Management's Discussion and Analysis For the years ended March 31, 2022 and March 31, 2021

Management's Discussion and Analysis

The following management's discussion and analysis ("MD&A") is current to July XX, 2022 and should be read in conjunction with Britannia Life Sciences Inc.'s ("BLS" or the "Company") consolidated financial statements for the years ended March 31, 2022 and March 31. 2021 which have been prepared under International Financial Reporting Standards ("IFRS"). Except as otherwise noted, the financial information contained in this MD&A and in the annual consolidated financial statements have been prepared in accordance with IFRS. All amounts are expressed in Canadian dollars unless otherwise noted.

Forward-Looking Statements

This Management's Discussion and Analysis ("MD&A") contains forward-looking information as defined in applicable securities laws (referred to herein as "forward-looking statements") that reflect the Company's current expectations and projections about its future results. All statements other than statements of historical fact are forward-looking statements. Forward-looking statements are based on the current assumptions, estimates, analysis and opinions of management of the Company made considering its experience and its perception of trends, current conditions and expected developments, as well as other factors which the Company believes to be relevant and reasonable in the circumstances.

The Company uses words such as "believes," "may," "plan," "will," "estimate," "continue," "anticipates," "intends," "expects," and similar expressions to identify forward-looking statements, which, by their very nature, are not guarantees of the Company's future operational or financial performance, and are subject to risks and uncertainties, both known and unknown, as well as other factors that could cause the Company's actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied by, these forward-looking statements.

Inherent in forward-looking statements are known and unknown risks, uncertainties and other factors beyond the Company's ability to predict or control that may cause the actual results, events or developments to be materially different from any future results, events or developments expressed or implied by such forward-looking statements.

Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this MD&A. Such statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to, assumptions about:

- the availability of financing, or the availability of financing on reasonable terms;
- general business and economic conditions;
- regulatory developments;
- interest rates and foreign exchange rates;
- the Company's costs;
- the regulatory environment in which the Company operates;
- the Company's ability to attract and retain skilled staff;
- the impact of changes in Canadian-US dollar, Canadian-UK pound sterling and other foreign exchange rates on the Company's costs and results;
- market competition;
- tax benefits and tax rates: and
- the Company's ongoing relations with its employees and with its business partners.

Management's Discussion and Analysis For the years ended March 31, 2022 and March 31, 2021

Although management of the Company believes that these forward-looking statements are based on reasonable assumptions, a number of factors could cause the actual results, performance or achievements of the Company to be materially different from the future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements contained in this MD&A and any documents incorporated by reference herein are expressly qualified by this cautionary statement. The Company cautions you that the foregoing list of important factors and assumptions is not exhaustive. Events or circumstances could cause actual results to differ materially from those estimated or projected and expressed in, or implied by, these forward-looking statements. You should also carefully consider the matters discussed under "Risk Factors" in this MD&A which provides for additional risks and uncertainties relating to the Company and its business. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of factors, whether as a result of new information or future events or otherwise, other than as may be required by applicable legislation. No assurance can be given that any of the events anticipated will transpire or occur, or if any of them do so, what benefits the Company will derive from them. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether because of new information, future events, or otherwise unless required by law.

Operational Highlights and Business Development

Completion of Reverse Take Over

On November 12, 2021, Britannia Bud Canada Holdings Inc. ("BBCH") completed its reverse takeover transaction ("RTO") with Rise Life Science Corp ("RISE") (formerly RLSC: CSE). As part of the RTO, BBCH and 2830026 Ontario Inc., a wholly owned subsidiary of RISE ("RISE Subco"), amalgamated by way of a triangular amalgamation under the Business Corporations Act (Ontario) (the "Amalgamation"). RISE has changed its name to BLS and continues as the reporting issuer (BLAB: CSE).

