1. NATURE OF OPERATIONS AND GOING CONCERN

Platinex Inc., which together with its subsidiaries is collectively referred to as the "Company" or "Platinex", is a Canadian company whose business activity is the exploration and evaluation of mineral properties in Canada. Platinex was incorporated under the Ontario Business Corporations Act on August 12, 1998.

Until March 22, 2017, the Company was listed on the TSX Venture Exchange, having the symbol PTX-V, as a Tier 2 mining issuer. Effective March 23, 2017, the Company is listed on the Canadian Securities Exchange, having the symbol PTX. The address of the Company's corporate office and principal place of business is 807-20 William Roe Blvd., Newmarket, Ontario, L3Y 5V8, Canada.

These unaudited condensed interim consolidated financial statements were approved and authorized for issue by the Board of Directors on August 28, 2019.

For the six months ended June 30, 2019, the Company generated a net loss of \$98,810 (six months ended June 30, 2018 - \$618,632), has an accumulated deficit of \$10,316,101 as at June 30, 2019 (December 31, 2018 - \$10,217,291) and has negative cash flow from operations amounting to \$6,418 (six months ended June 30, 2018 - \$506,147).

Management estimates that the funds available as at June 30, 2019 will not be sufficient to meet the Company's obligations and budgeted expenditures through December 31, 2019. The Company will have to raise additional funds to continue operations. The Company is pursuing financing alternatives to fund its operations and to continue its activities as a going concern. Although there is no assurance that the Company will be successful in these actions, management is confident that it will be able to secure the necessary financing through the issuance of new debt and equity. While it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future.

Although these consolidated financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, the above-noted facts and circumstances are material uncertainties which may cast significant doubt on the Company's ability to continue as a going concern.

These unaudited condensed interim consolidated financial statements do not reflect the adjustments to the carrying amounts of assets and liabilities, to the reported expenses and to the financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material.

2. BASIS OF PREPARATION

Basis of Presentation and Measurement

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB") and under the historical cost method, except for certain financial instruments measured at fair value.

These unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the years ended December 31, 2018 and December 31, 2017 which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies and methods adopted are consistent with those disclosed in Note 3 to the Company's consolidated financial statements for the years ended December 31, 2018 and 2017.

2. BASIS OF PREPARATION (Continued)

Basis of Presentation and Measurement (continued)

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the interim consolidated financial statements are disclosed in note 4 of the Company's consolidated financial statements as at and for the years ended December 31, 2018 and 2017.

New accounting policies

Leases ("IFRS 16")

IFRS 16 was issued in January 2016 and replaces IAS 17 – Leases as well as some lease related interpretations. With certain exceptions for leases under twelve months in length or for assets of low value, IFRS 16 states that upon lease commencement a lessee recognises a right-of-use asset and a lease liability. The right-of-use asset is initially measured at the amount of the liability plus any initial direct costs. After lease commencement, the lessee shall measure the right-of-use asset at cost less accumulated depreciation and accumulated impairment. A lessee shall either apply IFRS 16 with full retrospective effect or alternatively not restate comparative information but recognise the cumulative effect of initially applying IFRS 16 as an adjustment to opening equity at the date of initial application. IFRS 16 requires that lessors classify each lease as an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Otherwise it is an operating lease. The application of the new standard had no impact on the unaudited condensed interim consolidated financial statements as at June 30, 2019.

Uncertainty over Income Tax Treatments ("IFRIC 23")

The Company adopted IFRIC 23 on January 1, 2019 on a modified retrospective basis without restatement of comparative information. The interpretation requires an entity to assess whether it is probable that a tax authority will accept an uncertain tax treatment used, or proposed to be used, by an entity in its income tax filings and to exercise judgment in determining whether each tax treatment should be considered independently or whether some tax treatments should be considered together. The decision should be based on which approach provides better predictions of the resolution of the uncertainty. An entity also has to consider whether it is probable that the relevant authority will accept each tax treatment, or group of tax treatments, assuming that the taxation authority with the right to examine any amounts reported to it will examine those amounts and will have full knowledge of all relevant information when doing so. The adoption of the new standard had no impact on the unaudited condensed interim consolidated financial statements as at June 30, 2019.

Business Combinations ("IFRS 3")

In October 2018, the IASB issued an amendment to IFRS 3, effective for annual periods beginning on or after January 1, 2020 with early adoption permitted. The amendment clarifies that a business must include, at minimum, an input and a substantive process that together contribute to the ability to create outputs, and assists companies in determining whether an acquisition is a business combination or an acquisition of a group of assets by providing supplemental guidance for assessing whether an acquired process is substantive. The Company has decided to early adopt the amendments to IFRS 3 effective January 1, 2019 and shall apply the amended standard in assessing business combinations on a prospective basis. For acquisitions that are determined to be acquisitions of assets as opposed to business combinations, the Company allocates the transaction price to the individual identifiable assets acquired and liabilities assumed on the basis of their relative fair values, and no goodwill is recognized. Acquisitions that continue to meet the definition of a business combination are accounted for under the acquisition method, without any changes to the Company's accounting policy. There was no impact on the Company's unaudited condensed interim consolidated financial statements.

Further Platinex may eliminate the requirement for future advance royalty payments by making a one-time advance royalty payment of \$100,000. On May 10, 2012, the Company acquired a lease (40 acres, 16 ha) from Gary John McBride for 200,000 shares of the Company. The lease is central to the Shining Tree property.

