CORPORATE UPDATE

July 31, 2015: Maxtech Ventures Inc. (CSE:MVT)(FKT:M1NA) (“MVT” or the “Company”) reports that we have been active in our evaluation and selection process for additions to our corporate portfolio. With very stringent criteria, the Maxtech team has sifted through a variety of opportunities in multiple sectors, including the undervalued resource sector.

The Company continues to collaborate with Swiss based Eotheme SARL in the domain of clean tech. The Company's management team, in conjunction with the inventors, intends to approach potential joint venture partners in the wind energy space that could use the Technology to retrofit their existing end-of-life windmills and thereby provide testing and validation of the Technology on an industrial scale.

In an independent study conducted by Swiss engineering firm, Paul Scherrer Institute, the Technology achieved up to an additional 25% energy output versus traditional wind turbine technology, in a wind tunnel environment.

The Company is also engaged in meaningful discussions with both private sector entities and governmental organisations that have expressed interest in this unique value proposition.
