### 2. Basis of Preparation

### (a) Statement of compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and the interpretations of the IFRS Interpretations Committee ("IFRIC").

The accounting policies adopted in the preparation of the condensed interim consolidated financial statements are based on IFRS, which have been applied consistently to all periods presented. These condensed interim consolidated financial statements were approved and authorized for issued by the board of directors on November 14, 2022.

All intercompany transactions and balances between and among BLS and its subsidiaries have been eliminated on consolidation. Where necessary, adjustments are made to assets, liabilities, and results of subsidiaries and associates to bring their accounting policies into line with those used by the Company.

Subsidiaries are entities controlled by BLS. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. BLS controls an entity if it has power to direct the activities of the entity that significantly affects its returns ("the relevant activities"), has exposure or rights to variable returns from its involvement with the entity and has the ability to use its power to affect those returns.

Profit or loss and each component of other comprehensive income ("OCI") are attributed to the equity holders of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Company's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between BLS and its subsidiaries are eliminated in full on consolidation. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

### (c) COVID-19

In March 2020, the outbreak of the novel strain of corona virus, specifically identified as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and social distancing, have caused material disruption to businesses globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. Governments and central banks have reacted with significant monetary and fiscal interventions designed to stabilize economic conditions. The duration and impact of the COVID-19 outbreak is unknown at this time, as is the efficacy of the government and central bank interventions. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods.

### (d) Basis of measurement

These condensed interim consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value.

#### (e) Functional and presentation currency

The condensed interim consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency and the overall presentation currency. The Company's U.K. operations have a functional currency of UK pounds sterling. The Company's US operations have a functional currency of USD. All financial information presented has been rounded to the nearest dollar except where indicated otherwise.

#### (f) Use of significant estimates and judgements

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates.

These condensed interim consolidated financial statements have been prepared on a going concern basis in accordance with IFRS. The going concern basis of presentation assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Different bases of measurement may be appropriate if the Company is not expected to continue operations for the foreseeable future. Management carefully manages its cash flows and, as necessary, will undertake efforts to raise additional capital. These condensed interim consolidated statements do not reflect the adjustments or reclassifications of assets and liabilities which would be necessary if the Company were unable to continue as a going concern and therefore be required to realize its assets and liquidate its liabilities and commitments in the normal course of business operations and at amounts different from those in the accompany consolidated financial statements.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The determination of fair values to the net identifiable assets acquired in business acquisitions often require management to make assumptions or estimates about future events. Changes in any of the assumptions or estimates used in determining fair value of acquired assets and liabilities could impact the amount assigned to assets, liabilities and goodwill in the purchase price allocation.

Goodwill is tested for impairment annually or more frequently if there is an indication of impairment. The assessment of fair values includes estimates and assumptions, discount rates, future operating performance and capital requirements. These estimates and assumptions are based on industry and historical practices as well as future expectations. Changes to these estimates or assumptions could impact the impairment analysis of goodwill.

Information about key assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amount of assets and liabilities within the next financial year are included in the following notes to the consolidated financial statements:

- The measurement and period of use of intangible assets including patents and trademarks.
- The measurement and period of use of property and equipment
- The assumptions used to value the right-of-use asset and associated lease obligation upon the adoption of the lease standard under IFRS 16, Leases.
- The assumptions used to determine the incremental borrowing rate.
- The assumptions used to fair value the debt component, the conversion feature and associated warrants on initial recognition.

For the three and six-months ended September 30, 2022 and September 30 2021 (Expressed in Canadian Dollars, except per share amounts)

- The assumptions used to value options and warrants issued.
- The assessment of a cash-generating unit to which goodwill is allocated.
- The assumptions used to estimate the carrying value of goodwill and intangible assets.

### 3. Significant Accounting Policies

### 6. Business Developments

### a) Advanced Development & Safety Laboratories Ltd.

Mark Richard Bowes-Cavanagh, Claire Suzanne Bowes-Cavanagh, Jonathan Bird Sumner and Robert Sumner (the "Sellers") and BBCH entered into share purchase agreement dated March 10, 2020, wherein the Company acquired 60% of the issued share capital of ADSL (the "ADSL Acquisition"). Completion payments in relation to the ADSL Acquisition were made on February 9, 2021 (the "Completion Date"). The ADSL Acquisition consideration included a cash payment of \$5,278,445 (GBP 3,008,819), a loan payable to the Sellers of \$7,819,478 (GBP 4,456,813), and a loan payable to ADSL of \$6,551,624 (GBP 3,734,183).

