cannabis products for medical purposes according to Section 72 of the German Medicine Law (Arzneimittelgesetz - AMG). TLV deals with economic consumer protection and policy for the Free State of Thuringia in Germany.

AMP’s supply chain has been EU-GMP certified, ensuring the pharmaceutical goods’ quality and integrity is maintained during transportation, warehousing, handling, testing and distribution from the supplier to distributor in Germany.

AMP engaged Diapharm GmbH & Co. KG, a leading German pharmaceutical consulting company, to audit our suppliers to ensure they meet the EU-GMP pharmaceutical quality and consistency standards required to export to Germany.

AMP has entered into supply agreements with Aphria Inc. from Canada, Bedrocan International from the Netherlands and Little Green Pharma from Australia for cannabis flower and extracts.

During 2021, AMP hired a national sales director and expanded its sales team to six sales representatives covering Germany and entered into a co-promotion agreement with CC Pharma GmbH, the German distribution subsidiary of Aphria Inc., for the marketing of sales of Aphria branded medical products for the German market.

Comprehensive loss for the period	€ (1,123,403)	€ (860,100)	€ (618,668)	€ (513,226)

Revenue and cost of goods sold

During the six months ended June 30, 2021, the Company recognized €237,472 in sales from the import and sale of medical cannabis into Germany.

Cost of goods sold primarily include the direct costs of purchasing products and transporting them into Germany and then to the customers location.

General and administrative expenses

The significant items included in general and administrative expenses for the six and three months ended June 30, 2021, and 2020 were:

**AMP Alternative Medical Products Inc. (formerly “AMP German Cannabis Group Inc”)
Management’s Discussion and Analysis
For the six and three months ended June 30, 2021 (cont’d...)**

		Six months June 30, 2021	Six months June 30, 2020	Three months June 30, 2021	Three months June 30, 2020
Consulting and executive management fees	€	569,796	€ 480,273	€ 232,371	€ 274,243
Office and supplies		192,445	59,879	125,067	27,020
Professional fees		11,955	73,741	6,257	36,040
Rent and insurance		42,969	59,078	24,265	47,025
Salaries and benefits		240,940	108,749	160,483	43,007
	€	1,058,105	€ 781,720	€ 548,443	€ 427,335

Consulting and executive management fees include the cost of the Company’s executive and management teams and pharmaceutical consultants’ fees for EU-GMP audits. The increase during the six months ended June 30, 2021, as compared to the comparative period in 2020, is a result of increased activity as the Company commenced sales.

Office and supplies include the cost of maintaining multiple office locations includes general office operating costs, information technology, communication, and other related expenses.

The majority of professional fees relate to expenses for lawyers, accountants, auditors and tax advisors and laboratory costs for product quality testing.

The increase in salaries and benefits during period was due the addition of employees and staff which was required due to the increased activity as the Company commenced sales.

Interest

The majority of the interest expense relates to the Company’s unsecured revolving credit drawdown facility for €1.5 million, bearing interest rate of 10% per annum and maturing on December 31, 2023, from a European private equity investment company. As of June 30, 2021, €1,391,276 (December 31, 2020 - €1,064,844) was drawn-down against the credit facility.

Quarterly Results

The table below shows the results for the Company for each of the most recent eight quarters in thousands of Euros:

	(in thousands, except per share amounts)							
	Q2, 2021		Q1, 2021		Q4, 2020		Q3, 2020

Loss and comprehensive loss		619		505		515		846
Basic and diluted loss per share		0.02		0.02		0.02		0.03
	Q2, 2020		Q1, 2020		Q4, 2019		Q3, 2019	
Revenue	€	-	€	-	€	-	€	-
Loss and comprehensive loss		393		434		1,114		707
Basic and diluted loss per share		0.02		0.01		0.05		0.03

Financial Condition, Liquidity and Capital Resources

As at June 30, 2021, the Company had working capital of €303,675 compared to a working capital of €41,584 as at December 31, 2020. The improvement of the working capital position was primarily a result of the completion, in February 2021, of a non-brokered placement of 3,386,600 common shares at a price of CDN\$0.50 per share for proceeds of CDN\$1,693,300 (€1,102,255). The Company paid cash finder’s fees of CDN\$80,465 (€52,400) and issued 160,930 finders warrants with a fair value of CDN\$63,500 (€41,352). The finders’ warrants are exercisable at CDN\$0.50 each and expire on August 10, 2021.

