Spark Energy Minerals Inc. (formerly St. Anthony Gold Corp.)**Notes to the Condensed Interim Consolidated Financial Statements****(Unaudited – Prepared by Management)**

For the three months ended October 31, 2022 and October 31, 2021

1. Nature of operations and going concern

Spark Energy Minerals Inc. (formerly St. Anthony Gold Corp.) (the “Company”) was incorporated on April 19, 2000, under the laws of the province of British Columbia, Canada. The Company’s shares are traded on the Canadian Securities Exchange (the “CSE”) under the symbol “STAG”. The Company is in the business of exploration and evaluation of mineral property interests in Ontario and Quebec. Effective December 28, 2022, the Company changed its name to Spark Energy Minerals Inc and effective January 3, 2023, the Company’s shares will begin trading under the new name and under the symbol “EMIN”.

The head office, principal address and records office of the Company are located at 702 - 595 Howe Street, Vancouver, B.C. V6C 2T5.

The Company’s principal business activity is the acquisition, exploration and evaluation of mineral properties. The Company has been exploring its mineral property interests and has not yet determined whether they contain mineral reserves that are economically recoverable. The Company’s continuing operations and the underlying value and recoverability of the amounts shown for mineral property interests are entirely dependent upon the existence of economically recoverable mineral reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of the mineral property interests, obtaining the necessary permits to mine, and on future profitable production or proceeds from the disposition or option of the mineral property interests. The carrying amounts of mineral properties are based on costs incurred to date, and do not necessarily represent present or future values.

These condensed interim consolidated financial statements (the “financial statements”) are prepared on the basis that the Company will continue as a going concern, which assumes that the Company will be able to continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations. The Company does not have revenues and has incurred operating losses since incorporation. As at October 31, 2022, the Company had a working capital deficit of \$358,286 (July 31, 2022 – \$63,706). The Company will continue to seek the funding necessary to enable it to carry on as a going concern, but management cannot provide assurance that the Company will be able to raise additional debt and/or equity capital or conclude a corporate transaction. If the Company is unable to raise additional funds in the immediate future, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures or cease operations. Management is aware in making its assessment of material uncertainties related to events or conditions that may cast significant doubt upon the Company’s ability to continue as a going concern. The Company will continue to seek cost saving measures, project partners, merger/acquisition or financing opportunities where available. These financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

For the three months ended October 31, 2022 and October 31, 2021

2. Significant accounting policies**(a) Basis of presentation**

These financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting, using the same accounting policies as detailed in the Company's annual audited consolidated financial statements for the year ended July 31, 2021, and do not include all the information required for full annual consolidated financial statements in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). It is suggested that these financial statements be read in conjunction with the annual audited consolidated financial statements.

These financial statements have been prepared on an historical cost basis, except for financial instruments which are classified as fair value through profit or loss ("FVTPL"). In addition, these financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

All amounts on these financial statements are presented in Canadian dollars which is the functional currency of the Company.

(b) Standards issued but not yet effective

Certain pronouncements have been issued by the IASB or IFRIC that are effective for accounting periods beginning on or after August 1, 2022. The Company has reviewed these updates and determined that many of these updates are not applicable or consequential to the Company and therefore have been excluded from discussion within these significant accounting policies.

(c) Principles of consolidation

Subsidiaries are entities controlled by the Company and are included in the financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries are changed where necessary to align them with the policies adopted by the Company.

These financial statements include the accounts of the Company and its controlled subsidiaries as follows:

Name	Status	Ownership	Place of Incorporation
Maxtech Mining Zambia Ltd.	Inactive	100%	Zambia
Emerging Minerals Corp. ("Emerging Minerals")	Inactive	53%	BC, Canada
Exercised International Ltd. ("Eotheme")	Inactive	100%	Wyoming, USA

All intercompany balances and transactions between the Company and its subsidiaries have been eliminated on consolidation.

