Management's Responsibility for Financial Reporting

The consolidated annual financial statements of Khot Infrastructure Holdings, Ltd. have been prepared by and are the responsibility of the Company's management. The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board and, where appropriate, reflect management's best estimates and judgements based on currently available information.

Management has developed and is maintaining a system of internal controls to obtain reasonable assurance that the Company's assets are safeguarded, transactions are authorized and financial information is reliable.

The Board of Directors is responsible for reviewing and approving the audited consolidated financial statements together with other financial information of the Company and for ensuring that management fulfils its financial reporting responsibilities. An Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the audited consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the audited consolidated financial statements together with other financial information of the Company for issuance to shareholders.

"Donald Padgett" President and Chief Executive Officer "Sabino Di Paola" Chief Financial Officer

May 26, 2014

Notice of no review or audit

Under National Instrument 51-102, Part 4, subsection 4.3(3(a)), if an auditor has not performed a review of the condensed consolidated interim financial statements, they must be accompanied by a notice indicating that the condensed consolidated interim financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review or audit of these condensed consolidated interim financial statements.

1. CORPORATE INFORMATION

Khot Infrastructure Holdings, Ltd., (formerly Undur Tolgoi Minerals Inc.) ["KOT" or the "Company"] was incorporated on December 22, 2010 under the Business Corporations Act of British Columbia as a private company. KOT is engaged in the construction and maintenance of roads and bridges in Mongolia. The Company has not commenced construction activities during the year.

On December 18, 2013, Undur Tolgoi Minerals Inc. completed the continuance from the laws of the Province of British Columbia to the laws of the British Virgin Islands. Effective on January 7, 2014, the Company changed its name from Undur Tolgoi Minerals Inc. to Khot Infrastructure Holdings, Ltd. to have its name reflect the Company's new focus on cash generating, non-resource infrastructure projects within Mongolia.

The Company continues to be a reporting issuer with Ontario Securities Commission and its shares trade on the Canadian Securities Exchange (formerly, Canadian National Stock Exchange) under the symbol "KOT".

The registered office of KOT is Sea Meadow House, Blackburne Highway, PO Box 116, Road Town, Tortola, British Virgin Islands.

KOT has a 100% interest in Natalya-1 S. à r. l. ["Natalya-1"], Novametal Resources LLC ["Novametal"], Jucca Holdings Limited ["Jucca"], Wishland Properties Limited ["Wishland"], Great Hoard Holdings S. à r. l. ["GHH"] and a 75% interest in Ashid Munkhiin Zam LLC ["AMZ"].

2. BASIS OF PREPARATION

(a) **Statement of compliance**

The Company applies IFRS as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these unaudited condensed consolidated interim financial statements are based on IFRSs issued and outstanding as of March 31, 2014. The same accounting policies and methods of computation are followed in these unaudited condensed consolidated interim financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended December 31, 2013. Any subsequent changes to IFRS that are given effect in the Company's annual consolidated financial statements for the year ending December 31, 2014 could result in restatement of these unaudited condensed consolidated interim financial statements.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 4.

[Expressed in United States dollars]

The unaudited condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on May 26, 2014.

(b) Basis of measurement and functional currency

These consolidated financial statements have been prepared on a historical cost basis, except for the available-forsale financial instruments which are measured at fair value, and are expressed in United States dollars, which is the Company's functional and presentation currency. The functional currency for each consolidated entity is determined by the currency of the primary economic environment in which it operates.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) **Basis of consolidation**

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at March 31 2014.

Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if, and only if, the Company has all of the following:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee
- The ability to use its power over the investee to affect its returns

When the Company has less than a majority of the voting, or similar, rights of an investee, it considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Company's voting rights and potential voting rights

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive loss from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Company's accounting policies. All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Company are eliminated in full on consolidation.