At June 30, 2021, the Company had total assets of €577,109, which predominantly included €259,630 in cash and \$141,842 in accounts receivable and prepaid expenses. Accounts receivable and prepaid expenses increased due to pre-cautionary cash management in preparation for potential disruptions related to the Covid-19 pandemic.

Total liabilities increased to €1.6 million as at June 31, 2021, compared to €1.3 million on December 31, 2020, due to an increase in drawdowns on the Company’s unsecured revolving loan facility.

Going Concern Considerations

During the year ended December 31, 2020, there was a global outbreak of coronavirus (COVID-19). The actual and threatened spread of the virus globally has had a material adverse effect on the global economy and, specifically, the regional economies in which the Company operates. The pandemic could continue to have a negative impact on the Company’s operations, the stock market, including trading prices of the Company’s shares and its ability to raise new capital. These factors, among others, could have a significant impact on the Company’s planned future operations.

Related Party Transactions

During the six months ended June 30, 2021, the Company paid or accrued directors and management fees €260,785 (2020 - €171,180) to directors and executive officers of the Company.

During the six months ended June 30, 2021, 200,000 common shares in the February 20, 2021, private placement were issued to officers and directors of the Company, or companies controlled by officers and directors of the Company, for proceeds of CDN\$100,000 (€65,121).

Included in accounts payable at June 30, 2021, is €nil (December 31, 2020 - €16,017) owing to directors and officers of the Company for management fees and expenses incurred on behalf of the Company.

Critical Accounting Estimates and Policies

Set out below are the Company’s critical accounting policies and estimates:

Change in functional and presentation currencies

Effective October 1, 2020, the Company changed from a Canadian dollar presentation currency to a Euro presentation currency. The functional currency of the Company and AMP Canada also changed from Canadian dollars to the Euro effective October 1, 2020. The functional currency of AMP Germany has not changed and remains the Euro.

A change in presentation currency is accounted for as a change in accounting policy and is applied retrospectively, as if the new presentation currency had always been the presentation currency. Consequently, the comparatives for the year ended December 31, 2020, and as at, December 31, 2019, and 2018 have been restated to be presented in Euro using average exchange rates for income and expenses and the closing rate at the statement of financial position date for assets and liabilities. Capital stock and accumulated deficit have been translated using historic rates. Resulting exchange differences have been recognized within equity.

Revenue recognition

Revenue from the sale of products is recognized when the quantity of product sold and the sales price are fixed, title has passed to the buyer and collection is reasonably assured.

Income taxes

Income tax expense comprises current and deferred tax. Current and deferred tax is recognized in profit and loss except to the extent that it relates to items recognized directly in equity or in reserves as part of shareholders’ equity.

Current tax is the expected tax payable or receivable on the taxable income or loss for the period using tax rates enacted or substantively enacted at the reporting date and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable income will be available against which the asset can be realized.

Deferred income tax assets and deferred income tax liabilities are offset only if a legally enforceable right exists to offset current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Share capital

Common shares are classified as equity. Transaction costs directly attributable to the issue of common shares and share options are recognized as a deduction from equity net of any tax effects.

Critical Risk Factors

Limited Operating History

The Company has just commenced sales of products and as such has no history of earnings. The Company is therefore subject to many of the risks common to early-stage enterprises, including under-capitalization, cash shortages, limitations with respect to personnel, financial, and other resources. There is no assurance that the Company will be successful in achieving a return on shareholders’ investment and, the likelihood of success must be considered in light of the early stage of operations.