Panama Lake Gold Project

On October 22, 2019, the Company entered into an option agreement with Benton Resources Inc. (“Benton”) to acquire the right to acquire a 100% interest in Benton’s Panama Gold Project in the Red Lake Mining district, Ontario. The purchase and sale of the claims is to be achieved in stages and is conditional upon the following:

- Acceptance for filing of the agreement on behalf of the issuer by the Canadian Securities Exchange (completed);
- The issuance of 2,000,000 shares upon signing the agreement (issued at a fair value of \$170,000 (\$0.085 per share));
- The payment of either \$100,000 cash or the equivalent value in common shares (issued 416,667 common shares at a fair value of \$100,000 (\$0.24 per share)) (note 5(i)) and expenditures by the issuer of \$200,000 (incurred) on the property by the first anniversary; and
- The payment of either \$100,000 cash or the equivalent value in common shares (issued 808,375 common shares at a fair value of \$100,000 (note 5(c)) and expenditures by the issuer of \$250,000 (incurred) on the property by the second anniversary.

At this stage, the Company will have earned an initial 50% interest in the Project. To earn an additional 20% interest, the following is required:

- The payment of either \$100,000 cash or the equivalent value in common shares and expenditures by the issuer of \$250,000 on the property by the third anniversary.

At this stage, the Company will have earned a 70% interest in the Project. To earn the final 30% interest, the following is required:

- The payment of either \$300,000 cash or the equivalent value in common shares and expenditures by the issuer of \$300,000 on the property by the fourth anniversary.

For the three months ended October 31, 2022 and October 31, 2021

4. Exploration and evaluation assets (continued)

On June 1, 2022, the Company signed a Purchase and Sale Agreement (“P+S Agreement”) to sell all of its rights and title to the Panama Lake Gold Project to Trillium Gold Mines Inc. (“Trillium”). Pursuant to an Assignment and Assumption Agreement (the “A+A Agreement”), entered into on the closing of the transactions under the P+S Agreement, the Company assigned all of its rights and obligations under the original option agreement to Trillium. In addition, pursuant to the A+A Agreement, Benton agreed to consent to the assignment and agreed to register 100% of the property's title to Trillium while retaining its 50-per-cent ownership interest in the property until such time as Trillium fulfills its option to earn 100% interest.

Pursuant to the terms of the P+S Agreement, at closing, Trillium paid the Company \$500,000 in cash and issued 1,000,000 common shares in the capital of Trillium with a fair value of \$240,000 (Note 3). In the event Trillium acquires a 100% interest in the property, the Company may cause Trillium to exercise its buyback right under the option agreement to repurchase from Benton one-half of the 2% net smelter return royalty on the property and convey such repurchased 1% net smelter return royalty to the Company in exchange for a cash payment by the Company to Trillium of \$1,000,000. The common shares of Trillium issued under the P+S Agreement are subject to a four-month holding period from the closing date.

During the year ended July 31, 2022, the Company recorded a loss on sale of mineral property of \$203,301 in connection with the sale of the Panama Lake Gold Project.

James Bay Project

In January 2020, the Company signed a land package acquisition in James Bay Quebec. The Company wrote-off the James Bay Project and recorded an associated impairment of exploration and evaluation assets of \$5,535 during the year ended July 31, 2022.

St. Anthony Gold Project

On October 14, 2020 (the “Effective Date”), the Company entered into a Definitive Joint Venture Earn-in Agreement (the “JV Agreement”) with Magabra Resources Inc. (“Magabra”), which superseded a Letter of Intent dated August 10, 2020. Pursuant to the JV Agreement, the Company and Magabra will jointly explore a series of claims compiling the St. Anthony Gold Project located in the Kenora-Patricia mining district in Ontario, Canada.

Pursuant to the JV Agreement, the Company can earn an initial 8% interest (the “First Option”) as follows:

- Issuing to Magabra a total of 1,000,000 common shares (issued at a fair value of \$260,000 (\$0.26 per share)) (note 4);
- Payment of \$300,000 to Magabra (paid);
- Completing a financing of at least \$3,000,000 within 30 days of the Effective Date; and
- Issuing to Magabra a total of 25,000 warrants with an exercise price of \$0.32 and a maturity date that is two years from issuance (issued at a fair value of \$12,264) (note 4).

