About DigiCrypts:

DigiCrypts is an Ontario company, formed to exploit three different businesses within the crypto-currency coin and blockchain industries on a global basis. These business applications include the formation of a large quantity of application-specific crypto mining machines in the province of Quebec, acting as an advisor for third parties seeking to complete initial coin offerings, and to establish a new crypto coin that can be used on a global basis. DigiCrypts has established strong industry relationships in all three platforms, and will seek to advance its businesses within each platform.
