Notes to Condensed Consolidated Interim Financial Statements

For the six months ended June 30, 2024 and 2023

(Expressed in Canadian Dollars)

1. NATURE OF BUSINESS

Justera Health Ltd. (the "Company") is incorporated under the laws of the Province of Ontario. The Company's common shares are listed on the Canadian Securities Exchange under the trading symbol "VTAL".

While these condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a going concern basis that presumes the realization of assets and discharge of liabilities in the normal course of business, there are material uncertainties related to adverse conditions and events that cast significant doubt on the Company's ability to continue as a going concern.

During the six months ended June 30, 2024, the Company incurred a loss of \$153,309 (2023 - \$1,787,682) and, as of that date, the Company had accumulated deficit of \$19,582,297 (December 31, 2023 - \$19,428,988) and a working capital deficit of \$747,923 (December 31, 2023 – deficit of \$575,751). The Company's continuing operations as intended are dependent upon its the ability to raise additional funds, investor sentiment and financial market conditions. Should the Company be unable to secure additional financing, the Company may be unable to discharge its net liabilities. These uncertainties may cast significant doubt upon the Company's ability to continue as a going concern.

The office address of the Company is 2300 Yonge Street, Suite 2802, Toronto, Ontario, M4P 1E4.

2. BASIS OF PRESENTATION

2.1 Basis of presentation and statement of compliance

These condensed consolidated interim financial statements for the Company for the six months ended June 30, 2024 have been prepared in accordance with IAS 34, Interim Financial Reporting of the IFRS, issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed.

The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements have been set out in the notes to the Company's financial statements for the year ended December 31, 2023. These condensed consolidated interim financial statements should be read in conjunction with the Company's financial statements for the period ended December 31, 2023.

These condensed consolidated interim financial statements were approved and authorized for issuance by the Company's Board of Directors on August 29, 2024.

Intercompany balances and transactions are eliminated upon consolidation and preparation of these consolidated financial statements.

2.3 Basis of measurement

These condensed consolidated interim financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value, as explained. The financial statements are presented in Canadian dollars which is the presentation and functional currency of the Company.

3. MATERIAL ACCOUNTING POLICIES

3.1 Significant accounting judgments and estimates

The preparation of these condensed consolidated interim financial statements in conformity with IFRS requires management to make estimates and judgments that affect the applications of accounting policies regarding certain types of assets, liabilities, revenues, and expenses in the preparation of these consolidated financial statements. Estimates and judgments are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected. These estimates and judgments are based on management's historical experience, best knowledge of current events or conditions and activities that the Company may undertake in the future. Actual results could differ materially from these estimates.

3.2 Future accounting standards

The Company continues to review changes to IFRS standards. There are no other pending IFRSs or IFRIC interpretations that are expected to be relevant to the Company's consolidated financial statements.

Options

The Company adopted an Omnibus Incentive Plan (the “Plan”) whereby the Company may, from time to time, grant stock options or restricted share units, to certain directors, officers, employees and/or consultants of the Company. The maximum number of common shares reserved for issue pursuant to the Plan shall not exceed, in the aggregate, 10% of the number of common shares then outstanding.

In January 2023, the Company granted 4,800,000 stock options to certain officers, directors and consultants of the Company exercisable at \$0.05 per share expiring on January 26, 2025. The fair value of these options was \$67,416 calculated using the Black-Scholes Option Pricing Model using the following assumptions: expected life: 2 years, expected volatility: 180.57%, expected dividend yield: Nil, and risk-free rate: 3.57%.

During the year ended December 31, 2023, a total of 300,000 options were forfeited due to resignation of an officer and during the six months ended June 30, 2024, a total of 1,150,000 options were forfeited due to resignations and/or termination of certain directors, officers, employees and/or consultants. 10. FINANCIAL RISK FACTORS

Fair Value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits from the asset's highest and best use or by selling it to another market participant that would utilize the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. This is described, as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 inputs are observable inputs other than quoted prices included within Level 1, such as quoted prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in markets that are not active, or other inputs that are observable directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability that reflect the reporting entity's own assumptions and are not based on observable market data.

Unless otherwise noted, the carrying value of cash, accounts receivable, accounts payable and accrued liabilities approximates fair value for each financial instrument.

Financial Risk Management

The Company is exposed to credit risk and liquidity risk. The Company's management oversees the management of these risks. The Company's management is supported by the Board that advises on financial risks and the appropriate financial risk governance framework for the Company. The Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with Company policies and the Company risk appetite.

JUSTERA HEALTH LTD.

Notes to Condensed Consolidated Interim Financial Statements

For the six months ended June 30, 2024 and 2023

(Expressed in Canadian Dollars)

(a) Credit Risk

Credit risk is the risk of unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. Financial instruments which potentially subject the Company to concentrations of credit risk consist of cash and accounts receivable. The cash consists of money held in a reputable Canadian bank. To reduce its credit risk from its accounts receivable, the Company reviews credit history of new clients before extending credit. Historically, there has been no collection issue with any of the Company's customers.

(b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company is exposed to this risk mainly in respect of its accounts payable and accrued liabilities. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company manages liquidity risk through obtaining financing from its shareholders. At June 30, 2024, the Company had a working capital deficiency of \$747,923 (December 31, 2023 – deficiency of \$575,751) and, as a result, the Company will need additional financing in the future.

11. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to maintain a strong capital base so as to maintain investor, creditor and market confidence and sustain future development of the business. The capital of the Company consists of equity.

The Company manages its capital structure and makes adjustments in light of the changes in its economic environment and the risk characteristics of the Company's assets. To effectively manage the Company's capital requirements, the Company has in place planning, budgeting and forecasting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. There has been no change in the Company's capital management policy and there were no externally imposed capital requirements to which the Company is subject as at June 30, 2024.