Negative Cash Flow for the Foreseeable Future

The Company has commenced sales of products during late 2020 and as such, has no history of earnings or cashflow from operations. To the extent that the Company has negative cash flow in future periods, the Company may need to allocate a portion of its cash reserves to fund such negative cash flow.

Reliance on Management

The success of the Company is dependent upon the ability, expertise, judgment, discretion and good faith of its senior management and consultants. While employment agreements are customarily used as a primary method of retaining the services of key employees, these agreements cannot assure the continued services of such employees. Any loss of the services of such individuals could have a material adverse effect on the Company’s business, operating results, or financial condition.

Additional financing needs

The Company will require equity and/or debt financing to support ongoing operations, to undertake capital expenditures or to undertake acquisitions or other business combination transactions. There can be no assurance that additional financing will be available to the Company when needed or on terms which are acceptable. The Company’s inability to raise financing to fund capital expenditures or acquisitions could limit its growth and may have a material adverse effect upon future profitability. If

**AMP Alternative Medical Products Inc. (formerly “AMP German Cannabis Group Inc”)
Management’s Discussion and Analysis
For the six and three months ended June 30, 2021 (cont’d...)**

additional funds are raised through further issuances of equity or convertible debt securities, existing shareholders could suffer significant dilution, and any new equity securities issued could have rights, preferences, and privileges superior to those of holders of the Company shares. Any debt financing secured in the future could involve restrictive covenants relating to capital raising activities and other financial and operational matters, which may make it more difficult for the Company to obtain additional capital and to pursue business opportunities, including potential acquisitions.

Difficulty to Forecast

The Company must rely largely on its own market research to forecast demand for its products as detailed forecasts are not generally obtainable from other sources at this early stage. A failure in the demand for its products could have a material adverse effect on the business, results of operations and financial condition of the Company.

Compliance with Laws

The Company’s operations are subject to various laws, regulations, and guidelines. The Company endeavors to comply with all relevant laws, regulations, and guidelines. However, there is a risk that the Company’s interpretation of laws, regulations, and guidelines, including, but not limited to the Cannabis Regulations, the regulations thereunder and applicable stock exchange rules and regulations, may differ from each other, and the Company’s operations may not be in compliance with such laws, regulations and guidelines. In addition, achievement of the Company’s business objectives is contingent, in part, upon compliance with regulatory requirements enacted by governmental authorities and, where necessary, obtaining regulatory approvals.

The impact of regulatory compliance regimes, any delays in obtaining, or failure to obtain regulatory approvals required by the Company may significantly delay or impact the development of the Company’s business and operations and could have a material adverse effect on the business, results of operations and financial condition of Company. Any potential noncompliance could cause the business, financial condition, and results of operations of the Company to be adversely affected.

The Company incurs ongoing costs and obligations related to regulatory compliance. Failure to comply with applicable laws and regulations may result in enforcement actions thereunder, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed. Amendments to current laws and regulations, or more stringent application of existing laws or regulations, may have a material adverse impact on the Company resulting in increased cost to purchase products. The introduction of new tax laws, regulations or rules, or changes to, or differing interpretations of, or application of, existing tax laws, regulations or rules in any of the countries in which the Company operates could result in an increase in the Company’s taxes, or other governmental charges, duties or impositions. No assurance can be given that new tax laws, regulations or rules will not be enacted or that existing tax laws, regulations or rules will not be changed, interpreted, or applied in a manner which could result in the Company’s profits being subject to additional taxation or which could otherwise have a material adverse effect on the Company.