The Company can earn an additional 8% interest (the “Second Option”) as follows:

- On completion of the First Option, completing a financing of at least \$3,000,000 within 30 days.

The Company can earn an additional 34% interest (the “Third Option”) as follows:

- On completion of the Second Option, completing a financing of at least \$12,000,000 within 12 months of the Effective Date.

On completion of the Third Option, the Company will have earned a 50% interest in the claims. Further, the JV Agreement includes the provision for a bonus payment to Magabra in the form of 4,000,000 common shares of the Company, so long as Magabra has a continued interest in the claims and upon completion of a National Instruments 43-101 compliant proven resource calculation for the first 1,000,000 ounces of gold identified, with an additional 1,000,000 common shares issuable for each additional 1,000,000 ounces under similar resource calculations.

Notes to the Condensed Interim Consolidated Financial Statements (Unaudited – Prepared by Management)

For the three months ended October 31, 2022 and October 31, 2021

4. Exploration and evaluation assets (continued)

St. Anthony Gold Project (continued)

Magabra will serve as project manager for all work programs to be conducted on the claims. As at July 31, 2021, the Company had advanced \$430,571 towards future exploration work.

On March 15, 2021, the Company and Magabra signed a new option agreement whereby the Company now has an exclusive right to acquire an undivided 100% interest in the St. Anthony gold mine property. The first phase of a 5,000 metre initial drill program continues and Magabra remains the operator in respect to drilling and production at the property.

Magabra and the Company agreed to accelerate the first option of a 30% undivided interest in the property, which will be earned as follows. Under this first option, the Company's commitment to the first 5,000 metre drill program of approximately \$1,500,000 remains in place. The Company will issue to Magabra under a voluntary escrow agreement 30,000,000 restricted common shares with no one shareholder having greater than 10% of the issued and outstanding shares of the Company, such shares to be released as follows: 10% or 3,000,000 restricted shares issuance immediately with a 4 month hold legend, and 15% every 6 months thereafter with each release having the same terms (the "Restricted Share Consideration"). Magabra also has the right to appoint 2 directors to the board of the Company.

The Company has a second option to earn a total of 65% with an additional 35% interest in the property. This option will include the next drill phase of 10,000 metres at an approximated drill budget cost of \$1,500,000 per 5,000 metres. Magabra will be required to produce a 43-101 report of mineral reserves after the 15,000 metre drill program to the Company.

The Company can acquire the remaining 35% interest for a full 100% ownership at the St. Anthony gold property by committing to another drill program for further exploration on the property of \$3,000,000.

To date, the Company has not issued the Restricted Share Consideration, nor has it appointed the directors. On March 31, 2022, the Company received formal termination of the JV Agreement between Magabra and the Company. The Company elected to write-off the St. Anthony Gold Project and recorded an associated impairment of exploration and evaluation assets of \$2,418,250 during the year ended July 31, 2022.

5. Share capital

The authorized share capital of the Company consists of an unlimited number of common shares without par value. All issued shares are fully paid.

Transactions for the issue of share capital during the period ended October 31, 2022:

- (a) On October 26, 2022, the Company completed the first tranche of a non-brokered private placement and issued 22,028,700 units at a price of \$0.035 per unit for gross proceeds of \$771,004. Each unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one additional common share at \$0.05 for a period of two years from the date of closing. No residual value was allocated to the warrant component of the units issued. The Company paid cash finders fees of \$19,026 and issued 573,600 broker warrants in connection with the private placement. The broker warrants have the same terms as those above and a residual value of \$8,617 was recorded.
- (b) On August 2, 2022, the Company cancelled 625,000 common shares and 625,000 common shares purchase warrants originally subscribed to by a company controlled by a director and officer of the Company, as a portion of the non-brokered private placement closed on March 7, 2022, due to non-payment.
- (c) Recorded an outstanding amount of \$41,020 in share subscriptions receivable, which was recorded as a reduction of shareholders' equity.
- (d) Recorded \$118,300 in share subscriptions received as part of the second tranche of a non-brokered private placement completed subsequent to the three months ended October 31, 2022 (note 12).

