Condensed Interim Consolidated Financial Statements
For the Nine Months Ended September 30, 2013 and 2012
Expressed in Canadian Dollars

NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3 (3a), if an auditor has not performed a review of the condensed interim consolidated financial statements, they must be accompanied by a notice indicating the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim consolidated financial statements of the Company have been prepared by management and approved by the Audit Committee of the Board of Directors.

The Company's independent auditors have not performed a review of these financial statements in accordance with the standards established by the Canadian Institute of Chartered Accountants for a review of condensed interim consolidated financial statements by an entity's auditors.

The accompanying notes form an integral part of these condensed interim consolidated financial statements.

1. NATURE OF OPERATIONS AND GOING CONCERN

Platinex Inc., which together with its subsidiary is collectively referred to as the "Company", is a Canadian company whose business activity is the exploration and evaluation of mineral properties in Canada. Platinex Inc. (the “Company”) was incorporated under the Ontario Business Corporations Act on August 12, 1998.

The Company is listed on the TSX Venture Exchange, having the symbol PTX-V, as a Tier 2 mining issuer. The address of the Company's corporate office and principal place of business is 11 Algonquin Crescent, Aurora, Ontario, L4G 3E4, Canada.

These condensed interim consolidated financial statements of the Company for the three and nine months ended September 30, 2013 and September 30, 2012 were approved and authorized for issue by the Board of Directors on November 28, 2013.

The Company has interest in mineral properties located in Canada which are presently at the exploration and evaluation stage. Until it is determined that properties contain mineral reserves or resources that can be economically mined, they are classified as exploration and evaluation assets.

For the nine months ended September 30, 2013, the Company incurred a net loss of $389,016 (for the nine months ended September 30, 2012 - $431,288), the deficit as at September 30, 2013 amounted to $4,308,596 ($3,919,580 as at December 31, 2012) and negative cash flow from operations amounted to $236,083 ($399,369 as at September 30, 2012).

Management estimates that the funds available as at September 30, 2013 will not be sufficient to meet the Company’s obligations and budgeted expenditures through December 31, 2013. The Company will have to raise additional funds to continue operations. The Company is pursuing financing alternatives to fund its operations and to continue its activities as a going concern. Although there is no assurance that the Company will be successful in these actions, management is confident that it will be able to secure the necessary financing through the issuance of new debt and equity. While it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

Although these condensed interim consolidated financial statements have been prepared using International Financial Reporting Standards (“IFRS”) applicable to a going concern, the above-noted facts and circumstances cast significant doubt on the Company’s ability to continue as a going concern.

These condensed interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities, to the reported revenues and expenses and to the financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material.

2. BASIS OF PREPARATION

a) Basis of Presentation and Measurement

These interim condensed consolidated financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting and the Interpretations Committee (“IFRIC”). These condensed interim consolidated financial statements have been prepared on a historical cost basis using the accrual basis of accounting except for available-for-sale financial assets.

These unaudited condensed interim consolidated financial statements should be read in conjunction with the Company’s annual consolidated financial statements for the year ended December 31, 2012 which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies and methods adopted are consistent with those disclosed in Note 3 to the Company’s consolidated financial statements for the year ended December 31, 2012.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the group’s accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the interim consolidated financial statements are disclosed in note 4.

b) Critical accounting estimates and judgments

Areas of critical accounting estimates and judgments that have the most significant effect on the amounts recognized in the unaudited condensed interim consolidated financial statements are disclosed in note 4 of the Company’s consolidated financial statements as at and for the year ended December 31, 2012.

Unaudited - Expressed in Canadian Dollars

3. CASH

Included in cash as at September 30, 2013 is $0 ($0 - December 31, 2012) of proceeds received from the issue of flow-through shares. The use of these funds is restricted to exploration expenditures.

4. FUNDS HELD IN TRUST

Funds held in trust represent monies advanced to lawyers.

5. AVAILABLE-FOR-SALE INVESTMENT

Available-for-sale investment consists of an investment in common shares of Probe Mines Limited, and therefore has no fixed maturity date. The fair value of the listed available- for- sale investment has been determined directly by reference to published price quotations in an active market.