Regulation of the Cannabis Industry

The cannabis-related business and activities of the Group are heavily regulated in all jurisdictions where it carries on business. The Company’s operations are subject to various laws, regulations and guidelines by governmental authorities, particularly The Federal Opium Agency of Germany’s Federal Institute for Drugs and Medical Devices (the “BfArM”), relating to the marketing, management, transportation, storage, sale, pricing and disposal of medical cannabis and cannabis oil, and also including laws and regulations relating to health and safety, insurance coverage, the conduct of operations and the protection of the environment. Laws and regulations, applied generally, grant government agencies and self-regulatory bodies broad administrative discretion over the activities of the Company, including the power to limit or restrict business activities as well as impose additional disclosure requirements on the Company’s products and services. Achievements of the Company’s business objectives are contingent, in part, upon compliance with regulatory requirements enacted by these governmental authorities and obtaining all regulatory approvals, where necessary, for the production and sale of its products. The Company cannot predict the time required to secure all appropriate regulatory approvals for its products or the extent of documentation that may be required by governmental authorities. Any delays in obtaining or failure to obtain regulatory approvals would significantly delay the development of markets and products and could have a material adverse effect on the business, results of operations and financial condition of the Company.

Failure to comply with the laws and regulations applicable to its operations may lead to possible sanctions, including the revocation or imposition of additional conditions on licenses to operate the Company’s business, the suspension or expulsion

**AMP Alternative Medical Products Inc. (formerly “AMP German Cannabis Group Inc”)
Management’s Discussion and Analysis
For the six and three months ended June 30, 2021 (cont’d...)**

from a particular market or jurisdiction or of its key personnel, and the imposition of fines and censures. To the extent that there are changes to the existing laws and regulations or the enactment of future laws and regulations that affect the sale or offering of the Company’s products or services in any way, this could have a material adverse effect on the business, results of operations and financial condition of the Company.

Changes in Laws, Regulations and Other Guidelines

The Company’s operations are subject to a variety of laws, regulations, and guidelines relating to the marketing, acquisition, management, distribution (including import), transportation, storage, sale, and disposal of medical cannabis products. While the Company is currently in compliance with all such laws, regulations and guidelines, any rulings to the contrary or any changes to such laws and regulations that are beyond the control of the Company could have a material adverse effect on the business, results of operations, financial condition, and prospects of the Company.

Conflicts of Interest

Certain of the directors and officers of the Company are or may become directors and officers of other companies, and conflicts of interest may arise between their duties as officers and directors of the Company and as officers and directors of such other companies.

Litigation

The Company may become party to litigation from time to time in the ordinary course of business which could adversely affect its business. Should any litigation in which the Company becomes involved be determined against the Company, such a decision could adversely affect the Company’s ability to continue. Even if the Company is involved in litigation and wins, litigation can redirect significant company resources.

Uninsurable Risks

The business of the Company may not be insurable, or the insurance may not be purchased due to high cost. Should such liabilities arise, they could reduce or eliminate any future profitability and result in increasing costs and a decline in the value of the Company.

Economic Environment

The Company’s operations could be affected by the economic context should the unemployment level, interest rates, or inflation reach levels that influence consumer trends and consequently impact the Company’s future sales and profitability.

Global Economy Risk

The ongoing economic slowdown and downturn of global capital markets have generally made raising capital by equity or debt financing more difficult. Access to financing has been negatively impacted by the ongoing global economic risks. As such, the Company is subject to liquidity risks in meeting our development and future operating cost requirements in instances where cash positions are unable to be maintained, or appropriate financing is unavailable. These factors may impact the Company’s ability to raise equity or obtain loans and other credit facilities in the future and on terms favourable to the Company. If uncertain market conditions persist, the Company’s ability to raise capital could be jeopardized, which could have an adverse impact on the Company’s operations.

Going-Concern Risk

The financial statements have been prepared on a going concern basis under which an entity is considered to be able to realize its assets and satisfy its liabilities in the ordinary course of business. The Company’s future operations are dependent upon the identification and successful completion of equity or debt financing and the achievement of profitable operations at an indeterminate time in the future. There can be no assurances that the Company will be successful in completing an equity or debt financing or in achieving profitability.

