

Miraculins Announces Proposed Ten to One Share Consolidation

WINNIPEG, Manitoba – January 13, 2014 – Miraculins Inc. (TSX-V:MOM), (“Miraculins” or the “Company”) a medical diagnostic company focused on acquiring, developing and commercializing diagnostic and risk assessment technologies for unmet clinical needs, announces that its Board of Directors have approved a consolidation of the Company’s common shares (“Common Shares”) on the basis of ten pre-consolidation Common Shares for each one post-consolidation Common Share, subject to the approval of the TSX Venture Exchange.

A special resolution was passed at the Company’s Annual and Special Meeting held on May 31, 2013, to give the Board of Directors of the Company the discretion to approve a consolidation of the Company’s Common Shares on the basis of a range of four pre-consolidation Common Shares for each one post-consolidation Common Share to fifteen pre-consolidation Common Shares for each one post-consolidation Common Share. As at January 13, 2014, the Company had 123,652,043 Common Shares issued and outstanding. Following the consolidation, it is expected that the Company will have approximately 12,365,204 Common Shares issued and outstanding. The numbers of Common Shares reserved for issuance under the Company’s Stock Option Plan and the number of Common Shares that may be purchased upon exercise of warrants will be reduced proportionately. No fractional shares will be issued, but instead will be rounded to the nearest whole common share. Once TSX Venture Exchange approval is obtained, the Company will issue a further news release and shareholders will receive a letter of transmittal from CST Trust Company, the Company’s exchange agent. The Company’s name and trading symbol will not change as a result of the consolidation.

Further details with respect to the consolidation are contained in the Company’s Management Proxy Circular dated April 26, 2013, a copy of which is available on SEDAR at www.sedar.com.

About Miraculins Inc.

Miraculins is a medical diagnostic company focused on acquiring, developing and commercializing non-invasive technologies for unmet clinical needs. A significant number of promising diagnostic opportunities remain un-commercialized because of the sizable gap between the discovery stage, when research institutions are typically involved, and the commercialization stage, when the larger commercial enterprises become interested. Miraculins has direct experience in bridging this gap. The Company’s PreVu[®] POC Test is a revolutionary new coronary artery disease risk assessment technology that measures cholesterol levels in a patient’s skin non-invasively, painlessly and without the need for fasting. The Company’s Scout DS[®] system is the first non-invasive diabetes testing system designed to provide a highly sensitive and convenient method for measuring diabetes related biomarkers in the skin, the accumulation of which are accelerated by abnormal blood sugar levels and oxidative stress. Unlike current testing methods, a Scout DS[®] test requires no blood draw, no fasting, and no waiting for a lab result. The product has been used and validated in thousands of patients around the world. The Company’s preeclampsia program is partnered with Alere Inc., one of the world’s largest diagnostic companies. Caution Regarding Forward-Looking Information

Certain statements contained in this press release constitute forward-looking information within the meaning of applicable Canadian provincial securities legislation (collectively, "forward-looking statements"). These forward-looking statements include statements regarding the receipt of TSX Venture Exchange approval for the consolidation. These forward-looking statements relate to, among other things, our objectives, goals, targets, strategies, intentions, plans, beliefs, estimates and outlook, including, without limitation, our anticipated future operating results, and can, in some cases, be identified by the use of words such as "believe," "anticipate," "expect," "intend," "plan," "will," "may" and other similar expressions. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements.

These statements reflect management's current beliefs and are based on information currently available to management. Certain material factors or assumptions are applied in making forward-looking statements, and actual results may differ materially from those expressed or implied in such statements. Important factors that could cause actual results to differ materially from these expectations include, among other things: Miraculins' early stage of development, lack of product revenues and history of operating losses, uncertainties related to clinical trials and product development, rapid technological change, uncertainties related to forecasts, competition, potential product liability, additional financing requirements and access to capital, unproven markets, supply of raw materials, income tax matters, management of growth, partnerships for development and commercialization of technology, effects of insurers' willingness to pay for products, system failures, dependence on key personnel, foreign currency risk, risks related to regulatory matters and risks related to intellectual property and other risks detailed from time to time in Miraculins' filings with Canadian securities regulatory authorities, as well as Miraculins' ability to anticipate and manage the risks associated with the foregoing. Additional information about these factors and about the material factors or assumptions underlying such forward-looking statements may be found in the body of this news release. Miraculins cautions that the foregoing list of important factors that may affect future results is not exhaustive. When relying on Miraculins' forward-looking statements to make decisions with respect to Miraculins investors and others should carefully consider the foregoing factors and other uncertainties and potential events.

These risks and uncertainties should be considered carefully and prospective investors should not place undue reliance on the forward-looking statements. Although the forward-looking statements contained in this press release are based upon what management believes to be reasonable assumptions, Miraculins cannot provide assurance that actual results will be consistent with these forward-looking statements. Miraculins undertakes no obligation to update or revise any forward-looking statement.