Upon the Amalgamation, shareholders of BBCH (the "BBCH Shareholders") exchanged their BBCH shares for BLS Shares, at an exchange ratio of 120:1. Immediately prior to the effective time of the Amalgamation, the convertible debentures of BBCH automatically converted to BBCH shares at post-consolidation US\$0.155 per BBCH share, and the BBCH shares issued pursuant to the conversion were exchanged alongside other BBCH shares for BLS Shares in accordance with the terms of the RTO. All issued and outstanding RISE or BLS shares were consolidated on the basis of one post-consolidation BLS share for each ten preconsolidation RISE or BLS shares (note 5).

All references to number of shares and exercise and conversion prices have been adjusted in these consolidated financial statements to retroactively reflect the exchanges and consolidation.

The RTO has been accounted for as a reverse takeover, such that these consolidated financial statements reflect the accounts of BBCH acquiring RISE, and the comparative information is for BBCH.

Further details regarding the Transaction and the Amalgamation are provided in the Form 2A – Listing Statement of RISE dated October 29, 2021 (the "Listing Statement"). Please refer to the Listing Statement for full particulars of the Transaction, which is available on SEDAR (www.sedar.com) under the issuer profile of Britannia Life Sciences Inc. (formerly RISE Life Science Corp.).

Acquisition

BBCH entered into a share purchase agreement dated March 10, 2020, wherein BBCH acquired 60% of each of the Class A and Class B ordinary shares of Advanced Development and Safety Laboratories ("ADSL") from the shareholders of ADSL (the "Sellers"). Completion arrangements in relation to this agreement were made on February 9, 2021 (the "Completion Date").

The group aims to be a leader in product development, compliance, and analytical services for its expanding customer base as well as playing a pivotal role in the convergence of the cannabinoid and consumer products industries on a global scale. With exceptional expertise and complementary skills in process controls, industry regulation, health and safety and manufacturing, the Company provides a full service for customers to ensure products can be launched in the market successfully and safely.

Pursuant to the terms of the ADSL Acquisition, on the first three anniversaries of the Completion Date, the Company has the right to acquire from the Sellers up to an additional 40% of the share capital for an additional consideration. In circumstances where on expiry of the third anniversary of the Completion Date the Company has not acquired all the ADSL shares, the Sellers have the right to require the Company to purchase all of the ADSL shares it does not yet own (the "Put Liability"). The total consideration payable for the additional shares ("Put Shares") upon exercise of the Put Liability and the closing of the Company's acquisition of the Put Shares would be equal to the total equity value of the Put Shares, which would be based upon the applicable percentage acquired by the Company of the total enterprise value for ADSL.

Management's Discussion and Analysis For the years ended March 31, 2022 and March 31, 2021

At the close of the ADSL Acquisition, the value of the Put Liability was determined to be \$2,464,315 (GBP 1,404,568), representing the difference between the market price and the contract value of the Put Liability, discounted at a rate of 0.23% per annum and assuming the transaction would take place on February 9, 2024. As at March 31, 2022, the fair value of the put liability was remeasured to \$4,495,033 (GBP 2,738,035), generating a loss on the change in fair value of the put liability for the year ended March 31, 2022 of \$2,059,933.

As at March 31, 2022, the Company has issued notice to the Sellers to exercise their option to purchase an additional 10% of the share capital of ADSL. On April 7, 2022, the Sellers and BBCH entered into a share purchase agreement, wherein the Company acquired 10% of the outstanding issued share capital of ADSL (the "Subsequent ADSL Acquisition"). A cash payment of GBP 1,813,358.15 was paid as consideration for the Subsequent ADSL Acquisition. The Subsequent ADSL Acquisition would reduce the Put Liability accordingly.

Britannia Mining Solutions Inc.

On February 18, 2022, the Company incorporated BMS as a new subsidiary to address the global backlog in mining assays. In establishing the business, On March 4, 2022 BMS completed a non-brokered private placement of 500,000 of its common shares at \$1.00 per common share for gross proceeds of \$500,000 after which the Company owns 50% of the outstanding issued share capital of BMS and 50% of the voting rights of BMS. BMS is to operate as a partially owned subsidiary of Britannia with the initial objective of setting up mining assay labs.