The financial statements do not give effect to any adjustments relating to the carrying values and classification of assets and liabilities that would be necessary should the Company be unable to continue as a going concern.

Financial Risk Exposures

The Company may have financial risk exposure to varying degrees relating to the currency of each of the countries where it operates and has financial risk exposure towards digital currencies. The level of the financial risk exposure related to a currency

**AMP Alternative Medical Products Inc. (formerly “AMP German Cannabis Group Inc”)
Management’s Discussion and Analysis
For the six and three months ended June 30, 2021 (cont’d...)**

and exchange rate fluctuations will depend on the Company’s ability to hedge such risk or use another protection mechanism.

Attracting and keeping senior management and key personnel and consultants

The success of the Company depends on the continued ability to attract, retain, and motivate highly qualified management, clinical, and scientific personnel, and industry consultants.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that would potentially affect current or future operations or the financial condition of the Company.

Other MD&A Requirements

As specified by National Instrument 51-102, the Company advises readers of this MD&A that important additional information about the Company is available on the SEDAR website – www.sedar.com.

The Company’s Chief Executive Officer (CEO) and Chief Financial Officer (CFO) are responsible for establishing and maintaining disclosure controls and procedures and internal controls over financial reporting for the Company.

Outstanding Share Data

The authorized share capital of the Company is an unlimited number of Class A Voting Common Shares (the “common shares”). As at June 30, 2021, there were 30,555,611 shares outstanding, with the following common shares having been issued since January 1, 2020:

- a) In April 2021, the Company issued 3,500 common shares at a price of CDN\$0.35 per share for proceeds of CDN\$1,225 (€819) upon the exercise of finders’ warrants;
- b) In March 2021, the Company issued 4,900 common shares at a price of CDN\$0.35 per share for proceeds of CDN\$1,715 (€1,146) upon the exercise of finders’ warrants;
- c) On February 20, 2021, the Company completed a non-brokered placement of 3,386,600 common shares at a price of CDN\$0.50 per share for proceeds of CDN\$1,693,300 (€1,102,255). The Company paid cash finders’ fees of CDN\$80,465 (€52,400) and issued 160,930 finders’ warrants with a fair value of CDN\$63,500 (€41,532). The finders’ warrants are exercisable at CDN\$0.50 each and expire on August 10, 2021;
- d) On October 9, 2020, the Company completed a non-brokered placement of 1,089,802 common shares at a price of CDN\$0.35 per share for proceeds of CDN\$381,431 (€232,993). The Company paid cash finders’ fees of CDN\$1,225 (€790) and issued 3,500 finders’ warrants with a fair value of CDN\$460 (€296). The finders’ warrants are exercisable at CDN\$0.35 each and expire on March 18, 2021;
- e) On September 18, 2020, the Company completed a non-brokered placement of 1,115,785 common shares at a price of CDN\$0.35 per share for proceeds of CDN\$390,525 (€237,461). The Company paid cash finders’ fees of CDN\$1,715 (€1,099) and issued 4,900 finders’ warrants with a fair value of CDN\$910 (€584). The finders’ warrants are exercisable at CDN\$0.35 each and expire on March 18, 2021;
- f) In September 2020, the Company issued 7,000 common shares at a price of CDN\$0.25 per share for proceeds of CDN\$1,750 (€1,123) upon the exercise of finders’ warrants; and
- g) On March 6, 2020, the Company completed a non-brokered placement of 3,470,000 common shares at a price of CDN\$0.25 per common share for proceeds of CDN\$867,500 (€527,488). The Company paid cash finders’ fees of CDN\$10,500 (€7,095), other share issuance costs of CDN\$5,000 (€3,378) and issued 42,000 finders’ warrants with a fair value of CDN\$3,485 (€2,355). The finders’ warrants are exercisable at CDN\$0.25 each and expired on September 6, 2020;
