WINDFALL GEOTEK ANNOUNCES DEAL TO SELL 880 CLAIMS IN NORTHERN ONTARIO, SOUTH OF THE RING OF FIRE

DOES NOT CONSTITUTE AN OFFER OF THE SECURITIES DESCRIBED HEREIN

Brossard, Quebec / The Newswire / June 13th, 2022 – Windfall Geotek **(TSX-V: WIN, OTCQB: WINKF, FSE: L7C2)** a leader in the use of Artificial Intelligence (AI) with advanced knowledge-extraction techniques since 2005 in the mining sector is pleased to announce the strategic sale of claims in northern Ontario 160km south of the Ring of Fire. The deal consists of undisclosed cash, 2% NSR with a right to buy back 1%, in addition to other future considerations subject to deal conditions over the next 12 months.

Additionally, Windfall Geotek has released its new website. Partnering with the design agency who previously worked with the Prospectors & Developers Association of Canada (PDAC) the web platform will highlight the assets and royalty model of using AI for mineral discovery.

Dinesh Kandanchatha, Chairman of Windfall Geotek commented: *"I am very excited to engage with yet another accomplished team who have a track record in resource development. Our business model of analyzing public data and augmenting it with capabilities from partners such as Draganfly to uncover hidden value continues to attract investors and partners from the global mining community."*

About Windfall Geotek – Powered by Artificial Intelligence (AI) since 2005

Windfall is an Artificial Intelligence company that has been in business for over 15 years developing its proprietary CARDS analysis (AI) and data mining techniques. Windfall Geotek can count on a multidisciplinary team that includes professionals in geophysics, geology, Artificial Intelligence, and mathematics. It combines available public and private datasets including geophysical, drill hole and surface data. The algorithms designed and employed by Windfall are calculated to highlight areas of interest that have the potential to be geologically similar to other gold deposits and mineralization. The Company's objective is to develop a new royalty stream by significantly enhancing and participating in the exploration success rate of mining and to continue the Land Mine detection application as a high priority. Windfall has played a part in numerous past discoveries utilizing its methodology as described at: https://windfallgeotek.com/.
