LIQUIDITY AND CAPITAL RESOURCES

The Company does not currently have an adequate source of reliable, long-term revenue to fund operations. As a result, the Company is reliant on outside sources of funding. There can be no assurances that the Company will in the future achieve a consistent and reliable revenue stream adequate to support continued operations in the future. In addition, there are no assurances that the Company will be able to

secure adequate sources of new capital, whether it be in the form of capital, debt, or other financing sources.

The future cash requirements of the Company will be dependant on the Company's success in identifying an acquisition or otherwise establishing or renewing operations. The Company's ability to develop and maintain a new financially viable business plan is uncertain.

Working capital on May 31, 2013, was \$95,089 compared to working capital of \$207,369 as at August 31, 2012. The decrease in working capital was due to operation expenses which were incurred for the Company to move forward.

In the period ended May 31, 2013, the Company generated negative cash outflow of \$28,238 compared to negative cash outflow of \$30,711 in the prior year. This decrease in negative cash flow is as a result of an decrease in operational expenses.

As at May 31, 2013, the Company had the following contractual obligations.

Contractual Obligation	Total	Less than 1 year	1 – 3 years	More than 3 years
Management agreements (1)	\$2,500	\$2,500	\$-	\$-
Employment contracts (2)	\$2,000	\$2,000	\$-	\$-

PROPOSED TRANSACTIONS

The Company continues to seek to strengthen its board of directors and management, to find new business opportunities, and to raise capital.

SUBSEQUENT EVENTS

There are no subsequent events.

CRITICAL ACCOUNTING ESTIMATES

The Company has no active operations at this time other than analyzing various opportunities in which to invest its capital. Therefore currently the Company does not have any critical accounting estimates.

RECENT ACCOUNTING PRONOUNCEMENTS

This listing is of standards and interpretations issued, which the Company reasonably expects to be applicable at a future date. The Company intends to adopt these standards when they become effective. The following pronouncements are being assessed to determine their impact on the Company's results and financial position:

(a) IFRS 9, Financial Instruments - Classification and Measurement ("IFRS 9"):

IFRS 9 reflects the first phase of IASB's work on the replacement of IAS 39 - Financial Instruments, Recognition and Measurement, and deals with the classification and measurement of financial assets and financial liabilities. This standard establishes two primary measurement categories for financial assets, amortized cost and fair value, and eliminates the existing categories of held-to-maturity, available-for-sale, and loans and receivables. The new classification will depend on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is effective for annual periods beginning on or after January 1, 2013.

(b) IFRS 10, Consolidated Financial Statements:

The amendment establishes a single control model that applies to all entities. These changes will require management to exercise significant judgment to determine which entities are controlled and, therefore, are required to be consolidated by a parent, compared with the former requirements. The amendment becomes effective for annual periods beginning on or after January 1, 2013.

(c) IFRS 13, Fair Value Measurement:

In May 2011, the IASB published IFRS 13 - Fair Value Measurement, which is effective prospectively for annual periods beginning on or after January 1, 2013. IFRS 13 replaces the fair value measurement guidance contained in individual IFRS with a single source of fair value measurement guidance. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, i.e., an exit price. The standard also establishes a framework for measuring fair value and sets out disclosure requirements for fair value measurements to provide information that enables financial statement users to assess the methods and inputs used to develop fair value measurements and, for recurring fair value measurements that use significant unobservable inputs (Level 3), the effect of the measurements on profit or loss or other comprehensive income. IFRS 13 explains "how" to measure fair value when it is required or permitted by other IFRS.

(d) IAS 1, Presentation of Financial Statements ("IAS 1"):

The IASB amended IAS 1 by revising how certain items are presented in other comprehensive income ("OCI"). Items within OCI that may be reclassified to profit and loss will be separated from items that will not. The standard is effective for financial years beginning on or after July 1, 2012, with early adoption permitted. The Company is in the process of reviewing the standard to determine the impact on the consolidated financial statements.

FINANCIAL INSTRUMENTS AND OTHER INSTRUMENTS

The Company does not have any financial instruments, other than cash deposited with a reputable banking institution.

RISKS AND UNCERTAINTIES

Political and Regulatory Risk

Failure to comply with applicable laws, regulations, and permitting requirements may result in enforcement actions thereunder. These may include responding to orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions.

Limited Operational History

The Company does not have any significant operations. As a result, there is no assurance that the Company will earn profits in the future or that profitability, if achieved, will be sustained.

Additional Financing

The Company will require additional financing in order to make further developments or take advantage of unanticipated opportunities. The ability of the Company to arrange such financing will depend in part upon prevailing capital market conditions as well as the business performance of the Company. There can be no assurance that the Company will be successful in its efforts to arrange additional financing on terms satisfactory to it. If additional financing is raised by the issuance of shares from treasury, control of the Company may change and shareholders may suffer dilution. If adequate funds are not available or are not available on acceptable terms, the Company may not be able to take advantage of opportunities or otherwise respond to competitive pressures and remain in business.

Key Personnel and Future Staffing Requirements

The Company's success will also be dependent on its ability to identify, recruit, motivate and retain highly qualified executive, management and technical support.

Price Volatility of Public Stock

In recent years, the securities markets in the United States and Canada have experienced a high level of price and volume volatility, and the market price of securities of many companies, particularly those considered to be development stage companies, have experienced wide fluctuations in price which have not necessarily been related to the operating performance or underlying net asset values of such companies.