Discussion of Operations

The Company's audited consolidated financial statements have been prepared on a going concern basis inaccordance with IFRS. The going concern basis of presentation assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. There are no material uncertainties that cast significant doubt about the Company's ability to continue as a going concern at this time.

For the year ended March 31, 2022, the Company realized income from operations of \$379,567 and had positive cash flows from operations of \$2,799,409. The Company had a net loss before tax of \$13,274,505 mainly as a result of a non-cash loss related to the reverse takeover transaction of \$9,971,992. The Company generated \$653,949 in investing activities and had cash outflow of \$2,579,307 in financing activities resulting from interest and capital repayments made on the outstanding Seller's Loan. Working capital at March 31, 2022 was negative \$4,837,182 (March 31, 2021: \$7,674,791).

Financial Information

Revenue

Revenue was generated by the Company's operating subsidiary, ADSL. For the year ended March 31, 2022, ADSL contributed \$7,299,989 to the total revenues from sales and services and a net income of \$4,392,179 to the consolidated income from operating activities.

Cost of Goods Sold and Gross Margin

Cost of goods sold is comprised of the direct consumables required for the formulation and testing of products as well as associated labour costs, and expenses related to consumer and user trials. Gross profit for the year ended March 31, 2022 was \$5,262,073 compared to \$1,171,584 for the comparative period which was a stub period due to the timing of the ADSL acquisition.

Selling, general and administrative expenses increased to \$2,539,811 for the period compared to \$889,020 for the comparative period which is directly related to the timing of the consolidation of ADSL.

Finance expense for the year ended March 31, 2022 was \$1,236,171 compared to \$167,736 for the prior period. The increase is the result of the interest payable on the convertible debentures issued and a full year of interest on the loan payable to the ADSL shareholders in relation to the acquisition of its share capital.

Other Income and Expense

The majority of the loss is related to the revaluation of the Company's loans and put option liability at year end and are unrealized. The Company experienced a foreign exchange gain of \$613,047 for the year ended March 31, 2022 compared to \$186,615 in the prior period.

Adjusted EBITDA

Adjusted EBITDA represents net loss or income adjusted to exclude amortization, depreciation, interest expense and finance costs, foreign exchange gains and losses, income tax expense, listing expense and other charges. Other expenses consist primarily of other income and expenses related to the accounting treatment for the Britannia convertible debenture financing and adjustments in the fair value of certain liabilities.

Adjusted EBITDA is not a recognized, defined or standardized measure under IFRS. The Company's definition of Adjusted EBITDA will likely differ from that used by other companies and therefore comparability may be limited. Adjusted EBITDA should not be considered a substitute for or in isolation from measures prepared in accordance with IFRS. Investors are encouraged to review the Company's financial statements and disclosures in their entirety and are cautioned not to put undue reliance on non-IFRS measures and view them in conjunction with the most comparable IFRS financial measures. The Company has reconciled Adjusted EBITDA to the most comparable IFRS financial measure as follows:

	March 31, 2022
	\$
Loss before income taxes	(13,164,251)
Finance expense	1,236,171
Share based compensation expense	1,106,524
Depreciation and amortization	189,536
Foreign exchange loss (gain)	(613,047)
Listing expense	9.971,992
Other expenses	5,020,573
Adjusted EBITDA	3,747,498

Comparative information has not been provided. The Company acquired its main revenue generating operating subsidiary on February 9, 2021 and began consolidating its results at that time. The prior period therefore only includes 50 days of activity making the comparative period misleading to the reader.

Liquidity and Capital Resources

During the two years ended March 31, 2022, the Company raised an aggregate of USD \$6,127,000 (CAD \$7,819,006) through the issuance of 6,127 convertible debentures units (each a "Convertible Debenture Unit"). Each unit, issued for US\$1,000, consists of a convertible debenture (each a "Debenture") and 645 share purchase warrants. The financing was completed in three tranches on January 29, 2021, February 2, 2021 and April 7, 2021 (together, the "Closing Dates").