6. EXPLORATION AND EVALUATION ASSETS

	Shining Tree	South McFaulds Lake	Total
Balance at December 31, 2011	$ 2,904,389	$ 523,045	$ 3,427,434
Exploration costs	289,801	30,612	320,413
Disposition of mining claims	(27,588)	0	(27,588)
Balance at December 31, 2012	$ 3,166,602	$ 553,657	$ 3,720,259
Exploration costs	2,608	0	2,608
Disposition of mining claims	0	0	0
Balance at September 30, 2013	$ 3,169,210	$ 553,657	$ 3,722,867

a) Shining Tree Property, Ontario

In 2011 the Company vested an option agreement with Skead Holdings Ltd., with respect to 139 claim units (5,680 acres or 2,299 ha), situated in Churchill, MacMurchy and Asquith Townships in Ontario (the “Shining Tree property”). The Company now holds a 100% interest in the claims subject to a 3% NSR and subject to advance royalty payments of $10,000 per year commencing in April 2013; the agreement has been amended to defer the payment commencement to April 2014. The 3% NSR may be reduced by payment of $400,000 for each 0.5% NSR purchased to a maximum of 1.5% NSR. If the optionor wishes to sell the royalty interest the Company retains a right of first refusal to purchase the NSR. On May 10, 2012 the Company acquired a lease (40 acres, 16 ha) from Gary John McBride for 200,000 shares of the Company. The lease is central to the Shining Tree property.

The Company SEDAR-filed its NI 43-101 technical report dated October 2, 2008, by J.G. Bryant and D. Jamieson (the “Report”) which examines the Herrick gold deposit on Shining Tree property and seven other known gold prospects, some of which have been explored underground. The Report qualifies the sampling and drilling work by Unocal (1989) and Fort Knox (1990) compliant with NI 43-101 standards.

In October 2010, the Company entered into an agreement with Canadian Prospecting Ventures (“CPV”) to acquire an option on twelve claim units for 474 acres (192ha) adjoining the Shining Tree claims acquired from Skead Holdings Ltd. The CPV option was allowed to lapse in the second quarter of 2012.

Since commencement of exploration in 2008 an airborne geophysical survey, stripping, trenching, sampling, induced polarization and magnetometer surveys, glacial till sampling and the drilling of 64 holes for a total of 8,393 m have been completed. A provincially significant anomaly comprising high counts of gold grains and nuggets has been defined covering a large portion of the property and the geological interpretation of this feature is that it has been generated by nearby sources, not necessarily but probably, underlying the Shining Tree property. Channel and composite grab sampling of 72 sections covering a length of 361 m of the Herrick deposit averages 6.98 g/t Au / 1.9 m average true width. Fifty nine qualified drill holes along the same length to a depth of 300m returned average grades from the Central Zone of 2.16 g/t Au / 2.9 m true width. One of the deeper holes returned a 46.1 m mineralized section indicating that the zone is thickening with depth.

Unaudited - Expressed in Canadian Dollars

6. EXPLORATION AND EVALUATION ASSETS cont'd

b) South McFaulds, Ontario

The South McFaulds property is located 25 km southwest of Noront Resources' Eagle One and Double Eagle nickel-copper-PGE and Black Bird chromitite discoveries. This property comprises 158 claim units in three blocks covering 2,528 ha (6,320 acres). The property adjoins a block held by MacDonald Mines on the northeast. James Bay Resources holds blocks of claims within and to the north of the Company holdings. The Company's property was staked to cover a layered intrusion that is coupled with magnetic anomalies and the projected strike extension to the southwest of the host environment for the Noront discoveries evidenced in outcrop on the property; all of which have been recently revealed in survey publications by the Ontario government. The property is also centered on, and in part marginal to, a regional gravity anomaly. A qualifying report was filed on this property in May, 2011 and an airborne geophysical program was carried out in September, 2011. After filing the report low priority portions of the property were allowed to lapse.

Cost of share issue		(750)
Balance at September 30, 2013	52,009,326	$ 6,120,799

c) On March 30, 2012 the Company entered into an agreement to acquire a lease (40 acres, 16 ha) in exchange for 200,000 common shares of the Company at $0.05 per share; the transaction closed on May 10, 2012.

d) On September 30, 2013 the Company completed a non-brokered private placement of 1,050,000 working capital units at $0.02 per unit to raise $21,000. Each flow-through unit consisted of one flow-through common share and one warrant.

Each whole warrant is exercisable for a common share of the Company at an exercise price of $0.05 on or before September 30, 2014 and thereafter at an exercise price of $0.10. The warrants expire on September 30, 2015 provided that if the average closing price of the Company's common shares is over $0.15 per share for 20 consecutive trading days ending more than four months after closing of this offering, the Company may give written notice to the holders of the warrants changing the expiry date to a date which is not less than 30 days following that written notice.

