SIERRA GRANDE MINERALS INC.

Notes to the Condensed Consolidated Interim Financial Statements Three and Six Months Ended June 30, 2022 and 2021 (Unaudited - Expressed in Canadian dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Sierra Grande Minerals Inc. was incorporated under the laws of the province of Ontario on November 17, 1994. On June 19, 2009, the Company completed a continuance of business from Ontario to British Columbia.

The Company is listed on the Canadian Securities Exchange (“CSE”) under the symbol “GVG” as well as on the Berlin and Frankfurt stock exchanges in Germany under the symbol “F91Q”. Commencing June 18, 2021, the Company’s shares began to trade on the OTCQB Venture Market (“OTCQB”) in the United States under the symbol “SIERF”.

The head office, principal address and records office of the Company are 9648-128th Street, Suite 210, Surrey, BC V3T 2X9.

These condensed consolidated interim financial statements have been prepared on the assumption that the Company and its subsidiaries will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The Company had not advanced its mining properties to commercial production and has incurred operating losses since inception of its business. The Company’s continuation as a going concern is dependent upon the successful results from its exploration, its ability to attain profitable operations and generate funds from equity, and debt financing to meet its obligations. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company’s ability to continue as a going concern. Management intends to finance operating costs over the next twelve months with private placements and debt financing from related parties. Should the Company be unable to continue as going concern, the net realizable value of its assets may be materially less than the amounts on its consolidated statement of financial position.

In March of 2020, the World Health Organization declared an outbreak of COVID-19 Global pandemic. The COVID-19 has impacted vast array of businesses through the restrictions put in place by most governments internationally, including the Canadian and United States federal government as well as provincial/state and municipal governments, regarding travel, business operations and isolation/quarantine orders. At this time, it is unknown to what extent the impact of the COVID-19 outbreak may have on the Company as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place world-wide to fight the virus. While the extent of the impact is unknown, the COVID-19 outbreak may hinder the Company’s ability to raise financing for exploration or operating costs due to uncertain capital markets, supply chain disruptions, increased government regulations and other unanticipated factors, all of which may also negatively impact the Company’s business and financial condition.

On March 4, 2022, the Company consolidated its common shares on a 5-1 basis. The presentation of number of outstanding shares, loss per share, exercise price of options and warrants have been adjusted retrospectively in these financial statements and accompanying notes.

Authorized share capital: An unlimited number of common and preferred shares without par value

Number of outstanding common shares:

2022

The Company completed a non-brokered private placement in April 2022 for the issuance of 13,585,999 security unit at a price of \$0.15 per unit for gross proceeds of \$2,037,900. Each unit consists of one common share and one common share purchase warrant. Each warrant can be exercised into one common share at a price of \$0.20 per common share for a period of three years from the closing of the Financing. The exercise price of these warrants is subject to a \$0.05 increase in the second and third years of the warrant term. These warrants are further subject to an acceleration clause, whereby after the first year of the warrant term, if the Company’s common shares trade or close at \$0.60 per share or higher, the Company has the right to accelerate the warrants for exercise within 30 days of an exercise notice. These units are subject to a one-year hold period.

The Company applied residual method and allocated a value of \$Nil to the warrants issued.

5. SHARE CAPITAL (Continued)

2021

In February, 2021, the Company completed a private placement and issued 2,503,800 units and received net proceeds of \$743,640 (gross proceeds of \$751,140 net of issuance cost of \$7,500). Each unit consists of one common share and one warrant, exercisable at \$0.40 for two years after closing, subject to an accelerated 30-day expiry date in the event the Company's shares trade at or above \$1.25 for 10 consecutive days. The Company applied residual method and allocated \$Nil to the warrant reserve to account for the issuance of these warrants.

Stock Option :

The option reserve records items recognized as stock-based compensation expense and other share-based payments until such time that the stock options are exercised, at which time the corresponding amount is transferred to share capital.

2022

The Company has established a stock option plan whereby a maximum of 10% of the issued and outstanding common shares of the Company may be reserved for issuance pursuant to the exercise of options. The term of the stock options granted is fixed by the Board of Directors and is not to exceed five years. The exercise prices of the stock options granted may not be less than the minimum then specified by the rules of the CSE. Vesting periods are determined by the Board.

There were no options granted, exercised, and expired during six months ended June 30, 2022. Stock options outstanding and exercisable as at June 30, 2022 are as follows:

Exercise price	Number of option outstanding	Expiry date	Number of option exercisable
\$1.25	314,000	13-Apr-23	314,000

The Company recognize share-based compensation of \$2,585 during the six months ended June 30, 2022 (2021 - \$Nil)

2021

On April 13, 2021, the Company granted 314,000 stock options to directors, officers, employees and consultants. The options are exercisable at \$1.25 per share and expire two years from the date of grant. 274,000 options granted were fully vested on April 13, 2021. 40,000 options granted to an investor relation consultant are vested in one year over four quarterly instalments.

The option reserve records items recognized as stock-based compensation expense and other share-based payments until such time that the stock options are exercised, at which time the corresponding amount is transferred to share capital.

7. FINANCIAL RISK AND CAPITAL MANAGEMENT

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits and controlling and reporting structures.

The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is its cash held in bank accounts. Cash is deposited in bank accounts held with major banks in Canada and Peru. As most of the Company's cash is held by two banks, there is a concentration of credit risk. However, this risk is managed by using major banks that are high credit quality financial institutions as determined by rating agencies.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient holdings of cash and cash equivalents to meet its short-term exploration and evaluation requirements and anticipated operating cash flows.

Historically the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

Foreign Exchange Risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company's US exploration activities exposed to currency risk as they incur expenditures that are denominated in US dollars. The Company does not hedge its exposure to fluctuations in foreign exchange rates. As at June 30, 2022, the Company held cash of \$855,000 that was denominated in US dollar. A 10% fluctuation in the US dollar would have an impact of \$85,500 to the Company's loss and comprehensive loss.

Interest Rate Risk

Interest rate risk refers to the risk that fair values of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company does not have material financial assets or liabilities that are exposed to fluctuation of interest rate. As a result, the exposure to interest rate risk is not significant.

7. FINANCIAL RISK AND CAPITAL MANAGEMENT (Continued)

Financial Instruments

The fair value of the Company's assets and liabilities approximate the carrying amount.

The Company's financial instruments consist of cash, amounts receivable, accounts payable, and advance payable. The fair values of these financial instruments approximate their carrying values, unless otherwise noted.

The following summarizes fair value hierarchy under which the Company's financial instruments are valued:

Level 1 – fair values based on unadjusted quoted prices in active markets for identified assets of liabilities;

Level 2 – fair values based on inputs that are observable for the asset or liability, either directly or indirectly; and

Level 3 – fair values based on inputs for the asset or liability that are not based on observable market data.

Cash is measured at fair value using Level 1 input. The carrying balance of accounts payable approximate its fair value due to their short-term nature.

8. CONTINGENCIES

As at June 30, 2022, the Company's subsidiary Minera Grenville S.A.C. was named as a defendant of four administrative claims for \$33,000 (Peru SOLES 103,956). The Company has presented the required defense to dismiss these claims. The financial impacts to the Company are not determinable and the Company has not accrued any expenditure or liability as of the date of this report.
