TraceSafe Selected as Official Contact Tracing Solution for TD Garden

December 8, 2020 - Vancouver, BC – [TraceSafe Inc.](#) (“TraceSafe”) (CSE: TSF) a global leader wearable safety tech including contact tracing and self-quarantine management, today announced it has been selected as the exclusive contact tracing solutions provider for New England’s largest sports and entertainment arena, TD Garden.

Five hundred TD Garden employees throughout the venue will wear TraceSafe’s bluetooth-enabled contact tracing wearables. TraceSafe’s cloud-based solutions will be integrated into TD Garden’s existing wireless systems by installing TraceSafe’s Gateways throughout venue’s wireless apparatus.

TD Garden is the home of the Boston Bruins and the Boston Celtics franchises, and hosts 3.5 million people at innumerable live shows and concerts. In addition to the Boston Bruins and the Boston Celtics, TD Garden has also hosted the NCAA Frozen Four tournament, the US figure skating championships, and is set to host the 2021 Laver Cup next year — an international men’s tennis tournament.

Further, TD Garden is owned and operated by Delaware North, a global food, venue, and hotel management company. Delaware North is well-known throughout venues and airports across the Northeastern United States.

Executive Quote

“We could not be more excited to announce this partnership with TD Garden. TD Garden is an iconic venue and an institution in the city of Boston,” **announced TraceSafe CEO Wayne Lloyd.** “This is yet another example of a major sports and event venue placing their trust in the TraceSafe suite of contact tracing and quarantine management solutions. Additionally, by partnering with Delaware North, which owns and operates TD Garden, we will gain visibility and a strong foothold in the venue management and hospitality world.”

About TraceSafe

TraceSafe is a full suite of real-time location management services and contact tracing solutions enabled through advanced low power bluetooth beacons and enterprise cloud management. TraceSafe’s leading cloud management solution ensures both user privacy and comprehensive administrative control. TraceSafe’s patented contact tracing bracelet has already been deployed in mission critical quarantine applications around the world in partnership with leading governments. In addition to their government work, TraceSafe is developing leading edge solutions for Enterprise, Healthcare, Education, Government and large-scale venue

management.