[Expressed in United States dollars]

The subsidiaries of the Company at March 31, 2014 and their principal activities are described below:

Name of subsidiary	Place of incorporation	Ownership interest	Principal activity
Natalya-1 S. à r. l.	Luxembourg	100%	Holding Company
Novametal Resources LLC	Mongolia	100%	Exploration Company
Jucca Holdings Limited	British Virgin Islands	100%	Holding Company
Wishland Properties Limited	British Virgin Islands	100%	Holding Company
Great Hoard Holdings S.a.r.l	Luxembourg	100%	Holding Company
Ashid Munkhiin Zam LLC	Mongolia	75%	Infrastructure development

(b) Standards, amendments and interpretations

The Company has adopted the following accounting standards which became effective on January 1, 2013

IAS 1 Financial Statement Presentation - Presentation of Items of Other Comprehensive Income

The amendments to IAS 1 change the grouping of items presented in OCI. Items that could be reclassified (or 'recycled') to profit or loss at a future point in time (for example, upon derecognition or settlement) would be presented separately from items that will never be reclassified. The amendment affects presentation only and has no impact on the Company's financial position or performance.

<u>IAS 19 Employee Benefits</u>The amended standard introduces various changes in accounting and disclosure requirements for defined benefit plans. The amended standard also finalizes proposals on accounting for termination benefits; under the amended standard the termination benefits are recognized at the earlier of when the entity recognizes costs for a restructuring within the scope of IAS 37, "Provisions, Contingent Liabilities and Contingent Assets", that includes the payment of a termination benefit, and when the entity can no longer withdraw the offer of the termination benefit. The amendment has no impact on the Company's financial position or performance.

IFRS 10 Consolidated Financial Statements

IFRS 10 replaces the portion of IAS 27 Consolidated and Separate Financial Statements that addresses the accounting for consolidated financial statements. It also includes the issues raised in SIC-12 Consolidation — Special Purpose Entities. IFRS 10 establishes a single control model that applies to all entities including special purpose entities. The changes introduced by IFRS 10 require management to exercise significant judgement to determine which entities are controlled, and therefore, are required to be consolidated by a parent, compared with the requirements that were in IAS 27. The amendment has no impact on the Company's financial position or performance.

IFRS 11 Joint Arrangements

IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities —Non-monetary Contributions by Venturers. IFRS 11 removes the option to account for jointly controlled entities (JCEs) using proportionate consolidation. Instead, JCEs that meet the definition of a joint venture must be accounted for using the equity method. The amendment has no impact on the Company's financial position or performance.

IFRS 12 Disclosure of Involvement with Other Entities

IFRS 12 requires the disclosure of information that enables users of financial statements to evaluate the nature of, and risks associated with, its interests in other entities and the effects of those interests on its financial position,

[Expressed in United States dollars]

financial performance and cash flows. The amendment has no impact on the Company's financial position or performance.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The amendment affects presentation only and has no impact on the Company's financial position or performance.

Standards issued but not yet effective up to the date of issuance of the Company's financial statements are listed below. The Company has not yet assessed the impact of these new standards on disclosures, financial position or performance when applied at a future date. The Company intends to adopt these standards when they become effective.

IFRS 9 Financial Instruments: Classification and Measurement

IFRS 9 as issued reflects the first two phases of the IASBs work on the replacement of IAS 39 and applies to classification and measurement of financial assets and financial liabilities as defined by IAS 39; and hedge accounting for impairment of financial assets. The Company will quantify the effect in conjunction with the other phases, when issued, to present a comprehensive picture.

IAS 32 Financial Instruments: Presentation

IAS 32 was amended by the IASB in December 2011. The amendment clarifies that an entity has a legally enforceable right to offset financial assets and financial liabilities if that right is not contingent on a future event and it is enforceable both in the normal course of business and in the event of default, insolvency or bankruptcy of the entity and all counterparties. The amendments to IAS 32 are effective for annual periods beginning on or after January 1, 2014.

IFRIC 21 Levies

In May 2013, the IASB issued IFRIC 21 – Levies ("IFRIC 21"), an interpretation of IAS 37 – Provision, Contingent Liabilities and Contingent Assets ("IAS 37"), on the accounting for levies imposed by governments. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event ("obligation event"). IFRIC 21 clarifies that the obligating event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. IFRIC 21 is effective for annual periods commencing on or after January 1, 2014.

4. CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of these consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the date of the consolidated financial statements. Estimates and assumptions are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In particular, the Company has identified the following areas where significant judgements, estimates and assumptions are required. Changes in these assumptions may materially affect the financial position or financial

[Expressed in United States dollars]

results reported in future periods. Further information on each of these areas and how they impact the various accounting policies are described below and also in the relevant notes to the consolidated financial statements.