Platinex has entered into an option agreement with Skead Holdings Ltd. and Ashley Gold Mines Limited, with respect to certain claims situated in Churchill, MacMurchy and Asquith Townships, in Ontario. Platinex has the right to acquire a 100% interest in the 54 claim units and a 50% interest in a further 8 claim units (991 ha or 2,480 acres), subject to a 2% NSR, by issuing 200,000 shares of Platinex (issued in 2016), and by making cash payments (or share equivalent) of \$95,000 and by incurring property expenditures of \$500,000 during the ensuing four-year period to August 17, 2020. The option is currently in arrears by \$25,000. Platinex also entered into an agreement with two prospectors to purchase a 100% interest in four claims comprising 20 claim units (320 ha or 800 acres) in Churchill, MacMurchy and Asquith Townships, in Ontario by issuing 400,000 shares of Platinex (issued in 2016). 11. SUBSEQUENT EVENTS

(i) On June 10, 2019, the Company announced that it entered into a non-binding letter of intent ("LOI") to acquire InLove Corp. ("InLove").

At a later date, and subject to receiving requisite approvals, the parties will enter into a binding definitive agreement (the "Definitive Agreement") whereby Platinex shall purchase all the issued and outstanding securities of InLove (the "Acquisition"). In consideration for Acquisition at closing, Platinex shall issue the following to securityholders of InLove (the "Transaction Consideration"):

- (a) 60,000,000 common shares in the capital of Platinex ("Platinex Shares");
- (b) 20,000,000 Series A Performance Warrants, which shall be convertible into a corresponding number of Platinex Shares upon InLove achieving trailing sales of a minimum of \$1,000,000 by the second anniversary of completion of the Acquisition (the "Initial Milestone");
- (c) 20,000,000 Series B Performance Warrants convertible into a corresponding number of Platinex Shares upon InLove achieving additional trailing sales of a minimum of \$1,000,000 in the 18 month period commencing from the earlier of the achievement of the Initial Milestone and the second anniversary of completion of the Acquisition, and expiring 42 months from the completion of the Acquisition; and
- (d) Securities to replace securities issued in the Concurrent Financing.

The Acquisition will be subject to a number of conditions, including but not limited to the following ("Conditions Precedent"): i) due diligence from each; ii) entering into a Definitive Agreement; iii) obtaining approval of the Acquisition by InLove shareholders (if required); iv) Platinex obtaining requisite CSE and shareholder approvals to complete the Change of Business ("COB") and completing the COB; v) Platinex completing a financing in the minimum amount of \$500,000; vi) InLove completing a Concurrent Financing (as hereinafter defined); vii) InLove completing and delivering a financial audit; viii) parties completing all required consents and approvals to consummate the Acquisition; and ix) InLove securing certain rights, intellectual property and consulting agreements with key management. The terms of the Acquisition shall be set forth in their entirety in the Definitive Agreement.

Prior to completion of the Acquisition, InLove is expected to complete an equity financing of at least \$750,000 to a maximum of \$2.5 million ("Concurrent Financing") and the securities issued pursuant to the Concurrent Transaction will be acquired by Platinex as a part of Transaction Consideration, in exchange for corresponding securities of Platinex.

The proposed Acquisition does not constitute a related-party transaction under the meaning of MI61-101 Protection of Minority Security Holders in Special Transactions, and, accordingly, shareholder approval is not expected to be required in connection with the Acquisition by the Platinex shareholders. The Acquisition is not a non-arm's length transaction. There are no finder's fees to be paid in connection with the Acquisition.

As a part of the Acquisition and subject to completion of the Platinex Financing and any regulatory approval, Platinex has agreed to provide InLove with a secured loan of a minimum of \$200,000 and up to \$500,000, provided that none of the proceeds of the loan will be used to conduct regulated cannabis business prior to Platinex completing the COB. The full terms of the loan will be determined at the time the loan is advanced, provided that the loan shall be automatically repayable if the LOI is terminated or the COB is not approved by the CSE or by the Company's shareholders.

The LOI may be terminated by mutual written consent of Platinex and InLove, upon written notice if the Definitive Agreement has not been executed prior to August 15, 2019 or if either party at its sole discretion is not satisfied with its due diligence review of the other party by August 15, 2019.

On August 23, 2019, the Company announced that due to market conditions, Platinex and InLove have decided to mutually terminate the LOI.

(ii) On August 23, 2019, the Company announced that the Board of Directors has decided not to proceed with the intended change of business to become a cannabis issuer and focus the Company's resources on advancing its portfolio of mining assets.

11. SUBSEQUENT EVENTS (continued)

(iii) On August 23, 2019, the Company announced that it had applied for and was granted relief to the Canadian Securities Exchange's minimum price rule. Accordingly, the Company has amended the terms of its proposed non-brokered private placement offering (the "Private Placement") of units of the Company ("Units") previously announced on May 23, 2019 to decrease the Unit offering price to \$0.03 per Unit, for gross proceeds of up to \$250,000.

Each Unit will consist of one common share of the Company (a "Common Share"); and one common share purchase warrant (a "Warrant"). Each Warrant will entitle the holder to acquire one additional Common Share at an exercise price of \$0.075 for a period of 24 months from issuance.

The Company may pay finder's fees in cash to certain qualified eligible persons assisting the Company in the Private Placement in an amount equal to 8% of the gross proceeds raised by such finders. The Company may also issue such number of finder warrants (the "Finder Warrants") to qualified eligible persons as is equal to 8% of the aggregate number of Units purchased by subscribers introduced to the Company by such finders. Each Finder Warrant will entitle the holder to acquire one Common Share at an exercise price of \$0.05 for a period of 12 months from issuance.

Closing of the Private Placement is subject to customary conditions and regulatory approvals. The pricing of the Private Placement is in reliance on the temporary relief measures established by the CSE, and therefore the Private Placement and pricing of the Private Placement require approval of the CSE.

All securities issued as part of the Private Placement will be subject to a four month and one day hold period.

On August 26, 2019, the Company completed an interim closing of 3,333,332 Units for aggregate gross proceeds of \$100,000.
