### Renforth’s West Malartic Gold Property Update

**Renforth Resources Inc. (CSE – RFR) (OTC Pink – RFHRE)** (“Renforth” or the “Company”) is pleased to announce that our wholly owned West Malartic Property, 53 km<sup>2</sup>, gold bearing and contiguous to the Canadian Malartic Mine, is no longer under option. The option was entered into with a very specific exploration mandate focussed on the central part of the property, which was not met, however, the exploration work carried out on the property was filed for work declaration and will keep the claims in good standing for a period of time.

“I am happy to receive our West Malartic Property back and feel shareholders should be also. Interesting results and important new information were generated in the option process and Renforth benefits from having work filed on the property without any dilution occurring. We now have the opportunity to integrate this new data and focus on known gold on the property, which was not looked at under the option” states Nicole Brewster, President and CEO of Renforth.