Management's Discussion and Analysis For the years ended March 31, 2022 and March 31, 2021

The Debentures bear interest at 10% per annum with interest payable annually on December 31, and mature two years from the respective Closing Dates. Each Debenture is convertible, at the option of the holder, at any time prior to six months before the maturity date, into that number of shares computed on the basis of the principal amount of the Debenture divided by the conversion price of US\$0.155 per BBCH share (the "Debenture Conversion Price").

As defined in the subscription agreement, a Liquidity Event would occur upon (i) the listing of the Company's common shares on a stock exchange, (ii) the completion of a transaction with a capital pool company or other Canadian reporting issuer by way of business combination or other similar transaction pursuant to which the Company's common shares are listed on a stock exchange, (iii) the sale of all or substantially all of the assets of the Company to a person other than an affiliate of the Company, or (iv) a transfer of the shares of the Company, reorganization, amalgamation or merger, as a result of which the shareholders of the Company immediately prior to such transaction would no longer beneficially own, directly or indirectly, more than 50% of the resulting voting shares on a fully-diluted basis. In the event that the Company does not complete a Liquidity Event on or before the date which is 18 months from the Closing Date, the holders of the Debentures shall have the right for a period of 30 days after such date to require the Company to redeem the Debentures at a price equal to US\$1,500 per Debenture then outstanding.

On January 29, 2021, the Company completed a tranche of Convertible Debenture Units (the "January 29 Units"), raising US\$2,272,000 (\$2,903,616). The Debentures had a maturity date of January 29, 2023. 1,465,440 pre-consolidation BBCH common share purchase warrants were issued.

On February 2, 2021, the Company completed a tranche of Convertible Debenture Units (the "February 2 Units"), raising US\$2,564,000 (\$3,286,535). The Debentures had a maturity date of February 2, 2023. 1,653,780 pre-consolidation BBCH common share purchase warrants were issued.

On April 7, 2021, the Company completed a tranche of Convertible Debenture Units (the "April 7 Units"), raising US\$1,291,000 (\$1,628,855). The Debentures had a maturity date of April 7, 2023. 832,695 pre-consolidation BBCH common share purchase warrants were issued.

The Debentures converted into BBCH common shares upon the RTO. Upon the RTO, any accrued and unpaid interest with respect to the Debentures were paid to the holder by the Company in BBCH shares at a deemed price per share equal to the Debenture Conversion Price. Such BBCH shares were then converted to BLS common shares at the Exchange Ratio.

The Debentures were denominated in US dollars, while convertible in Canadian dollars. As the conversion price in a different currency required a variable number of shares to settle the Debentures, the Debentures were treated as having an embedded derivative that was treated as a financial liability under IFRS. The Company recorded the fair value of the embedded derivative immediately prior to conversion upon the RTO to be \$3,200,928 (\$2,982,182 as at March 31, 2021).

For the year ended March 31, 2022, the Company incurred interest expense of \$468,325 (USD\$377,962) (2021 – \$98,987). Pursuant to the terms of the subscription agreement, all interest accrued up to the liquidity event was converted to common shares by the Company. Total accrued interest of \$567,311 (USD\$454,837) was converted into 3,521,277 shares.

The Company recorded accretion expense of \$1,076,878 in relation to the convertible debentures and foreign currency translation gain (loss) of \$8,380 for the year ended March 31, 2022.

For the year ended March 31, 2022, \$46,029 (2021 - \$9,037), of interest was incurred with related parties. The outstanding interest payable was \$nil as at March 31, 2022 (\$98,987 as at March 31, 2021).

Prior to conversion upon the RTO, the fair value of the embedded derivative related to the January 29, 2021 Units was determined using the Black Scholes valuation model using the following assumptions on November 12, 2021: stock price of \$1.35; expected life of 1.21 years; \$nil dividends; 80% volatility; risk-free interest of 0.98%; foreign exchange rate of 1.2565; and the exercise price of \$1.23.