Significant management judgements

The following are significant management judgements in applying the accounting policies of the Company and have the most significant effect on the consolidated financial statements.

Going concern

The assessment of the Company's ability to continue as a going concern and ability to fund potential infrastructure construction contracts, involves significant judgements based on historical experience and other factors including expectation of future events that are believed to be reasonable under the circumstances.

These consolidated financial statements have been prepared on a basis which assumes the Company will continue to operate for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations. In assessing whether this assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. This assessment is based upon planned actions that may or may not occur for a number of reasons including the Company's own resources and external market conditions.

As at March 31, 2014, the Company had a working capital surplus of \$1,534,093 (December 2013 - \$1,836,716), including \$1,497,880 (December 2013 - \$1,870,806) in cash. The Company is actively seeking to obtain development contracts from the Mongolian Government.

The Company anticipates having sufficient funds to discharge its current liabilities and meet its corporate administrative expenses for at least twelve months. However, the Company will require additional financing, through various means including but not limited to equity financing, to continue seeking infrastructure development contracts. There is no assurance that the Company will be successful in raising the additional required funds or be awarded any development contracts.

Contingencies

By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence and potential quantum of contingencies inherently involves the exercise of significant judgements and the use of estimates regarding the outcome of future events.

Functional currency

The functional currency for the parent entity, and each of its subsidiaries, is the currency of the primary economic environment in which the entity operates. The parent entity has determined the functional currency of the Company is the United States dollar. Determination of functional currency may involve certain judgements to determine the primary economic environment and the parent entity reconsiders the functional currency of its entities if there is a change in events and conditions which determined the primary economic environment.

Share-based payments

The estimation of share-based payment costs requires the selection of an appropriate valuation model and data and consideration as to the volatility of the Company's own share, the probable life of share options and warrants

[Expressed in United States dollars]

granted and the time of exercise of those share options and warrants. The model used by the Company is the Black-Scholes valuation model (Note 10).

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described above. The Company based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market change or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

5. CASH AND CASH EQUIVALENTS

Cash and cash equivalents consist of the following:

March 31, 2014	December 31, 2013
\$	\$
1,497,880	1,870,806

As at March 31, 2014, Canadian Dollars, CAD\$423,722 (CAD\$1,769,957 – December 31, 2013), and Mongolian Tugrik, MNT 1,614,472,356 (MNT 15,859,698 – December 31, 2013) was included in the cash of the Company. This amount has been translated into USD using the closing exchange rates on March 31, 2014.

Cash earns interest at floating rates based on the daily bank deposit rates.

6. ACCOUNTS RECEIVABLE

	March 31, 2014 \$	December 31, 2013 \$
Sales tax receivable Other receivables	- 3,524	10,086
Recovery of administrative expenses (note 12)	156,424	155,015
	159,948	165,101

All accounts receivable are non-interest bearing and are generally on 30 day terms.

On February 24, 2014, as a result of the Company's continuance into the British Virgin Islands, KOT closed its Canadian sales tax accounts, as the Company is now exempt from sales tax under Canadian Revenue Agency policy.

[Expressed in United States dollars]

7. INVESTMENTS

On May 31, 2013, the Company announced that it has reached a definitive agreement to subscribe for 75,950 common shares, which represents 5.05% interest in Anya-2 Sarl ("Anya"), for a total consideration of \$125,000. Anya, a private Luxembourg company, is a wholly owned subsidiary of Hulaan Coal Corporation ("Hulaan"), a private Canadian company. Anya in turn, owns 66% of Western Minex LLC ("WM"), a private Mongolian company, which owns the Ochiriin Bulag Gold Prospect (the "Project" or "OB").

Under this agreement, KOT shall be entitled to subscribe for additional shares of Anya, up to an aggregate shareholding in Anya of 30.25% interest. As of December 31, 2013, the Company has not made any further acquisitions in Anya-2. The investment is classified as available – for – sale financial asset and was measured at fair value as at December 31, 2013.

Investments:

	March 31, 2014	December 31, 2013
	\$	\$
Investment in Anya-2 Sarl	125,000	125,000

8. SHARE CAPITAL

Authorized share capital

The authorized capital of the company consists of unlimited common shares without par value.