Transactions for the issue of share capital during the period ended October 31, 2021:

- (a) On October 8, 2021, the Company issued 125,000 common shares at a fair value of \$0.20 to Mi3 Communications Financiers as a final finder consulting fee payment in respect of the St. Anthony Gold Project (note 4).

5. Share capital (continued)**Stock options**

The Company has adopted an incentive stock option plan (the “Plan”). The essential elements of the Plan provide that the aggregate number of shares of the Company’s capital stock issuable pursuant to options granted under the Plan may not exceed 20% of the outstanding shares. Options granted under the Plan may have a maximum term of 5 years. The exercise price of options granted under the Plan will not be less than the closing price of the Company’s shares on the CSE on the trading day immediately before the date of grant, less the discount permitted. The options vest at the discretion of the Board of Directors.

A summary of the status of the Company’s stock options as at October 31, 2022, and July 31, 2022 and changes during the period/year then ended is as follows:

	Period ended October 31, 2022		Year ended July 31, 2022

These options vested immediately on grant and are exercisable at a price of \$0.40 for a term of two years expiring on June 14, 2023. The options granted had a fair value of \$258,535 using the Black Scholes option pricing model with the following inputs: i) exercise price: \$0.10; ii) share price: \$0.30; iii) term: 2 years; iv) volatility: 155%; v) discount rate: 0.49%.

On October 8, 2021, the Company granted 1,000,000 stock options to consultants of the Company. These options vested immediately on grant and are exercisable at a price of \$0.20 for a term of two years expiring on October 8, 2023. The options granted had a fair value of \$72,708 using the Black Scholes option pricing model with the following inputs: i) exercise price: \$0.20; ii) share price: \$0.20; iii) term: 2 years; iv) volatility: 67%; v) discount rate: 0.68%. These options expired during the period ended October 31, 2022.

The total share-based payment expense for the three months ended October 31, 2022, was \$nil (2021 – \$72,708).

During the year ended July 31, 2022, 1,675,000 options expired unexercised. As a result, the original share-based compensation expense of \$73,457 was reallocated from reserves to deficit during the year ended July 31, 2022.

Warrants

As an incentive to complete private placements, the Company may issue units which consist of common shares and common share purchase warrants. Using the residual value method, the Company determines whether a value should be allocated to the warrants attached to private placement units.

Reserves and contributed surplus

Reserves record items recognized as share-based compensation expense and other share-based payments until such time that the stock options or warrants are exercised, at which time the corresponding amount will be transferred to share capital. Contributed surplus records items that had been recognized as share-based compensation expense and other share-based payments after those items have expired or have been forfeited or cancelled.

6. Loss per share

The calculation of basic and diluted loss per share for the period ended October 31, 2022 is based on the loss attributable to common shareholders of \$145,801 (2021 - \$247,276) and a weighted average number of common shares outstanding of 38,191,170 (2021 – 30,663,585).

All stock options and warrants were excluded from the diluted weighted average number of shares calculation, as their effect would have been anti-dilutive.

7. Loan receivable

During the year ended July 31, 2022, the Company entered into a right of exclusivity (“ROE”) agreement with an arm’s-length party to acquire the Mally mine in Peru (see Note 14) and as at October 31, 2022, advanced \$1,164,575 to that party (the “borrower”) as a demand loan bearing interest at 8% per annum, due in 90 days if the parties decide not to proceed with the acquisition. The Company has accrued \$13,966 of interest receivable as at October 31, 2022. Failure to repay the loan in accordance with these terms will result in the Company having the option to convert the loan into common shares of the borrower, in the amount of 150% of the total of the principal amount of the loan plus accumulated interest, upon a go public event of the borrower.

8. Related party payables and transactions

The Company’s related parties include key management personnel and Directors, and companies in which they have control or significant influence over the financial or operating policies of those entities.

Key management compensation

- (a) During the three months ended October 31, 2022, the Company paid or accrued \$37,500 in management and consulting fees to the Chief Executive Officer (“CEO”) or a company controlled by the CEO (2021 - \$37,000). As at October 31, 2022, \$25,000 is included in due to related parties for amounts owing to the CEO or a company in which the CEO is a partner (July 31, 2022 - \$nil). During the three months ended October 31, 2022, and October 31, 2021, no amounts were paid for interest or income tax expenses.