Prior to conversion upon the RTO, the fair value of the embedded derivative related to the February 2, 2021 Units was determined using the Black Scholes valuation model using the following assumptions on November 12, 2021: stock price of \$1.35; expected life of 1.22 years; \$nil dividends; 80% volatility; risk-free interest of 0.98%; foreign exchange rate of 1.2565; and the exercise price of \$1.23.

Prior to conversion upon the RTO, the fair value of the embedded derivative related to the April 7, 2021 Units was determined using the Black Scholes valuation model using the following assumptions on November 12, 2021: stock price of \$1.35; expected life of 1.40 years; \$nil dividends; 80% volatility; risk-free interest of 0.98%; foreign exchange rate of 1.2565; and the exercise price of \$1.23.

Management's Discussion and Analysis For the years ended March 31, 2022 and March 31, 2021

The total amount of the convertible debenture conversion reclassified to equity on November 12, 2021 is \$4,114,145. The total amount of the embedded derivative reclassified to equity on November 12, 2021 is \$3,246,562. In accordance with the terms of the subscription agreement, the Company issued 3,521,277 BLS shares to settle \$567,311 of accrued interest upon the RTO.

The fair value of the warrant derivative liability as at March 31, 2022 of \$2,458,271 (\$543,124 as at March 31, 2021) was determined using the Black-Scholes option pricing model with the following weighted average assumptions, judgmentally determined by management:

Sellers' Loan

On February 9, 2021, the Company and the Sellers entered into a Sellers' Loan agreement (Note 5). The Sellers are comprised of the Company's Chief Technical Officer and a close member of the Chief Technical Officer. In connection to this agreement, the Sellers loaned £4,456,813 (\$7,631,400) to the Company, at an interest rate of 6% per annum and initial repayment date of April 30, 2021. On June 15, 2021, the terms of this loan were amended to extend the repayment date to December 31, 2021 and increase the interest rate to 10% per annum effective June 1, 2021. On December 20, 2021 the Company made a principal repayment of £1,551,033 (reducing the principal balance outstanding from £4,770,419 to £2,905,780). The deadline for repayment was further extended to March 31, 2022 and the loan was repaid in full on April 6, 2022 (see Note 20). The Company recognized a share-based payment expense of \$570,000 upon the issuance of 3,000,000 common shares in the year ended March 31, 2022 for this extension. See Note 12.

position date, based on relevant market information and other information about financial instruments.

The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and Level 3 – Inputs that are not based on observable market data.

The Company's activities expose it to a variety of financial risks including foreign currency risk, interest rate risk, credit risk, and liquidity risk. These financial instrument risks are actively managed by the Company's management under the policies approved by board of directors. The principal financial risks are managed by the Company's finance department who work hand in hand with the Board and other key management personnel.

There were no transfers between level levels 1 and 2 for recurring fair value measurements during the year ended March 31, 2022. Further there was no transfer out of level 3 measurements.

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is mainly exposed to credit risk from credit sales and manages this risk by endeavouring only to deal with customers which are demonstrably credit worthy and through the continuous monitoring of financial exposure by customers.

Credit risk arises from cash and deposits with banks as well as credit exposure to outstanding receivables, the carrying amounts represent the Company's maximum exposure to credit risk.

The Company does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The Company is exposed to liquidity risk with respect to its contractual obligations and financial liabilities. The Company manages liquidity risk by forecasting its cash needs on a regular basis and seeking additional financing from operations and other sources including debt and equity markets as required.