The holders of common shares are entitled to receive dividends (if any) which are declared from time to time, and are entitled to one vote per share at KOT's shareholder meetings. All shares are ranked equally with regards to the Company's residual assets.

Issued share capital

At March 31, 2014 and December 31, 2013, there were 64,351,484 (December 31, 2012 - 58,987,848) common shares outstanding.

Common share issuances

Fiscal 2014

There were no common shares issued during the three months ending March 31, 2014.

Stock options

Under the terms of the Company's stock option plan (the "Plan") all options are granted with an exercise price equal to the closing market price on the day immediately preceding the date of grant. The term of options is determined by the Board of Directors and is typically three or five years with a maximum term of 10 years. Options issued to consultants who perform investor relations activities will be subject to a vesting schedule whereby no

[Expressed in United States dollars]

more than 25% of the options granted may vest in any three month period. The maximum number of options authorized for issue shall be 10% of the outstanding shares in issue at the date of the option grant.

The following table provides detailed information about stock options outstanding as at March 31, 2014.

Expiry Date	Ex	ercise Price	Options Outstanding	Weighted Average Remaining contractual Life (years)	Options Vested	Options unvested
December 6, 2016	\$	0.25	3,975,000	2.69	3,975,000	-
January 8, 2019	\$	0.25	2,300,000	4.78	2,300,000	-
Total			6,275,000	3.45	6,275,000	

The Company records a charge to the statement of comprehensive loss using the Black-Scholes fair valuation option pricing model. The valuation is dependent on a number of estimates, including the risk free interest rate, the level of stock volatility, together with an estimate of the level of forfeiture. The level of stock volatility is calculated with reference to historic traded daily closing share prices at the date of issuance.

Option pricing models require the inputs of highly subjective assumptions including the expected price volatility. Changes to the subjective input assumptions can materially affect the fair value estimate and therefore, the existing models do not necessarily provide a reliable measure of the fair value of the Company's share options.

Stock option activity is as follows:

		Number	Weighted- Average exercise price	Expiry
Outstanding, D	ecember 31, 2013	4,075,000	0.25	December 6, 2016
Granted		2,300,000	0.25	January 8, 2019
Forfeited		(100,000)	0.25	December 6, 2016
Outstanding,	March 31, 2014	6,275,000	0.25	December 6, 2016

On January 8, 2014, the Company granted, under its Stock Option Plan, fully vested incentive stock options to certain directors, senior officers, and consultants to purchase up to an aggregate of 2,300,000 common shares in the capital of the Company exercisable for a period of five years ending on January 8, 2019, at an exercise price of \$0.25 per share.

The weighted average fair value of each option granted during the three months ended March 31, 2014 of \$0.12 is estimated using the Black Scholes option pricing model with the following weighted average assumption:

Average share price at date of grant	\$ 0.12
Expected dividend yield	0.00%
Expected share price volatility	264%
Risk free interest rate	1.10%
Expected life of options	5 years
Average exercise price at date of grant	\$ 0.25

[Expressed in United States dollars]

The underlying expected volatility was determined by reference to historical data of KOT's shares listed on the Canadian Stock Exchange ("CSE") based on annual price volatility for the same term as the term of the option from the issuance date. No special features inherent to the options granted were incorporated into measurement of fair value.

Share based payment reserve

Amounts recorded in share based payment reserve in shareholders' equity relate to the fair value of stock options.

Activity with respect to the share based payment reserve is summarized as follows:

	As at March 31, 2014 \$	As at December 31, 2013 \$	
Balance, beginning of the period	911,972	911,972	
Stock-based compensation	275,000	-	
Balance, end of the period	1,186,972	911,972

Property, plant and equipment	\$	40,941	\$	2,630

KHOT INFRASTRUCTURE HOLDINGS, LTD.

(Formerly Undur Tolgoi Minerals Inc.)

NOTES TO THE

INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

[Expressed in United States dollars]

The Company has the following noncurrent assets located in Luxembourg

	March 31, 2014		December 31, 2013	
Investment in Anya-2	\$	125,000	\$	125,000

12. CAPITAL MANAGEMENT

The Company's capital structure has been defined by Management as being comprised of shareholders' equity, which comprises share capital and other components of equity and accumulated deficit, which at March 31, 2014, totals \$ 1,700,387 (December 2013 - \$ 1,968,606). The Company's objectives when managing its capital structure are to preserve the Company's access to capital markets and its ability to meet its financial obligations and to finance its future infrastructure activities and general corporate costs. This is achieved by the Board of Directors' review and acceptance of infrastructure budgets that are achievable within existing resources and the timely matching and release of the next stage of expenditures with the resources made available from private placements or other funding.

