GWS Symbol Change:

Global Wellness Strategies Inc. “*Helping you Get Well Soon*” is changing its ticker symbol from “**LOAN**” to “**GWS**”. The Company expects the symbol change to take effect on Wednesday October 6, 2021. The change in the ticker symbol is being made to provide greater visibility with respect to the long-term strategy of the Company; providing high growth companies with financial, operational, and management assistance in the fast-growing market for global wellness. No action is required by existing shareholders with regards to the ticker symbol change.

“We are looking forward to trading under the new 'GWS' symbol on the Canadian Stock Exchange,” said Meris Kott, CEO of Global Wellness Strategies. “The new symbol directly aligns with the vision of the Company and the path we foresee taking in order to continue adding significant value to our shareholders by developing and commercializing medicines with our portfolio clients.”

Pain & Psychedelics:

While there has been increasing hype and capital markets interest in and research on the use of psychedelics, such as psilocybin, ketamine, LSD and MDMA (aka, ecstasy or molly), for depression, anxiety, PTSD, and other psychiatric disorders, little research has been conducted to date on the use of psychedelics for chronic pain. It is the goal of the Company to be the market leader in the management of pain with IND application to the FDA for a novel drug culminating with clinical trials and changing the landscape with new solutions to solve the pain epidemic.

Additionally, because of the urgent need for improved pharmacological approaches for the treatment of peri-operative pain, Shanti Therapeutics has already filed a patent application outlining a method for the treatment/ prevention of pain, the method comprising oral administration of an effective dose of 3,4-methylenedioxymethamphetamine (MDMA).
