CORPORATE UPDATE

Surrey, British Columbia, September 24, 2015 - Maxtech Ventures Inc. (“Maxtech” or the “Company”) Maxtech is a diversified industries company that has a mandate to identify development stage companies and projects and provide funding via access to capital markets. The Company has identified and completed due diligence on several such projects.

Maxtech now holds in trust one patent relating to Eotheme SARL’s (“Eotheme”) counter rotating wind turbine technology. The Company has entered into an agreement with Eotheme to jointly develop the patented technology. The company also holds a 5 year option to acquire the patent and intellectual property outright.

The Company is pleased to announce that, in conjunction with Eotheme, an updated website has been launched: www.eotheme.com. The website will serve as a beacon of information regarding the technology, patents and the intended development plan. The website showcases the benefit of the technology, which is two rotators of a wind turbine rotating in opposite directions.

Maxtech's President and CEO, Mr. Ayub Khan says: "We are actively engaging with wind farm owners and windmill manufacturers. Our intention is to find a suitable partner and retrofit their end of life windmills with the Eotheme counter rotating wind turbine technology. We are optimistic that our offering will save considerable costs for wind farm operators and increase energy output efficiency. It is hoped that by taking this approach the Company will be able to fast track towards our goal of commercial deployment. In my view, the new website [www.eotheme.com] explains this technology clearly and concisely".

ON BEHALF OF THE BOARD

“Ayub Khan”
Ayub Khan, CEO

This release may include certain statements that may be deemed to be "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. All statements in this release, other than statements of historical facts, that address future production, reserve potential, exploration and development activities and events or developments that the Company expects, are forward-looking statements. Although management believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance, and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, exploration and development successes, continued availability of capital and financing, and general economic, market or business conditions.
