

## **Renforth Resources Inc. Private Placement and Town Hall Webinar**

PICKERING, Ontario, November 5, 2024 -- [Renforth Resources Inc. \(CSE: RFR\) \(OTCQB: RFHRF\) \(FSE: 9RR\)](#) ("Renforth" or the "Company"), an active mineral exploration company engaged in the exploration and development of multi-commodity mineral properties in Canada, today advises shareholders of a non-brokered private placement and a virtual Town Hall shareholders, or other interested parties, are invited to attend, details of both are below.

### **Private Placement**

Renforth is, on a best efforts non-brokered basis, raising \$250,000 in flow through for exploration spending on our Malartic Metals Package ("MMP") property. The financing is through the sale of units priced at 2 cents per unit, each unit consisting of a share issued on a flow through basis and one half of one common share purchase warrant. A full warrant can be exercised at a price of 5 cents for a period of 36 months subsequent to closing in order to purchase one common share. The MMP is located between the established mining centres of Rouyn-Noranda and Val d'Or Quebec, south of the Cadillac Break and contiguous to the Canadian Malartic Mine property. The MMP is wholly owned and unencumbered, boasts road access, hydro-electric powerlines and a nearby rail line. The property hosts several occurrences of battery minerals, with the most work done on the Victoria polymetallic system, made up of two mineralized bodies hosting nickel/cobalt/platinum and palladium, interlayered with zinc/copper/silver and gold, stretching across the centre of the property and over approximately 20km. In addition other mineralization includes Lalonde, a similar structure located 4km to the north, the Beaupré copper/silver discovery in the north part of the property and, to the south of Victoria, an unnamed anomalous lithium and rare elements occurrence near the fertile Decelles batholith.

### **Virtual Town Hall**

Nicole Brewster will host a virtual Town Hall on Thursday Nov. 7th 2024 at 7pm ET, attendance is open to all via registration using the link below. A recap of 2024 developments for the MMP and Parbec gold deposit will be presented and an outline of upcoming exploration plans.