Management's Discussion and Analysis For the years ended March 31, 2022 and March 31, 2021

The following table summarizes the maturities of the Company's non-derivative financial liabilities as at March 31, 2022 based on undiscounted contractual cash flows:

The following table summarizes the maturities of the Company's derivative financial liabilities payable as at March 31, 2022 based on undiscounted contractual cash flows:

			Payment due	by Period		
	<	1 year	2 - 3 years	4 - 5	5 years	Total
Put liability – consideration for non-controlling interest	\$	-	\$ 14,126,594	\$	-	\$ 14,126,594
	\$	-	\$ 14,126,594	\$	-	\$ 14,126,594

Currency risk

The Company is exposed to currency risk to the extent that monetary operational expenses are denominated in US dollar and UK Pounds sterling while the functional currency of Canadian dollar is used for reporting. The Company has not entered into any foreign currency contracts to mitigate this risk.

As at March 31, 2022, the Company had the following financial instruments denominated in foreign currencies:

	Denominated in:	USD	GBP
Due to related party		-	2,905,780
Warrant liability		1,967,246	-
Put liability		-	2,738,035
Interest payable		-	109,894

Foreign currency rate		1.2496	1.6417
Equivalent in Canadian dollars		2,458,271	9,445,864

Based on the about net exposure and assuming that all other variables remain constant, a 10% change in the USD against the CDN would impact net loss and comprehensive loss by \$245,827 and a 10% change in the GBP against the CDN would impact net loss and comprehensive loss by \$944,586.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to fair value risk with respect to convertible notes which bear interest at fixed rates.

Capital Disclosures

The Company's objectives when managing capital are to ensure its ability to continue as a going concern in order to pursue investments and opportunities which contribute to the success of the Company while providing shareholder returns. The Company attempts to maximize returns to shareholders by also minimizing shareholder dilution and, when possible utilizing non-dilutive funding arrangements.

The Company includes equity comprised of share capital, contributed surplus, warrant reserve, options reserve and accumulated deficit in its definition ofcapital. The Company has financed it operations and capital requirements primarily through the issuance of shares and secured and convertible notes since inception.

The Company manages its capital structure and adjusts it considering economic conditions and risk characteristics of its underlying assets. The Company may issue new shares or raise debt. The Company is not subject to any externally imposed capital requirements.

Share Capital

Authorized

The Company has an unlimited number of authorized voting common shares (the "Common Shares").

Issued

The continuity of the outstanding share capital is as follows:

			Share	
			issuance	
	Shares	Amount	costs	Total
	#	\$	\$	\$
As at March 31, 2021	77,626,332	441,981	(777)	441,204
Shares issued on conversion of debt (Note 7)	50,956,082	7,882,384	(12,937)	7,869,447

As at March 31, 2022	161,904,339	17,082,561	(13,714)	17,068,847

The number of shares retroactively reflects the consolidation of shares referred to in note 1.

Upon the Amalgamation, shareholders of BBCH exchanged their BBCH shares for BLS shares, at an exchange ratio of 120:1. All issued and outstanding RISE or BLS shares were consolidated on the basis of one post-consolidation BLS share for each ten preconsolidation RISE or BLS shares, resulting in the issuance of 77,626,332 shares. Immediately prior to the effective time of the Amalgamation, the convertible debentures of BBCH automatically converted to BBCH shares, and the BBCH shares issued pursuant to the conversion, and all accrued and unpaid interest, were exchanged alongside other BBCH shares for 50,956,082 BLS Shares in accordance with the terms of the RTO. In connection with the RTO, all previously issued RISE shares on amalgamation were consolidated at a ratio of 10:1 resulting in 30,301,925 BLS shares.

56,203,558 common shares are held in escrow at March 31, 2022.

Brokers' Warrants

On July 14, 2021, the Company issued 893,100 compensation warrants of the Company to brokers, with each compensation warrant being exercisable to acquire one common share at a price of USD \$0.20 for a period of 24 months (note 8 and 9). The brokers' common share purchase warrants have exercise prices denominated in US dollars and therefore their exercise would represent a variable number of common shares. As a result, these brokers' common share purchase warrants do not meet the fixed- for-fixed criteria under IFRS to be classified as equity and are therefore treated as a financial liability under IFRS.