10. Financial risk management**Capital management**

The Company is a resource exploration company and considers items included in shareholders' equity as capital. The Company has no debt and does not expect to enter into debt financing. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of underlying assets. In order to maintain or adjust its capital structure, the Company may issue new shares or make special distributions to shareholders. The Company is not subject to any externally imposed capital requirements and does not presently utilize any quantitative measures to monitor its capital. The Company's capital structure as at October 31, 2022, is comprised of shareholders' equity of \$820,255 (July 31, 2022 – \$136,798).

The Company currently has no source of revenues. In order to fund future projects and pay for general and administrative costs, the Company will spend its existing working capital and raise additional funds as needed. The Company's ability to continue as a going concern on a long-term basis and realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation is primarily dependent upon its ability to sell or option its mineral properties and its ability to borrow or raise additional financing from equity markets (see note 1). There were no changes to the Company's management of capital during the three months ended October 31, 2022.

Financial instruments - fair value

The Company's financial instruments consist of cash, marketable securities, loan receivable, accounts payable and accrued liabilities, and due to related parties. The carrying value of accounts payable and accrued liabilities, and due to related parties approximated their fair value because of the short-term nature of these instruments.

Financial instruments measured at fair value on the consolidated statement of financial position are summarized into the following fair value hierarchy levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Financial instruments - risk

The Company's financial instruments can be exposed to certain financial risks, including credit risk, interest rate risk, liquidity risk and market and currency risk.

(a) Credit risk

The Company is exposed to credit risk by holding cash and loan receivable. All of the Company's cash is held in financial institutions in Canada, and management believes the exposure to credit risk with respect to such institutions is not significant. Management believes the loan receivable is recoverable based on the value of the underlying assets of the borrower.

(b) Interest rate risk

The Company is not exposed to interest risk as it does not hold financial securities or debt that would be impacted by fluctuating interest rates.

(c) Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its financial obligations as they come due. The Company manages this risk by careful management of its working capital to ensure its expenditures will not exceed available resources. See note 1 for further details.

(d) Market and currency risk

- Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. A change of 100 basis points in interest rates would not be material to the financial statements.
- Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in the foreign exchange rates. Assuming all other variables are held constant with an increase or a decrease of 10% of the US dollar against the Canadian dollar, the net loss of the Company and the equity for the year ended July 31, 2022 would not have changed as it had no US dollar denominated assets or liabilities.
- The Company had no hedging agreements in place with respect to foreign exchange rates.

11. Contingencies

During the three months ended October 31, 2022, the Company settled a statement of claim in respect of a mining property that the Company has abandoned. As at October 31, 2022, the Company has \$57,200 recorded in accounts payable for claim maintenance fees that it has agreed to reimburse to the claimant.

During the three months ended October 31, 2022, the Company was served with a small claims summons by a former consultant of the Company in respect of a disputed payment of \$64,255. The Company intends to dispute the claim, but has included this amount in accounts payable at July 31, 2022.

In June 2021, the Company was served with a small claims summons by a former consultant of the Company in respect of a disputed payment of \$20,000, and the Company was subsequently issued a judgement in respect of this claim. The Company has included this amount in accounts payable.

12. Subsequent events

On November 4, 2022, the Company completed the second closing of a non-brokered private. The Company accepted subscriptions of 21,472,600 units at a price of \$0.035 per units for gross proceeds of \$751,541. Each unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one additional common share at five cents for a period of two years from the date of closing. The company paid finders' fees to qualified finders of \$16,363 and issued 467,528 broker warrants, which are on the same terms as the warrants forming part of the units. Securities issued on this closing are subject to a statutory hold period until March 5, 2023.

On December 28, 2022, the Company announced that it has changed its name to Spark Energy Minerals Inc. This change of name aligns with the Company's renewed mandate to pursue the acquisition and advancement of assets in the battery metal and materials sector.
