

**FOR IMMEDIATE RELEASE**

## Platinex Closes \$1.5 Million Flow Through Financing

**Toronto, Ontario, December 13, 2023** – Platinex Inc. (CSE: PTX, OTCQB: PANXF, Frankfurt: 9PX) (“Platinex” or the “Company”) is pleased to announce that the Company has closed a \$1,520,000 flow through financing (the “FT Offering”) of which \$525,000 had been previously closed (see press release dated November 27, 2023). The Company anticipates closing a final tranche of the FT Offering in the next few days.

The financing consists of an issuance of 17,375,000 flow through common shares at a price of C\$0.04 per share (“FT common share”). Each FT common share comprises one common share of the Company.

The Company will use the gross proceeds of the FT Offering to fund eligible Canadian exploration expenses associated with the W2 Copper Nickel PGE Project that qualify as “flow-through critical mineral mining expenditures”, as defined in the Income Tax Act (Canada), on or before December 31, 2024. Platinex will renounce benefits of all qualifying expenditures in favour of the subscribers effective December 31, 2023.

All securities issued in connection with this FT Offering are subject to a four month plus one day hold period from the Closing Date in accordance with applicable securities laws.

The closing of the FT Offering is subject to certain conditions including, but not limited to, receipt of all necessary regulatory approvals. The Company may pay finder's fees to eligible finders in connection with the Offering.

### **About the W2 Copper Nickel PGE Project**

W2 is a district scale land package encompassing 1,122 cell units covering 22,094 ha (220 km<sup>2</sup>) in an area of world-class geological targets located in the Oxford Stull Dome Complex near Ontario’s famous “Ring of Fire”. W2 controls the mineral-rich and under-explored, layered mafic-ultramafic Lansdowne House Igneous Complex (“LHIC”), which is highly prospective for copper-nickel (Cu-Ni), platinum group element (PGE), gold and chromite deposits. The common thread of strong Cu-Ni-PGE, Cr and Ti-V mineralization in the mafic- ultramafic intrusions ringing the Oxford Stull Dome is suggestive of a common source, a very large magmatic system, and therefore a potential significant abundance of metals in each intrusion.

Historical work, including approximately 20,000 metres of drilling in the W2 area by operators such as INCO and Aurora Platinum, has delineated at least seven significant mineralized zones within a 7.5 km

long folded corridor near the centre of the land package. Additionally, VTEM and AeroTEM II airborne geophysical surveys have identified multiple high-priority conductors in the eastern section of the property which have yet to be drill tested.

**About Platinex Inc.**

Platinex Inc. creates shareholder value through the opportunistic acquisition and advancement of high-quality projects in prolific Canadian mining camps. Current assets include a 100% ownership interest in the W2 Copper-Nickel-PGE Project near the “Ring of Fire” in northern Ontario; as well as a 75% interest in the South Timmins Mining joint venture with Fancamp Exploration, which is focused on gold exploration along the Ridout-Tyrell Deformation Zone near IAMGOLD’s Côte Gold operation in the southwest Abitibi.

Platinex also has a majority ownership in Green Canada Corporation, which holds uranium assets in Saskatchewan, Ontario and Quebec, as well as an option to earn a 100% ownership interest in the Muskrat Dam Critical Minerals Project in northwestern Ontario. In addition to its mineral exploration assets, Platinex holds a portfolio of net smelter return (NSR) royalties on gold, PGE, and base metal properties in Ontario.

Having put together a strong and diversified project portfolio and an expert technical team, the Company is focused on comprehensively exploring and evaluating each project to maximize shareholder value. Platinex is based in Toronto, Canada, with a primary listing on the Canadian Securities Exchange under the symbol PTX. The company is also listed in Frankfurt under the symbol 9PF and on the OTCQB in the United States as PANXF.