Risk Factors

Risks Relating to the Company's Common Shares

The Company has not paid any cash dividends on its common shares and, for the foreseeable future, the Company does not intend to pay any cash dividends on its common shares and therefore its shareholders may not be able to receive a return on their shares unless they sell them. Any decision to pay dividends on the common shares of the Company will be made by the Board of Directors based on the assessment of, among other factors, earnings, capital requirements and the operating and financial condition of the Company.

The market price and trading volume of the Company's common shares have been volatile and may continue to be volatile in the future. Variations in earnings estimates by securities analysts and the market prices of the securities of competitors may also lead to fluctuations in the trading price of the common shares. In addition, the financial markets may experience significant price and volume fluctuations that affect the market price of the Company's common shares that are not related to the Company's operating performance. Broad market fluctuation and economic conditions generally, may adversely affect the market price of the Company's common shares.

The significant costs that the Company will incur as a result of being a public company in Canada could adversely affect its business.

Regulatory Compliance

In the normal course of operations, the Company is subject to various regulations, and violation of these could limit markets into which it can sell or lead to unknown liabilities. The Company considers itself well prepared and operates under caution to ensure the highest levels of safety and compliance exist.

Responsible Person

A Responsible Person is a legal or natural person who ensures the compliance of each cosmetic product in the EU market with relevant obligations as set forth in Regulation EC No 1223/2009. The Responsible Person is in charge of ensuring that cosmetic products marketed in the European Union comply with this Regulation. The Company faces an inherent risk of exposure to product liability claims, regulatory action, and litigation if products for which it has acted as Responsible Person are alleged to have caused significant loss or injury. A claim or regulatory action against the Company could result in increased costs, could adversely affect the Company's reputation with its clients and consumers generally, and could have a material adverse effect on results of operations and financial condition of the Company.

Management's Discussion and Analysis For the years ended March 31, 2022 and March 31, 2021

Legal Matters

In the normal course of operations, the Company may be subject to a variety of legal proceedings, including commercial, product liability, employment, as well as governmental and other regulatory investigations and proceedings. Such matters can be time-consuming, divert management's attention and resources, and can cause the Company to incur significant expenses. Furthermore, because litigation is inherently unpredictable, and can be very expensive, the results of any such actions may have a material adverse effect on our business, operations, or financial condition.

Management of Growth

The Company may be subject to growth-related risks including capacity constraints and pressure on its internal systems and controls. The ability of the Company to manage growth effectively will require it to continue to implement and improve its operational and financial systems and to expand, train and manage its employee base. The inability of the Company to deal with this growth may have a material adverse effect on the Company's business, financial condition, results of operations and prospects.

While management believes that it will have made the necessary investments in infrastructure to process anticipated volume increases in the short term, the Company may experience growth in the number of its employees and the scope of its operating and financial systems, resulting in increased responsibilities for the Company's personnel, the hiring of additional personnel and, in general, higher levels of operating expenses. In order to manage its current operations and any future growth effectively, the Company will also need to continue to implement and improve its operational, financial and management information systems and to hire, train, motivate, manage and retain its employees. the Company will periodically review and manage its systems, processes and processes through introduction of necessary Enterprise Resource Planning solutions, as well as Human resource functions, however there can be no assurance that the Company will be able to manage such growth effectively, that its management, personnel or systems will be adequate to support the Company's operations or that the Company will be able to achieve the increased levels of revenue commensurate with the increased levels of operating expenses associated with this growth.

