**WINDFALL GEOTEK  
ANNOUNCES A STRATEGIC FINANCING OF UP TO \$3.5M TO ACCELERATE  
EAGLE EYE™ GOTO MARKET FOR BATTERY METALS AND  
UXO DETECTION**

*DOES NOT CONSTITUTE AN OFFER OF THE SECURITIES DESCRIBED HEREIN*

Brossard, Quebec/ The Newswire / March 1, 2021 – Windfall Geotek (TSX-V: WIN, OTCQB: WINKF) (“Windfall” of the “Company”) a mining technology company and a leader in the use of Artificial Intelligence (AI) and advanced knowledge-extraction techniques since 2005 in the mining sector, is pleased to announce a strategic non-brokered offering of up to \$3.5M (the “Offering”) with intended lead orders from ThreeD Capital (CSE:IDK, OTCQB:IDKF) and Draganfly (CSE: DFLY) (OTCQB: DFLYF) (FSE: 3U8).

The Offering is for up to 10,000,000 units at a price of \$0.35 per unit comprised of one common share and one common share purchase warrant at \$0.50 per share for a period of 24 months following the closing of the Offering. The proceeds will be used to continue the R&D for land mines and unexploded ordinance (UXO) detection application as well as speed up the goto market for the EagleEye™ technology in the mining sector including building a dedicated team for the new application and the opening of a Toronto office. The Offering remains subject to regulatory approval.

**Dinesh Kandanchatha, Chairman of Windfall Geotek commented:** “We are excited about accelerating this phase of Windfall’s growth with partners like Draganfly and ThreeD capital. Bringing these three companies together checks all the boxes, experienced capital, world class engineering, and AI. Together we will be able to transform primary exploration.”

**Cameron Chell, CEO of Draganfly commented:** “We are excited about deepening our partnership with Windfall Geotek. Their EagleEye™ is offering that leverages Draganfly sensor and drone technology, creating a unique digital exploration solution that is both cost effective and sustainable.”

**Sheldon Inwentash CEO and Founder of ThreeD Capital commented:** "As a seasoned active investor at the leading edge of technology in mining, I have known about Windfall Geotek for over a decade. Windfall is now an innovative way to get exposure to the best exploration projects through a technology play."

## **About Windfall Geotek – Powered by Artificial Intelligence (AI) since 2005**

Windfall is an Artificial Intelligence company that has been in business for over 15 years developing its proprietary CARDS analysis (AI) and data mining techniques. Windfall Geotek can count on a multidisciplinary team that includes professionals in geophysics, geology, Artificial Intelligence, and mathematics. It combines available public and private datasets including geophysical, drill hole and surface data. The algorithms designed and employed by Windfall are calculated to highlight areas of interest that have the potential to be geologically similar to other gold deposits and mineralization. The Company's objective is to develop a new royalty stream by significantly enhancing and participating in the exploration success rate of mining and to continue the Land Mine detection application as a high priority. Windfall has played a part in numerous past discoveries utilizing its methodology as described at: <https://windfallgeotek.com/>.