Pursuant to the terms of the ADSL Acquisition, on the first three anniversaries of the Completion Date, the Company has the right to acquire from the Sellers up to an additional 40% of the share capital for an additional consideration. In circumstances where on expiry of the third anniversary of the Completion Date the Company has not acquired all the ADSL shares, the Sellers have the right to require the Company to purchase all of the ADSL shares it does not yet own (the "Put Liability"). The total consideration payable for the additional shares ("Put Shares") upon exercise of the Put Liability and the closing of the Company's acquisition of the Put Shares would be equal to the total equity value of the Put Shares, which would be based upon the applicable percentage acquired by the Company of the total enterprise value for ADSL.

At the close of the ADSL Acquisition, the value of the Put Liability was determined to be \$2,464,315 (GBP 1,404,568), representing the difference between the market price and the contract value of the Put Liability, discounted at a rate of 0.23% per annum and assuming the transaction would take place on February 9, 2024. As at March 31, 2022, the fair value of the put liability was remeasured to \$4,495,033 (GBP 2,738,035), generating a loss on the change in fair value of the put liability for the year ended March 31, 2022 of \$2,059,933.

On April 7, 2022, the Company acquired an additional 10% of the outstanding issued share capital of ADSL (the "Subsequent ADSL Acquisition"). A cash payment of GBP 1,813,358 was paid as consideration for the Subsequent ADSL Acquisition (CAD: \$2,982,066).

Notes to the Consolidated Financial Statements

For the three and six-months ended September 30, 2022 and September 30 2021 (Expressed in Canadian Dollars, except per share amounts)

The put liability has been reduced accordingly and an adjustment has been made to non-controlling interest to reflect the change in ownership post transaction and on September 30, 2022.

### b) Britannia Mining Solutions Inc.

On February 18, 2022, the Company incorporated BMS, a company domiciled and incorporated in Canada under the laws of the Province of Ontario, as a new subsidiary to address the global backlog in mining assays. In establishing the business, BMS issued 500,000 BMS common shares at \$0.001 per BMS common share to the Company. On March 4, 2022, BMS completed a non-brokered private placement of 500,000 of its common shares at \$1.00 per common share for gross proceeds of \$500,000 after which the Company owns 50% of the outstanding issued share capital of BMS and 50% of the voting rights of BMS. The Chief Executive Officer of the Company is both the Chief Executive Officer and sole director of BMS. The BMS by-laws state that both the officers and directors of the entity shall be elected by the shareholders, accordingly Britannia would not meet the definition of control for the purpose of consolidation.

The continuity of the investment in BMS is as follows:

### 7. Loan Payable

On April 7, 2022, the Company completed a debt financing arrangement with Growth Lending 2021 Limited ("GLL") that was used to repay the Sellers' loan in full and acquire an additional 10% of ADSL's share capital (see Note 6(a)). The total loan principal value is £5,000,000 with a termination date of April 6, 2027. As security the Company has pledged the share capital it holds in ADSL and a debenture has been issued between GLL and each of BBCL and ADSL. Interest is payable monthly in advance from inception of the loan and is calculated monthly based on the capital outstanding at the higher of 9.5% per annum and 8.5% per annum plus the SONIA (Sterling Over Night Indexed Average). Principal repayments begin in April 2023 with equal monthly instalments of principal and interest from then until April 2027.

### 9. Convertible Debentures

During the two years ended March 31, 2022, the Company raised an aggregate of USD \$6,127,000 (CAD \$7,819,006) through the issuance of 6,127 convertible debentures units (each a "Convertible Debenture Unit"). Each unit, issued for US\$1,000, consists of a convertible debenture (each a "Debenture") and 645 share purchase warrants. The financing was completed in three tranches on January 29, 2021, February 2, 2021 and April 7, 2021 (together, the "Closing Dates").

The Debentures bear interest at 10% per annum with interest payable annually on December 31, and mature two years from the respective Closing Dates. Each Debenture is convertible, at the option of the holder, at any time prior to six months before the maturity date, into that number of shares computed on the basis of the principal amount of the Debenture divided by the conversion price of US\$0.155 per BBCH share (the "Debenture Conversion Price").

