(CSE: SCRN)** ("**ScreenPro**" or the "**Company**") is pleased to announce that the GoStop notification app is being adopted by film and television productions in Vancouver. The automation of testing results from the laboratory to the client(s) provides quick and efficient notifications of both negative and positive results along with contact tracing should a positive case be reported.

"On productions with a large number of crew members, actors, and background extras which could be upwards of 500+ people at any given time, it is important to identify infected individuals quickly and isolate them promptly.