9. SHARE BASED PAYMENTS

Date of Expiry	Number of Warrants	Exercise Price	Grant Date Fair Value of Warrants
30-Sept 15	1,050,000	$0.08	$10,500

The warrants granted were valued using the Black-Scholes option pricing model with the following assumptions, quoted at their weighted averages.

	2013	2011	2010
Expected dividend yield	0	0	0
Expected volatility	152%	159%	136%
Risk free interest rate	1.19%	0.92%	1.53%
Expected life	1.5 years	1.5 years	1.5 to 2 years

b) Share Purchase Options

In October 2005, the Company's Board of Directors approved a new stock option plan. Under the terms of the Company's new stock option plan, a maximum of 10% of the issued and outstanding common shares have been reserved for issuance to the Company's directors, officers, employees and eligible consultants. The new stock option plan was approved by the Company's non participatory shareholders on May 24, 2006.

The following is a summary of changes in options from January 1, 2012 to December 30, 2012

Grant Date	Expiry Date	Exercise Price	Opening Balance	During the Year Granted	Exercised	Cancelled	Closing Balance	Vested and Exercisable	Unvested

Remuneration of directors and key management personnel during the nine months ended September 30, 2013 and September 30, 2012 was:

	Nine Months Ended September 30, 2013	September 30, 2012
Management salaries and fees	$ 162,000	$ 201,000
Travel allowance	0	17,250
	$ 162,000	$ 218,250

For the nine months ended September 30, 2013, $0 ($52,418 – 2012) of the management fees and salaries were allocated to exploration and evaluation assets. At September 30, 2013, accounts payable included $308,917 (December 31, 2012 - $201,417) due to related parties.

11. BASIC AND FULLY DILUTED EARNINGS PER SHARE

The following table sets forth the calculation of the basic and diluted earnings per share:

	Nine Months Ended September 30, 2013	September 30, 2012
Basic earnings available to common shareholders	$ (389,016)	$ (431,288)
Weighted average number of common shares outstanding basic	51,075,993	50,870,437
Basic earnings (loss) per share	$ (0.0076)	$ (0.0085)
Weighted average number of common shares outstanding	51,075,993	50,870,437
Assumed exercise of outstanding dilutive options and warrants	3,850,000	5,437,767
Shares purchased from proceeds of assumed exercise options and warrants	(20,535,000)	(14,594,320)
Weighted average number of common shares outstanding - diluted	34,390,993	41,713,884
Basic and diluted earnings (loss) per share	$ (0.0076)	$ (0.0085)

The effects of the stock options for the nine months ended September 30, 2013 and 2012 have been excluded from the calculations of diluted earnings per share as it would be anti-dilutive.

12. PROVISIONS

The Company has agreed to indemnify certain subscribers of current and previous flow-through share offerings against any income tax payable by the subscriber in the event the Company does not meet its expenditure commitments.

During the years 2005 to 2008, the Company issued flow-through common shares for gross proceeds of $1,550,000 from private placement offerings of securities. In accordance with the terms of these flow-through share offerings and pursuant to certain provisions of the Income Tax Act (Canada) (the “Act”), the Company renounced for income tax purposes these exploration expenditures and was obligated to spend these funds on Qualifying Canadian Exploration Expenditures (“CEE”).

Following an audit by Canada Revenue Agency (“CRA”) of the Company’s CEE for 2005 to 2008 which was substantially completed prior to December 31, 2011, the CRA has taken the position that only $590,801 of flow-through proceeds was spent on CEE. On this basis, the remainder of $959,199 is potentially subject to tax in accordance with Part XII.6 of the Act and, together with related penalties and interest, $191,340 has been included in accrued liabilities as at December 31, 2011. On April 4, 2012, CRA issued Notices of Assessment and Reassessment to the Company totaling $191,340 including penalties and interest which has been included in accrued liabilities. The Company has filed Notices of Objection to dispute CRA’s interpretation and the validity of the Notices of Assessment and Reassessment.

In accordance with the terms of subscription agreements with certain purchasers of flow-through shares, the Company has agreed to indemnify such investors for an amount equal to the amount of any income tax payable, or income tax that may become payable, by the purchaser, under the Act, as a result of any reduction of previously renounced CEE. The Company has also estimated the potential liability resulting from any claims which may arise as a result of possible reassessments denying CEE claimed by investors in 2005 to 2008 to be $633,071 which has been included in accrued liabilities as at December 31, 2012 and December 31, 2011. The actual liability will depend upon a number of factors including the personal tax income tax positions of the investors and the Company’s success in its objection proceedings with CRA. The outcome of these matters is uncertain and there can be no assurance that such matters will be resolved in the Company’s favour.