As defined in the subscription agreement, a Liquidity Event would occur upon (i) the listing of the Company's common shares on a stock exchange, (ii) the completion of a transaction with a capital pool company or other Canadian reporting issuer by way of business combination or other similar transaction pursuant to which the Company's common shares are listed on a stock exchange, (iii) the sale of all or substantially all of the assets of the Company to a person other than an affiliate of the Company, or (iv) a transfer of the shares of the Company, reorganization, amalgamation or merger, as a result of which the shareholders of the Company immediately prior to such transaction would no longer beneficially own, directly or indirectly, more than 50% of the resulting voting shares on a fully-diluted basis. In the event that the Company did not complete a Liquidity Event on or before the date which is 18 months from the Closing Date, the holders of the Debentures would have the right for a period of 30 days after such date to require the Company to redeem the Debentures at a price equal to US\$1,500 per Debenture then outstanding.

On January 29, 2021, the Company completed a tranche of Convertible Debenture Units (the "January 29 Units"), raising US\$2,272,000 (\$2,903,616). The Debentures had a maturity date of January 29, 2023. 1,465,440 pre-consolidation BBCH common share purchase warrants were issued.

On February 2, 2021, the Company completed a tranche of Convertible Debenture Units (the "February 2 Units"), raising US\$2,564,000 (\$3,286,535). The Debentures had a maturity date of February 2, 2023. 1,653,780 pre-consolidation BBCH common share purchase warrants were issued.

On April 7, 2021, the Company completed a tranche of Convertible Debenture Units (the "April 7 Units"), raising US\$1,291,000 (\$1,628,855). The Debentures had a maturity date of April 7, 2023. 832,695 pre-consolidation BBCH common share purchase warrants were issued.

The Debentures converted into BBCH common shares upon the RTO on November 12, 2021. Upon the RTO, any accrued and unpaid interest with respect to the Debentures were paid to the holder by the Company in BBCH shares at a deemed price per share equal to the Debenture Conversion Price. Such BBCH shares were then converted to BLS common shares at the Exchange Ratio.

### Notes to the Consolidated Financial Statements

For the three and six-months ended September 30, 2022 and September 30 2021 (Expressed in Canadian Dollars, except per share amounts)

The Debentures were denominated in US dollars, while convertible in Canadian dollars. As the conversion price in a different currency required a variable number of shares to settle the Debentures, the Debentures were treated as having an embedded derivative that was treated as a financial liability under IFRS. The Company recorded the fair value of the embedded derivative immediately prior to conversion upon the RTO to be \$3,200,928 (\$2,982,182 as at March 31, 2021).

For the year ended March 31, 2022, the Company incurred interest expense of \$468,325 (USD\$377,962) (2021 – \$98,987). Pursuant to the terms of the subscription agreement, all interest accrued up to the liquidity event was converted to common shares by the Company. Total accrued interest of \$567,311 (USD\$454,837) was converted into 3,521,277 shares.

The Company recorded accretion expense of \$1,076,878 in relation to the convertible debentures and foreign currency translation gain (loss) of \$8,380 for the year ended March 31, 2022.

For the year ended March 31, 2022, \$46,029 (2021 - \$9,037), of interest was incurred with related parties. The outstanding interest payable was \$nil as at March 31, 2022 (\$98,987 as at March 31, 2021).

The total amount of the convertible debenture conversion reclassified to equity on November 12, 2021 was \$4,114,145. The total amount of the embedded derivative reclassified to equity on November 12, 2021 was \$3,246,562. In accordance with the terms of the subscription agreement, the Company issued 3,521,277 BLS shares to settle \$567,311 of accrued interest upon the RTO.

### 10. Warrant Liabilities

Certain common share purchase warrants have exercise prices denominated in US dollars and therefore their exercise would represent a variable number of common shares. As a result, these common share purchase warrants do not meet the fixed-for-fixed criteria under IFRS to be classified as equity and are therefore treated as a financial liability under IFRS.

### Convertible Debenture Warrants

See note 9 for details of warrants issued in conjunction with the convertible debentures.

The Company in its discretion may accelerate the expiration date of the warrants in the event the Company's common shares trade at \$0.26 or more for 20 or more consecutive trading days on the Canadian Securities Exchange.

3,500,415 warrants are held in escrow at September 30, 2022.

### Brokers' Warrants

On July 14, 2021, the Company issued 893,100 compensation warrants to brokers, with each compensation warrant being exercisable to acquire one common share at a price of USD \$0.20 for a period of 24 months (see note 13).

The fair value of the warrant derivative liability as at September 30, 2022 of \$188,343 (\$2,458,271 as at March 31, 2022) was determined using the Black-Scholes option pricing model with the following weighted average assumptions, judgmentally determined by management:
