NOTICE OF NO AUDITOR REVIEW OF CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Under National Instrument 51-102, Part 4, subsection 4.3 (3a), if an auditor has not performed a review of the condensed interim consolidated financial statements, they must be accompanied by a notice indicating the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim consolidated financial statements of the Company have been prepared by management and approved by the Audit Committee of the Board of Directors.

The Company's independent auditors have not performed a review of these financial statements in accordance with the standards established by the Canadian Institute of Chartered Accountants for a review of condensed interim consolidated financial statements by an entity's auditors.

Notes to the Condensed Interim Consolidated Financial Statements
Unaudited - Expressed in Canadian Dollars
For the Three Months Ended March 31, 2015 and March 31, 2014

1. NATURE OF OPERATIONS AND GOING CONCERN

Platinex Inc., which together with its subsidiary is collectively referred to as the "Company", is a Canadian company whose business activity is the exploration and evaluation of mineral properties in Canada. Platinex Inc. (the "Company") was incorporated under the Ontario Business Corporations Act on August 12, 1998.

The Company is listed on the TSX Venture Exchange, having the symbol PTX-V, as a Tier 2 mining issuer. The address of the Company's corporate office and principal place of business is 807-20 William Roe Blvd., Newmarket, Ontario, Canada.

These condensed interim consolidated financial statements of the Company for the three months ended March 31, 2015 and March 31, 2014 were approved and authorized for issue by the Board of Directors on May 29, 2015.

The Company has interest in mineral properties located in Canada which are presently at the exploration and evaluation stage. Until it is determined that properties contain mineral reserves or resources that can be economically mined, they are classified as exploration and evaluation assets.

For the three months ended March 31, 2015, the Company generated a net loss of \$8,057 (for the three months ended March 31, 2014 – net income of \$40,902), the deficit as at March 31, 2015 amounted to \$5,542,287 (\$5,534,230 as at December 31, 2014) and negative cash flow from operations amounted to \$495 (positive cash flow from operations amounted to \$45,804 as at March 31, 2014).

Management estimates that the funds available as at March 31, 2015 will not be sufficient to meet the Company's obligations and budgeted expenditures through December 31, 2015. The Company will have to raise additional funds to continue operations. The Company is pursuing financing alternatives to fund its operations and to continue its activities as a going concern. Although there is no assurance that the Company will be successful in these actions, management is confident that it will be able to secure the necessary financing through the issuance of new debt and equity. While it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

Although these condensed interim consolidated financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, the above-noted facts and circumstances cast significant doubt on the Company's ability to continue as a going concern.

These condensed interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities, to the reported revenues and expenses and to the financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material.

2. BASIS OF PREPARATION

a) Basis of Presentation and Measurement

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB") and under the historical cost method, except for certain financial instruments measured at fair value.

These unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the years ended December 31, 2014 and December 31, 2013 which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies and methods adopted are consistent with those disclosed in Note 3 to the Company's consolidated financial statements for the years ended December 31, 2014 and December 31, 2013.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the interim consolidated financial statements are disclosed in note 4 of the Company's consolidated financial statements as at and for the years ended December 31, 2014 and December 31, 2013.

Platinex Inc.

Notes to the Condensed Interim Consolidated Financial Statements

For the Three Months Ended March 31, 2015 and March 31, 2014

3. EXPLORATION AND EVALUATION ASSETS

	Shining Tree	South McFaulds	Total
Balance at December 31, 2013	\$ 1,723,083	\$ 0	\$ 1,723,083
Exploration costs	0	0	0
Impairment loss	0	0	0
Balance at December 31, 2014	\$ 1,723,083	\$ 0	\$ 1,723,083
Exploration costs	0	0	0
Impairment loss	0	0	0
Balance at March 31, 2015	\$ 1,723,083	\$ 0	\$ 1,723,083

a) Shining Tree Property, Ontario

In 2011 the Company vested an option agreement with Skead Holdings Ltd., with respect to 139 claim units (5,680 acres or 2,299 ha), situated in Churchill, MacMurphy and Asquith Townships in Ontario (the "Shining Tree property"). The Company now holds a 100% interest in the claims subject to a 3% NSR and subject to advance royalty payments of \$10,000 per year commencing in April 2013; the agreement has been amended to defer the payment commencement to October 11, 2014. The 3% NSR may be reduced by payment of \$400,000 for each 0.5% NSR purchased to a maximum of 1.5% NSR. If the optionor wishes to sell the royalty interest the Company retains a right of first refusal to purchase the NSR. On May 10, 2012 the Company acquired a lease (40 acres, 16 ha) from Gary John McBride for 200,000 shares of the Company. The lease is central to the Shining Tree property.

The Company SEDAR-filed its NI 43-101 technical report dated October 2, 2008, by J.G. Bryant and D. Jamieson (the "Report") which examines the Herrick gold deposit on Shining Tree property and seven other known gold prospects, some of which have been explored underground. The Report qualifies the sampling and drilling work by Unocal (1989) and Fort Knox (1990) compliant with NI 43-101 standards.

In October 2010, the Company entered into an agreement with Canadian Prospecting Ventures ("CPV") to acquire an option on twelve claim units for 474 acres (192ha) adjoining the Shining Tree claims acquired from Skead Holdings Ltd. The CPV option was allowed to lapse in the second quarter of 2012.

Since commencement of exploration in 2008, an airborne geophysical survey, stripping, trenching, sampling, induced polarization and magnetometer surveys, glacial till sampling and the drilling of 64 holes for a total of 8,393 m have been completed. A provincially significant anomaly comprising high counts of gold grains and nuggets has been defined covering a large portion of the property and the geological interpretation of this feature is that it has been generated by nearby sources, not necessarily but probably, underlying the Shining Tree property. Channel and composite grab sampling of 72 sections covering a length of 361 m of the Herrick deposit averages 6.98 g/t Au / 1.9 m average true width. Fifty nine qualified drill holes along the same length to a depth of 300m returned average grades from the Central Zone of 2.16 g/t Au / 2.9 m true width. One of the deeper holes returned a 46.1 m mineralized section indicating that the zone is thickening with depth.

b) South McFaulds, Ontario

The South McFaulds property is located 25 km southwest of Noront Resources' Eagle One and Double Eagle nickel-copper-PGE and Black Bird chromitite discoveries. This property initially comprised 142 claim units in three claim blocks covering 2,340 ha (5,680 acres). The property adjoins a block held by MacDonald Mines on the northeast. James Bay Resources holds blocks of claims within and to the north of the Company holdings. The Company's property was staked to cover a layered intrusion that is coupled with magnetic anomalies and the projected strike extension to the southwest of the host environment for the Noront discoveries evidenced in outcrop on the property; all of which have been recently revealed in survey publications by the Ontario government. The property is also centered on, and in part marginal to, a regional gravity anomaly. A qualifying report was filed on this property in May, 2011 and an airborne geophysical program was carried out in September, 2011. After filing the report low priority portions of the property were allowed to lapse. This exploration work has enabled the Company to keep portions of the property in good standing until February 2015 when two blocks of claims on the South McFaulds property comprising 112 claim units for 1,696ha expired leaving one claim block with 480ha in good standing.

Platinex Inc.

Notes to the Condensed Interim Consolidated Financial Statements

For the Three Months Ended March 31, 2015 and March 31, 2014

3. EXPLORATION AND EVALUATION ASSETS

c) Gain on Sale of NSR Royalty

On December 2012, the Company sold the Ivanhoe property to Probe Mines Ltd. for a \$100,000 cash payment, 50,000 shares of Probe and a 1.5% NSR royalty on future production. On March 24, 2014, Platinex sold the 1.5% NSR royalty to Probe Mines for \$50,000.

d) Impairment

Due to the Company's going concern issue as described in Note 1, as well as the inability to raise the funding requirements necessary to realize and generate future cash flows from all of the CGU's within the exploration and evaluation assets, the Company completed an impairment review on the exploration and evaluation assets as of December 31, 2013. The impairment review compared the carrying value of the different CGU's within the exploration and evaluation assets to their recoverable amounts. Carrying value was calculated for each CGU as the deemed cost at the statement of financial position date. The recoverable amounts were estimated using the greater of their value in use ("VIU") and their fair market value. VIU was significantly impacted due to the increased risks associated with the funding requirements necessary to realize and generate future cash flows from all of the CGU's within the exploration and evaluation assets. Fair market value of the assets was based on the Company's closing market price of its common stock as of December 31, 2013, adjusted for net working capital items. As a result, it was determined that under fair market value, there was an impairment on the carrying value of all of the CGU's within the exploration and evaluation assets of approximately \$1,999,821 and is the total impairment expense for the year ended December 31, 2013

c) On August 11, 2014, Rubicon Minerals Corporation agreed to grant the Company a four year option to purchase a one hundred percent (100%) undivided interest in 10 unpatented mining claims, subject to a 1.5% NSR, in exchange for 800,000 common shares of Platinex and \$70,350 to be paid by the fourth anniversary according to a prescribed payment schedule. An initial issuance of 200,000 common shares recorded at the fair market value of \$0.01 per share was made on August 19, 2014 and the first payment for \$7,350 was to be made on the earlier of four months after signing or receipt of drilling permits and exploration financing; the payment is in arrears as at May 29, 2015. The property comprises 10 claim units covering 1,504 hectares of the Nabish Lake mafic intrusive complex.

For the Three Months Ended March 31, 2015 and March 31, 2014

6. SHARE BASED PAYMENTS CONT'D

b) Share Purchase Options

In October 2005, the Company's Board of Directors approved a new stock option plan. Under the terms of the Company's new stock option plan, a maximum of 10% of the issued and outstanding common shares have been reserved for issuance to the Company's directors, officers, employees and eligible consultants. The new stock option plan was approved by the Company's non participatory shareholders on May 24, 2006 and each successive year at the Annual General Meeting.

On April 30, 2014, in exchange for extending the time for payment of an advance royalty payment of \$21,500 the Company agreed to grant Skead Holdings Ltd 100,000 options with a five year term and an exercise price of \$0.10 per share. On May 21, 2014, the Company revised this exercise price to \$0.05 per share.

On May 21, 2014, the Company agreed to grant 1,500,000 options with a five year term at an exercise price of \$0.05 to the directors of the Company; the options have not been issued as of May 29, 2015.

The following is a summary of changes in options from January 1, 2014 to December 31, 2014

Platinex Inc.

Notes to the Condensed Interim Consolidated Financial Statements
Unaudited - Expressed in Canadian Dollars
For the Three Months Ended March 31, 2015 and March 31, 2014

7. RELATED PARTY TRANSACTIONS

Remuneration of directors and key management personnel during the three months ended March 31, 2015 and March 31, 2014 was:

	Three Months Ended	
	March 31, 2015	March 31, 2014
Management salaries and fees	\$ 0	\$ 0

At March 31, 2015, liabilities included \$322,816 (December 31, 2014 - \$318,990) due to related parties; these payments have been deferred until such time as the Company completes a financing in sufficient amount to ensure that the Company has adequate working capital.

8. BASIC AND FULLY DILUTED EARNINGS PER SHARE

The following table sets forth the calculation of the basic and diluted earnings per share:

	Three Months Ended	
	March 31, 2015	March 31, 2014
Basic earnings available to common shareholders	\$ 8,057	\$ 40,902
Weighted average number of common shares outstanding basic	52,209,326	52,009,326
Basic earnings (loss) per share	\$ 0.0002	\$ 0.0008
Weighted average number of common shares outstanding	52,209,326	52,009,326
Assumed exercise of outstanding dilutive options and warrants	3,630,000	3,630,000
Shares purchased from proceeds of assumed exercise options and warrants	(92,310,000)	(25,950,000)
Weighted average number of common shares outstanding - diluted	-	29,689,326
Basic and diluted earnings (loss) per share	\$ 0.0002	\$ 0.0008

The effects of the stock options for the three months ended March 31, 2015 and 2014 have been excluded from the calculations of diluted earnings per share as it would be anti-dilutive.

9. PROVISIONS

The Company has agreed to indemnify certain subscribers of current and previous flow-through share offerings against any income tax payable by the subscriber in the event the Company does not meet its expenditure commitments.

During the years 2005 to 2008, the Company issued flow-through common shares for gross proceeds of \$1,550,000 from private placement offerings of securities. In accordance with the terms of these flow-through share offerings and pursuant to certain provisions of the Income Tax Act (Canada) (the "Act"), the Company renounced for income tax purposes these exploration expenditures and was obligated to spend these funds on Qualifying Canadian Exploration Expenditures ("CEE").

Following an audit by Canada Revenue Agency ("CRA") of the Company's CEE for 2005 to 2008 which was substantially completed prior to December 31, 2011, the CRA took the position that only \$590,801 of flow-through proceeds was spent on CEE. On this basis, the remainder of \$959,199 was potentially subject to tax in accordance with Part XII.6 of the Act and, together with related penalties and interest, \$191,340 was included in accrued liabilities as at December 31, 2011. On April 4, 2012, CRA issued Notices of Assessment and Reassessment to the Company totaling \$191,340 including penalties and interest which was included in accrued liabilities. The Company filed Notices of Objection to dispute CRA's interpretation and the validity of the Notices of Assessment and Reassessment.

Platinex Inc.

Notes to the Condensed Interim Consolidated Financial Statements
Unaudited - Expressed in Canadian Dollars
For the Three Months Ended March 31, 2015 and March 31, 2014

9. PROVISIONS CONT'D

In accordance with the terms of subscription agreements with certain purchasers of flow-through shares, the Company agreed to indemnify such investors for an amount equal to the amount of any income tax payable, or income tax that may become payable, by the purchaser, under the Act, as a result of any reduction of previously renounced CEE. The Company also estimated the potential liability resulting from any claims which may arise as a result of possible reassessments denying CEE claimed by investors in 2005 to 2008 to be \$633,071 which was included in accrued liabilities as at December 31, 2013.

On January 29, 2015 the CRA Appeals Division accepted the Company's position taken in its Notices of Objection and therefore the Company has reversed the estimated shareholder indemnification liability of \$633,071 and has adjusted the Part XII.6 tax accordingly.
