

DataNavee Launches New Global Channel Partner Program For Projected Personality Interpreter

**MASSACHUSETTS BASED 'POLICE EXAMS SOLUTIONS, LLC'
SIGNS MOU TO BECOME FIRST PARTNER**

FOR IMMEDIATE RELEASE – January 4, 2021

TORONTO/ACCESSWIRE – DigiCrypts Blockchain Solutions Inc. o/a DIGIMAX GLOBAL SOLUTIONS (the "Company" or "DigiMax") (CSE:DIGI) is pleased to announce that effective immediately, subsidiary DataNavee will make its newly acquired Projected Personality Interpreter ("PPI") personnel selection analysis platform available to Value Added Retailers ("VARs") across the globe. The PPI has already been demonstrated as an excellent platform to meet the growing demand for enterprise and law enforcement human capital insight, both for new hiring and for existing personnel deployment.

Based in Arlington, Massachusetts, Police Exams Solutions, LLC ("PES") offers recruitment services to vet and screen for the most qualified candidates to fill police department vacancies. Through detailed candidate insight analysis, agencies are furnished with eligible candidates who meet and exceed department specified criteria and requirements.

DataNavee's go-to-market channel partners will include VARs as well as Distribution and Fulfilment Partners ("DFPs") that have expertise in delivering insight services and solutions to both the Public and the Private Sector.

DataNavee is introducing the Channel Partner program on a global basis to accelerate the availability and deployment of its PPI to police forces across North America and worldwide. The program includes complete technical, sales, and marketing support for the VAR's and DFP's. The technical platform provided by Darwin Ecosystem's solutions, combined with additional marketing resources from DataNavee, demonstrate our commitment to empowering a rich and vibrant partner ecosystem.

DataNavee's Global Channel Program Partners gain access to our initial suite of Human Capital Solutions, which include:

PPI API: The Projected Personality Interpreter (PPI) API is a transaction-based text analytics processing service delivering Big Five personality traits insight, along with team traits and customizable recipes, for our partners to build, integrate and augment their Human Capital solutions.

PPI Portal and Portal Basic: The Projected Personality Interpreter (PPI) Portals offer our partners a white label administrative interface dashboard connected to the PPI API to manage

questionnaire email campaigns, organize resources, generate reports, visualize comparative analytics, import and export data, and integrate via its own API to other services. Each PPI Portal is deployed as a cloud SaaS.

DataNavee will continue to offer Human Capital add-ons and solutions to its partners over the coming months.

DataNavee is pleased to welcome PES as our first Global Channel Partner. PES currently offers Law Enforcement Recruitment Service powered by the Darwin PPI API to 17 separate police departments in New England.

“We are pleased to partner with DataNavee at a time when having relevant and meaningful insight about law enforcement candidates is more important than ever,” affirms Gretel Hartman, CEO and founder of Police Exams Solutions. “The ability for DataNavee algorithms to utilize chaos theory principles to reveal the patterns hidden in unstructured large data sources from the Web or organizations, makes the recruitment process much more efficient and effective compared to traditional one-day assessments. This partnership offers us unprecedented resources as we work with local agencies and policy makers in response to the 2021 law enforcement reform initiatives enacted throughout the USA.”

About Police Exam Solutions, LLC, (PES) - <https://www.policeexamsolutions.com/>

Police Exams Solutions, LLC (“PES”) specializes in law enforcement recruitment throughout the United States, and they pride themselves on the relationships they foster with potential candidates seeking careers in law enforcement. PES is dedicated to helping law enforcement agencies recruit, examine, and ultimately select the best candidates for their police department. using the most advanced vetting tools available to finding the right fit between each job and candidate.

Cautionary Note Regarding Forward-looking Statements

NEITHER THE CANADIAN SECURITIES EXCHANGE, NOR THEIR REGULATIONS SERVICES PROVIDERS HAVE REVIEWED OR ACCEPT RESPONSIBILITY FOR THE ADEQUACY OR ACCURACY OF THIS RELEASE

This press release contains "forward-looking statements". Forward-looking statements can be identified by words such as: anticipate, intend, plan, goal, seek, believe, project, estimate, expect, strategy, future, likely, may, should, will and similar references to future periods. Examples of forward-looking statements in this press release include, among others, statements we make regarding a second closing.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based only on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, projections, anticipated events and trends, the economy and other future conditions. Because forward-looking statements relate to the future, they are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results and financial condition may differ materially from those indicated in the forward-looking statements. Therefore, you should not rely on any of these forward-looking statements. Important factors that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: shareholders approving the change of name to DigiMax, the adequacy of our cash flow and earnings, the availability of future financing and/or credit, and other conditions which may affect our ability to expand the App Platform described herein, the level of demand and financial performance of the cryptocurrency industry, developments and changes in laws and regulations, including increased regulation of the cryptocurrency industry through legislative action and revised rules and standards applied by the Canadian Securities Administrators, Ontario Securities Commission, and/or other similar regulatory bodies in other jurisdictions, disruptions to our technology network including computer systems, software and cloud data, or other disruptions of our operating systems, structures or equipment, as well as those risk factors discussed or referred to in disclosure documents filed by the Company with the securities regulatory authorities in certain provinces of Canada and available at www.sedar.com.

Any forward-looking statement made by us in this press release is based only on information currently available to us and speaks only as of the date on which it is made. Except as required by applicable securities laws, we undertake no obligation to publicly update any forward-looking statement, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or otherwise.