In addition, contemplated acquisitions and collaborations involve numerous risks, including, but not limited to: substantial cash expenditures; technology development risks; potentially dilutive issuances of equity securities; incurrence of debt and contingent liabilities, some of which may be difficult or impossible to identify at the time of acquisition; difficulties in assimilating the operations of the acquired companies; potential disputes regarding contingent consideration; diverting the Company's management's attention away from other business concerns; entering markets in which the Company has limited or no direct experience; and potential loss ofthe Company's key employees or key employees of the acquired companies or businesses. The Company's management has experience in making acquisitions and entering collaborations; however, the Company cannot provide assurance that any acquisition or collaboration will result in short-term or long-term benefits to it. The Company may incorrectly judge the value or worth of an acquired company or business. In addition, the Company's future success would depend in part on its ability to manage the rapid growth associated with some of these acquisitions and collaborations. The Company cannot provide assurance that it would be able to successfully combine its business with that of acquired businesses or manage a collaboration. Furthermore, the development or expansion of the Company's business may require a substantial capital investment by the Company.

Success of Quality Control Systems

The accuracy, quality, and safety of the Company's products and services are critical to the success of its business and operations. As such, it is imperative that the Company's quality control systems operate effectively and successfully. Quality control systems can be negatively impacted by the design of the quality control systems, the quality training program, and adherence by employees to quality control guidelines. Although the Company strives to ensure that all its service providers have implemented and adhere to high caliber quality control systems, any significant failure or deterioration of such quality control systems could have a material adverse effect on the Company's business and operating results.

Consumer/Clinical Trial Results and Adverse Safety Events

From time to time, studies and consumer or clinical evaluations on various products including CBD may be conducted by the Company, academic researchers, competitors, or others. The results of these studies or trials, when published, may have a significant effect on the marketability of the substance that is the subject of the study. The publication of negative results of studies or clinical trials, or the occurrence of adverse safety events related to CBD could adversely affect the Company and its clients by impacting the marketability of products, share price and ability to finance future operations.

Management's Discussion and Analysis For the years ended March 31, 2022 and March 31, 2021

Confidentiality of Personal and Health Information

The Company and its subsidiaries' employees and consultants have access, in the course of their duties, to personal information of clients of the Company and specifically their medical histories. The Company endeavors to maintain General Data Protection Regulation (GDPR) compliance in its data collection, however there can be no guarantee that these existing policies, procedures, and systems will be sufficient to address the privacy concerns of existing and future clients whether or not such a breach of privacy were to have occurred as a result of the Company's employees or arm's length third parties. If a client's privacy is violated, or if the Company is found to have violated any law or regulation, it could be liable for damages or for criminal fines and/or penalties.

People and Process Risk

A variety of factors may affect the Company's future growth and operating results, including the strength and demand for the Company's services, the extent of competition in our markets, the ability to recruit and retain qualified personnel, and the ability to address consumer demand. The Company relies on certain key employees whose skills and knowledge are critical to maintaining the Company's success. The Company always strives to identify and retain key employees and always strives to be competitive with compensation and working conditions.

Current and anticipated impacts from COVID-19

To date, the Company's business has not been negatively impacted by the COVID-19 pandemic. In many cases, the operating subsidiary has seen customers expand into new product lines which has maintained, if not increased, pre pandemic levels of activity. The Company is maintaining additional preventative measures to ensure the highest level of safety for all employees and will comply with all government guidelines as required. The Company will continue to work hard to manage customer relationships and monitor its supply chain to ensure it can reliably continue to offer a high-quality service. Management believes the prospects for the Company remain strong for the upcoming year. The Company does not anticipate adverse consequences in the context of borrowing and lending, as a result of the global COVID 19 pandemic.

Subsequent Events

(a) Refinancing of the Sellers' loan

On April 6, 2022, Britannia completed a debt financing arrangement with an external lender that has been used to repay the Sellers' loan in full and acquire an additional 10% of ADSL's share capital. The total loan principal value is £5,000,000, bearing interest at the higher of 9.5% per annum and 8.5% per annum plus the SONIA (Sterling Over Night Indexed Average).

(b) Subsequent ADSL Acquisition

On April 7, 2022, the Company acquired an additional 10% of the outstanding issued share capital of ADSL from the Sellers for £1,813,358.15 in cash.

(c) Expired Securities

During the period from April 1, 2022 to July 27, 2022, 395,795 vested equity warrants expired unexercised.