The Company monitors its capital structure using annual forecasted cash flows, infrastructure budgets and targets for the year.

The Company currently has no source of revenues; as such the Company is dependent upon external financing to fund its activities. In order to pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company to maintain flexibility while achieving the objectives stated above as well as supporting future business opportunities. To manage the capital structure the Company may adjust its operating expenditure plans, or issue new common shares.

The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's Management to sustain future development of the business.

There were no changes in the Company's approach to capital management for the three months ended March 31, 2014, and the year ended December 31, 2013. The Company is not subject to externally imposed capital requirements or covenants.

[Expressed in United States dollars]

13. FINANCIAL RISK MANAGEMENT

The carrying values of the Company's financial instruments are classified into the categories below. Fair values are determined either directly by reference to published price quotations in an active market, or from valuation techniques using observable inputs.

	March 31, 2014 I	December 31, 2013
	\$\$	
Available for sale investments	125,000	125,000
Loans and receivables ²	1,657,828	2,035,907
Other financial liabilities ¹	(135,600)	(236,607)

¹ accounts payable and accrued liabilities

²cash and accounts receivable, excluding sales tax receivable

The three levels of the fair value hierarchy are:

[i] Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities

[ii] Level 2 - Inputs other than quoted prices that are observable for the asset or liability directly or indirectly

[iii] Level 3 - Inputs that are not based on observable market data

As at March 31, 2014, and December 31, 2013, the Company's financial instruments which are measured at fair value on a recurring basis was cash. This financial instrument was classified as Level 1 financial instrument.

The investment in Anya-2 is an investment in the common shares of a private company and as a result there was no quoted price in active markets. The investment was measured against the net assets of the Company as at March 31, 2014, and as a result has been classified as a level 3.

Risks arising from financial instruments and risk management

The Company's activities expose it to a variety of risks including interest rate risk, credit risk, liquidity risk and commodity price risk. Reflecting the current stage of development of the Company's various projects, the Company's overall risk management program focuses on facilitating the Company's ability to continue as a going concern and seeks to minimize potential adverse effects on the Company's ability to execute its business plan. Risk management is the responsibility of the finance function. Material risks are identified and monitored and are discussed by senior management and with the Audit Committee and the Board of Directors.

Interest rate risk

The Company does not have any debt obligations which expose it to interest rate risk.

Credit risk

Credit risk is the risk of an unexpected loss if a party to its financial instruments fails to meet its contractual obligations. The Company's financial assets exposed to credit risk are primarily composed of cash, short-term investments, dues to and from related parties and accounts receivable. Maximum exposure is equal to the carrying values of these assets. The Company's cash is held at several large financial institutions. Furthermore, the company

[Expressed in United States dollars]

has assessed the recoverability of the accounts receivable and the balance is deemed recoverable. It is management's opinion that the Company is not exposed to significant credit risk.

None of the Company's financial assets are secured by collateral or other credit enhancements.

Liquidity risk

Liquidity risk encompasses the risk that the Company cannot meet its financial obligations. At March 31, 2014, the Company had a working capital of \$1,534,093 [December 31, 2013 - 1,836,716]. Payables are due and payable within 30 days. Accordingly, the Company is able to meet its current obligations.

Foreign exchange risk

The Company conducts operations in Mongolia where many of its transactions are denominated in the Mongolian Tugrik. Accordingly the results of operations and financial position of the Company are subject to changes in the exchange rate between the US dollar ("USD") and the Mongolian tugrik. The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

Certain of the Company's cash and cash equivalents, amounts receivable and accounts payable are held in Canadian dollars ("CAD"); therefore, CAD amounts are subject to fluctuation against the USD.

The Company is not significantly exposed to a fluctuation of foreign exchange, interest, or credit risk.

Assuming that all other variables remain constant, a 10% appreciation or depreciation of the MNT or CAD against the USD would not have a significant impact on net loss.

14. EVENTS AFTER THE REPORTING DATE

There were no significant events after the reporting date.
